- 9:30 A. M. CLOSING SESSION
MR. WILLIAM CHRISTENSEN, President of The American Association of I. R. C.
- 1:00 P. M. Lunch (Mess Hall)

INTERNATIONAL RELATIONS CLUB
SOUTHEASTERN REGION
SOUTHERN DISTRICT

Minutes of the 1951 Conference held at the Citadel, Charleston, S.C.,
March 1, 2, 3, 1951. Business session, March 3.

The meeting was called to order by the President, Patrick J. Bohen, of the Citadel, at 10:00 A.M., after which he introduced the conference officers; James Ranew of Emory Junior College, Valdosta, Ga., Vice-President; Mary Lewis of Wesleyan College, Macon, Ga., Recording Secretary; W. Brantley Harvey of the Citadel, Corresponding Secretary; Addison D. Davis, of the Citadel, Treasurer.

The roll call of colleges present was made by the Secretary, Mary Lewis. The following colleges were represented: Alabama: Auburn University, Howard College, Troy State Teachers College; Florida: University of Florida, John B. Stetson University; Georgia: Emory Junior College, Georgia State College for Women, South Georgia College, Valdosta State College; South Carolina: Converse College, Erskine College, Limestone College, Newberry College, Winthrop College, Wofford College.

Piedmont College of Georgia and Furman University of South Carolina had been represented previously throughout the conference, but their delegations left before the business session was held.

Following the roll call, the minutes of the preceding meeting at the University of Florida, Gainesville, February 17, 1950, were read by the secretary. They were approved as read.

Then the vice-president, James Ranew, was given the floor by the president in order to make suggestions to the conference to reactivate the old clubs which had formerly been active clubs, but were unrepresented in the Citadel Conference. He reported that he had written to seventeen clubs. Eight clubs answered, and some of them are definitely to be reactivated by next year.

After this, the secretary read the following resolutions which grew out of the various discussion groups of the conference:

I. Indo-China and the Problems of Asia

A. Resolved: That in the event of an all out effort of the Chinese Communists to invade Indo-China, the United Nations should send direct military aid to the Bao Dai government.

Amendment: That in case United Nations' action should be blocked, the United States give immediate and direct aid to the French government in Indo-China.

B. Resolved: That the United Nations Educational, Scientific, and Cultural Organization should have a major part in the United Nations policy toward Indo-China.

II. China and the Problems of Asia

A. Resolved: That the people of the Western nations should be reeducated about the people and land of China in order that they might appreciate more fully the problems of China.

B. Resolved: That we should encourage a government in China that is in accordance with the social and economic capacities of the Chinese people.

III. Britain: Partner for Peace

A. Resolved: That the relations between Great Britain and the United States are fundamentally sound and the differences are merely technical differences and can be settled.

B. Resolved: That England's strategic position including her resources and tremendous influence over millions of people, coupled with her common bond and common heritage with the United States makes her an indispensable ally to the United States.

C. That the United States and Great Britain cooperate together in a common policy on affairs in the Far East.

IV. France: Keystone of European Power.

A. Resolved: That the United Nations back the Schumann Plan and morally support the defence of Western Europe against Russia as a token force.

B. Resolved: That we urge the strengthening of the reciprocal trade agreement program; strengthening efforts of trade; reduction of trade barriers; promotion of importations from other countries; and favor tourists.

V. Collective Security vs. Collective Diplomacy.

Resolved: That under the power lineup of nations in the world today, we will continue to exhaust all possibilities of collective diplomacy.

VI. Collective Recognition of Communist China.

Resolved: That at present the United States not recognize Communist China until it fulfills its international obligations, to include satisfactory settlement of the Korean question.

VII. Methods and Techniques of Propaganda in the Cold War.

A. Resolved: That the United States should engage in a positive program of education toward all nations designed to combat the propaganda of totalitarian dictatorships and to perpetuate the ideals and practices of democracy.

B. Resolved: That the organization and administration of this program should be free from partisan politics.

C. Resolved: That we educate the people of the United States in their duties as citizens.

VIII. A Study in Propaganda and Cold War.

A. Resolved: That the truth is the best source of propaganda, and the United States should press it vigorously in propaganda.

B. Resolved: That the United States spend more time, energy, and money in propaganda and improving the technique, accompanying the propaganda with aid.

A motion was made and seconded from the floor that the resolutions be adopted all together. There was no discussion and the motion passed unanimously.

Following the action on resolutions, a letter was read by the president, Pat Bohon, from the Furman delegation expressing appreciation to the Citadel for their hospitality and hard work to make the conference successful.

The next business on the agenda was to select the host college for next year's conference. A motion was made to hold it at Troy State Teachers' College in Troy, Alabama. John F. Moseley, of Troy, read a letter of invitation from the President of his college. The nominations were closed by Jack Branyor of Howard, and Troy State Teachers College was unanimously selected to be the next host. Following this vote, Lawrence Stubblefield of Troy rose to make another statement of appreciation to the Citadel.

Then, the election of new officers was held. The President, Corresponding Secretary, and Treasurer will be elected by the Troy State Teachers College I.R.C., and the results announced later.

Jimmy Lester, of the Citadel, was nominated by Joe Kellye, of the Citadel, for the position of Vice-President. The nominations were closed by Jack Branyor, and Jimmy Lester was elected unanimously for the position.

Following the election of vice-president, a ten minutes recess was declared, and the conference reconvened at 10:40 A.M.

Two nominations were made for recording secretary of the conference: (1) Jack Branyor of Howard was nominated by J. T. Kimbrough of Auburn; (2) Elsie Sutherland of Wesleyan College was nominated by Bob Cristano of the Citadel. Jack Branyor received 12 votes; Elsie Sutherland received 5 votes; and there ~~was~~ was one abstention. Jack Branyor was congratulated as the new recording secretary.

This concluded the election of officers. Pat Bohon, the President, announced to the group that the National I.R.C. Convention would be held April 10-14, at the University of Oklahoma. There will be no limit

on observer delegates. However, the President had insufficient information concerning the number of voting delegates allowed the Southeastern Region, and concerning the amount of money allowed them by the national budget.

After considerable discussion, the conference voted to act on the assumption that the region would be allowed ten delegates. The five newly elected officers plus five delegates elected from the floor would be the regional representatives.

A five minutes recess was declared to allow time for thought about the five delegates to be elected.

The meeting was reconvened and called to order again at 11:10A.M.

The following were nominated: Cadet McMurray of the Citadel; Henry Martin, Stetson; Jean Youmans, Wesleyan; Jack Kimbrough, Auburn; J. R. Leguey-Feilleux, University of Florida; Jane McMillan, All Saints Episcopal; Horace Campbell, Emory Junior College.

The elected delegates were McMurray, Miss Youmans, Kimbrough, Leguey-Feilleux, and Campbell. Troy State Teachers College is to notify the other two as alternates if any of the elected delegates are unable to go.

This concluded the business of the conference. A final vote of appreciation to the Citadel was expressed by Merlin G. Cox, of Troy.

Cadet Sarkesian of the Citadel moved adjournment, and the business session of the 1951 Conference was closed.

Minutes for the year 1951
Respectfully submitted by

Patrick J. Bohlen, President
Mary Lewis, Recording Secretary

1950-51

In mineral resources, the United States is the most richly endowed region in the world. The United States has 50 % of the world's visible future coal supply and produces about one-fourth of the present supply.

In oil and gas, the United States leads with the production of about three-fifths of the world's output of oil.

The United States furnish about one-fourth of the world's supply of copper.

In addition to these and other resources, natural harbors and a long coast line with access to other oceans all year round is a decided advantage to the United States. This has always been a problem to Russia.

PURPOSE OF THE NEWSLETTER

Here is your first copy of the Newsletter for '50-51, which will again be sent to all Clubs periodically. This year the Newsletter assumes a new role --- that of official organ of the American Association of IRC's and the principle means of contact between the Association and the individual Clubs which comprise it. In this new role, the Newsletter will contain announcements and communications from officers of the Association, in addition to reports on programs and projects of the AAIRC and the means whereby the resolutions adopted at the Association Conference at Ann Arbor, Michigan, last spring are being carried out.

The Newsletter will also continue to serve the Clubs as it did last year by providing a medium for interchange of information about Club activities, sources of program material, announcements of Regional and Association conference plans, suggestions for reading, and other pertinent information which will aid in the work of the Clubs. It will be prepared by the three IRC Fellows; Mary Grace Hanrahan, E. Robinson Pipping, and William E. Christensen, AAIRC President.

We welcome any suggestions which will help us improve the services of this publication. These should include the plans and activities of your own Club and any information on state and Regional projects. If the Newsletter does not contain any information of which your Club is in need, we want to know that also. Remember, this is your medium of exchange - use it, and help us to make it useful!

TOPIC OF THE YEAR

One of the first problems we found staring at us from the pages of the Ann Arbor minutes comes from the Committee on Regional Programs:

"It is unanimously moved that the AAIRC have a "Topic of the Year." That the National Executive Directors select a number of questions and send them to all IRC Clubs, which will vote on one of them. The question obtaining a plurality will be considered the annual "Topic of the Year" for one round table at each of the annual regional conferences."

The assistance of your Club is needed to decide what topic is of greatest interest to IRC's this year. If you want to take part, please check through the topics below and send us a postcard with your preference indicated. If you have a second or third choice you want to include, go ahead, as your preferences will help us plan the Association Conference around topics of greatest general interest. The only requirement is that you get your vote in the mails soon, for some of the Regional conferences have already met, and we can't put the decision off any later than November 25. If your card is in the New York office by then, it will be counted.

1. Integration of Europe.
2. Racial tensions and world peace.
3. Relationship between material prosperity and world peace.
