FOREWORD

The College selected for your daughter's higher education will be the chief influence in her life during a most important period. It is worth your time and careful study to select wisely.

This catalogue tries to tell simply and clearly what the South Georgia State Normal College is, and what it attempts to do. As far as possible it has refrained from technical language, and has employed the language of every day conversation. It is hoped that prospective patrons will find in it the information they desire, but should anyone wish further information, questions are always welcomed.

The College cordially invites you to come and see for yourself its plant, its equipment, its student life—everything about it.

Address all correspondence to—

R. H. POWELL, President.
