SECTION I

AN OVERVIEW OF 1975-76

I. AN OVERVIEW OF 1975-76

Valdosta State College observed the nation's Bicentennial in a variety of ways during the year. As did the nation, VSC looked both forward and backward in the Bicentennial observance period from July, 1975, to July, 1976. On August 7, 1975, in connection with our designation as an official Bicentennial Campus, Congressman Dawson Mathis of the Second District presented the college an official Bicentennial flag. The President and the College Bicentennial Committee accepted the flag in a ceremony featuring the VSC Air Force ROTC cadets.

Several prominent speakers helped us celebrate the Bicentennial. At the Summer School Commencement on August 16, 1975, Dr. Judson C. Ward called upon VSC's largest summer graduating class to "transfer the emphasis of the American dream from quantity of things to improvement of the quality of life." And in November, 1975, Georgia Secretary of State Ben Fortson told AFROTC cadets at VSC that "the purpose of the Bicentennial is not to shoot skyrocketes but to look back ... to see opportunities our forefathers gave us."

Under the auspices of the VSC history department, a two-part "World of the American Revolution" lecture series, financially assisted by the National Endowment for the Humanities, brought the noted University of Alabama historian Dr. John Pancake to our campus as its first speaker. Four VSC history professors followed Dr. Pancake in the winter quarter series. Dr. James Marston Fitch of Columbia University headlined the spring quarter section of the series. In another series, professors of the VSC School of Arts

and Sciences delivered lectures on eight aspects of the "American Panorama: 1776-1976," which examined the nation's first two centuries from the viewpoints of experts in history, geography, astronomy, philosophy, literature, religion, and art. The Bicentennial lectures were well attended by townspeople, as well as members of the campus community. The same was true of VSC's traditional academic festival, the spring Week of Seminars.

Other important visitors who expanded the horizons of VSC students and faculty during our Bicentennial year were economic forecaster Dr. Donald Ratajczak of Georgia State University, our Fall Convocation speaker; Federal Reserve Bank of Georgia president Monroe Kimbrel, and Dr. Henry Thomassen, Governor Busbee's financial adviser, who spoke at the School of Business Administration conferences; Vice Chancellor John O. Eidson, who addressed the VSC Faculty Forum on the salary issue; and Major General Carl Schneider and Brigadier General Chris Mann, who spoke at AFROTC sponsored events. Atlanta City Council President Wyche Fowler and Atlanta Constitution editor Hal Gulliver made talks, as did Robert A. Barbour, director of the Office of Western European Affairs of the U.S. State Department. World-renowned artist Lamar Dodd of the University of Georgia gave an illustrated lecture to a capacity audience in Sawyer Theatre.

Certainly of great importance was the visit to the campus in the
spring of the Chancellor of the University System of
Georgia and members of the University System Committee
of the Georgia House of Representatives, who met here
May 27. This important opportunity to show this group recent develop-

Visit of
Chancellor &
Committee of
House

ments on our campus and to allow our deans and directors to talk about this institution's progress, needs, future hopes and plans is deeply appreciated. A not insignificant spin-off was the camaraderie and occasion to express to Representative Chappell Matthews of Athens the appreciation of VSC faculty, staff, and area friends of the College for his long-standing friendship and support of VSC.

The rededication of newly-renovated Converse Hall in October had a Converse Hall Rededication Bicentennial flavor as we erected a cornerstone that should have been put in place in 1914. The old cornerstone, still in its sixty-two-year-old shipping crate was found in an unused closet during the remodeling of the building. Descendants of all the trustees listed on the plaque were invited to VSC for the rededication. The occasion became quite a celebration, with many visitors from all over the state attending the luncheon, reception, and the unveiling. Our guests were impressed with our success in converting Converse Hall from an old-style dormitory into a building with 51 modern apartments, while maintaining the architectural integrity of the Spanish Mission style exterior.

The most important new construction was an addition to the student New Construction center completed during the year. This gives us much needed space for expanding student activity facilities, the college bookstore, and recreational area for students and faculty.

No other construction is under way on campus at present. However, our need for a physical education building is still acute. We remain hopeful that the money will become available very soon. Our landscaping and beautification program continues and the campus remains

one of the most beautiful in the State, especially at certain times of the year.

Academically, a major gain for VSC was the initial accreditation of Valdosta State's nursing program by the National League for Nursing's Board of Review for Baccalaureate and Higher Degree Programs. The Board voted accreditation on April 30, retroactive to July 1, 1975. This approval represents recognition of the VSC Nursing Division's standard of excellence, fulfillment of four years work by division director Virginia Harmeyer and her staff, and the "go" signal for a number of plans for the future of the nursing program.

Thanks to the consistently high standards of VSC Biology Department Head Dr. Clyde Connell and Chemistry Department Head Dr. Harry Duvall, a record number of VSC-trained young people have been accepted by professional schools this year. Ten Valdosta State seniors and four recent VSC graduates have been accepted at medical schools, four VSC students are to attend the Medical College of Georgia School of Dentistry, and one has been accepted at the University of Georgia School of Veterinary Medicine. (Three of the 14 are women, and two are black).

Students, as a whole, did very good work during the year. Some faculty would tend to disagree, but it seems to most of us that the students, for the most part, are anxious to achieve good records, and they are serious about doing good work. There are always exceptions.

In September, 1975, the Valdosta Junior Service League's Speech and Hearing Clinic (established in 1963) opened its doors in new quarters in VSC's South Georgia Regional Education Center. Under terms of the arrangement, the clinic is an

integral part of the teacher preparatory program in the areas of speech and hearing and continues to provide diagnostic and remedial services formerly provided by the League. Through an agreement with the State Department of Education, Georgia school-age children are served free of charge as Department of Education funds permit. As a result of this merger, the services available to the community are considerably greater than they would be if the clinic had maintained its separate existence.

Another noteworthy merger, the combining of the annual fund campaigns of the Valdosta State College Foundation and the VSC Alumni Association, was announced by VSC Development Director John E. Lancaster in November. Valdosta businessman A. J. Strickland, III, was named to head the first VSC Annual Fund. As this is written, the annual fund total is several thousand dollars above last year's, though still short of our \$50,000 goal. VSC annual fund money is to be used in a number of ways--as matching funds for federal loans to students, numerous services to alumni, cultural programs open to the entire south Georgia-north Florida community, scholarships to students with high academic potential, and grants for faculty research and publishing.

In a year when faculty salaries were frozen, it seems noteworthy

United Way Drive

 that the United Way drive at VSC exceeded its \$6,029.20 goal. This would seem to indicate that VSC people do not forget the less fortunate in the wider area community when they themselves are feeling the economic pinch.

Valdosta State College is blessed with faculty and student leader-

ship of a high order. VSC's Dennis Marks served the Georgia Chapter of the American Association of University Professors as president, and Gary Wisenbaker, a VSC senior, has been elected chairman of the Student Advisory Council to the Board of Regents of the University System of Georgia. In an historic election, VSC Student Government Association President Dick McLeod won an unprecedented second term. Both Wisenbaker and McLeod have shown themselves to be aggressive student leaders who understand the value of working with the system. We are proud of the leadership exhibited by both our faculty and students.

Other VSC students who are receiving state and national recognition are David Davis, recently elected to head the state Baptist Student Union, and Patsie Tompkins, who holds the 1976 Future Business Teacher of Georgia title and recently placed fourth in FBT national competition.

Members of the VSC faculty continue to serve as leaders in their professional associations. Dr. Sharon Presson is president-elect of the Georgia Business Education Association; Mr. Alex McFadden is president of the College English Association of Georgia and South Carolina; Dr. Wayne Faircloth is outgoing president of the Georgia Academy of Science; Dr. James G. Connell, Jr. is president of the Georgia Chapter of the American Association of Teachers of Slavic and East European Languages; Dr. William M. Gabard is a member of the Executive Committee of the Southern Atlantic State Association for Asian and African Studies; and President Martin has just completed a term as chairman of the Council of Presidents of the Southern Consortium for International Education. The President was also honored by

election to the National Commission on Archives and History of the United Methodist Church at its General Conference at Portland, Oregon, in May.

Valdosta State expanded its area outreach activities this year, thanks to a number of events designed to bring students, teachers, and other members of the community to the campus. Important examples are the concurrent VSC Summer Music Camp and VSC Summer Twirling Camp, which attracted more than 500 participants to the campus during July 20-26, and additional hundreds to the camps' concluding field pageantry exhibition and concert band, stage band, and concert choir program.

An important cultural event was the appearance of the world-famous New Orleans Symphony in Whitehead Auditorium, sponsored by the VSC Music Department. And the Southeastern Regional Auditions of the National Association of Teachers of Singing held April 2-3 brought 150 high school, college, and graduate voice students and their teachers from Georgia, Florida, and Alabama for a two-day VSC visit.

On February 7, 280 language students and 22 of their teachers representing high schools from throughout Georgia and North Florida gathered here for the popular VSC Foreign Language Festival, an annual event. The fifth annual VSC Saturday Workshop for Language Teachers attracted an even larger attendance.

Other segments of the local population came to the campus for the second annual Taxpayers Assistance Program, held free of charge on Saturdays in February and March. In addition, the VSC Center for Small Business and the VSC Center for Economic Education attracted

Public
Service

area businessmen and teachers to the campus.

Enrollment during the year was good. In the fall our enrollment

Enrollment & Student Life	climbed to 5219, compared to 4989 in the Fall Quarter, 1974. Summer enrollment, 1976, is 2608, compared to 3058 during the summer of 1975. It is believed that enrollments in all institutions have begun to level off, and that our days of great increases are gone. Our number of graduates continues to increase, with a large number of them being in the field of teacher education. Though the College continues to cope with an increasing number of weak students, overall achievement seems to be good, as evidenced by the various criteria used to measure the learning of our graduates.
------------------------------	---

The disciplinary function has gone well. Serious student problems still center around the use of illegal drugs (marijuana) and the abuse of alcohol. Less serious problems include minor disruptions in the residence halls and academic irregularities.

During the current year we have clarified our procedures for treating academic irregularities. Specifically, cheating and plagiarism are handled academically between the professor and the student, provided a penalty no greater than a grade of "F" is assigned, and provided the professor, the student, and the department involved agree on the sanction. If it is believed that a stronger sanction is required, the department may refer the case to the Dean of Students' office for assignment to one of the judicial bodies.

Problems of any magnitude with groups of students have been absent from our campus during the current year. The one exception to this statement might be the dissatisfaction of a number of black students on campus with certain institutional policies. Most of this dissatis-

faction has been expressed through proper channels and centers around the number of black professionals employed on campus. There have been no "demonstrations" resulting from this dissatisfaction, nor has it been necessary for us to take disciplinary action against any student or groups of students because of improper conduct concerning the matter.

An important positive development in the area of minority affairs was the appearance for the first time in the Panhellenic rush book of two black sororities, Alpha Kappa Alpha and Delta Sigma Theta.

Inflation continued to take its toll on educational institutions like Finances Valdosta State College. College expenses continued to soar. Revenue from all sources lagged behind the price of goods and services which the College had to purchase in order to function. Our increase in FY 1976 over FY 1975 in the various categories was as follows (the figures are for the first eleven months in the year):

Electrical Power	-	\$24,556.95
Natural Gas	-	1,780.82
Water	-	3,978.41

Total utility increase - \$30,316.18 (or 9.1%)

Though the increase is not as dramatic as the increase last year, it gives us concern over what the future might bring in this area for educational institutions already hard-hit by the ravages of inflation.

Our faculty turnover for the year was minimal and will be discussed Faculty in a later chapter in this report. Dr. John Lancaster was added as Director of Development and Assistant Professor of History. His duties have to do primarily with fund raising

from private sources. Arthur L. Bostock, Jr., became Registrar and Director of Computer Services on July 1, 1975, replacing William E. Moore, Jr.

Turnover in the area of Student Affairs was heavier than usual. William R. Nettles, III, succeeded Dr. J. Graham Wall as Associate Dean of Students. Arthur Hart, Assistant to the Dean of Students (for Minority Affairs), resigned effective January 10, 1976, and will be replaced next year by Joseph Brown, a recent Valdosta State College master's degree holder. Mrs. Maggie Roberts, Coordinator of Counseling Services, was granted maternity leave in March, 1976. She has been granted a year's leave without pay. Financial irregularities in the student Financial Aid Office made it necessary to terminate Mr. Stephen W. Young, Director of Financial Aid, on May 28, 1976. Tommy Moore of the School of Education took over Young's duties on May 31, 1976. Jerry W. Bishop, Director of Placement, resigned, effective June 30, 1976, and as of July 1, 1976, his replacement has not been identified.

The year was characterized by financial pressures that inevitably affected the atmosphere on campus. The faculty was dismayed when the legislature rescinded the salary increases which had been awarded previously. The subsequent reversal of this action by the State Supreme Court seemed to produce a somewhat defensive attitude among the faculty members toward the administration. These personal difficulties, when coupled with the necessary major reductions in the operational budget, made the management of the college extremely difficult for the year. In fact, we would have to admit that the academic year 1975-76 was an extremely hard one. Better things and

a brighter outlook for the future are surely in the offing for 1976-77. We look forward with hope to next year.

We continue to be grateful for the help and assistance of the Chancellor and all his staff, the Board of Regents, the General Assembly, and the Governor.

SECTION II

FACULTY

II. F A C U L T Y

GENERAL EVALUATION OF THE FACULTY

The overall morale of the faculty was surprisingly high during the year. This positive climate was present in spite of the temporary loss of salary increases and substantial cuts in the operational budget of the College. This productive atmosphere is easily attributed to the leadership of department heads, other administrative officers of the College, and the major professional association on campus (AAUP). We have a faculty that is dedicated to the task of educating young men and women.

Teaching

The major function of the faculty continues to be teaching. For the second consecutive year it can be said that all academic areas are staffed adequately with no evident gaps in the instructional program. Special strength is evidenced in the sciences where an extraordinarily large group of students were accepted to medical schools. Professional courses in vocational education, physical education, and business education have gained more academic acceptability through the efforts of highly qualified faculty. The overall competence of the faculty was further improved by the increased number of terminal degrees held. Special mention should also be made of the fact that all of the administrative deans and directors holding faculty rank are actively involved in teaching.

One of the major accomplishments of the year was the implementation of the "joint appointment" system in teacher education. This procedure allows the specialists involved with the training of teachers all over the campus to have specific input into program

planning within the School of Education.

One area of concern for us is the quality of advising in some departments. It is obvious from recurring comments from students and department heads that improvement is needed. We shall give attention to this problem during the ensuing year.

Through an on-going process of evaluation, every effort is made to isolate weaknesses in instruction and provide constructive opportunities for improvement. The process involves voluntary student evaluation, mandatory review of effectiveness by the department head and, finally, a staff evaluation conference where each faculty member's status is discussed by the dean with the President and Vice President. The results of this process determine salary increases, promotions, and the awarding of tenure.

Research

The faculty of this college is extremely productive in view of the limited amount of release time available for research activities. It should be noted, however, that an increasing amount of support through federally-sponsored activities is evident in the School of Education and the Division of Nursing. A list of research projects is listed later in this report, and it is quite impressive.

Public Services

The College faculty continues to rank high in this area. Primary examples are the Center for Small Business, the off-campus teaching program, non-credit evening courses, and the Office of Public Service conferences held throughout the year.

The quality of faculty performance is determined to a large extent by the leadership provided by department heads and deans. With the emergence of Dr. Philip Buckhiester of the Department of Mathematics, and the employment of Dr. Louie Brown to head the Department of Sociology and Anthropology for the coming year, our leadership among department heads has been increased immeasurably. Weaknesses occur in only one or two spots and these areas will be given special attention this coming year.

The deans and directors are all strong, effective administrators. The few different characteristics which separate them are not major weaknesses, but only reflections of their background and approach to the often unrewarding task of managing a large, diverse faculty.

3. List of those on leave during the whole or part of the year; period of leave; purpose of leave:

ADAMS, RONALD J., M.B.A., Assistant Professor of Economics - Business Administration. On leave for academic year 1975-76. Doing work on Ph.D. at the University of Georgia.

BERLIJN, J. J. H., Ph.D., Professor of Physics. October 13 to end of academic year. Illness.

MCDUGAL, OUIDA, M.Ed., Instructor in Education. Academic year. Doing work on Ph.D. at Ohio State University.

McKEY, MARTHA W., M.A., Assistant Professor of English. Spring Quarter. Sick leave.

SHEELEY, E. EDWARD, M.S., Instructor in Biology, Academic year. Doing graduate work at Auburn University.

SPELL, GWYNN, M.Mus. Ed., Assistant Professor of Music. Spring Quarter. Medical leave to undergo back surgery.

4. List of those doing graduate work--indicate summer quarter of 1975 and/or academic year 1975-76 and the institution attended.

School of Arts and Sciences

BARKER, TOM, Ph.D., Assistant Professor of Criminal Justice. Defended dissertation at Mississippi State University, Winter Quarter, 1976.

BAXTER, JAMES T., M.S., Instructor in Chemistry. Enrolled Summer Quarter, 1975, for graduate study at the Georgia Institute of Technology.

BRADLEY, C. LEE, M.A., Assistant Professor of Modern Foreign Languages. Enrolled for one hour of research at the University of Missouri, under the university's "continuous enrollment" requirement.

EPES, PETER H., Ph.D., Assistant Professor of Modern Foreign Languages. Enrolled in Fall Quarter of 1975 for graduate work at the Florida State University.

HALE, DENNIS L., M.A., Assistant Professor of Modern Foreign Languages. Enrolled academic year 1975-76 for dissertation credit at Florida State University.

LILEY, FLOYD W., M.S., Temporary Instructor in Criminal Justice. Enrolled Summer and Fall Quarters of 1975 for graduate study toward the Education Specialist Degree at Central Missouri State University.

PURVIS, BARNEY S., M.Ed., Instructor in Biology. Enrolled Spring Quarter, 1976, for graduate study at Florida State University.

SHEELEY, E. EDWARD, M.S., Instructor in Biology. On leave academic year 1975-76 to do graduate work at Auburn University.

TROTTI, WYMAN, M.A., Instructor in Anthropology. Enrolled Summer Quarter, 1975 for graduate study at the University of Georgia.

WOODRUFF, JOYCE, M.A., Assistant Professor of Sociology. Enrolled Fall Quarter, 1975, for Comprehensive Exams at the University of Tennessee.

School of Business Administration

ADAMS, RONALD J., M.B.A., Assistant Professor of Economics-Business Administration. On leave the academic year 1975-76 for graduate study at the University of Georgia.

GRIFFIN, MARY F., M. Ed., Assistant Professor of Secretarial Administration and Business Education. Enrolled at the University of Georgia during Summer and Fall of 1975 and Winter and Spring Quarters of 1976 for graduate study.

WEST, BILLY H., M. C. S., Assistant Professor of Accounting. Enrolled at Georgia State University for the academic year 1975-76 for graduate study.

ZLABINGER, ALBERT H., Ph.D., Assistant Professor of Economics. Attended Postgraduate Seminar on Recent Developments in Applied Economics, Graduate School of Business, University of Chicago, August 3-27, 1975; a full fellowship and expense stipend were awarded to the faculty member by the General Electric Foundation, sponsor of this annual Seminar for College Professors of Economics.

School of Education

ACKERMAN, AMY, M.Ed., Assistant Professor of Education. Enrolled as a part-time student at Florida State University.

BASS, GENELDA C., Ed.S., Instructor in Special Education. Enrolled Summer Quarter, 1975, and academic year 1975-76 in doctoral program at Florida State University, Tallahassee, Florida.

BURNS, J. D., M.S., Assistant Professor of Psychology. Enrolled Summer Quarter, 1975, for graduate study at University of Tennessee.

DEAVOURS, GEORGE M., M.A., Assistant Professor of Special Education, Audiologist. Enrolled Summer Quarter, 1975, for doctoral work in audiology at the University of Southern Mississippi. Enrolled during academic year 1975-76 at Valdosta State College for approved course work on doctoral degree to be awarded from University of Southern Mississippi, Hattiesburg, Mississippi.

IVY, W. FRED, M.Ed., Assistant Professor of Special Education. Enrolled Summer Quarter, 1975, for completion of doctoral course work at the University of Houston, Houston, Texas.

McDOUGALD, OUIDA, M.Ed., Instructor in Education. On leave during academic year 1975-76 doing work on Ph.D. at Ohio State University.

TUCKER, BEVERLY, M.Ed., Assistant Professor of Education. Has completed all academic work toward Ed.D. as a part-time student at Florida State University.

Division of Fine Arts

BENNETT, LEE, M.S., Professor of Art. Enrolled summer of 1975 at Arrowmont School of Design, receiving credit at the graduate level from the University of Tennessee (Studio and Research).

BOATRIGHT, JOEL C., M.F.A., Assistant Professor of Speech and Drama. Enrolled part-time Summer Quarter of 1975 and for the academic year 1975-76 for graduate study at Florida State University

DeHART, STANLEY C., M.S., Assistant Professor of Speech and Drama. Enrolled full-time as a graduate student at Florida State University for Summer Quarter of 1975 and part-time for the Fall, Winter, and Spring Quarters of 1975-76.

GRIFFITH, DOROTHY, M.S., Assistant Professor of Music. Completing doctoral study during Summer Quarter (D.M.A.) at Peabody Conservatory of Music, Baltimore, Maryland.

ROBINSON, LAVAN, M.Mus., Associate Professor of Music. Undertaking doctoral study (D.M.A.) during Summer Quarter at Louisiana State University, Baton Rouge.

SISSON, RUTH, M.Mus., Assistant Professor of Music. Attending workshop for organists at Oberlin College, Oberlin, Ohio, during June, 1976.

SPELL, G. ROBERT, Ph.D., Assistant Professor of Speech and Drama. Enrolled Summer Quarter of 1975 for graduate study at Florida State University and part-time for Fall, Winter, and Spring Quarters of 1975-76.

Division of Nursing

HARMEYER, VIRGINIA, M.N., Professor of Nursing. Enrolled academic year 1975-76 for dissertation credit at University of Texas at Austin.

JONES, MARY, M.S.P.H., Associate Professor of Nursing. Enrolled Summer Quarter of 1975 for graduate study at University of Florida.

Library

DOUGLAS, BETTY L., Assistant Reference Librarian and Assistant Professor of Library Sciences. Enrolled Fall through Spring Quarters 1975-76 for graduate work toward M.Ed. at Valdosta State College.

O'NEAL, SALLY I., IMC Librarian and Instructor in Library Science. Enrolled Fall Quarter 1975 and Spring Quarter, 1976 for graduate work in Six Year Program at Valdosta State College.

5. Those Receiving Advanced Degrees in 1975-76.

BARKER, TOM, Assistant Professor of Criminal Justice. Received Ph.D. degree in May, 1976, from Mississippi State University.

BAXTER, JAMES T., Instructor in Chemistry. Received M.S. degree, March, 1976, Georgia Institute of Technology.

EPES, PETER, Assistant Professor of Modern Foreign Languages. Received Ph.D. degree in December, 1975, from Florida State University, Tallahassee.

MOORE, W. KENT, Assistant Professor of Management. Received Ph.D. degree, August, 1975, University of Texas at Austin.

SIMMONS, IVAN, Temporary Assistant Professor of Vocational Education. Received Ph.D. in January, 1976, from Texas A & M.

SMITH, JOSEPH T., Assistant Professor of Education. Received Ph.D. in January, 1976, from Florida State University.

SPELL, G. ROBERT, Assistant Professor of Speech and Drama, was granted the Ph.D. degree in Speech Education from Florida State University in June, 1976.

6. Highest Degrees Held by Faculty Members.

(a) Ph.D.	98	M.F.A.	7
Ed.D.	18	M.S.N.	1
D.A.	1	M.S.P.H.	1
D.M.A.	1	M.N.	4
M.D.	1	M.C.S.	1
J.D.	1	M.Ed.	17
Ed.S.	6	M.M.	6
M.A.	23	M.M.Ed.	1
M.S.	21	B.M.	4
M.A.E.	1	B.S.N.	3
M.A.T.	1	M.B.A.	4

(b) Promotions of Faculty Members (April 1975 Meeting, Board of Regents).

To the rank of Professor:

ADDINGTON, ARNOLD L., Department of Economics- Business Administration

McMURRAY, RICHARD M., Department of History

MAYO, MARIANNE K., Department of English

To the rank of Associate Professor:

BARNETTE, RONALD L., Department of Philosophy

CONNELL, JAMES G., JR., Department of Modern Foreign Languages

DODD, MARY IRENE, Department of Art

DOUGHDRILL, WILLIAM E., Department of Geology

FISHER, ROBERT D., Department of Administration, Supervision and Secondary Education

GODBOLD, E. STANLY, JR., Department of History

HIERS, JOHN TURNER, Department of English

McINTYRE, DONALD Y., Department of Sociology

McKINNEY, GORDON BARTLETT, Department of History

MARKS, SITA PATRICIA, Department of English

MEEKS, REBECCA DORIS, Division of Nursing

SPILLERS, DAVID S., Department of Field Services and Instructional Procedures

To the rank of Assistant Professor:

AWERKAMP, DONALD T., Department of Philosophy

BURNS, JAMES D., Department of Psychology

CRISCUOLO, ANTONIO T., Department of Business Administration

HILL, JAMES F., Department of Philosophy

VEATCH, GERTRUDE S., Department of Physical Education

7. Engagement in Teaching

- (a) Average number full-time (EFT .75 and 1.0) teachers during regular session --

Head count - 221 EFT - 169.63

- (b) Average number full-time* teachers during summer quarter, 1975

Head count - 171 EFT - 134.30

(Footnote: *With two 5-hour courses considered a normal full summer teaching load, $.0833 \times 2 = .17 = \text{EFT faculty member.}$)

- (c) Teaching by Others

Summer Quarter, 1975:

ADDINGTON, ARNOLD L., Ph.D., Dean of the School of Business Administration and Professor of Economics-Business Administration (5 hours)

BOND, ANDREW J., M.Ed., Dean of Students and Assistant Professor of Education (5 hours).

BUNCH, WILLIAM F., Ph.D., Director of the Division of Fine Arts, Head of the Department of Music, and Associate Professor of Music (5 hours).

GREER, MACK V., M.D., College Physician and Assistant Professor of Biology (5 hours).

SCOTT, JERRY MICHAEL, M.Ed., Programmer 4 and Instructor in Computer Science (5 hours).

Fall Quarter, 1975:

- ALBRIGHT, JOHN W., M.A., Assistant to the Director of College Relations and Instructor in Journalism (5 hours).
- BLACK, JAMES L., M.A., Assistant to the Vice President and Instructor in Modern Foreign Languages (5 hours).
- BUNCH, WILLIAM F., Ph.D., Director of the Division of Fine Arts, Head of the Department of Music, and Associate Professor of Music (5 hours).
- FISHER, ROBERT D., Ph.D., Director of the Division of Graduate Studies and Associate Professor of Education (5 hours).
- GREER, MACK V., M.D., College Physician and Assistant Professor of Biology (5 hours).
- LANCASTER, JOHN E., Ph.D., Director of Development and Assistant Professor of History (5 hours).
- WRIGHT, DIANNE H., M.S., Serials Librarian and Assistant Professor of Library Science (5 hours).

Winter Quarter, 1976:

- BLACK, JAMES L., M.A., Assistant to the Vice President and Instructor in Modern Foreign Languages (5 hours).
- BUNCH, WILLIAM F., Ph.D., Director of the Division of Fine Arts, Head of the Department of Music, and Associate Professor of Music (5 hours).
- CLEERE, W. RAY, Ed.D., Vice President and Dean of Faculties and Professor of Education (5 hours).
- DANIELS, JAMES D., Ph.D., Dean of the School of Arts and Sciences and Associate Professor of History (5 hours).
- GREER, MACK V., M.D., College Physician and Assistant Professor of Biology (5 hours).
- LETSON, JOHN W., Ed.D., Dean of the School of Education and Professor of Education (5 hours).
- O'NEAL, SALLY I., M.Ed., Assistant Librarian and Instructor in Library Science (5 hours).
- SCOTT, JERRY MICHAEL, M.Ed., Programmer 4 and Instructor in Computer Science (2 hours).

Spring Quarter, 1976:

- ADDINGTON, ARNOLD L., Ph.D., Dean of the School of Business Administration and Professor of Economics - Business Administration (5 hours).
- BLACK, JAMES L., M.A., Assistant to the Vice President and Instructor in Modern Foreign Languages (5 hours).
- BOND, ANDREW J., M.Ed., Dean of Students and Assistant Professor of Education (5 hours).
- BUNCH, WILLIAM F., Ph.D., Director of Division of Fine Arts, Head of the Department of Music, and Associate Professor of Music (5 hours).
- FISHER, ROBERT D., Ph.D., Director of the Division of Graduate Studies and Associate Professor of Education (5 hours).
- GARY, FRANKIE REBECCA, M.L.S., Assistant Reference Librarian and Assistant Professor of Library Science (5 hours).
- GREER, MACK V., M.D., College Physician and Assistant Professor of Biology (5 hours).
- LANCASTER, JOHN E., Ph.D., Director of Development and Assistant Professor of History (5 hours).

FACULTY: 8.

VALDOSTA STATE COLLEGE
Summer 1975 and Year 1975-76

Average Workload and Faculty/Pupil Ratio in Terms of Quarter Credit Hours:

<u>Quarter</u>	<u>Total Faculty (Head Count)</u>	<u>Total Quarter Credit Hours</u>	<u>Quarter Credit Hours Per Faculty</u>	<u>Total Enrollment</u>	<u>Faculty Pupil Ratio 4:1</u>
Summer 1975	171	31212	182.53	3058	17.88
Fall 1975	246	65936	268.03	5219	21.22
Winter 1976	235	63343	269.54	5012	21.33
Spring 1976	242	60015	248	4816	19.90

	<u>Equivalent Full-Time Faculty</u>	<u>Total Quarter Credit Hours</u>	<u>Quarter Credit Hours Per Faculty</u>	<u>Total Enrollment</u>	<u>Faculty Pupil Ratio 4:1</u>
Summer 1975	134.30	31212	232.41	3058	22.77
Fall 1975	170.97	65936	385.66	5219	30.53
Winter 1976	169.17	63343	374.43	5012	29.63
Spring 1976	168.75	60015	355.64	4816	28.54

9. Publications, Research in Progress and Creative Projects

(a) Publications

Adams, Margrett L.

"The Effects of Phonics Materials on High School Students of Gregg Shorthand," National Business Education Forum, Volume 30, No. 1, October, 1975. "Business Education and the Exceptional Child," G.B.E.A. Armchair Bulletin, Fall, 1975. "The Effects of Phonics Materials on High School Students of Gregg Shorthand," Business Education Forum, October, 1975

Allison, Rosalie

"Human Development in Pediatric Nursing" in Pediatric Nursing, by Helen Latham (St. Louis, Mosby Publishing Company, in Press).

Agar, John

Accepted for publication but not yet published: "Teaching English," English in Texas. "Trends in Current Fiction," Carolina Quarterly.

Arnold, Jay

"Club Sports in Colleges and Universities," Journal of Physical Education and Recreation; 46:8 19-22, October, 1975. (Also to be published in the Encyclopedia of Physical Education, Volume III.

Awerkamp, Donald T.

"Emmanuel Levinas: Ethics and Politics," being published by Revisionist Press.

Barnette, Ronald L.

Submitted for Publication: "Kripke's Pains, : to Mind. "Brainwashing and Responsible Action, : to The Philosophical Forum. Anatomy of Logic, a text currently being negotiated with Charles E. Merrill Publishers. "Chisholming Away at a Particular Causal Theory," submitted to the program committee of the American Philosophical Association. Bennett's Three Voyages of Laudonniere, Georgia Historical Quarterly, LIX (Fall, 1975), 343.

Pearson, F. Lamar (continued)

St. Augustine, Florida, Encyclopedia of Southern History to be published by Louisiana State University Press.

Presson, Sharon P.

"Identification and Arrangement of Report Parts in Business Communications," Guidelines to the Conduct of Research in Business Communications (accepted for publication).

Ray, Marvin E.

Journal of Behavioral Economics: "Subsidizing Pollution Control Expenditures: A Critical Appraisal of the Current Trend," Volume IV, No. II, Winter, 1975, Pages 17-28.

Saeger, Richard

Co-author, "Mississippi Government and Politics," to be published in June, 1976 by Kendall-Hune Publishing Company. "Should We Have a National Presidential Primary?" co-authored this article which was published in the March 1976 issue of Public Administration Survey.

Scott, David L.

Atlanta Economic Review: "Trading Options: New Polish on an Old Apple," XXVI, No. 1, January/February, 1976. The Wall Street Review of Books: Review of Fisher's "Energy in Perspective," Volume III, No. 3, September, 1975.

Shelton, Jane T.

Pines and Pioneers: A History of Lowndes County, Georgia, 1825-1900. Atlanta: Cherokee Publishing Company, 1976.

Simmons, Ivan V.

"Family Atmosphere: A determinant of Occupational Choice - A Test of Roe's Hypothesis" College Station, Texas: Texas A & M University, 1975.

Teffeteller, Gordon L.

Accepted for publication: "The Independent Social Studies Project: Mirror of the Contemporary Crisis," Georgia Social Science Journal, Summer 1976.

Teffeteller, Gordon L. (continued)

Submitted: "British Pro-American Sympathy During Revolution" to The Southern Quarterly.

Tomberlin, Joseph A.

With F. Lamar Pearson, "John Doe Alias God: A Note of Father Divine's Georgia Career," Georgia Historical Quarterly, LX (Spring, 1976). Submitted: "The Atlanta Constitution" and "The Atlanta Journal" for Encyclopaedia of Southern History.

Trotti, Wyman

"Preliminary Analysis of the King Site Settlement Plan" (with Hally and Garrow) in SEAC Bulletin, 1975, 18, 55-62.

Valencia, Willa F.

Submitted but not yet accepted: "Enemies of Excellence in Academe," Phi Kappa Phi Honor Society Journal.

Waples, David

"1976 South Atlantic Conference Basketball Review;" 1976 NCAA Basketball Guide.

Wilson, Charles M.

Competency-Based, Field-Oriented Graduate Programs: Handbook for Program Administrators (in progress, to be carried in E.R.I.C. publication, 1976). Field-Oriented, Competency-Based Training in School Administration Resource in Educational Management, E.R.I.C. 1976.

Wilson, Gary

"An Electromyographic Investigation of the Sartorius and Tensor Fascia Latae Muscles;" Research Quarterly, October 1975.

(b) Research in Progress

Adams, Margrett L.

"A Comparison of Opinions of Secretaries, Teachers,

Adams, Margrett L. (continued)

and Employers as to the Revelance of High School Secretarial Curriculumms," Winter Quarter 1976, by questionnaire with results analyzed. "A survey of Office Machines Currently in Use in Valdosta Area Offices," Winter Quarter 1976 by questionnaire with results tabulated and application of needs made to the existing course, SA 415.

Barker, Tom

Social Participation of Police. Occupational Deviance in the Military.

Baxter, James T.

Engaged in an effort to synthesize camptothecin, a pentacuclic alkaloid, isolated from the tree Camptotheca acuminata Nyssaceae.

Bechtel, Elizabeth

Genetic studies of recessive mutations in corn snakes (Elaphe guttata guttata and Elaphe obsoleta obsoleta). This work as reported last year is continuing and expanding.

Bradley, C. Lee

"Structure and Dramatic Interest in the Theatre of J.P. Crebillon, pre."

Brown, C. Hugh

Systematics of Sphingidae. Dr. Brown spends his summers in south Florida and the Keys where he continues research in his area of specialization.

Burns, James D.

Research involved with doctoral dissertation, "Relativity in the Reinforcement Relationship," to be submitted to the University of Tennessee.

Carter, Kyle R.

Developing an instrument to predict satisfaction with teaching at the elementary level.

Childs, Ronald E.

Teachers Likes and Dislikes: Development of a Rating Scale to Predict Job Satisfaction.

Cosneck, Bernard J.

Opinions of Valdostans Concerning Various Aspects of Marriage. Attitudes of VSC Students on the Grading System. The Fear of Dying Experienced by Elderly People. Remarriage to the Original Mate (with John H. Curtis).

Criscuolo, Antonio

"Innocent Ignorance: A Learning Opportunity." Submitted to Marketing News.

Curtis, John H.

Marital and Parenting Expectations of Non-Metropolitan Southern Youth. Career Expectations on Non-Metropolitan Southern Youth. Remarriage to the Original Mate (with B. J. Cosneck).

Deavours, George M.

Acoustic Tolerance Limits Through Use Of Minimal Auditory Intensity Differential: A New Test.

Ellis, Margaret W.

Final draft for publication as book completed. "Handbook of Guidelines for the Instructional Sequence in Competency-based, Field-Oriented Teacher Education Program" To be published by the Georgia State Department of Education through a Title III grant.

Elza, Jane

A text book on Court Administration.

Penny, Donald C.

Georgia Designer Craftsmen Show, Trust Company of Georgia Building, Atlanta, Georgia. Georgia Designer Craftsmen Meeting, Atlanta, Georgia. Atlanta Arts Festival (juried section), Atlanta, Georgia. Coordinator, Georgia Designer Craftsmen Workshop, Valdosta State College, Valdosta, Georgia. Up Date Show, LeMoyné Foundation, Tallahassee, Florida.

Pittman, Caroline

Flute recital on Valdosta State College Campus. Participated in Faculty Chamber Music Recital.

Pollard, Lucille

Explanation and demonstration of Piaget's Cognitive Developmental States at a regional workshop of the teachers and directors of South Georgia Association for Retarded Children.

Presson, Sharon P.

Presented a Seminar, "Effects of Alcohol and Similar Drugs on Management Production," during Valdosta State College's "Week of Seminars." Presently writing the script to be used in a Secretarial Seminar to be presented to VSC Secretaries. A simulation workshop was developed which made use of undergraduate and graduate students working together to write materials and evaluate working practices for use in offices and in classrooms. Instituted and developed a Courtesy Clinic presentation for the Chamber of Commerce in conjunction with the Center for Small Business.

Ray, Marvin E.

Participated in Small Business Institute Program. Participated as Faculty Advisor for Accounting Club. Speaker for the North Valdosta Rotary Club on "The Capital Crisis." Conducted a four-session Personal Money Management Seminar. Developing a cooperative Internship Program with Standard & Poor's in New York. Preparing a grant proposal for a study on "The Impact of Environmental Expenditures on the Productivity of Capital."

Rice, John R.

Prepared a personal data form for faculty members in the School of Education. Prepared a handbook, "A Guide for Advisors of Students Pursuing Baccalaureate Degree Programs Leading to Teacher Certification," for use by faculty advisors.

Ricks, John A. III

Member, Valdosta Board of Education. Presented unpublished history of First Presbyterian Church of Valdosta, Georgia.

Robinson, Lavan

Voice recital on Valdosta State College Campus. Conducted community performance of Handel's Messiah. Participated in Faculty Chamber Music Recital.

Rudy, John H.

Directed Fall quarter production "The Star Spangled Girl." Produced three (3) Public Affairs Television programs each week: (1) On Campus; (2) Viewpoint; and (3) Our Town.

Sammons, Saralyn

Initiation and development of a Continuing Education Course. This course was designed to meet the personal and professional needs of adults and older citizens in the community with emphasis on individualized instruction. Coordinator for an area Business Education Conference held in Valdosta and sponsored by the Department and the State Department of Education, Business and Office Division.

Schreur, Julian J.

Construction of a high gain amplifier for a photoelectric photometer. Design, construction and installation of Cassegrain spectrograph for the 12-1/2 inch telescope.

Scott, David L.

Conducted two sessions Personal Money Management Seminar for Citizens and Southern National Bank. Radio interview on WVVS (VSC Campus Radio Station) on "Utility Prices." Conducted four sessions (non-credit) for a Personal Money Management Seminar. Conducted Interest-Group Session on "Family Finance" for a Workshop on Marriage and Family Problems.

Scott, Nancy

First Aid Lectures, W. G. Nunn School.

Shovar, Willa

Narrative Lab descriptions and manuals on developmental processes for Moultrie and Worth County Departments of Health. Consultant and Supervisor in an in-service training program for the Colquitt County Vocational Technical School - Licensed Practical Nursing students working with multiple handicapped, emotionally disturbed and/or trainable retardates, ages 3 years to 57 years. Supervising College Students in care and feeding, and play with clients at Georgia Southwestern State Hospital at Thomasville, Parkwood Developmental Home at Valdosta, and Green Oaks Developmental Center, Moultrie, Georgia. Leader and consultant "Infant

Shovar, Willa (continued)

Development" in an in-service training program by the Georgia Department of Human Resources for Regional Public Health Nurses. Presenting and teaching uses of "Behavior Modification" Techniques to teachers in an in-service training program at the Green Oaks Developmental Learning Center, Moultrie, Georgia. Teaching use of "Behavior Modification" techniques to aids in an in-service training program at Green Oaks Developmental Learning Center, Moultrie, Georgia. Participant in "Workshop I Nursing Appraisal of Children" sponsored by the Georgia Department of Human Resources, Child Health Unit, at Valdosta State; led workshop area: Development and Developmental Appraisal of the Child zero to six years. Participated in a workshop on social, educational and psychological support systems at Browndale, School for the Emotionally Disturbed, University of Toronto, Canada.

Sidler, Paul D.

Participated as Faculty Advisor to the Accounting Club. Participated in Small Business Institute Program. Supervised a team of students installing an Internal Control System for the Ladies Auxiliary of South Georgia Medical Center. Organized a seminar on "Current Auditing Topics. Speaker for the Valdosta Public Accounting Chapter on "Current Accounting Topics."

Simmons, Ivan

"Occupational Information - What is It? Where Can I Find It?" A paper presented to the Region IV Division of Student Special Programs. Project Directors Workshop, Department of Health, Education, and Welfare in Memphis, Tennessee. Project Install, worked with four comprehensive high schools and one area vocational-technical school assisting them with individualizing portions of their vocational curriculum.

Singer, Claud

Judged children and youth division, Douglas Arts Festival, Douglas, Georgia. Co-judged Student Union sponsored plant competition, Valdosta State College. Participant in the exhibition, "Artists in India." Judged children and youth division, Waycross Art Festival, Waycross, Georgia. Presented Week of Seminars program, "Art Related Jobs." Co-sponsored Student Art Show, Valdosta State College. Speaker in American Panorama series, "Art: 200 Years of Revealing Our Experiences."

Sisson, Ruth

Organ recital on Valdosta State College Campus.
Organ recital in Thomasville, Georgia.

Smith, Joseph

Principal Investigator for The Cost of Educational Disruption, The Governor's Task Force on Disrupted Youth, Phase III, Tallahassee, Fla.

Spell, G. Robert

Presented a public speaking workshop to the Future Business Leaders of America in Macon, Georgia. Judged the Sixteenth Annual Miss Georgia Sweet Potato pageant at Ocilla, Georgia. Narrator for Christmas play at the Park Avenue United Methodist Church in Valdosta and for the Valdosta Bicentennial.

Stern, Ellen

Speeches given for the following organizations: CEC District Meeting, Albany, Ga., Valwood School, Valdosta, GA., Valdosta City Schools, "Behavior Disorders," South Georgia Day Care Workers (TMR) teachers. Five day workshop, gifted teachers of Alabama. Five day workshop, professors and administrators of New York. Workshop CEC National Convention in Chicago. Workshop at Boys Club of Valdosta.

Teffeteller, Gordon L.

Read paper, "Sir Ralph Abercromby, Soldiers and Pro-American Sympathizers" at annual meeting of Georgia Association of Historians, 1976.

Thomas, Tommy

Spoke at Valdosta High School Spring Sports Banquet. Baseball clinic for Lowndes County Youth and Coaches.

Thornton, James L.

Earned special diploma from Unit of Salamanca, Spain, for study.

Tomberlin, Joseph A.

Program Chairman, Georgia Historical Society. Chairman, Historical Data Committee, Valdosta-Lowndes Centennials, Inc. (With Jane Shelton) did research for local bicentennial pageant "From This Earth."

Toth, Floyd D.

Project Install, worked with four comprehensive high schools and one area vocational-technical school assisting them with individualizing portions of their vocational curriculum.

Valencia, Willa F.

Addressed The Woman's Club of Lake City, Florida, on the topic "The Influence of the New England Puritans on the American Character and Literature." Gave an address at the Honors Day Program at Valdosta State College on the topic "Enemies of Excellence in Academe."

Wallace, Bruce

Lecture and demonstration, Valdosta High School. Lecture and demonstration, Business Department, Valdosta State College.

Waples, David

Spoke at Lowndes High School Spring Sports Banquet. Baseball Clinic for Lowndes County Youth and Coaches.

Webb, Gerald

Gave a lecture at Valdosta High School on the topic "William Faulkner: The Man and The Work."

Wilkerson, James

Served on a panel on Dr. Cook's Whitman program, a part of the College's Bicentennial Series.

Wilson, Charles M.

"The New Development in Graduate Training for School Administrators" panel member, Georgia Association of School Superintendents, quarterly meeting. Project ROME-FOCUS; Chairman, Steering Committee, Project ROME-FOCUS; Administrative Coordinator, Project CLASS; "Competency-Based Training Module for School Administrators" address delivered at Georgia Council of Educational Administration, Ga. Southern College; "School Law and the Elementary School Teacher," seminar presented for VSC elementary education majors. Consultant for personnel evaluation, Urban-Rural Development Program, Alma, Georgia; Project Evaluator, Polk County Comprehensive Educational Planning Program, Polk County Public Schools, Cedar Town, Georgia.

Wilson, Edward

Assisted Colquitt County Schools, Moultrie, Georgia, in establishing a basis for accreditation by the Southern Association of Colleges and Schools for the 14 elementary schools in this system.

Zlabinger, Albert H.

Paper presented to the Annual Meeting of Directors of Councils and Centers for Economic Education entitled "Towards the Teaching of Concepts of Economic Justice." Chaired a session entitled "Economic Justice" at the Annual Meeting of the Eastern Economic Association. Development of "Interdisciplinary Workshop in Economics and Political Science" for secondary school teachers.

10. The Division of Graduate Studies

Opportunities for graduate study are growing at Valdosta State College. This is in line with a major objective which is to further the development and enhancement of career and self-development opportunities for college students of the South Georgia region.

This emphasis is reflected in students' selection of courses and programs. Students may avail themselves of graduate work for a number of reasons, but four are prominent: (1) to earn a master's degree in a particular area; (2) to work toward certification, licensing, or credentialing; (3) to take courses for personal advancement or interest; (4) for some combination of the previous items.

A large proportion of the students in graduate programs at Valdosta State College attend school at night or during the summer. Many hold a full-time job during the day. This situation is exemplified by the fact that during the Spring Quarter, 1976, approximately 23% of the total credit hours earned by all

students were taken during evening periods. The great preponderance of these credit hours reflect graduate enrollment.

Graduate studies were inaugurated during the Summer of 1967. At that time the administration and supervision of the graduate programs were handled by a Graduate Council and a small staff. Reorganization was undertaken in 1970 when an Executive Committee, drawn from the Graduate Faculty, undertook the duties previously performed by the Council. A reorganization of the Graduate Faculty in 1972 resulted in changes which affected the fundamental make-up of the committee. As a result of the reorganization of the School of Education in 1973, and the School of Business in 1975, other effects have been contributed. By the Winter Quarter, 1976, it was recognized that the size of the Executive Committee had become so large that its policy-making function had become cumbersome to manage.

Meanwhile, the Executive Committee began to study the possibility of reorganizing itself into a more efficient body. This study was accomplished by the Spring Quarter of 1976, and a plan for implementation was formulated. The plan for reorganization of this major policy-making arm of the Graduate Division requires a change in the Statutes. Final approval is currently being awaited.

It has been noted in previous reports that graduate enrollment has grown in a startling fashion since the inception of the graduate program in 1967. Another trend may now be identifiable.

Historically, there has been a continual increase in enrollment through the years. However, there is evidence that a counter-trend may be developing. This situation, while not necessarily

serious at this point, bears watching. A review of the last seven years of graduate operations indicates that growth in graduate enrollments has been rapid. For instance, the average quarterly enrollment for the four quarters of the 1969-70 academic year was 78 students. Growth continued rapidly from that time period until the current year. This is displayed in tabular form below:

Average Quarterly Enrollment in the Graduate Program
by Academic Year

AY 1969-70	78	AY 1973-74	1001
AY 1970-71	280	AY 1974-75	1321
AY 1971-72	676	AY 1975-76	1254
AY 1972-73	864		

Average quarterly enrollment had grown by the 1974-75 academic year to 1321. However, final figures for this year, 1975-76, indicate a 5% decrease in enrollment to 1254. Inspection of more detailed figures, not shown above, indicates that this reduction is reflected in all quarterly enrollments beginning with Fall Quarter, 1975.

It has been postulated that the major reason for the reduction in graduate enrollment is due to the current rapid rate of program completion, although this is not likely to be the sole influence.

As was mentioned earlier, graduate students attend college for a number of reasons, some of which are not related to obtaining a degree -- but many work for advanced degrees. One measure of productivity of the Division, which also probably relates to the enrollment situation, may be obtained by inspecting the number of graduate degrees conferred during each of the academic years. In the last seven years the number of degrees conferred has in-

creased. Beginning in the 1969-70 academic year, 23 degrees were conferred. During the 1975-76 academic year 324 degrees were conferred. A total of 1109 advanced degrees have been conferred since AY 1969-70. This is shown in tabular form below:

<u>Graduate Degrees Conferred by Academic Year Time Periods</u>			
AY 1969-70	23	AY 1973-74	244
AY 1970-71	28	AY 1974-75	304
AY 1971-72	13	AY 1975-76	324
AY 1972-73	173		
Total for all time periods - 1109			

In summary, the productivity of the graduate level activities of the College, as reflected by the completion of graduate degrees, remains high. Currently, five major types of graduate degrees are offered, within which are included 23 major programs of study. A variety of areas of specialization are offered within some of the major program structures.

Graduate courses which are part of some of these programs are offered in many locations around South Georgia, in addition to the courses offered on the campus. In fact, almost 20% of all the graduate credit hours were earned at 14 off-campus locations during the Spring Quarter, 1976.

It should be noted that a complete Master's Degree in Business Administration may be obtained in the Albany, Georgia, area under the auspices of a cooperative program undertaken jointly by Albany State College and Valdosta State College. This program is one of which the College is extremely proud because it has been a vehicle to demonstrate the ability to work with another college in a creative and fruitful way, and to provide quality graduate education in a genuine racially integrated setting.

SECTION III

STUDENTS

III STUDENTS

Student enrollment reached 5219 in the fall quarter, the highest in VSC history. Student Government Association officers functioned well and all student organizations on campus were well run. It was a good year for faculty-student relations, despite several unpleasant situations caused by a few Black leaders. Arthur Hart's (Assistant to the Dean of Students) sudden resignation in January caused some unrest among the black students and his going caused repercussions that lasted throughout the year. Approximately ten percent of our students are black.

The physical appearance of our students tends to improve year by year. For the most part, they are friendly and courteous and appear to be diligent about their business. I think we have reason to be proud of our student body.

The Student Activity Fee Budget Committee continues to function well. Our committee is considered a good example of how a student-faculty-administration budget committee should operate. One major accomplishment for the year by this committee has been the setting of priorities for funding. Explicit instructions have been given to student activity groups and organizations as to how funding is done and what expenditures are acceptable as far as the committee is concerned.

4. Appraisal of Academic Work

A positive change that began to take place in the student body several years ago has continued through the academic year 1975-76. There has been noticeable improvement in dedication to scholarship and in the spirit of cooperation on the part of students.

Valdosta State College is serving more academically able students than ever before. We are also admitting more "below average" students into the Special Studies Program where remedial assistance is provided until they are prepared for the regular freshmen courses. This dedication to basic instruction in the lower division program has produced a noticeable increase in the academic achievement of the juniors and seniors.

One constant example is the performance of our students on the Regents Examination which has remained above the system average for the last two years.

Other examples of high standards and resulting achievement are evident in dozens of ways which include:

- increased interest in honors classes
- large number of graduates accepted to professional schools
- increased use of library
- successful employment of graduates

In many colleges the higher grades of students can be attributed to "grade inflation." At Valdosta State we believe these improved grades are a direct result of dedication on the part of more able students.

VALDOSTA STATE COLLEGE

Number of Students on Dean's List:

<u>Quarter</u>	<u>Students</u>
Summer 1975	141
Fall 1975	567
Winter 1976	561

<u>Quarter</u>	<u>Students</u>
Summer 1975	43
Fall 1975	125
Winter 1976	80
Spring 1976	146

5. Extra Curricular Activities

College Union and Student Activities

The College Union and Student Activities offices were housed the entire 1975-76 year in temporary facilities in Powell Hall. The result was a drastic decrease in traffic utilization. However, the removal of the activities offices from the center of campus had no effect on the union program. The union program continues to improve and the strength of the Union Board as a viable organization continues to grow. This portion of the report will first examine the year's program and then some projected plans and future needs.

Summer quarter, 1975, as with other summers, was somewhat more relaxed than subsequent quarters. The annual favorite, the student-faculty softball games were played every Thursday afternoon. However, this summer, unlike others, found the two teams fairly evenly matched. The result was a season of spirited competition finalized with a double header on Field Day. It was one of the best seasons ever.

Also during the summer was the regular Sunday night movie series. There were several ice cream parties, two dances offered when orientation students were on campus, the President's watermelon cutting and two professional acts.

The program offered by the College Union during the fall quarter of 1975 was mainly a continuation of traditional types of activities. There were few new programs; however, several traditional ones were offered with a new slant. The film line-up for fall quarter was quite extensive. The regular series of

Sunday night films continued to be popular and attendance continued to be high.

During the quarter, the Union Board offered several game type events, including Friday night Bingo game with a 10-speed bicycle as the grand prize, and a count-the-beans contest with a free mountain trip for the winner. A campus-wide talent show, with cash prizes for the winners, was particularly successful. Approximately 25 student acts, both solo and group, vied for the top prize. Entertainer Mieke Appel, who emceed the show as the culmination of a three-day visit to the campus, interspersed her own songs with the student performances and made a great hit with the audience.

There were several other performers on campus during the fall. The Atlanta based bluegrass group, Marshgrass, played to a hand-clapping, foot-stomping audience who brought them back for three encores. However, the highlight of the quarter came when the Union Board presented television star Jimmie Walker in person. The famous Black comedian played to a packed gymnasium and had the audience rolling in the aisles. This was the first time a stand-up comedian had been booked for a major concert. Judging from the response given Mr. Walker, a comedian may well be again featured in a concert.

Many of the regular types of programs continued to be offered. There were two dances in the fall; the freshmen dance and the one at Christmas. The annual fall mountain trip again carried a packed bus of students camping in the North Georgia mountains. And for the second year, the Union Board joined forces with the Language Department to offer a Madrigal Dinner.

Winter quarter brought Homecoming, and Homecoming '76 was certainly a memorable one. There were many problems in staging the Homecoming activities but all were overcome. The Concert on Friday night was fine. The dance on Saturday night was very well attended. And the special Homecoming Sunday night movies (which had to become the special Homecoming Monday night movie) was seen by a packed house.

For the Spring, the Union Board patterned the program after one they had offered several years ago. During the quarter, each week was designated as a special week and the programs offered followed that theme.

The first week was Games Week which featured several tournaments and ended with "Take Me Out to the Ball Game Day." This event, which has become an annual affair, always proves to be a good public relations event for the Union Board, terrific publicity for the baseball team, and a day enjoyed by young and old. The second week was Country Week featuring a concert by John Walters and Steve Meisburg. John first began performing on the VSC campus some five years ago. The Union Board quickly recognized his talent, and they have been ardent followers of his ever since. Today, John has joined forces with Steve, and they are nationally known performers with two albums to their credit.

The third week relived the decade of the 60's with a VSC-a-go-go dance and Beatles films. The following week was Greek Week with all of its traditional events. After Greek Week came

Freak Week with all of its non-traditional events. The week ended with a return engagement of Dick and Anne Albin.

The first week of May was the annual Week of Seminars in which the Union Board was heavily involved. The next week was Fine Arts Week which centered around the production of "You're a Good Man, Charlie Brown." Also featured during that week was the first photography competition to be held on campus. The quality of work submitted by some of our students certainly indicates a great deal of talent in this area. Next came Bicentennial Week, the celebration coinciding with that of Lowndes County. The Union Board, as their contribution, mapped out a bicycle tour of historic places in Valdosta. Unfortunately, the tour was rained out.

The next-to-last week was "I am Weak Week," and the last was "Finally Week," with an end of the quarter dance. Spring quarter ended on as strong a note as it started.

There are also two notable changes which will be coming with the 1976-77 year. First will be our return to the expanded and renovated College Union building. Having our operations moved back into the center of campus will again increase facility utilization. Part of that move will include transferring the recreation equipment into the area which formerly housed the bookstore. This move should increase business in the Blazer Room at least twofold.

The second change is conversion of the position of graduate assistant to that of a night manager of the College Union. This change will mean closer supervision of the College Union facilities after normal office hours. It will also enhance

the service function of the Union for the entire campus community.

Student Conduct

Group Behavior

There were no major group disturbances or unrests on campus this academic year. The black students on campus, however, have renewed efforts to bring to the administration's attention the need for more black faculty members and administrators. The resignation of Arthur Hart left the black students leaders without an advisor; thus, the methods and manner in which the black student leaders chose to express their concerns were often unsophisticated and undesirable. The addition of Mr. Brown in July should provide the black students with the needed guidance and advice to improve this situation.

Administrative Sanctions

Fourteen students were placed on probation after waiving their rights to judicial committee hearings. Thirty-eight students were given written warning. A total of six students were asked to leave the residence halls because of continued inappropriate behavior. In all the above cases, the parents were notified of the administrative action taken. Some of the above cases resulted in long-term counselor relationships which hopefully were learning and maturing experiences for the students involved.

Student Judicial Committee

In early October, 1975, the Student Judicial Committee was reconstructed. Eight new members were appointed with one

returning member serving as the chairman. The committee heard six cases this year. Five of these involved possession of drugs, and one involved repeated minor misconduct offences. One of these six students was suspended. The other five students were suspended with suspended sanctions and special conditions that had to be fulfilled by the students involved.

It is the opinion of the Associate Dean of Students for Student Development that the Student Judicial Committee displayed a surprising amount of collective wisdom and fairness in handling these cases. The committee not only levied sanctions, but required the individuals involved to participate in situations that they, the committee, thought would benefit the students' academic careers at Valdosta State College.

It appears that the presence of drugs, other than marijuana and alcohol, on campus is less than in previous years. Several students and incidents involving students have brought to my attention an increase in the use of psilocybin (mushrooms) on campus. Psilocybin is a mild hallucinogenic found in primarily rural areas. It causes an individual to lose control of his mental functions and often the effects return without warning. Still, in my mind, the biggest problem with the drug scene on Valdosta State College campus is the students' acceptance of drug usage and the non-users attitude of tolerance and/or indifference toward other students who use drugs.

Problems with academic dishonesty arose late in spring quarter of 1976. Several students were accused of cheating and plagiarism as the quarter was drawing to a close. Two incidents

of academic dishonesty and the subsequent disciplinary hearings have pointed out that the procedure of handling this type of student misconduct is in need of review and revision. Valdosta State College needs to standardize the disciplinary process to be used in cases of academic dishonesty and inform all faculty members about the proper process that should be used in the future.

The total number of students suspended from Valdosta State College for disciplinary reasons was two (2).

Student Government Association

Last year's modification of the election process for the Student Government Association officers has resulted in a much smoother transition from one set of officers to another. For the 1975 fall quarter and 1976 winter quarter, the four major officers of the Student Government Association were filled by: Dick McLeod, President; Bud McLeod, Vice President; David Rozier, Comptroller; and Marc Richardson, Secretary.

Beginning with 1976 spring quarter, the following personnel took office: Dick McLeod, President; Gary Wisenbaker, Vice President; Marion Odom, Comptroller, and Kathleen O'Neal, Secretary.

Valdosta State College is extremely proud to have as its University System Student Advisory Council representative Gary Wisenbaker who is Vice President of the VSC Student Government Association. He has been elected to serve as Chairman of the Student Advisory Council for the current year. This is a state-

wide office. Membership of the SAC comes from each University System Unit.

Minority Affairs

The 1975-76 school year began and continued through winter quarter without much activity on the part of the Black Students League. The group appeared to be putting their efforts in preparation for Black Awareness Week which was to occur in February. Assistant Dean Arthur Hart kept the administration informed of activities of the group and all seemed to go well. The Black Students League was represented by Willie Jackson as Executive Chairman; Tommy Thomas, Comptroller; Romona Daniels, Assistant Secretary; Marian Willis, Secretary; Deborah Purnell Breedlove, senior representative; Emma Canty, junior representative; Sherolyn Richards, sophomore representative; Inez Perry, freshman representative, and Janice Primrose, off-campus representative.

The group lists the following as their most outstanding accomplishments of the year:

1. Highest paid membership in BSL history--Fall Quarter -- 121.
2. An increase in communications with other Black Student organizations at South Georgia College, ABAC, Mercer, and West Georgia.
3. Participation in faculty recruitment at Atlanta University.
4. Participation in the first Pan-African Student Conference in Georgia.

The resignation of Assistant Dean Hart during the Christmas holidays left the group without faculty leadership when they were approaching their largest event of the year: "Black Awareness Week." We were able to secure three faculty members from the Department of Nursing to help them through this crisis. Professor Mary Margaret Richardson, Professor Edna Jones, and Professor Evelyn Pierce worked diligently with the Dean of Students Office, Student Activities, and the rest of the administration of the College and are to be commended for the excellent coordination achieved through their joint efforts. Mr. Hart's departure was accompanied by a letter of resignation with copies sent to the Black Students League and others. Although he had expressed no dissatisfaction with his position to this point, in his letter he listed four "significant reasons for his action." The Black Students League interpreted these reasons for leaving as grievances against the institution" or "charges against the institution." For the remainder of the school year, considerable time and effort of the President, Vice President and the Dean of Students went into the discussion of Mr. Hart's resignation.

Despite the Hart incident, we believe we had a good year in minority affairs. There were no major disturbances on campus and communication lines with the Black Students League have remained open all year. The potential for such action has been present, particularly with the suspension of one Black student for cheating; however, undesirable activity on the part of the Black Students League is considered to have been at a minimum.

Residence Halls

Six Residence Halls were in operation this year and all were filled to capacity Fall Quarter. The Halls were:

<u>Hall</u>	<u>Capacity</u>	<u>Head Resident</u>
Brown	200 Men	Clint Nicely
Georgia	200 Women	Lisa Stone
Hopper	200 Women	DiAnn Courtoy
Langdale	500 Women	Pamela Guice
Lowndes	125 Women	
	75 Men	Ken Webb
Patterson	300 Men	Keith Cowne

All Head Residents were Graduate Students except Clint Nicely. Nicely worked full time as Head Resident of Brown Hall, coordinated the programming in the halls, and taught the In-Service Training Class for the Resident Assistants during Fall and Winter Quarters. One Head Resident was reprimanded and advised to find other employment. Four students resigned during the year due to health, marriage, or other responsibilities. Two were reprimanded for failing to carry out their duties. Seven of the Resident Assistant Staff graduated in June.

Programming and activities in the Residence Halls included:

- How to Study Workshop in Brown Hall and Georgia Hall
- Sex Education Seminar each quarter in Brown Hall and Georgia Hall, and one quarter in Langdale Hall
- Test Anxiety Workshop in Brown Hall and Georgia Hall
- Administrative "Rap Session" in Georgia Hall and Patterson Hall
- Games Week in Georgia Hall and Langdale Hall
- Special Social Parties in Georgia Hall, Hopper Hall, and Brown Hall
- Saturday Morning Cartoons in Brown Hall and Lowndes Hall
- Contest for Cleanest Room and Decorated Door in Georgia Hall and Patterson Hall.
- Ping Pong Tournament in Patterson Hall and Brown Hall

- Empathetic Training Session in Langdale Hall
- Talent Contest in Lowndes Hall
- Career Seminar by Jerry Bishop in Langdale

Student Behavior in the Residence Halls

The usual and expected behavioral problems took place in the Residence Halls this year. Many of the students are not mature and use poor judgement in the use of their time and energy. The only new problems this year were the litter created by the new liquor policy on campus and students gathering in student rooms to party on Wednesday night visitation.

Sorority System

Panhellenic changed its name to Intersorority Council because three Pan-Hellenic groups are coming on campus and need to be combined with the activities of the present Panhellenic. The three groups are: Alpha Kappa Alpha, Delta Sigma Theta, and Zeta Phi Beta. They are all predominantly black groups. Alpha Kappa Alpha held an installation luncheon in May with the Associate Dean of Students for Residence Life welcoming the group for Valdosta State College. The Associate Dean of Students for Residence Life meets with Intersorority Council every two weeks.

The Associate Dean of Students for Residence Life prepared all information, did all mailings, and coordinated Panhellenic Rush for the five groups from September 10 through September 18. There were 195 women signed up for rush with 112 women pledged at the close of rush. Three sororities pledged their quota and three sororities reached their limitation of 65. At that time

it was felt that a sixth group was needed on campus but due to the weakness of the Alpha Xi Delta, at the present time, the Council does not feel it is in the best interest of all concerned. There have been 35 Wildcats issued and accepted since formal rush. Fifteen women depledged or deactivated due to lack of interest or finances. Plans for the Fall Rush of 1976 were made during Spring Quarter.

Panhellenic held their first Scholarship Banquet this year with Phi Mu walking off with all the academic honors. Debra Yark, Zeta Tau Alpha, won the trophy for the Most Outstanding Senior Panhellenic Award. The Associate Dean of Students for Residence Life was the Keynote Speaker and several administrators and faculty members were present.

Each sorority held one formal dance, held many informal parties, participated in Greek Week, Beach Trip, TKE Frolics, and many money raising projects. Each group contributed time and money to Philanthropic Projects both local and national.

The Associate Dean says that the sororities lack leadership among the upperclassmen in their groups. Many of their strong leaders are getting married or transferring to other schools for their majors.

Fraternity System

The fraternity system was more stable this year than in previous years. The five remaining fraternities are more equally strong than any previous year. Overall, the year was good. The fraternities participated in more community projects than in previous years. The entire Greek System worked very hard

in cooperation with the Valdosta-Lowndes County Centennials, Inc.

The Interfraternity System continues to be weak. Hopefully with new leadership we can expect an improvement next year.

This year we were contacted by two predominantly black fraternities, Alpha Phi Alpha and Kappa Alpha Psi, expressing an interest in coming to our campus. We welcomed both and offered whatever assistance necessary to aid them. Hopefully we will have at least one to establish a colony on our campus.

Sex Education Committee

The Sex Education Committee under the Chairmanship of the Associate Dean of Students for Residence Life distributed a questionnaire asking students what information they would like to discuss in the sex education seminars. These were distributed through the Residence Halls, the School of Education, and the School of Business. Four hundred sixty questionnaires were returned.

The Committee chose the subject material for the seminars for this year based upon the tabulation from the questionnaires. The topics were: Fall Quarter; Venereal Disease and Personal Sexual Hygiene, Winter Quarter; Sex, Contraception, and Consequences, and Spring Quarter; Values, Premarital Sex, and How to Deal with Intimate Situations.

The attendance was larger this year than it has been the last couple of years. The panels were excellent and brought about many questions and discussions from the students.

Foreign Students

There were thirty-one foreign students enrolled this year. The regions of the world represented on the Valdosta State College Campus were:

Africa	2
Europe	5
Asia	14
Central & South America	5
Philippines	1
West Indies	3

Six of these were Rotary Exchange Students. The Associate Dean of Students for Residence Life has processed four applications for additional training in their field, eight extensions of stay, and eight I-20's for students to cross the border for short visits.

We have more foreign students entering from Asia than we have had in past years. Most of the Europeans are sponsored by Rotary Clubs. Immigration is tightening up on their regulations. One student has been deported and deportation papers are being processed for two others.

Student Affairs Committee

The Student Affairs Committee met ten times during fall, winter and spring quarters. Student Government Association Senate Bills were reviewed at meetings. In addition to regular reports from the Student Judicial Committee, Campus Communications, Inter-Fraternity Council, Panhellenic, Sex Education Committee, and Traffic Committee, considerable time was spent in revision of the existing election code. Certain changes were suggested by students and faculty and discussed in detail

at these meetings. Significant action of winter quarter centered around the revision of the SGA Constitution and By-Laws.

Drug Abuse and Control Committee

The Drug Abuse and Control Committee met five times during the first three quarters of the academic year. The activities centered around information on alcohol abuse. Student committee members were assigned the responsibility of helping to gather and disseminate information on the abuse of that drug through the various campus media.

Counseling Services

The Office of Student Development offers services in the areas of vocational/career, personal/social, and academic counseling. During the 1975-76 school year, Mrs. Roberts and Mr. Hortman had contact with 511 students involving long-term, short-term, and group counseling in the above mentioned areas. There were 8 students referred for further therapeutic counseling.

Testing

The Center offers a basic battery of diagnostic tests including the Strong-Campbell Interest Inventory; Edwards Personal Preference Schedule; California Short Form; Otis-Lennon Mental Ability; Tennessee Self-Concept Scale; Sixteen Personality Factor; and Survey of Study Habits and Attitudes. From this battery there were a total of 633 tests administered during the year.

Orientation

The orientation programs for new students including the College InSight Program, Fall Orientation, and the Winter, Spring, and Summer Person to Person Programs, involved a total of 1221 students. Mrs. Roberts coordinated the 1975 College InSight Program. Again, the emphasis was on small group and individual contact with the new student providing opportunities to meet faculty, administrators, and students. This program was attended by 475 students. The Fall Orientation involved 550 students and the winter and spring programs had 100 and 95 students, respectively. Mr. Hortman took over responsibility for the orientation programs during Winter Quarter, 1976. Plans for the 1976 College InSight Program include more training for the Student Leaders. The basic format of the program will be retained.

Comparative Guidance & Placement Testing

The Comparative Guidance and Placement (CGP) Program is being used with all entering Freshmen who are not transferring one or more quarter hours of college credit. Since Fall Quarter 1975, only the Math, Reading, and Sentences Sections of the CGP have been administered to new students. This change was due to a lack of funds to have the entire test scored by CEEB. The three sections used were scored by our own computer center at VSC. Beginning Winter Quarter 1976, Mr. Hortman took responsibility for all CGP Testing. There have been two test administrations planned during each quarter on Saturday and Monday.

Career Planning and Placement

The Placement Office endeavors to assist students in identifying and developing career goals and objectives. During this academic year, approximately 461 students were assisted through personal counseling, testing, and referral to career development materials. The First Annual Career Exploration Day was held on March 31 with over 20 employer representatives disseminating information to over 250 students and alumni. A luncheon was co-sponsored by the Alumni Association to enable these employer representatives to interact with faculty members on areas of mutual interest. We are continually updating our Career Library, adding 19 new publications during this academic year.

Jerry Bishop spoke to several groups during the year, disseminating information on career planning and the placement services available at VSC. Approximately 758 students were contacted in these group sessions.

On-campus interviews were held by 66 businesses and educational institutions interviewing over 430 students. Approximately 435 placement files were either established or updated during the year. Over 525 files were duplicated and mailed to prospective employers.

College Work Study Program and Student Assistants

Student worker request forms were sent to all departments at the beginning of each quarter to determine their student employment needs. Approximately 535 students were assigned to

work situations, and their time sheets collected and verified for payment each month. In addition to the work programs coordinated on campus, over 150 students were referred to 43 employers for part-time jobs outside the college community.

Other activities of the Placement Office included coordinating several Intern Programs which served about 12 students. Mr. Bishop served as a consultant to ABAC in establishing their Placement Office during Fall of 1975. Mr. Bishop also taught 47 students in Basic Real Estate through the Continuing Education Program.

Office of Veteran Affairs

The Office of Veteran Affairs was established to assist veterans with financial, academic, and personal problems they might encounter while enrolled at Valdosta State College. The Office is completing its second year of operation under a federally funded VCIP Grant of \$13,726.

Mr. Harrell personally saw 1360 veteran students during the year. Certification forms were completed on 657 veterans, and, 40 new students have been certified to begin school during the Summer Quarter, 1976. Also, 34 students received tutorial assistance during the year. In the midst of tremendous overpayments to veterans, Bill Harrell personally reviewed and updated the files of every veteran in attendance since Fall Quarter, 1974. Mr. Harrell made approximately 562 contacts by phone and approximately 1169 other contacts by mail. Seven veterans were employed during the year on the Veteran Work-Study Program. These stu-

work situations, and their time sheets collected and verified for payment each month. In addition to the work programs coordinated on campus, over 150 students were referred to 43 employers for part-time jobs outside the college community.

Other activities of the Placement Office included coordinating several Intern Programs which served about 12 students. Mr. Bishop served as a consultant to ABAC in establishing their Placement Office during Fall of 1975. Mr. Bishop also taught 47 students in Basic Real Estate through the Continuing Education Program.

Office of Veteran Affairs

The Office of Veteran Affairs was established to assist veterans with financial, academic, and personal problems they might encounter while enrolled at Valdosta State College. The Office is completing its second year of operation under a federally funded VCIP Grant of \$13,726.

Mr. Harrell personally saw 1360 veteran students during the year. Certification forms were completed on 657 veterans, and, 40 new students have been certified to begin school during the Summer Quarter, 1976. Also, 34 students received tutorial assistance during the year. In the midst of tremendous overpayments to veterans, Bill Harrell personally reviewed and updated the files of every veteran in attendance since Fall Quarter, 1974. Mr. Harrell made approximately 562 contacts by phone and approximately 1169 other contacts by mail. Seven veterans were employed during the year on the Veteran Work-Study Program. These stu-

dents assisted with filing and administrative work. They were hired on 250-hour grants for \$625 each.

Mr. Harrell completed and filed the quarterly HEW Report to Washington and also completed and field the 1974-75 Fiscal Operations Report, the 1975-76 VCIP Operating Budget, and the Fiscal Year 1976-77 application for the VCIP Grant. He also corresponded personally during the year with Senators Talmadge and Nunn and Congressman Mathis in reference to pending veterans legislation.

Mr. Harrell attended the VCIP-HEW Conference in Atlanta on November 24-25, 1975, and the SOC Conference in Atlanta on April 7, 1976.

Religious Life

The religious activities on the Valdosta State College campus are planned, organized, and carried out by the individuals that comprise the Campus Ministers Association. At present, there are six full-time campus ministers serving the students at Valdosta State College as well as six other religious life leaders responsible for their churches' or religious orders' programming and activities on campus. The six full-time campus ministers are:

Baptist Student Union	Rev. John Wortham
Wesley Foundation	Rev. Eugene Pollett
Youth With a Mission	Mr. Keith Hague
Christ Episcopal Church	Rev. Powell Gahagan
First Presbyterian Church	Rev. David Beville
Valdosta Christian Center	Mr. Neil Binford

The other six members of the Campus Ministers Association are:

Campus Crusade for Christ	Mr. Duke Dixon
First Christian Church	Rev. Glenn Mann
Messiah Lutheran Church	Rev. Russell Johnson

St. John the Evangelist
Catholic Church
Valdosta Hebrew Congregation
Church of Jesus Christ of
Latter Day Saints

Rev. Gerald Murphy
Rabbi Samuel Zakuto
Elder Parker

The Campus Ministers Association has been organized to facilitate communication and interaction among the religious groups on campus. This group meets each month throughout the year and is hosted at a luncheon by President Martin usually during the winter quarter.

Involvement in campus life is the main goal of the campus ministers and the other religious life leaders on campus. A considerable amount of time and energy is spent informally mixing with students in order to develop effective personal relationships. These religious life leaders have been quite active in the new student orientation, campus entertainment and educational activities, seminar projects, and intramurals, virtually taking advantage of every opportunity to meet with the students.

Service Testing--Outside Agencies

1. Graduate Management Admission Test	132
2. Graduate Record Examination	159
3. Law School Admissions Test	47
4. National Teachers Examination	707
5. Scholastic Aptitude Test	663
6. Institutional Scholastic Aptitude Test	212
7. College Level Exemption Program	41
8. Hospital Financial Management Assoc. Test	1
9. Undergraduate Program Test (Senior Exit)	155
10. Miller Analogies Test	17

Senior Exit Examination

Exit examinations were given to all seniors graduating spring quarter 1976. The senior exit examination program is coordinated by the Dean of Students. However, each department is allowed to determine what examination procedure will be

required. This ranges from use of the Graduate Record Exam, National Teachers Exam, and Undergraduate Program Examinations (all listed in above program) to departmental exams. The Dean of Students Office is responsible for certification to the Registrar concerning whether or not the student is eligible to graduate and requests for student's reimbursement directed to the Comptroller.

Farber Student Health Center

	Summer Qtr	Fall Qtr	Winter Qtr	Spring Qtr	Total
Number Patients Treated	1590	6027	4777	4920	17,314
Number Patients Admitted	1	8	31	10	50
Number Patients Referred to SGMC or Private Physician	32	88	80	72	272
Number of Patients Diagnosed with Mononucleosis	2	7	4	5	18

The 1975-76 statistics show a total number of patient visits at 17,314, an increase of 1,270 over 1974-75. There were 50 admissions to the infirmary of which there were 21 cases of influenza, 9 cases of gastroenteritis, 1 case of mononucleosis, 1 drug overdose, 1 case of asthma, 1 case of fractured mandible, 2 cases of pneumonia, 2 cases of acute pharyngitis, 1 case of thrombophlebitis, 4 cases of acute upper respiratory infection, 2 cases of cellulitis, and 2 cases of pelvic inflammatory disease. Two admissions were patients with contusions to eyes. One admission was for observation after hospitalization for treatment of lumbar compression fracture. Two cases of appendicitis were

diagnosed at the infirmary this year, with follow-up care being given at local hospitals. One case of hepatitis was diagnosed with follow-up care given by the patient's home physician.

The Women's Health Clinic continued to have good response with an average of 12 patients participating every Thursday afternoon. During the year, approximately 80 pregnancy tests were done with approximately 60% of these tests having negative results. Of the remaining positive tests, 18 patients indicated they were planning abortions. There were 22 cases of venereal disease diagnosed at the infirmary with treatment and follow-up being given at the infirmary or Lowndes County Health Department.

Mass influenza immunizations were again initiated fall quarter 1975 with the inoculations being given for the first time at registration in the Education Center. A total of 350 injections were given during the two days of registration, while 150 more injections were given in the infirmary by October 3, 1975.

During the school year, 2,289 laboratory tests were done in the infirmary.

6. Financial Aid

Withdrawals

All students who withdrew from college had an interview with one of the associate deans of students. The following is a statistical summary of total withdrawals from Valdosta State College during the academic year:

<u>Quarter</u>	<u>Number</u>
Summer 1975	80
Fall 1975	150
Winter 1976	98
Spring 1976	81
Total	<u>409</u>

Since July 1, 1975, 28 students withdrew from school for financial reasons. All students receiving financial aid were referred to the financial aid office as a regular part of the withdrawal process; we were able to help some stay in school, but some preferred to leave school and get a job in order to solve their financial problems.

Fiscal year 1976 allocations are listed below:

Basic Educational Opportunity Grant	\$417,157
Supplemental Educational Opportunity	\$ 15,131
College Work Study Program	\$268,592
National Direct Student Loan	\$112,970
Law Enforcement Education Program	\$ 46,700
Nursing Student Aid	\$ 42,009

These figures represent only the federal share in some programs. Actual disbursements were greater in most instances.

Although the total amount of aid disbursed was only slightly more than in fiscal year 1975, there were large increases in some programs. The number of basic grant participants, for instance, as well as total amount of money spent, more than doubled that of fiscal year 1975. There were increases also in Work Study, Supplemental Grants, Federal Nursing Aid and National Direct Student Loans.

Overall, the year was quite successful. Many students were able to continue their education because of the aid they received through The Financial Aid Office. We feel that this

office had a positive effect on the operation of the college, and the Dean of Students hopes to improve its performance in the future through more publicity and more efficient operation.

The table below lists aid received by Valdosta State College students in fiscal year 1976.

Annual Report 1975-76

Aid Received by VSC Students

July 1, 1975-June 30, 1976

<u>Scholarships and Grants</u>	<u>No. of Students</u>	<u>Amount</u>	
Basic Educational Opportunity Grants	507	\$419,103	
Supplemental Educational Opportunity Grants	89	\$ 41,493	
Federal Nursing Scholarships	27	\$ 12,550	
Ty Cobb Scholarships	23	\$ 14,382	
VSC Foundation Scholarships	8	\$ 2,337	
Georgia Incentive Scholarships	137	\$ 37,750	
Veterans Assistance			
G.I. Bill	555	\$1,789,200	
Dependents	75	\$243,000	
Vocational Rehabilitation	227	\$ 42,437	
Miscellaneous	104	\$ 41,095	
		<u>\$2,654,347</u>	Total

Loans

Federal Nursing Loans	52	\$ 28,057	
Regents	21	\$ 10,275	
Guaranteed/Insured Loans			
Georgia	165	\$199,685	
Out of State	4	\$ 7,100	
Pickett & Hatcher	9	\$ 3,897	
Law Enforcement Education Program	90	\$ 31,296	
National Direct Student Loan	274	\$163,535	
Short-term Loans	913	\$146,199	
		<u>\$590,044</u>	Total

Part time Work

College Work Study Program	527	\$264,861	
Student Assistantships	200	\$128,919	
Graduate Assistantships	14	\$ 26,200	
		<u>\$419,980</u>	Total

Grand Total--\$3,662,371

7. Intercollegiate Athletics

During the 1975-76 academic year, Valdosta State College competed in intercollegiate athletics in nine (9) sports. Intercollegiate sports for men consisted of Cross Country, Basketball, Baseball, Golf and Tennis. Sports for women consisted of Volleyball, Basketball, Golf and Tennis. The quality of our program is equal to and above most of the other division II schools in the State. Our men and women athletes are competitors of character and integrity, and certainly our coaches take great pride in the overall development of our program.

Cross-Country--Coach Dave Waples

Valdosta State completed its greatest Cross-Country season ever in 1975, by winning the South Atlantic Conference Championship, and competing in the NCAA Nationals in Los Angeles, California, where they finished 17th in the nation. The Team's final regular season record was 24-9, and five runners were named to the All-Conference squad: George Whitmire, Bill Thomas, Gary Slayton, Lee Draper and Terry Prisoc. Whitmire was also the South Atlantic Conference individual champion, won the Blazer Classic, finished 32nd in the Nationals (with a school record time of 24.49 for five miles), and was the first Blazer ever to be named to the Atlanta Track Club's first-team, All-State, College Cross-Country team. Coach Waples was named South Atlantic Conference Cross-Country Coach of the year.

1976 was the first year for Valdosta State's participation in indoor and outdoor track. George Whitmire set a school record

with a 9:13, two-mile time, at the Montgomery, Alabama, TSTFF indoor meet in February. He finished 8th among 80 runners, with teammate Gary Slayton finishing 15th. Slayton was 2nd in the Open Division of the 10,000 meters at the Florida Relays (30:58), and qualified for the NCAA Nationals at Slippery Rock, Pennsylvania, in this event. Slayton was also named to the Southeastern Universities Independent All-Meet team.

Basketball--Coach James Dominey and Donnie Veal

While continuing to play one of the strongest NCAA Division II basketball schedules in the Country, Valdosta State finished the season with a record of 15 wins and 13 losses.

The Blazers ended the season in strong fashion, winning the South Atlantic Conference Tournament, and finishing as one of the final 16 teams in the nation. The 1975-76 team was the first Valdosta State College basketball team to compete in an NCAA post season Tournament.

A balanced team was evident as five players ended the season scoring in double figures. Jackie Manuel was the leading scorer (16.4) and received All-Conference honors. Mark Patrick was the South Atlantic Conference Tournament's most valuable player, and Mike Patrick was a South Region All-Tournament selection.

Baseball--Coach Tommy Thomas and Dave Waples

With the strongest schedule in Valdosta State College baseball history, the season ended with the Blazers failing to be selected to a post season tournament for the first time in eight years. The team finished with a 28-25 overall record and a third place

finish in the South Atlantic Conference.

Coach Thomas predicted the most successful year in Valdosta State baseball history at the start of the season. After a 9-1 start, the Blazer bats took their vacation prematurely, and this proved to be the primary reason for a disappointing season.

Tennis--Coach John Hansen

After a heavy graduation, the Valdosta State College Tennis Team completed a disappointing 1-9 season. Despite losing 5 of last year's starters, however, the team managed a third place finish in the South Atlantic Conference Championship.

Even though this was not one of the team's better years, possibilities for next year are somewhat brighter with the return of 5 sophomores, a good nucleus for the future.

Golf--Coach Bill Grant

The high hopes of gaining national recognition were shattered with the loss of the top 3 players due to academic reasons. With freshmen taking up the slack, the Golfing Blazers finished second in the Conference. Receiving All-Conference honors were freshmen Scott Coats and Greg Martin, and junior Jeff Austin. Scott Coats was also recognized as the golfer with the highest academic grade point average in the Conference. He is a Biology Major with a 3.6 grade point average.

Volleyball--Lady Blazers--Coach Dr. Nancy Scott

In its third year of intercollegiate competition, the Volleyball Team compiled a team record of 10-29. This record represented the addition of 18 matches over the previous year.

The Lady Blazers attended our (4) major college invitational tournaments and also the Georgia Association of Intercollegiate Athletics for Women tournament held in Rome, Georgia.

Basketball--Coach Lyndal Worth

The Lady Blazers Basketball Team compiled a 20-4 record, losing to Mercer University three times and to Talladaga, Alabama. Under the leadership of Graduate Assistant Lyndal Worth, the outstanding record included victories over such teams as the University of Georgia, the University of Florida, Florida State University, and other larger colleges and universities. The season ended with a loss in the first round of the University Division Association of Intercollegiate Athletics for Women Regional Tournament held in Greenville, Mississippi. The team was a dedicated, hard working unit of young girls who were interesting to watch. We believe in years to come they will bring much recognition to themselves and to Valdosta State College.

Tennis--Coach Judy Phillips

The team had a disappointing 4-8 record. The loss of two top players prior to the start of the season made the difference between a winning and a losing season.

The team was made up of predominately freshmen and sophomores with only one graduating senior. Next season with some help from incoming freshmen and the return of the two players lost due to pressing academic loads, the team should represent Valdosta State College very respectably.

Golf--Coach Tillie Mathis

The women golf team participated in four major tournaments.

All these tournaments involved NCAA Division I Schools.

Valdosta State finished last in each tournament, but gained valuable experience with a very young, but enthusiastic team. The entire team will return, and with incoming freshmen help could be strong in Georgia's competition.

We are extremely proud of our athletic accomplishments this past season in all sports. The success of our program is due to the hard work and the enthusiasm of our young coaching staff. We have the best overall coaching staff in the state, a great student body for support, and an administration that works closely with the athletic program. The addition of a new coliseum will add significantly to our program.

SECTION IV

LIBRARY

IV. THE LIBRARY

Continued efforts toward improved services include, besides constant emphasis on quality, initiation of a computerized serials record; the formation of policies related to the acquisition of and access to special collections; the addition to the public catalog of a duplicate shelflist of materials in the closed special collections area to facilitate browsing; the compiling of an information handbook, GUIDE TO THE USE OF THE LIBRARY; completion of the index to The Valdosta Daily Times for 1974 and progress on 1975; increased visibility and subsequent use of the IMC Library as Miss O'Neal has been able to work more closely with the School of Education faculty and students; progress in preparation to move the juvenile collection to the IMC Library including provision of a duplicate card catalog; increased use of OCLC/SOLINET as an interlibrary loan locator and as a provider of accession lists; the addition of pamphlet file subject cards to the general card catalog; and the creation of a slide/tape presentation introducing Valdosta State College Library's services and resources. Measurable results show a 27 per cent increase in faculty-arranged orientation sessions, an eleven per cent increase in interlibrary loan transactions, a noticeable increase in attendance, and an 18 per cent increase in circulation.

Although Valdosta State College Library suffered much less than most other state college libraries, the economic situation as reflected in budget reductions and inflation did take its toll. Fewer materials were added resulting in a reduction in volume

equivalents held per student from 44.4 to 43.2. On a more positive note, a larger portion of the monies was used to purchase non-book materials, a vital contribution to today's educational program. The entire academic community took a hard look at expenditures for serials and some 149 good but not essential titles were eliminated. Even so, journals consume at least 45 per cent of the materials budget and subscription rates continue to skyrocket. A few especially choice books from the Johnson Hill Press Collection formed the nucleus of a rare book collection. The microform collection is growing rapidly and, being less expensive than hard copy, does allow the purchase of more titles. Continued mutilation of bound journals, a universal problem, may influence the acquisition of even more microforms in lieu of binding.

The IMC Library received on permanent loan from publishers and/or producers three sets of encyclopedias, a set of textbooks, seven sets of filmstrips, and several other kits. Overall additions by gift were fewer than in recent years, but the following should be recognized:

Thirteen 16mm films purchased as a result of a grant awarded to South Georgia Associated Libraries.

A Bicentennial Music Package containing 21 titles and thirty volumes from the J.C. Penney Company.

Thirty classics of Georgia history and culture published by the Bee Hive Press and made available by the Fuller E. Callaway Foundation.

Ten titles (23 volumes) and \$75.00 for further purchases by the Georgia Division of the United Daughters of the Confederacy.

273 volumes dealing with sociology from Dr. John Curtis.

A collection of cassette tapes and books from the American Enterprise Institute.

Summary

1. Number of volumes added, 1975-76	7,777
2. Number of volumes held at end of 1975-76	169,468
3. Number of reels of microfilm held at end of 1975-76	16,570
4. Number of physical units of other forms of microtext held at end of 1975-76	216,443
5. Number of periodical titles being received at end of 1975-76	1,631
6. Number of other serial titles being received at end of 1975-76	358
7. Does your institution meet the Standards of the Southern Association relative to libraries?	Yes

SECTION V

OFFICE OF THE REGISTRAR AND COMPUTER CENTER

V. OFFICE OF THE REGISTRAR AND COMPUTER CENTER

The Offices of the Registrar and the Computer Center operations were merged into one unit at the beginning of this academic year. This action resulted in a closer association of the student record system with computer services. The most significant accomplishment of this union has been the establishment of an accurate data base. Controls, feedbacks, and audits have been and are being programmed into the manual and automated record system. This data has allowed the development of additional statistical reports which are provided deans, directors, and department heads for management purposes.

This next academic year is looked to with great enthusiasm. Installation of a new computer system is anticipated around January, 1977. This will provide much expanded capacity for computer service and development. In addition, the complexity of student academic and financial records should be simplified by allowing the computer to monitor for exceptions and controlling to insure accuracy.

Computer and data processing configuration.

1. Administrative

- 1 each SCIDATA Series 5 computer system
- 2 each Burroughs E6000 accounting systems
- 2 each IBM 029 printing card punches
- 1 each IBM 026 printing card punch

1 each IBM 402 accounting machine
2 each ASR 33 teletypes
1 each Texas Instruments TI700 dual cassette

B. New equipment added during the year.

None

SECTION VI

GIFTS, GRANTS, AND CONTRACTS

VI. GIFTS, GRANTS, AND CONTRACTS

The number of gifts, grants, and contracts awarded this year is higher by one-third than last year, though the amount of money involved is not that much greater. Grants in large amounts are harder to get unless the program being funded is a new and promising one. A few of the grants received by Valdosta State College are mentioned below because of their particular interest.

The Valdosta Junior Service League has had as its special project for several years the Valdosta Speech and Hearing Clinic. They found the project to be too great a load and asked VSC to take over the operations. This was done and the Clinic is now located in the School of Education Building. The Valdosta Junior Service League is continuing some of its assistance and support, but the primary support came from a grant from the Valdosta City Schools to provide speech and hearing check-ups for many of the school children. The location of the Clinic, within the Regional Education Center, provides ready access to a "learning laboratory" through observation and actual practice for many of the students majoring in special education and in speech.

Project R.O.M.E. and Project C.L.A.S.S. are continuing projects funded in part by Title III of ESEA, State Department of Education. Each is a project in which the professors from the Department of Administration, Supervision and Secondary Education at VSC work with the administrators and teachers of the county school systems involved. The primary thrust this year has been to develop competency based instructional programs for administrators.

A new development at Valdosta State College is the area of work called "Community Education." This unit received a small grant from the Mott Foundation during 1975-76, and has promise of a much larger one in 1976-77. In addition the unit has promises of other grants to come from the Exxon Corporation, Ford Foundation, Levi Strauss and possibly HEW. Only one of the grants is reported in this year's list and it is the smallest of them. Thus, the future for this community-wide program looks extremely promising.

The Department of History received two grants from the Georgia Committee for the Humanities (N.E.H.) to conduct a series of seminars and discussions on the two subjects: "The World of the American Revolution: A Study of National and International Independence and Interdependence" and "American Panorama: Progress, Problems, and Prospects." Each grant enabled academic humanists to present structured talks on some aspect of the time period 1776-1976, focusing on a major issue then and now.

Another popular series of programs this year was the "American Issues Forum," which was funded through the Georgia Committee for the Humanities. These speeches, followed by discussion, were presented primarily to civic and service clubs all over South Georgia. The demand for programs was greater than the academic humanists could fill, so the idea for the future is to seek some similar kind of exposure with surrounding communities. This project was handled by the Public Services Office personnel but utilized the academic humanist.

A summary of the gifts, grants, and contracts has been listed in Table VII.

VALDOSTA STATE COLLEGE

TABLE VII.

SUMMARY OF GRANTS, CONTRACTS AND GIFTS FOR PROGRAMS OF INSTRUCTION,
RESEARCH OR PUBLIC SERVICE
For Fiscal Year Ending June 30, 1976

Department	Number of Proposals			Amount of Proposals		
	*S	**A	***R	S	A	R
School of Arts and Sciences						
History	2	2		3,265	3,265

SECTION VII

GENERAL

VII. GENERAL

1. Significant Changes or Improvements in Existing Curricula; New Curricula Introduced During Year; Curricula Discontinued.

Significant Changes or Improvements in Existing Curricula.

During this academic year emphasis has been placed on the strengthening of existing programs and the discontinuation of several marginal programs.

There have been two very significant curriculum changes. Exemption testing in Political Science was curtailed to comply with the spirit of the University System core curriculum regarding instruction in American government. Now all students are required to take at least one course in American government.

The second change was the elimination of the requirement that all students take five courses in physical education. Although the requirement for one health education course remains, other physical education courses must now be taken within the framework of the 180 hour curriculum and will carry regular academic credit. The ramifications of this far-reaching change will be closely monitored.

New Curricula Introduced.

An additional concentration in management under the existing M.S. degree with a major in sociology was approved. The concentration is obtained by taking 20 hours prescribed by the School of Business Administration in addition to the sociology core courses.

An additional concentration in international business under the existing M.B.A. degree was approved to comply with a recom-

mendation of the AACSB.

The major in early childhood education under the existing M.Ed. degree was approved by the Board of Regents in May, 1976. The College has prepared over 200 kindergarten and early elementary grade school teachers in its undergraduate program. Many of these teachers will be attracted to this new program.

The emphasis in the M.Ed. degree in counseling and guidance has been shifted to a commitment to train public school counselors. While this will result in a smaller number of students in the program, their preparation and quality will be enhanced. The clinical-counseling concentration in the M.S. program has also been strengthened.

Curricula Discontinued.

Programs which have been discontinued are the professional degree program, B.S. in Chemistry; the M.S. degree with a major in physics; and the B.S. degree with a major in medical technology. The above programs in chemistry and physics have been in a deactivated state for several years. The decision to terminate them resulted from the high expense of the programs and low student enrollments. This action has freed resources to strengthen the B.S. degree with a major in chemistry, restructured in accordance with American Chemical Society recommendations, and the undergraduate majors in physics and astronomy. The M.Ed. with major teaching subject concentrations in physics and/or chemistry will continue to be offered.

The degree program in medical technology was discontinued because it is difficult for the College to place students in

accredited schools of medical technology for their fiscal year of training. The program has been replaced by a two-year pre-medical technology program similar to the existing pre-pharmacy program.

2. Any academic programs that were accredited or reaccredited during the year, with the names of the accreditation agencies and the effective dates of accreditation. Also, list any new academic programs which were initiated this year and are accreditable by specific accrediting agencies but are not yet accredited. What will be required for this accreditation?

Programs That Were Accredited or Reaccredited During the Year.

School of Business Administration

The M.Ed. program with a major in business education (T-5 certification) received approval by the State of Georgia Department of Education at its meeting on April 14, 1976.

School of Education

The M.Ed. program in health and physical education received official approval from the State Department of Education.

The competency based master's degree program in physically handicapped and otherwise health impaired/multi-handicapped was approved by the State Board of Education on April 8, 1976.

Division of Nursing

The Division of Nursing received National League for Nursing initial accreditation in April, 1976. This was the culmination of months of intensive work by the faculty. A National League for Nursing consultant visited in November for guidance in meeting the Board of Review's December, 1974 recommendations. The Progress Report, directed toward meeting the recommendations, was submitted in January, 1976, for review and approval at

their April meeting.

New Academic Programs Which Are Accreditable By Specific Agencies But Are Not Yet Accredited.

School of Arts and Sciences

The Masters in Education Degree with a major in secondary education with a major teaching subject concentration in a foreign language was initiated last year and is still in process of approval.

After three years the interdivisional concentration in marriage and family counseling which is presently pending final approval may be reviewed for accreditation by the American Association of Marriage and Family Counselors.

School of Business Administration

The self-study report for AACSB accreditation of the B.B.A. degree was completed and submitted.

School of Education

It is the intent of the Department of Special Education to submit the graduate degree program in deaf education to the State Board of Education for approval when adequate professional staff can be obtained to assure quality in all aspects of the program. A deaf educator will be essential for accreditation of the program.

Division of Fine Arts

The Department of Music has initiated steps leading toward national accreditation by the National Association of Schools of Music (NASM).

Requirements for Accreditation of New Programs.

School of Arts and Sciences

All requirements have been met for the Master's Degree in Education with a major in secondary education with a major teaching subject concentration in a foreign language and for the interdivisional concentration in marriage and family counseling. These two programs are awaiting final approval by the State Department of Education and the Board of Regents.

School of Business Administration

The School of Business, having submitted its self-study report to the AACSB, will be notified in October, 1976, whether or not a visiting committee will be sent. This visit would occur between November, 1976, and January, 1977. The results would then be made public at the annual meeting of the AACSB in April, 1977.

School of Education

Submission of the graduate degree program in deaf education is pending approval of adequate professional staffing.

Division of Fine Arts

A first draft of the self-study report has been submitted to the music faculty. Some revisions have been suggested. These will be made during the forthcoming academic year and the revised report will be submitted to NASM headquarters. This will be followed by an on-campus visitation by an NASM evaluator. Hopefully, accreditation will be achieved by the end of the forthcoming academic year.

3. Any Other Significant Modification in the Instructional Program Which Has Provided Noteworthy Improvement.

A significant development in the School of Education has been the implementation of a system for coordinating and planning in Secondary Education using joint appointees from each department of teaching major as members of the Department of Administration, Supervision and Secondary Education. This has great potential for producing better programs for secondary education majors.

Added clinical services in speech and hearing, the public school classes within the clinic area, in addition to the services of a physical therapist provided through Title VI-B funding to the Lowndes County School System as a demonstration project, have increased the opportunity for student observation of handicapping conditions and additional practicum experiences in the area of teacher preparation in special education.

The material available in the Nursing Learning Lab has been increased to provide more advanced study of situations not readily available in the clinical experience. This improves preparation for more complex care in the clinical situation.

4. Division of Public Services

The 1975-76 year has been an exceptionally good one in the area of Public Services and Continuing Education. The first, and by far the major point, is that the faculty became more involved than ever before, and seemed to catch the spark of enthusiasm for providing services for the public, services which are not normally associated with the teaching of college courses. A

great number of speeches have been made; a great number of faculty and staff members were active in civic, social, educational health, governmental, and business assistance endeavors; and more programs for the benefit of the public were provided than in any previous year.

A second point showing progress is that the programming, including non-credit short courses, has been upgraded in quality. Faculty members are quick to criticize non-credit work, particularly if it seems to be more entertainment than educational, more "fluff" than substance. This year has been one in which almost no criticisms were heard. This year has been one in which some "heavy" material was presented and yet the audiences were as large as usual, as responsive as in the past, and possibly were more appreciative of what they received.

The third point which can be cited is that service oriented groups in the community are using the college facilities more and more in their educational programming. Often, a group has scheduled a meeting on the college campus when it would have been more convenient for them to meet elsewhere. However, they seem to like the influence of the campus surroundings and the assistance provided on campus by some of the staff and faculty. It is felt that the more opportunities provided for the public to be on campus the better it is for the college. Even admissions profits by this exposure.

The fourth and last point to be mentioned, even though there are many others, is that numbers of persons off campus are seeking assistance in proposal writing, program planning, and

evaluation. To date the number of requests has not become too burdensome, but that possibility is beginning to haunt the staff in Public Services. The Division of Public Services has been "discovered" by many people. This is good, but it is also bad, due to the increased load on a very small staff.

Non-Credit Course Program

For the sixth year in a row the number of non-credit courses offered by the Division of Public Services increased, and the total enrollment was the highest ever. This was due to a great increase in enrollment in summer programs, primarily for youth, with 500 enrolled in the VSC Twirling and Music Camps, and 276 in American Red Cross swimming classes on campus. The Division of Public Services co-sponsored these special programs and assisted in publicity and promotion. Enrollment in other summer programs and for the other three quarters, was again down slightly from 1974-75.

The Division considers it important to serve people who find that the non-credit course program meets some of their needs and interests, and even though there is a little disappointment that many of the courses offered had small enrollments, there is a great deal of gratification in knowing that many people were satisfied with what they received. Several of the courses scheduled did not attract enough enrollment to keep them open; thus a culling device and a "barometer" is available through the demand of the people.

The cooperation of over one-half of the regular VSC faculty in the public service program this year is commendable. They

have assisted with many of the regularly scheduled non-credit courses, plus many of the conferences, seminars, workshops, and similar activities. A large number of people from the community were assisting in teaching the non-credit courses again this year.

Table I below lists the number of non-credit courses and total registrations by quarter since 1969, the first year for which such records are available.

TABLE I. Non-Credit Courses Offered 1969 to 1976

<u>Quarter and Year</u>	<u>Number of Courses</u>	<u>Total Registrations</u>

A list of the courses offered during the past year is included herein as APPENDIX I. The listing gives the instructor, course, course title, and the number of persons enrolled.

The Continuing Education Unit (CEU)

Quarterly reports of non-credit programs and activities which had educational objectives (as opposed to athletics and entertainment) were reported to the Vice Chancellor for Services. These reports followed published guidelines from the University System of Georgia. These guidelines establish three major categories under which CEU's can be reported:

Category I - Programs, generally oriented toward occupational skills and knowledge or toward the solution of community or societal problems, and planned for a specific target population. Participants must be registered, and individual records of their involvement are maintained in the registrar's office.

Category II -The criteria are generally the same as for Category I, except that programs may be planned for a more diversified population, and records of participation are maintained by the Office of Public Services rather than the registrar.

Category III-Includes all other non-credit programs and activities which are instructional in nature, and are sponsored or approved by appropriate institutional

unit. No registration or record of individual participation is required, but there must be certification of total attendance.

Category IV- Used to report non-credit or public service activities or programs which do not meet the criteria for Category I, II, III, but which require staff effort or expense."

Table II, below, gives a summary of the CEU's reported by Valdosta State College during the four years that CEU procedures have been in effect.

TABLE II. Summary of Continuing Education Units (CEU's) at VSC Reported to the Vice Chancellor for Services.

<u>Year and Category</u>	<u>No. of Programs</u>	<u>No. of Participants</u>	<u>No. of Participant Hours</u>	<u>VSC CEU's Earned</u>
1972-73				
I	3	110	952.50	95.25
II	64	643	7,014.80	701.48
III	47	6,802	17,107.75	1,710.77
Totals	114	7,555	25,075.05	2,507.50
IV	15	11,280	33,010.00	none allowed

Note: 2,507.50 CEU's divided by 60 = 41.79 FTE. (60 quarter Hours would be a four quarter (1 year) load for a student.)

1973-74				
I	11	844	6,250.50	597.05
II	108	1,386	14,442.00	1,393.40

Moody Air Force Base Education Program

Moody Air Force Base Active Duty Personnel Enrolled at Valdosta State College

Operation Bootstrap -- Operation Bootstrap is an Air Force Continuing Education Program which provides educational services to active duty airmen by paying 75% of their tuition and fees when they enroll in college credit courses. The program is designed to encourage airmen to continue their education to upgrade their knowledge and skills.

After a period of several years during which enrollment at VSC through this program was relatively steady, it decreased significantly in Spring Quarter, 1975, when the Moody AFB Education Office funds were drastically cut. Thanks to the VSC Veterans Affairs Officer's assistance in securing benefits for the airmen through the G.I. Bill, however, the enrollment of the airmen in classes held at 47 instead of dropping to the 18 who came with the Bootstrap assistance alone.

When tuition assistance funds for Operation Bootstrap became available during 1975-76, many of the airmen who had learned of

the availability of V.A. assistance under the G.I. Bill elected to continue the use of the G.I. Bill benefits. The reason for this was that such students found that the G.I. Bill pays 100% of tuition as opposed to the 75% paid under Operation Bootstrap. As a result, the enrollment at VSC under Operation Bootstrap, as reported on the next page in Table III, is only a fraction of what it has been in past years. The total number of airmen taking classes under both programs, however, is almost equal to the number under Bootstrap in recent years.

TABLE III. Enrollment by Quarter in Operation Bootstrap.

President Gerald Ford has proposed ending the G.I. Bill at the time of the termination date of the present law, December 31, 1976. Personnel in the MAFB Education Office are of the opinion, however, that it is unlikely that the Congress will complete

action on the legislation this year. It is also possible that the G.I. Bill will receive another extension rather than a cancellation. If the veterans educational benefits should be terminated or significantly reduced, it can be expected to have considerable impact on VSC and other institutions of higher education. Moody AFB Education Office personnel are of the opinion that the Air Force would likely make funds available to continue the current tuition assistance program, due to the commitment to continuing education in the Air Force and the Department of Defense.

VSC Predischarge Education Program (PREP) at Moody AFB
(formerly Career Advancement Program (CAP) at Moody AFB)

The Predischarge Education Program (PREP) at Moody AFB has been operated on base by VSC since March, 1973. From its beginning, it was identified as the Career Advancement Program (CAP), based upon the original request for the program from Air Training Command. The new name was assigned at the time Moody AFB came under the jurisdiction of the Tactical Air Command. PREP provides individualized, non-credit programs of instruction for Moody personnel needing help in overcoming basic educational deficiencies in English or math, as identified by the Air Force and by the VSC instructor for the program. Classes meet for eight-week terms, and most students are enrolled for a single term, though airmen who need longer periods of instruction are permitted to enroll for two or more terms. Table V shows the enrollments in the 19 terms held to date.

TABLE V. Enrollment in the Eight-Week Terms in the Moody PREP

VSC Credit Course Presence at Moody Air Force Base

During 1975-76, particularly after the Tactical Air Command came to Moody AFB, replacing the Air Training Command, officials at Moody expressed strong interest in getting a degree program on base, both undergraduate and graduate. Base officials were under pressure from the higher command to bargain for academic work at the "lowest price" in terms of effort. Valdosta State College declined to lower its standards to meet Moody's terms. As a result, Troy State University moved in with a small program under the conditions imposed by the MAFB command.

VSC has no credit courses offered on the Moody AFB. Perhaps the time will come that VSC will be asked to return to the base with courses. In the meantime every effort is being made to encourage airmen and officers to continue their educational pursuits on the VSC campus, rather than enter the weak degree programs now being offered on base.

VSC Participation in Project AHEAD and Servicemen's Opportunity College

Project AHEAD

VSC entered into an agreement with the U.S. Army to partici-

pate in a cooperative program designed to encourage and facilitate the continued education at the college level of young men and women who enlist in the Army. The Veterans Affairs Office at VSC has been designated as the office responsible for this program. That office will provide counseling and assistance to personnel who enroll at VSC under Project AHEAD.

Servicemen's Opportunity College (SOC)

VSC applied for membership in SOC in December, 1974. In response to a request for information on the status of the application in December, 1975, the College was told that the application had not been acted upon, and that word concerning it would be sent in the next few months. To date no further information has been received.

VSC - VO.TECH Cooperative Program for the Associate of Applied Science Certificate.

Since September, 1973, VSC has had an agreement with the Valdosta Area Vocational-Technical School for a joint program through which students may earn a two-year Applied Science certificate. The joint program calls for the completion of a one-year program at Valdosta Tech in one of eight approved fields and the completion of a second year (45 quarter hours) or core curriculum work at VSC.

Within the last year the School of Education has completed the formation of a vocational/technical/career oriented program for teachers. That unit, not yet departmentalized, has taken over the supervision of the students in the VSC-Vo.Tech program, including the advising and course scheduling.

The development of the VSC-Vo.Tech program is a good example of the way in which Public Services sees its responsibility - from "idea" to "leg-work" to "reality of program" to "final assignment of that program."

Independent Study Program (Correspondence Courses)

The independent study program or correspondence study, as it is better known, is not as large as it was last year. The primary reason for the continuing drop is that students are able to schedule their classes better and better. They do not have to turn to correspondence study to complete their programs. Improved advising also lessens enrollment in correspondence work.

Sixteen courses are provided by ten VSC professors. During 1975-76, Dr. Kent Moore's course, "Introduction to Quantitative Methods in Economics and Business," was accepted for use in the University System program. This course has taped lectures and mimeographed lesson notes, but no textbook. This is a departure from the usual, and is proving to be popular among students.

Conferences, Workshops, and Seminars Held at VSC, 1975-76

Three types of public service activities need to be reported separately. In the first category are programs jointly sponsored by VSC and another unit of the University System of Georgia. The second group consists of the "series" type of public service offering, such as art displays and the "Magic Carpet" program from Modern Foreign Languages. The third type is the usual conference, workshop, or seminar held on or off-campus. A list

of all all three categories of activities is included herein as APPENDIX II.

5. Faculty Participation in Non-Budgeted, Non-Curricular Public Service With Civic, Charitable, and Professional Organizations and Other Organizations Not Directly Related to the College.

The faculty at Valdosta State College has been involved in a great number of activities in the community, including speech making, holding office, serving on committees, assisting with conferences, and similar kinds of participation. Providing public services has been traditional with many of the VSC faculty, but additional ones are gaining an understanding of the importance of this phase of their professional responsibility and obligation and are finding that they actually enjoy the experiences.

Each faculty member was asked to provide a list, monthly, of his activities of a public service nature. Many cooperated; many did not. Those who did not were reticent to turn in lists because they wanted to steer away from promoting self, as they expressed it. Even so, the list has become so voluminous that it is impossible to include it in this report. It can be found in the Director's report to the President, a copy of which is in the President's office.

Over two thirds of the 247 faculty members at Valdosta State College reported involvement in some form of public service during 1975-76. This figure is the highest to date, at least from a known and recorded standpoint. Verification of several

years past is impossible, so the comparisons are for the last five years.

Each member of the administrative staff has also been very active in public services. Most of the senior administrators are continuously active in many ways, with offices, committees, planning, speaking, conducting programs, and many similar services to the surrounding area.

In summary, this has been the most active year on record for public services.

6. Needs

Any Special Difficulties With Which Your Institution Is Faced.

Unless the salary situation improves during the coming year, the morale of faculty will deteriorate further. The salary situation is clearly perceived by the faculty as the single most pressing problem throughout the system. We hope improvements will come soon.

The Senior Exit Tests, as they are currently administered, are not what they are expected to be. They are weak. If this program is to continue, much constructive work must be done by the central office and all of the system units in seeking appropriate system-wide tests and developing state-wide norms.

Within the School of Education, the Department of Physical Education has floundered in controversy for the last three years. Arguments have persisted over the curriculum and internal conflicts have kept the faculty constantly divided. In addition, the Athletic program has suffered. This problem must be dealt with effectively during the next year and we must have better cooperation among some of our leaders in this area.

Although somewhat submerged at this time, there still exists a conflict over the development of a public administration program. The department head of Political Science still believes that the program should be housed in his department. At this time, however, his faculty members and his dean have agreed with the develop-

ment of a joint program housed in the School of Business.

The 1976 summer program enrollment has shown a substantial drop compared with the enrollment of summer, 1975. It is becoming increasingly evident that more flexibility must be provided if the needs of a diverse population are to be served. The typical undergraduate student desiring a full academic load is rapidly being replaced by students desiring condensed courses and workshops that do not consume the entire summer. The college must adapt its program to this need or brace itself for continued enrollment reductions.

Critical attention should be directed at long-range staffing needs if the college is to avoid being clearly overstaffed and "tenured in" in certain academic areas. Areas of potential overstaffing include:

Physics
Administration and Supervision
Special Education
Criminal Justice
Speech and Drama

Estimated Needs in Personnel.

Although various administrators have expressed the need for a number of new positions, only the following seem critical for the next budget year:

Assistant Professor of Biology -- This position is urgently needed to meet the demand of increasing enrollment in both major and service courses.

Assistant Professor of Philosophy -- This position is needed to insure adequate provision of service courses to the School

of Arts and Sciences as well as other areas of the College.

Assistant Professor of Political Science -- Increases in enrollment in Political Science coupled with an evolving need for someone from this department to work closely with Business Administration in developing the public administration concentration make a new position here necessary.

Assistant Professor of Management -- The growth of the activities of the Center for Small Business is placing real strains on staffing in the Management Department. We need to add a Ph.D. in personnel management who would be able to teach both public and business personnel courses.

Assistant Professor of Education -- Increasing emphasis on pre-school education and education in the early grades has produced sufficient enrollment to necessitate another position in Early Childhood and Elementary Education.

Assistant Professor of Education -- A position in reading is needed to provide services to area teachers who desire to improve their proficiency in the teaching of basic skills.

Assistant Professor of Nursing -- The need to provide continuing education for nurses in this area has for some time put a strain on the present Nursing faculty. This position would relieve this pressure and provide support for the other instructional areas.

Special facility needs including alterations and repairs to physical plant.

REHABILITATION NEEDS:

The need for rehabilitation funds has become most acute since these funds have been practically non-existent for Valdosta State College for the past three years. During the year a careful review has been made of the physical facilities at the college and funds are urgently needed for several high priority projects. In the area of physical plant facilities, these projects include the rehabilitation of existing facilities, utility development, and land acquisition. These projects are listed in a priority order:

- Rehabilitation: Electrical Distribution System \$300,000
Fourth Phase and Completion

The college employed Blakely-Daniels-Johnson and Associates of Macon, Georgia to study our electrical distribution system and to develop a master campus electrical plan. Our overhead electrical distribution system, which is owned by the college, is old and needs extensive repairs. This overhead system with 12 KV lines is loaded to its design capacity and the main overhead 12 KV feeder is loaded 10% beyond its design capacity. Currently the main overhead 12 KV feeder is loaded to its thermal capacity. Portions of our overhead system will have to be rebuilt in order to adequately serve the increased loads. It will never be possible to make our present overhead electrical distribution system aesthetically acceptable! Blakely-Daniels-Johnson and Associates have recommended the underground looped network system with looped laterals, automatic sectionalizing, and over-current protection. Though more costly to build than an overhead system, an underground high voltage distribution system is feasible and offers the best solution to the electrical distribution problem for the college. A high voltage electrical underground system properly designed, constructed and maintained is feasible and can be economically justified when all the aspects of reliability, safety, capability, flexibility, aesthetics, and maintenance are considered. The estimated cost of the entire underground work indicated by Blakely-Daniels-Johnson and Associates' study is approximately \$575,000.

The system they have proposed can be implemented in four phases, and it is desired that the fourth phase be implemented in Fiscal Year 1977 at a cost of approximately \$300,000. The first three phases of this project were implemented during Fiscal Years 1974, 1975, and 1976 at a total cost of \$285,000.

- Rehabilitation: Langdale Hall Pipe Replacement \$100,000
Third Phase 30,000

The galvanized domestic water pipes serving Langdale Hall are heavily corroded and need to be replaced with copper pipes at a very early date. The college has spent \$36,000 over the past two years replacing the pipes that were in the most deteriorated condition in this building. However, this did not even make a dent in the problem as we constantly have pipes rupturing and flooding student rooms and corridors. The only time this repiping can be accomplished by our Plant Operations Department is during the summer quarter, and it will require two summers to complete the installation of copper pipe. This building must be repiped with copper if we are to continue using it in the future.

- Rehabilitation: Reroof College Gymnasium \$ 70,000

Over the past several years we have experienced numerous leaks in the College Gymnasium. These leaks have been repaired in a very minor way by our Plant Operations Department. This problem is much larger than just minor roof repairs and needs the attention of an expert roofing contractor. The Spanish Mission roof tile needs to be removed from the entire roof, new felt applied in a correct manner, and the tile replaced. New leaks continue to show up with every rain shower, and this roof work needs to be accomplished during Fiscal Year 1977 to prevent further damage to this facility. The replacement and repair of the College Gymnasium roof will require funding in the amount of approximately \$70,000.

- Rehabilitation: Reroof College Cafeteria \$ 55,000

Over the past year we have experienced numerous leaks in the College Cafeteria. These leaks have been repaired in a very minor way by our Plant Operations Department. After consultation with a roofing consultant employed by the college, we have found that the problem is much larger than just minor roof repairs. The Spanish Mission roof tile needs to be removed from the entire roof, new felt applied in a correct manner, and the tile replaced. New leaks continue to appear with every rain shower, and this roof work needs to be accomplished during Fiscal Year 1977 to prevent further damage to this facility.

- Rehabilitation: Campus Greenhouse \$ 30,000

Our present greenhouse on North Campus needs to be demolished and a new one constructed in the Nevins Hall courtyard. For a number of years our Biology Department has requested a greenhouse, but we have been unable to fund the construction of such a facility. Our school is probably one of the largest units in the University System without adequate greenhouse facilities to serve the teaching needs of biological sciences. We feel that this need must be fulfilled in the very near future if we are to maintain a quality program in this area of instruction.

- Rehabilitation: Central Steam Distribution System \$165,000
Third Phase and Completion

The college has approximately 2,290 linear feet of tunnel which contains the steam main, the main condensate return and hot and cold water from the central boiler plant through Converse, Ashley, and Reade Halls. Our main steam lines, hot water, and most cold water lines are in a most deteriorated condition because of age, lack of proper insulation, improper drainage of the tunnel, and conditions on top of the tunnel. The main steam distribution line is of paramount concern. It is extensively rusted, corroded, and pitted throughout the system. The main condensate return line that serves the entire campus is also installed in this tunnel. It leaks in numerous places. Our Plant Operations Department has tried to repair these leaks, but the pipes are so corroded that it is practically an impossibility to find a sound piece of pipe to even patch to. This condition is requiring an enormous amount of fresh water for make-up in our boiler. This increases the cost of chemical treatment, and it is impossible to inject enough chemicals at any one given time to offset this fresh water build-up.

The situation is being corrected with the installation of a new main distribution system. A system utilizing Perma-Pipe is allowing us to install a new system,

and as we supply the different buildings from this new system the old tunnel is being abandoned. The first phase of this system has been completed at a cost of \$50,000, and the second phase of the project was completed during Fiscal Year 1974 in the amount of \$90,000. The distribution lines serving Brown and Lowndes Halls need to be replaced during the coming year if Major Replacement Funds become available. The third and final phase of this project would amount to approximately \$165,000 due to the rapid inflation in the cost of steel pipe experienced in the past several years.

- Land Acquisition \$535,000

The college urgently needs funds to purchase land adjacent to our main campus. These parcels are desperately required for even a modest expansion of campus facilities in the next several years, and they are listed in order of priority that we feel to be appropriate at the present time:

(1) Corner of Sustella Avenue and Baytree Road \$300,000

This property, located along Baytree Road and Sustella Avenue, contains approximately 10 acres of land which the college desperately needs for future expansion. This land would be ideal for our Physical Education Complex and the many allied requirements of such a facility. This corner tract of land consists of six separate parcels, each of which contains a dwelling house in good to excellent condition. The college urgently needs funds to purchase this land adjacent to our main campus. We need to move ahead with this acquisition in the very near future in order to complete this corner of our campus before local developers build in this area.

(2) 202 Georgia Avenue \$ 35,000

This house and lot are located across Georgia Avenue on the northern portion of the main campus. It has a frontage of 77 feet on Georgia Avenue and a depth of 182 feet. The college now owns the property located on both sides of this land, and its purchase is vital to our future growth and development in this area.

(3) Lake Louise \$200,000

Since 1965, the Biology Department of the college has been granted exclusive use of a 178 acre tract of privately owned land located seven miles south of Valdosta. The tract includes a thirteen acre lime sink type pond with several unique features, plus a variety of soil and woodland community types. Use of the land by the college was granted by the former owner, Dr. George Leiby, with the stipulation that it be used exclusively by the college for teaching and research purposes and also that the tract be maintained as a wildlife refuge. In 1969, Dr. Leiby and his family formally deeded the Lake Louise property to Mars Hill College. Since that time Valdosta State College has continued to use this property under a 25 year easement from Dr. Leiby and Mars Hill College.

As a consequence of studies conducted by various members of the Valdosta State College biology faculty, the unique natural features of Lake Louise have been brought to the attention of a number of prominent biologists both in and out of the University System of Georgia.

Since the late 1960's, biologists of the various units of the University System of Georgia have recognized the urgent need of a biological field station for the study of fresh water biology (limnology) that would be accessible to students and faculty from all the units. Furthermore, this group has been insistent that the location of such a facility should be in the Coastal Plain. A formal endorsement from the membership of the Regents Advisory Committee for Biological Sciences for state acquisition of the Lake Louise property and the establishment of a Limnological Field Station there for System-wide use was made March 4, 1975.

Recently, Mars Hill College has found it desirable to consider selling the Lake Louise property which now has considerable value on the real estate market for development purposes, since it is located near a growing city, an interstate highway, and an airport. The officials of Mars Hill College would much prefer that Valdosta State College have first priority for purchase of the property, but justification for obtaining state funds for purchase at the current market value is difficult to establish for a single University System Unit. It is a rare opportunity, however, for the Board of Regents to acquire an ideal site that can be developed into a multi-use facility by all the System Units. Dr. Leiby is so interested in seeing that this natural area be preserved for scientific research that he has pledged \$25,000 of his personal funds to be applied toward the purchase of the property.

Any Other Needs Requiring Attention

- Urgent-Physical Education Complex \$2,600,000 1st Phase
\$2,800,000 2nd Phase

The single greatest capital need in the way of new buildings is a physical education complex for our growing student body. As a senior college of the University System of Georgia providing instructional programs, undergraduate and graduate, in the Arts and Sciences and selected pre-professional areas, Valdosta State College is also committed to providing adequate opportunities for the overall development of the individual. Included in these opportunities is a superior program in physical education and ample facilities for health and recreational activities. The college has an undergraduate major program and a master's program in physical education, and present facilities are very inadequate for such degree programs. The college's present physical education facility was built in 1952 and is highly inadequate to meet current enrollment requirements for approximately 5,500 students. This project can be constructed in two phases with Phase I containing approximately 58,000 square feet of floor space. The college needs to move ahead with the planning and construction of Phase I during Fiscal Year 1977.

- Remodel Powell Hall (old library) \$500,000

In 1972 the college occupied a new library, and Powell Hall must be remodeled so that it can be used for classrooms and faculty offices. This building will require extensive space and structural modification if it is to be utilized fully by the college. This building has a total area of approximately 15,000

square feet which was constructed in two phases. Powell Hall was constructed in 1940, and Powell Hall Annex I was completed in 1957. This remodeling will require an extensive reworking of the original building and Powell Hall Annex I. A forced-air heating and air conditioning system is a real necessity if the college is to continue the use of this facility. With the anticipated student enrollments being projected for the next five years at Valdosta State College, it is of utmost importance that work begin on this project at once! This building will be empty this June and work should begin on its renovation during Fiscal Year 1977.

- College Union Addition \$1,750,000

The College Union, opened in 1966, places great limitations on all campus activity programs due to the limited space available in this facility. It is impossible to accommodate all those student groups desiring to use rooms in this building. The bookstore addition, Project Number S-40, which is under construction, will alleviate the crowded conditions existing in our bookstore. However, other important needs in the College Union Building need to be satisfied, such as additional large meeting rooms, commuter lounges, interview rooms, bowling lanes, and projection rooms. A multi-story addition to our present facility is urgently needed to relieve present overcrowded conditions. With the addition of this space, the College Union could adequately serve an enrollment of approximately 6,500 to 7,000 students. This addition is urgently needed when the bookstore addition now under construction is completed in 1976.

- Business Administration Complex \$3,000,000

The School of Business Administration has recently experienced a great expansion in student enrollment since the initiation of the Master's Degree Program in Business Administration. The Departments of Accounting and Business Administration-Economics are now located in the newly remodeled Pound Hall, but within a period of two or three years this facility simply will not be adequate for these departments. If we are going to provide a quality program of instruction at the undergraduate and graduate level in this discipline, we must have a modern facility in the near future to house the entire School of Business Administration.

- Remodel West Hall \$ 925,000

Since the remodeling of Pound Hall is complete, it is now possible to vacate West Hall so that a long overdue remodeling can take place. West Hall was first occupied in 1918, and since that time, this building has been used by practically every department on campus. Consequently, this facility needs extensive renovation in the form of new support structure, new flooring, lighting, and space arrangement. Additional work in the form of specialized classrooms and laboratories need to be provided in this building. The area once occupied by the School of Education will require space changes and renovation for general classroom use for the School of Arts and Sciences. The electrical system needs to be completely reworked, as it has become overloaded on a number of occasions when the air conditioning is running during the summer months. The steam radiators need to be replaced with a central forced-air heat system, and a new air conditioning system is urgently needed to replace the old zone units serving this building.

Any Other Needs Requiring Attention.

The College has fallen behind in the purchase of basic instructional equipment during the past few years because of limited budgeting. Therefore, the following areas are facing a clear emergency unless large equipment purchases are made:

Biology -- Loss of the entire equipment budget in Biology this past year due to college-wide budget cuts has complicated what was already a serious problem. The need for laboratory equipment and for a greenhouse continues to be a great concern.

Physics -- Lack of sufficient laboratory equipment is hindering instruction at the elementary level and at the advanced level by limiting both the number and types of experiments our students are able to perform.

Media -- Deficiencies in equipment are preventing the Media Center from serving the College as widely and as thoroughly as it should. Items such as a high-speed collator, a process camera and a power paper cutter would bring this much needed facility to a higher degree of efficiency.

Radio/Television -- There are glaring needs for basic television equipment, particularly a video tape recorder. In addition, alterations in the studio panels to allow for more flexibility are called for.

Music -- Another pipe organ practice center is becoming a dire necessity.

Increased Operating Funds.

Faculty and Staff Salaries

A most urgent and pressing need at Valdosta State College is salary increases for academic and non-academic personnel. Our salary base has been steadily eroded by inflation during the past two years as the consumer price index has increased over 20 per cent within the same period. This year the Bureau of Labor Statistics is projecting an increase in the CPI of nearly 7 per cent while the salaries of our employees are frozen at last year's level.

A competitive income figure must be maintained at all college employment levels if we are to continue to recruit and retain an excellent faculty and staff. We strongly support the efforts which have been made by the Chancellor and the Board of Regents to obtain a built-in salary increase formula similar to that of the State Merit System. This annual built-in adjustment is vital to the development of a comprehensive pay program for the University System of Georgia. Furthermore, a salary increase in excess of 10 per cent is desperately needed to restore in a partial way the loss in purchasing power that our faculty and staff have experienced over the past two years.

Equipment

During the current fiscal year, departmental equipment budgets were practically eliminated in order to meet the budgetary reduction necessitated in state government by shrunken revenue expectations. College equipment budgets for Fiscal 1977 are almost 25 per cent lower than original levels for the current year. With

limited equipment funds, the purchase of many items has become prohibitive for our departments. We have numerous serious needs as well in certain departments which have been outstanding for as long as five years. For example, the Music Department is in dire need of a practice organ, the cost of which is \$15,000. Many of our laboratories in Nevins Hall Annex which were occupied four years ago still remain only partially equipped. Our programs in the Fine Arts and the Sciences will be severely weakened if we cannot purchase such vitally needed equipment in the near future.

Library Books

With an enrollment of over 5,000 students, there is by now a grave need for strongly increased library holdings to meet even minimal national standards. Measurement by American Library Association Standards together with some consideration of the Clapp-Jordan Formula indicate a projected deficit of some 35,000 volumes at the beginning of the 1977 fiscal year. Our collection now totals approximately 218,000 volumes as against a minimal standard figure of 253,000. To reach the latter figure will require \$335,000 (with an average present cost per volume of \$16.00) above our book budget for fiscal 1977. The total number of volumes in our library has not increased significantly over the past several years mainly because of inflated book costs. Journal subscriptions, increasingly necessary as graduate programs develop, are proportionately even more expensive. Subscription prices are increasing at an average of about 20 per cent per year with some

increasing over 100 per cent. We desperately need to overcome this deficit if we are to service in anything like a genuinely adequate way our present undergraduate and graduate programs.

7. Other Information

Division of Business and Finance

Fiscal Year 1976 was an especially difficult time in terms of financing the operation of the College. The Special Session of the Georgia General Assembly in July passed an amendment to the General Appropriations Act for Fiscal Year 1976. It provided a balanced budget at a reduced appropriations level of approximately \$1.841 billion or \$124 million less than the original Appropriations Act. As a result of this amendment the Board of Regents directed the College to reduce its Resident Instruction Budget by \$406,000, which eliminated funds budgeted for departmental equipment and salary increases for our personnel. Also all funds for capital outlay were eliminated by this action of the General Assembly. In order to maintain the reduced appropriations level established during the Special Session of the General Assembly, state revenues needed to increase at a 10 per cent growth rate for the balance of Fiscal Year 1976. Unfortunately, this growth did not materialize, and in December the College was once again instructed to make further reductions in its budget for Resident Instruction. Also, due to the ruling of the State Supreme Court related to the employment contracts of University System personnel, budget salary raises were reinstated on a retroactive basis.

In order to meet this financial crisis it was necessary for the Board of Regents to approve a 10 per cent tuition increase to become effective Spring Quarter of 1976. This increase was especially difficult for our students to accept, since tuition had already been raised approximately 15 per cent at the beginning of the year. During the balance of Fiscal Year 1976 the System's financial situation stabilized and no other budget cuts were necessary at VSC. The economy of the State of Georgia continues to show marked improvement in the form of substantially increased revenue collections, and it is hoped that

fiscal 1977 will not hold the magnitude of financial problems that were faced by the college during fiscal 1976.

Auxiliary Services

During fiscal year 1976, Auxiliary Services at the college continued to expand, but much of the growth in revenues can be attributed to the rapid inflation in the economy. For the past five years our auxiliary units have been expanding at an annual rate of almost a quarter million dollars, but the number of students served has grown much slower over this period of time. This trend continued during fiscal year 1976 without any real relief in sight, and our situation is not different from many other colleges with residential facilities. For fiscal 1976 our revenue estimate is approximately \$2,600,000, which is a considerable increase over last year. Most of the increase resulted from higher residence hall and cafeteria rates that became effective in the spring quarter of 1975. Auxiliary Services remained financially solvent this year, and our budget for fiscal year 1977 reflects a continuation of this trend with no rate increases planned for these service units.

A concentrated effort has been made during the year to upgrade the personnel in Auxiliary Services. However, two areas encountered major difficulty in the last twelve months. The Bookstore manager experienced a heart attack in October and was not able to return to college employment, and in January of 1976, the Food Services director retired on the advice of his physician due to the stress associated with such a demanding service operation. Replacements for both of these auxiliary units have been appointed and these operations have stabilized in the past few months. However, these new managers need considerable training in the coming year as we strive to improve these service units.

There were some bright spots during the year. The College Union Snack Bar, which was remodeled during the summer quarter, was placed in operation

fall quarter of 1975. The new decor and seating arrangements have added greatly to the flexibility of this operation. Also, the College Bookstore, which has been under construction for the past two years, has been completed and was occupied in June of 1976. Both of these facilities were badly needed at the college and are welcome additions to our Auxiliary Services.

In looking forward to fiscal year 1977, we anticipate a leveling off of the number of students served by Auxiliary Service facilities, but we feel that many of the changes accomplished in the last year will have a major impact on our operating efficiency in the coming months. All student activities, our snack bar, bookstore, and post office are now housed in one facility for the first time in two years. This should provide an improved traffic flow and a greater use of existing facilities, even though the number of students on campus will probably remain fairly constant. Auxiliary Services have a bright future at the college and next year should prove to be an even better year for the College Auxiliary Units.

Business Services

The administration of the college as part of the decision making process requires relevant, accurate, and current financial data on many different institution activities. The present financial system at the college provides current financial information related to the internal operations of the college. However, our present system falls short in providing past and projected information for making relevant decisions. We have seen a great need during the year to develop a system that satisfies the information needs of the entire institution in a way that prevents wasteful and confusing duplication of information. A great need exists for a computer system that would meet the immediate academic and administrative data processing needs and be expandable to meet future applications and the predicted growth of the college. With these criteria in mind, added to the high

cost of maintaining our Burroughs E6000 computers currently used by the Office of Business and Finance, the administration has agreed that one computer system could serve the needs of the entire institution for a price comparable to current computer costs.

At the present time, negotiations are under way to secure bids from vendors for the purchase of a new computer system with multi-programming capability which can process administrative work while simultaneously handling the demand of academic users.

Public Safety and Security

Fiscal year 1976 was marked by the disability retirement of the Director of Campus Safety who had been instrumental in developing this department over the past decade. While on extended benefits, it was necessary to appoint an interim director and reassign responsibilities to key personnel to maintain departmental efficiency until a new director could be employed by the college.

Student unrest on campus during the year was minimal. However, pilferage and illegal entry into restricted areas has increased substantially this year at the college. Serious consideration must be given in the near future to recombining the master key system employed in all campus buildings that has been in use for almost ten years. Recent investigations by this department have disclosed duplication of state keys on non-state blanks in several cases.

Radio communication has always been a problem with reported cases of safety officers not being able to reach other personnel due to the limited range of their radio equipment. This situation has now been corrected with the purchase of a new communications system operating on a business frequency instead of the citizens' band.

Continued turnover among security officers was experienced during the fiscal year. We have been fortunate in employing experienced staff, but this situation will become critical when the full effects of the 1975 law requiring certification of peace officers is fully implemented in the State of Georgia. This, too, will have a very definite impact on our pay scales which are not competitive with local law enforcement agencies.

Security staff members continue to exhibit interest in furthering their education. During the year seven officers or approximately 50% of our staff were enrolled in the criminal justice program at the college.

The new Director of Public Safety will begin his duties at the college on August 1, 1976. New uniforms have been ordered and every effort will be made to extend the public relations aspect of the Department of Public Safety. One of the primary goals for next year will include review of current parking problems. The number of staff personnel has continued to increase with main campus parking becoming inadequate to accommodate this group and our students. With almost 4200 vehicles registered this year and further increases anticipated next year a solution to the parking problem must be found in the near future.

Personnel Services

The employment of a personnel specialist in August of 1975 has filled a great need in the Personnel Services Department with all classified employment activities related to recruitment, referral, and placement being delegated to this individual in recent months. Additionally, report generation, i.e., monthly accident reporting, personnel inventory reporting, and assistance in completing the multitude of federal reports, is now this person's responsibility.

A primary objective of this division during the fiscal year was full compliance with the Fair Labor Standards Act. Revised time sheets and

prior approval of overtime were among changes implemented in accordance with the recommendations of the Internal Audit Staff of the Board of Regents. This situation has now been rectified and the college is in full compliance. The recent ruling of the United States Supreme Court exempting state employees from provisions of the Fair Labor Standards Act may negate these efforts to some degree; however, the college will not act hastily to repeal our present overtime and time reporting procedures.

The long awaited employee handbook is now in final form and should be ready for distribution in fiscal year 1977. Previous drafts of this booklet were never printed as vast policy and procedural changes have occurred in the University System in the past five years.

Continuing efforts in computerizing the personnel information system this year has resulted in computerized insurance reporting, EEO-6 reporting, and several reports for management information. The initial development of a computerized budget system was completed and plans are being made for its early implementation. With the possibility of the Business Office having full-time access to a computer, the ultimate goal is to relate existing programs to the payroll function thus complying with the University System's mandate on a personnel/payroll system consistent with other units.

Approximately 3,000 health and dental claims were filed against our group insurance plan during the fiscal year with experience exceeding 140% of premiums. The April increase in premiums, though needed, points to a continuing problem in our group health insurance program unless further policy restrictions or options are instituted in the near future. The college's life and supplemental life experience continues extremely low with fiscal 1976 claims totaling only \$35,131. Premiums paid during the same period were approximately \$90,000 yielding an effective 39% experience. In

accordance with the Policies of the Board of Regents, those dividends attributed to voluntary programs of coverage are to be returned to the institution to serve as a stabilization reserve or to be distributed among participating employees. To date no such accounting has been made available, so it is difficult to determine whether dividends were realized after reserves and other statutory deductions were considered. It is possible that our life and supplemental life rates could be lowered when this study is completed.

Wage compression and the lack of ability to make needed merit increases on a scheduled basis continue to present extreme wage problems for the college. Our competitiveness in the local labor market was stifled by the Special Session of the General Assembly last July. It is hoped that action will be taken by the Board of Regents to obtain a "built-in" salary increment for all college personnel. The college must maintain "reasonable" status with the local market and must not allow our wage position to be eroded by failure to make needed salary adjustments.

Grants from Title VI, Public Service Employment, and CETA funds continued during the year with in excess of \$8,300 being expended by the college from these sources. Employment in security, keypunch, and general clerical areas was provided with two of these persons being moved to regular status based on their performance. Outlook for such funding during fiscal year 1977 is limited with Title VI funds being available through December 1977.

During the past fiscal year, Affirmative Action procedures which were set up during the preceding year to insure compliance in hiring have been examined and strengthened. A visit by Dr. Mary Ann Hickman, Assistant Vice Chancellor for Personnel, early in the year served to underscore the importance and need of compliance in the minds of department heads and deans. These Affirmative Action procedures have produced a uniform, consistent approach to hiring which fortunately has aided our hiring process at the college.

Plans for next year include the development of a formal orientation program for college employees and a complete wage and salary survey in Lowndes and the surrounding areas. A wage and salary survey is of great importance in formulating wage policy should salary adjustments be received favorably by the Georgia General Assembly in 1977.

Physical Plant

The operation and maintenance of buildings, grounds, central warehouse, and custodial services of the college are the responsibility of the Director of Business and Finance. These college functions are concerned fundamentally with timely service operations, maintenance, and alterations to institutional facilities.

The campus of the college now encompasses 140 acres containing some forty-four buildings whose beauty has been greatly enhanced over the last decade through improved building maintenance and attractively landscaped grounds. The fine facilities present on our campus today have certainly enhanced the respect shown the college by students, staff, and the general public.

During the fiscal year 1975, the Board of Regents in behalf of Valdosta State College accepted a bequest of approximately \$328,500 from the late Mrs. R. B. Whitehead for the benefit of Valdosta State College to be used primarily for campus beautification. During this year the college received its first income distribution from this trust in the amount of \$21,000. The Whitehead Beautification Committee is in the process of developing a master landscape plan for the Jewell Whitehead Camellia Trail. T. Miesse Baumgardner and Associates, have been employed to develop plans for the Camellia Trail. The implementation of these plans should begin during fiscal year 1977 with the funds that are now available.

During the past year a number of major construction projects on our campus have been completed allowing our Plant Operations Department to install paved walkways, lighting, and landscaping. Several projects that were initiated and funded last year have been completed during the current year at the college.

The following projects were budgeted from local college funds and funds allocated by the Board of Regents during fiscal year 1976.

1. Land - 407 Baytree Road \$ 50,515

This parcel of property of approximately 1.8 acres is located adjacent to college property. Its acquisition during Fiscal Year 1976 is considered the key parcel in the long term purchase of approximately twelve (12) acres at the corner of Baytree Road and Sustella Avenue. This prime location has a frontage of 150 feet on Baytree Road and a depth of 410 feet. This project was funded from Auxiliary Enterprise surplus.

2. Buildings-Renovations-College Union Snack Bar \$ 5,500

The College's present snack bar in the College Union Building was opened in 1966 and since that time this facility has experienced extremely heavy utilization by our student body. This area was extensively renovated during the summer months of 1975. New lighting, carpeting, window shades, and furnishings have been installed in this area to make it once again a desirable area for students on our campus. The planning for this facility has been in the direction of self-service in order to reduce the high labor costs present in this operation. This project was funded by Replacement Reserve funds in Auxiliary Enterprises.

3. Buildings-Renovations-Converse Hall Apartments \$ 8,300

During Fiscal Year 1976, the college completed the renovation of Converse Hall into fifty-one student apartments. This project was begun during Fiscal Year 1973 and was first occupied in June of 1975. This housing facility was filled to capacity the first month it was placed in operation. All suites have private bathrooms, kitchen facilities, cable television, and telephones. The renovation of Converse Hall into these desirable apartments will allow the college to continue to serve a housing market of senior and graduate level students who have previously lived off-campus until Ashley Hall was completed in 1972. This facility was funded entirely from Auxiliary Enterprises Replacement Reserve funds.

4. Buildings - Langdale Hall Renovation \$ 26,000

At its meeting on July 18, 1976, the Committee on Buildings and Grounds of the Board of Regents allocated the college funds to replace galvanized pipe with copper pipe in Langdale Hall. This project is funded from a state appropriation to the college.

5. Buildings - Reade Hall Renovation \$ 75,000

The college plans to reopen this residence hall in the fall of 1976 when our projected enrollment will require an additional 100 bed spaces. This building has been closed since 1970 so extensive renovation will be necessary prior to its being occupied in the fall quarter. This project was funded from the Replacement Reserve Account in Auxiliary Enterprises.

6. Buildings - Lowndes Hall Renovation \$ 11,000

The college occupied this residence hall in 1966 and the lobby and activity areas of this building required extensive renovation prior to fall quarter of 1976. This renovation involved painting, carpeting, and draperies to make this a more livable facility for our students. This project was funded entirely from the Replacement Reserve Account in Auxiliary Enterprises.

7. Buildings - Brown Hall Renovation \$ 37,000

The college occupied this men's residence hall in 1964 and extensive renovation was required during the past year in order to attract residents next fall quarter. The carpet had completely worn out from the heavy traffic that it has received over the years and replacement became a necessity. All the furnishings in the lobby and activity room had to be replaced. Auxiliary Replacement Reserve funds were employed to finance this project.

8. Improvements Other Than Buildings - Chill Water Distribution System \$100,000

During the year the college employed the engineering firm of Nottingham and Brook to study the chiller problems we were experiencing in four of our older residence halls. It was recommended that we install one centrifugal chiller to furnish chill water for air conditioning to Hopper Hall, Converse Hall, Ashley Hall, and Reade Hall. This project will be completed during the next several months and provide more efficient cooling to these buildings. This project was funded from Auxiliary Enterprises Replacement Reserve Funds.

9. Improvements Other Than Buildings - Nevins Hall Chiller Replacement \$100,000

During the summer of 1975, the college began experiencing severe mechanical problems with the two reciprocating chillers that serve Nevins Hall. Nottingham and Brook recommended replacing the four reciprocating chillers that serve Nevins Hall and Nevins Hall Annex with one large centrifugal chiller. This work was performed by our Plant Operations personnel during the winter months when air conditioning is not an absolute necessity in south Georgia. This project was funded by an allocation of Major Replacement Funds by the Board of Regents.

10. Equipment - New College Bookstore \$ 53,000

On April 9, 1976, the college accepted from the GEA(U) our new bookstore which we plan to occupy in June. Our cash registers in the bookstore were purchased by the college almost ten years ago and are now obsolete. Seven NCR Point-of-Service cash registers were purchased for our new store so that lines and sales transactions would not become a bottleneck situation.

Development, College and Public Relations

Revision of Responsibilities

As a consequence of the employment last year of a Director of Development to supervise private fund raising for the college, it has been necessary to redefine somewhat the responsibilities of staff members in the College Relations Office. This re-shuffling of responsibilities took place harmoniously amid discussions over a considerable period of time and is still going on to a limited degree as we seek the most equitable and effective division of the work load in the area of Development, College and Public Relations.

In May, to achieve more efficient use of equipment and personnel, and in general to achieve better coordination of work, the decision was taken to move the Development Office from Nevins Hall to West Hall, connecting it with the College Relations Office, and to designate the Director of Development as the coordinator of what we call the "Advancement Program."

The Advancement Program includes the work of the College Relations and Development Offices. The four professional staff members of the Advancement Program and their areas of specialization as they have emerged this year are as follows:

Director of Development

Coordinates private fund-raising; teaches one history course per quarter; and assists the President with correspondence, reports, questionnaires, long-range planning, accreditation matters, and special assignments.

Director of College Relations

Specializes in work with people--individuals and groups--who support, or are components of, the College; organizes meetings of the Alumni Association and the Forward VSC Committee and makes the arrangements for special events; as campus host, entertains visiting dignitaries; represents the President in official ceremonies on and off campus and in visits to sick and bereaved members of the college family; coordinates the Junior College Recruitment Program; represents the College frequently as a public speaker; and helps the Director of Development organize and mobilize volunteers for fund raising activities.

Director of Public Relations

Concentrates much of his time on production of the VSC Bulletin, the College catalog, and other printed matter; works closely with the Director of Development in the VSC Annual Fund Campaign, particularly in the area of direct mail appeals; serves as consultant to the faculty with regard to publications and mailing procedures; coordinates alumni services and alumni budget activities; and is the primary liaison person between the Advancement Program and the Computer Center.

Head of Information Services

Responsible for news releases and relations with newspaper, radio, and television; serves as news consultant to campus organizations, students and faculty.

Although each staff member takes the lead and assumes primary responsibility in his area of specialization, each stands ready to assist the others as the need arises. The division of responsibility is clear, but the policy of cooperation and easy communication afforded by the proximity of offices and brief, daily staff meetings help provide the back-up support and the flexibility needed in dealing with unanticipated problems characteristic of public relations work.

Fund Raising

Although our program of fund raising from private sources is still relatively primitive, we have made substantial progress in the past year. For the first time we were able to consolidate the annual fund campaigns of the Alumni Association and the VSC Foundation into a single VSC Annual Fund, which is operated by the Foundation. This step has proven successful. The VSC Foundation has adopted several changes in its bylaws that improve its usefulness as a fund-raising organization. Development and College Relations personnel have been working since last summer to consolidate the Foundation and alumni mailing lists, including donor records and certain other information, and to store these in the computer. When this is completed we will have much greater capability for generating lists of donors and prospective donors in numerous categories. This will facilitate analysis of giving patterns and the process of solicitation. The Development Office has acquired several publications needed to prepare proposals for submission to private

philanthropic foundations. An improved record system for private donations and more efficient procedures for gift receipt, transmittal, and acknowledgement have been designed and implemented.

Other things are in process or under consideration. We are setting up a Tribute Fund program, an expansion of the Memorial Fund idea, as a part of the VSC Annual Fund. Preliminary work is being done on a proposal for an enlarged minimum gift program (to include non-alumni). A Committee of the VSC Foundation is evaluating the College Endowment Funding Plan published by the American Council on Education to determine whether it will be useful for building the endowment of the Foundation; and study is being given to the possibilities for establishing a systematic deferred giving program.

The Director of Development is working with the newly-created Committee on College Advancement, which reports to the Administrative Council, to establish a college-wide approval procedure for fund-raising activities. He plans to have this committee assist with the evaluation of proposed projects for assignment of fund-raising priorities.

We do not expect to build a fund-raising program to rival those of the larger, more prestigious institutions in the University System, but we do hope to meet VSC's minimum needs for private support. To do so, we are giving Advancement activities more of a fund-raising orientation than formerly.

Although the VSC Annual Fund drive this year apparently will not reach its goal of \$50,000 set in December, we consider the campaign a success. As of this writing, it looks as if receipts will be approximately 30% above the total of both annual funds last year, which was \$27,800. By getting an earlier start, implementing some of the plans mentioned above, and profiting from the lessons gained this year, we hope to do considerably better with the 1977 VSC Annual Fund.

Alumni Affairs

One of the most significant developments in alumni affairs during the past year was the success of several area alumni meetings organized by the Director of College Relations. Although we could not schedule as many of these as we would have preferred, those held at Madison, Fla., and Camilla, Moultrie, Ocilla, and Albany, Ga., drew excellent attendance and attentive audiences for VSC deans and the President who were featured speakers. In the coming year we expect to build on this success and stimulate the growing vitality that we think we perceive in our Alumni Association. An important part of this undertaking will be a special meeting of Valdosta alumni in October.

We are fortunate to have very capable alumni officers and directors. Marguerite Langdale Pizer, who lives in Washington, D.C., succeeded the dynamic Curtis Fowler as president, and John Sessions, manager of the Brookwood branch of the C & S Bank in Valdosta, is vice president. Mr. Sessions has demonstrated that he is fully able to fill in at functions to which Mrs. Pizer, because of the distance, cannot attend.

Another sign of increasing alumni involvement is the improved response this year to offers made as part of the program of alumni services coordinated by the Director of Public Relations. An offer of framed watercolor prints of West Hall elicited sufficient orders to make the venture profitable for the Alumni Association, and a vacation package tour to London quickly sold out.

Though it has had little money at its disposal, the Alumni Board of Directors has shown consistent interest in promoting the College and stimulating good relations between alumni, faculty, and students. The Board used the income from its small endowment this year to fund two oral history research projects of VSC professors; it supported the first annual Career Day on campus, at which more than twenty business, industry, and government representatives met with graduating VSC students; and it sponsored a reception for graduating students and their families at June Commencement.

Community Relations

The Alumni Association is one of three major volunteer organizations with which Advancement Program staff members work closely. The others are the Valdosta State College Foundation, mentioned previously, and the Forward VSC Committee.

This year the Forward VSC Committee, which was formed as a means of tapping the ideas of community leaders, continued to meet for breakfast once each month. This committee has taken the initiative in the erection of billboards advertising VSC

throughout north Florida and Georgia. Having selected a winning design by a VSC art student, the committee arranged with a local advertising agency to have the signs installed in prime locations at no cost to the college. Mr. Bill Amos, Valdosta building contractor, provided excellent leadership as chairman of the committee last year.

Publications

The College Relations Office has had a busy publications schedule this year. The Director of Public Relations designed and produced some twenty-three promotion pieces, one of which has been selected for special recognition in the November issue of Case Currents. He also prepared a slide-tape show for the Valdosta Junior Service League's use in raising money for the Speech and Hearing Clinic that was merged with the School of Education this year. The quarterly VSC Bulletin, formerly the Alumni Newsletter, now has a circulation exceeding 10,000 and is sent to a growing list of friends of the college and parents of VSC students. The Calendar of Events, also goes to more than 10,000 addresses quarterly. Our campus newsletter, the VSC Capsule, kept the college family informed of activities through its thirty-two weekly issues.

Newspaper and Electronic Media

Press coverage continues to be good. The Head of Informational Services sent out approximately 650 news releases, an all-time high, and these were printed widely in small and large papers. Among the latter, we are especially pleased with the coverage we received in the Atlanta Constitution and the

Florida Times-Union. The Valdosta Daily Times keeps a watchful eye on our campus and reports regularly and thoroughly on newsworthy events. In several cases VSC stories were picked up by the wire services. The Dean of the School of Business Administration was quoted on the subject of grade inflation in the Wall Street Journal.

Radio and television stations in South Georgia continued to provide good coverage to VSC events. The Head of Informational Services has developed good rapport with the media representatives and is due much credit for our excellent media exposure. She has also begun a local TV talk show, "Our Town Valdosta," on Clearview Cable TV Channel 12, which is furnished free to the College. Her co-host on the program is Vice President Ray Cleere. A complete list of VSC radio and television appearances is included as Appendix III.

Junior College Recruitment

Our efforts to recruit junior college students were hampered last year by the financial crisis and the lack of travel money. Plans to pay a number of personal visits to junior colleges had to be scrapped; we resorted instead to placing ads in newspapers of towns in which the junior colleges were located. This year the Director of College Relations proposes a vigorous program of visitation to the campuses of junior colleges.

Special Events

As usual, the Director of College Relations excelled at handling the College's special events. At Fall Convocation, Home-

coming, the dedication of the Converse Hall cornerstone, Commencement and other special occasions he demonstrated an eye for detail and a talent for arranging meetings, large and small. He is equally to be commended for his work as campus host. Among the many visitors that the College Relations Office welcomed to the campus last year were 5,075 school children and adults who came to see the VSC Planetarium. This number exceeded last year's number by more than a thousand. The Planetarium continues to grow in popularity with area children, and we are happy to share this facility with them.

All in all, the Development and College Relations Offices had a good year. Dedicated to their work and to the College, the staff made progress in several areas, and we believe they will have an even better year in 1977.

Special Studies

During the past year, the second year that the Special Studies Program has been officially administered, several changes were made in the procedure by which students were identified for the program. Beginning with fall quarter 1975, the SAT cut-off score was raised from 650 to 700 and CGP cut-off scores were raised to 45. This change produced a larger population, and our classes for Fall Quarter were larger than they should have been for effective teaching.

The following tables will give a more detailed idea of Special Studies activities during the year:

Table 1

A. Fall Quarter 1975

1. Sections of English	<u>5</u>	enrollment	<u>132</u>
Sections of Reading	<u>6</u>	enrollment	<u>160</u>
Sections of Math	<u>6</u>	enrollment	<u>160</u>
2. Students exiting English	<u>61</u>		
Students exiting Reading	<u>74</u>		
Students exiting Math	<u>68</u>		

B. Winter Quarter 1976

Regents Testing Program

The Learning Skills Center is charged with identifying candidates for the Regents' Examination as well as administering the test and handling all remedial work for those who do not pass. During the past year the examination was given to 719 students. One problem which we face is that many seniors wait until their last quarter to take the test and, therefore, have a problem with clearing for graduation. Some system should be worked out by which records could be coded in the computer center so that students would not be classified as seniors until this requirement (and others, of course) has been met. In addition, the situation could be vastly improved if the regulation concerning checking out for graduation in advance were strictly enforced.

The performance of our students on this examination, those taking it for the first time as well as those who are repeating, has fallen slightly. This decline follows a pattern which has established itself system-wide, and the overall standing of Valdosta State College has not changed drastically.

International Studies

During the second year of its existence, the Department of International Studies has attained greater visibility for international studies on the campus and obtained for Valdosta State College a much wider reputation as an institution which emphasizes international education. These achievements have been made through the cooperation and support of the college

administration and of individuals committed to international education throughout the college community.

Valdosta State College is a member of the following organizations relating to international affairs:

Southern Consortium for International Education, Inc. whose members include: Atlanta University, Emory University, Georgia Institute of Technology, Georgia Southern College, Georgia State University, Medical College of Georgia, University of Georgia and Valdosta State College.

Georgia Consortium for International Education whose members include: Albany State College, Armstrong State College, Augusta College, Columbus College, Fort Valley State College, Georgia Southwestern, North Georgia College, Savannah State College, Valdosta State College and West Georgia College.

Southern Atlantic States Association for Asian and African Studies whose members include: University of Virginia, North Carolina State, Sweet Briar College, Guilford College, St. Andrews Presbyterian College, Davidson College, Meredith College, Duke University, Furman University, Appalachian State University, Lenoir-Rhyne College, University of South Carolina, and the University of North Carolina-Charlotte.

The Director serves as executive director of the Georgia Consortium for International Education and is a member of the Executive Committee for SASASAS. Also, the Director has maintained a close contact with Mr. Peter White, executive director, Southern Council on International and Public Affairs. He has also maintained contact with Mr. Stephen Chen, Dean of the rapidly expanding Consular Corps in Atlanta.

The department has sponsored during the past year a number of lecturers on campus who have emphasized international studies. These include:

- Mr. Robert Barbour, Director, Western European Section, U. S. Department of State (Iberian Peninsula)
- Dr. Harlan Davis, University System of Georgia (Brazil)
- Dr. Qwendolyn Carter, University of Indiana (Angola)

Dr. Martin Njeuna, Fulbright Scholar (The Cameroons)
Professor James Marston Fitch, Professor of Architectural
History, Columbia University (Thomas Jefferson as an
International Citizen)

A very fine art exhibition entitled "Artists in India" was held in the Valdosta State College gallery for two weeks and attracted wide-spread attendance and attention. This exhibit helped to point out the College's long-standing interest and specialization in India. A report on the Third World Series on India, which is scheduled for spring quarter of 1977, has been submitted to the appropriate administrative officials.

Among the Director's activities during the period, June 1 - July 30, of particular significance was the participation in the Georgia Partners for America Program in Brazil in October, 1975.

The Director went to Washington where he visited the U. S. State Department, the American Council on Education, the U. S. Office of Education, and Dr. Maurice Harari, Director of International Programs of AASCU. As a result of this visit, the Director was chairman of a two-day workshop on international education held in Atlanta, February 5-6. The meeting attracted 75 representatives of international studies from AASCU members throughout the southeast and was sponsored jointly by the Southern Consortium for International Education and the Georgia Consortium for International Education. Again, this workshop gave the College greater visibility in the field of international studies.

The Director benefitted enormously from a leave of absence with pay to participate in a National Endowment for the Humanities Seminar, "New Perspectives in Chinese History," at the University of Chicago during the summer of 1975. The seminar for 12 participants was conducted by Professor Ping-ti Ho, one of the outstanding Chinese historians in the United States and President during 1975-76 of the Association for Asian Studies. It provided the Director new insights into the area of Chinese history, the opportunity to perform research on John Elliott Ward of Savannah and valuable contacts with numerous members of the University of Chicago and Northwestern University faculties.

The Director was selected one of 15 participants in the "Modern Japan: The Political Dimension" seminar to be held at Duke University June 27 - July 9, 1976. The workshop is sponsored by the Triangle Universities East Asia Center and the Japan Foundation.

The Director accompanied five students to the National Model United Nations assembly in New York in April. The representatives distinguished themselves admirably. Next year, we will send ten delegates to the assembly. We also hope to sponsor a NMUN assembly for high schools within our region next winter.

During the past year, a 1963 history graduate, Mr. J. P. Morrow, vice president of an oil firm in Birmingham, Alabama, gave the Department of International Studies a total of \$700

for the purchase of cassette tapes on Asia and for the sponsorship of lecturers on international studies next year. Mr. Morrow has promised other gifts for special projects which the Director has in mind.

A college-wide committee on international education was appointed this year by the Vice President. With the Director as chairman, the committee represents those schools and divisions which are interested in international education. A copy of a newsletter on international education and a questionnaire on international experience was submitted to all faculty members.

The Director believes that the second year of existence for the Department of International Studies has been eminently successful, during which time international studies has gained greater visibility more rapidly than anticipated. The past two years have provided a challenge which has stimulated further desires to develop and enhance the program of International Studies at the College.

Admissions

The Admissions officers continued to perform their duties conscientiously and efficiently this year. While many institutions experienced declines in enrollment, we are happy that VSC's enrollment again increased modestly.

The Director of Admissions continues to believe that one-to-one contact is essential for effective recruitment of students. The College Fair programs sponsored by the Georgia Education Articulation Committee have not proved effective as recruiting activities. Consequently, the Admissions staff plans to continue its high school contacts with counselors and individual

students in the coming year.

The Special Studies and Early Admissions Programs continue to provide additional dimension for the recruitment of exceptional students. The Early Admission program has met with its traditional success as an aid to high school students who desire an expeditious entry into college work.

Next fall we will probably have another small increase in overall enrollment. Applications as of July 15 were almost 200 above the number at the same date last year. This is an increase of approximately 13%.

In the next several years we expect to see a leveling off of enrollment, with small increase at best. Two major reasons for this are the anticipated decline in the 18-20 year old population and the trend toward vocational and career education. Enrollments for the past five years are compared in Appendix VI.

APPENDIXES

APPENDIX I

On the following four pages are listed the non-credit courses offered during the four quarters of 1975-76.

ENROLLMENT IN NON-CREDIT COURSES, SUMMER QUARTER, 1975

<u>Course</u>	<u>Instructor</u>	<u>Enrollment</u>
M7501 "Poetry: Who Needs It?"	Dr. Ward Pafford **	39
M7502 The Poetry of Robert Frost	Dr. John T. Hiers **	4
M7503 Preserving Flowers and other of Nature's Materials	Mrs. Sara DeShong	*
M7504 Summer High School Theatre Workshop	Mr. Joel Boatright **	5
M7505 Suicide/Death Education	Dr. Nancy C. Scott **	*
M7506 Beginning Magic	Dr. David R. Goodsell **	5
M7507 The Hebrew Prophets	Dr. Louis Schmier **	6
M7508 Military History of World War II	Dr. Louis Schmier **	6
M7509 Weaving for Beginners	Mrs. Ruth Kahler **	7
M7510 Moral Development in Pre-school Children	Mrs. Willa Shovar **	*
M7512 Memorization	Dr. W. Edward Morton **	*
M7513 Speed Reading	Dr. W. Edward Morton **	16
M7514 Kodokan Judo(Ages 8-17)	Mrs. Sandra Layson	6
M7515 Kodokan Judo(Ages 18-up)	Mrs. Sandra Layson	*
M7516 Woodworking	Mr. Thomas Pitchford	3
M7517 Woodworking	Mr. Thomas Pitchford	8
M7518 Management of Time Seminar	Dr. Fred A. Ware, Jr. **	14
M7519 Karate	Mr. Steve Fiduk	*
M7520 Southwestern Style Square Dancing	Mr. Kevin Huffmaster	375
M7521 VSC Twirling Camp	Dr. William F. Bunch **	5
M7522 Spanish for Travelers(I,II,III,IV)	Dr. ** and Mrs. Jose Fernandez	*
M7523 Reading Enrichment for Children	Dr. Ed Merryman **	276
M7524 Swimming Classes (ARC)		*
M7525 Advanced Real Estate (Course II)	Mr. Jerry Bishop **	*
M7526 Basic Real Estate (Course I)	Mr. Jerry Bishop **	13
M7527 Keys to Success(at work -at home)	Mr. Howard Lincoln**	8
M7528 Art for Ages 9-13	Mr. Tommy Cato	6
M7529 Art for Ages 4-5	Mr. Tommy Cato	6
M7530 Art for Ages 6-8	Mr. Tommy Cato	6
M7531 Sculpture Design for Ages 8-13	Mr. Tommy Cato	14
M7532 Beg. Painting, Ages 5-8	Mr. Tommy Cato	7
M7533 Mural Painting for Ages 7-13	Mr. Tommy Cato	*
M7534 Basic Scuba Diver	Mr. Mike McCaskill	*
M7535 Elements of Multi-Speed Bicycle	Dr. Gary Wilson **	17
M7536 RISK 75	Mrs. Cuba McKay	*
M7537 Beginning Dance for Men & Women	Mrs. Carole Mays **	125
M7538 VSC Summer Music Camp	Dr. Bill Bunch *	9
M7539 Beginning Textiles (Tues)	Ms. Lynn Cummings	*
M7540 Beginning Textiles (Wed)	Ms. Lynn Cummings	7
M7541 Judo (Ages 8-17)	Mrs. Sandra Layson	4
M7542 Judo (Ages 18-up)	Mrs. Sandra Layson

APPENDIX II

CONFERENCES, WORKSHOPS AND SEMINARS, 1975-76

CONFERENCES, WORKSHOPS, AND SEMINARS, 1975-76

1. Jointly Sponsored Conferences and Workshops

- a. "It Should Have Happened Yesterday" - This was a full day conference sponsored by VSC and Georgia State University, with the two key persons being Dean Sara Borden and Dean Jean Thomas. 11/1/75. Assisting women develop leadership.
- b. "Leadership Development for Women" - Two one-half day meetings (Sundays - 9/28/75 and 10/5/75) in which 25 women were selected to be trained as leaders. Special attention to problem-solving, assertiveness, and parliamentary procedure. Borden & Thomas.
- c. "Zero Base Population Growth" - Three sessions on Monday nights, 2/23/76, 3/1/76, and 3/8/76, jointly sponsored by VSC and the University of Georgia. Dr. Watkins and Dr. Leonard Hampton.
- d. "Counseling Adult Women" - Two-day conference, April 21-22, 1976, jointly sponsored by VSC and the University of Georgia. Gandy and Dr. Richard Granum.
- e. "Proposal Writing Conference for the Humanities" - One-day conference on 8/4/75, jointly sponsored by the Georgia Adult Education Association, Georgia Committee on the Humanities, and VSC. Gandy, Collus Johnson, and Preston Prather.
- f. "Management Development for the Managers in the City of Valdosta" - Three day conference 9:00 - 4:00 taught by Kenneth Henning 1/13-14-15/76. VSC and Institute of Government, U.Ga. Gandy and Sandra Gibson.
- g. "Supervisory development for the City of Valdosta" - Taught by Kenneth Henning on five Thursdays - 9:00 - 4:00 1/29, 2/5, 2/12, 2/19, and 2/26/76. VSC and Institute of Government, University of Georgia; Gandy & Judith Mohr.

- h. "Accounting Procedures for DHR Personnel and Government Officials"- 1:00 to 5:00 p.m. each day, 12/9-12-16-19/76. Jointly sponsored by VSC and Albany Junior College. Gandy and James Carmichael.
- i. "Status of the Economy and Potential Future Trends" - Three Monday nights, 7:30 to 9:30. Jointly sponsored by VSC and the University of Georgia. Gandy and Dr. Leonard Hampton.
- j. "Four College Consortium" - Program continuous through the year; support for the Special Learning Laboratory, etc. Joint program between VSC, Albany State College, Fort Valley State College, and Georgia Southwestern State College. Goodsell and Dr. Ben Groomes.

2. Special Continuing Displays, Conferences, Programs by Departments and Units of the College

- a. Library - The lower level lobby has a display area in which the library staff keeps a continuing rotation of displays of art, specialized art forms, photography, books, manuscripts, and similar displays open to the public.
- b. Art Department - The Art Gallery is open to the public several hours each day most days of the week. All types of art are displayed at one time or another. Themes are carefully selected; the displays have been presented in most interesting and imaginative ways.
- c. Modern Foreign Language Department - For several years this department has continued to offer at night once per week the "Magic Carpet" series of films and slides combined with lecture/discussion. These projection/talks center on the life and culture of a given foreign country and are open to the public.
- d. Music Department - The Music Department has continued its usual strong leadership in presenting many and varied musical programs both for educational and entertainment purposes. The special music presentations called "Master Classes and Recitals" have been continued with fine success.
- e. Speech and Drama Department - This department has traditionally presented three major productions per academic year, plus several shorter plays, skits, Readers Theater presentations, debates, and other programs of interest to the public.
- f. Physical Education and Athletics Department - This department sponsors the intercollegiate athletics programs for men and women, plus the intramural program on campus.

- g. Physics Department - The Planetarium is located in the Physics Department and continues to be one of the most popular places for educational programs on campus. Approximately 4000 persons visit the Planetarium yearly on scheduled visits. The scheduling is done through the Office of College Relations with the director of the Planetarium, Dr. Dennis Marks.
- h. History Department - Usually in the winter quarter the History Department presents a series of lectures. This year was no exception, though the program was greatly expanded by two grants from the Georgia Committee for the Humanities. The program ran two quarters in length and included two separate types of programs each of which is mentioned in the list of conferences to follow. Dr. Dale Peeples and Gandy.
- i. Public Services Division - This division is responsible for helping conduct conferences and short courses and would not normally be mentioned in this list. However, during the 1975-76 year, the Division conducted a series of programs, primarily through civic and service clubs, entitled "American Issues Forum," which fits at this point in the report and later under conferences. Director of the program was Tom Gandy.
- j. Week of Seminars - Chaired by Mr. James Black this year, the Week of Seminars contained approximately 160 programs of 1 to 2 hours each and was conducted over a 2½ day time span rather than a whole week. This series each year continues to be very popular with the townspeople and surrounding area.
- k. Black Awareness Week - This week of special attention to the contributions and needs of blacks has become a yearly feature, and has been moderately successful in attracting people from the community as participants. Willie Jackson was the leader.
- l. Other Continuing Programs - Many other programs of an educational nature are available yearly for community participation. Examples would include the VSC Foundation, the Forward VSC Committee, VSC Entertainment Association, specialized workshops and conferences closely related to course work and thus not listed among the usual conferences and short courses. Also, examples would be the monthly meetings of the Lowndes Adult Education Association chaired by Dr. Watkins and the Service Delivery Council chaired by Gandy.

3. General Listing of Conferences, Workshops, and Seminars Held at Valdosta State College During 1975-76.

The following listing of conferences, workshops, and seminars held on campus or in the immediate area are of two types:

- (1) Many programs were planned by people and agencies in the area and were brought to campus for housing and program assistance.
- (2) Many others were originated, planned, and conducted by staff and faculty at VSC.

The key persons involved in each project, both program and administration, are listed.

It should be noted that the year produced almost half again more conferences and short courses than any year prior to this one.

1. 7/7-12/75 - Boys Basketball Camp. James Dominey and Don Veal.
2. 7/14-18/75 - Girls Basketball Camp. Dominey and Veal.
3. 7/21-26/75 - Boys Basketball Camp. Dominey and Veal.
4. 7/20-25/75 - Twirling Camp. Bill Bunch and Sanford Campbell.
5. 7/21-27/75 - Band Camp. Ed Barr and Bill Bunch.
6. 7/28-8/1/75 - Summer Theatre Workshop. Joel Boatwright & Ren Christie.
7. 7/30-31/75 - Language Arts Workshop - Ed Merryman/Merryman.
8. 7/30-31/75 - Book Fair - Merryman/Gandy.
9. 7/9/75 - "The State of Economics in the Nation" - Speaker: Bill Flowers. Al Zlabinger/A.L. Addington.
10. Project Sword - "Communications and Management Training Workshop" - Department of Human Resources. Brenda Wall/Watkins. 7/17-18/75.
11. 7/25/75 - "Career Education Seminar" - Speaker: Dr. Ralph Kester. Floyd Toth/Toth.
12. 8/4/75 - "Proposal Writing Conference." - Speaker: Preston Prather. Collus Johnson/Gandy. (N.E.H. & G.A.E.A. sponsorship with VSC)
13. 8/16/75 - Commencement - Speaker: Dr. Jake Ward, Emory University. President Martin/ Ren Christie.

14. 8/18-19/75 - Food Stamp Issuance Workshop - Charles Farrell/Gandy.
