THE PRESIDENT'S MESSAGE:

We invite all high school graduates to select VSC for their college program. In addition to excellent opportunities for training in good citizenship, the student will receive specialized study to enable him to earn a living.

At VSC your college career will be spent on one of the most beautiful campuses in the nation. Pines tower over the carefully landscaped 103-acre campuses. Buildings on both Main Campus and North Campus provide superior facilities for living, for classroom and laboratory work, and for recreation.

One of the strongest faculties in the state will instruct you in the major programs listed below. Each member of the faculty is exceptionally qualified in his or her field of study and will give you excellent instruction and individual attention.

A variety of extra-curricular activities is available at VSC. Many fields of interest are represented in the more than twenty campus organizations. Student Government Association, campus publications, religious organizations, honor societies, departmental clubs and sports activities constitute a program designed to enable students to develop into well-rounded men and women. Of particular interest to young men is the participation of VSC in inter-collegiate sports. In addition, the college sponsors a series of activities to promote the cultural and social growth of its student body.

The cost of attending VSC is remarkably low and is within the reach of practically everyone who desires to further his or her education.

Our college invites you to write for our academic bulletin and any further information you should desire. At any time we would be glad for you to visit the campus and to see the many distinctive advantages which VSC offers.
