tive Council -----206

SECTION I

AN OVERVIEW OF 1976-1977

## I. AN OVERVIEW OF 1976-1977

The President's report of last year ended with these words:

"Better things and a brighter outlook are surely in the offing for 1976-77. We look forward with hope to next year." Those optimistic words came at the conclusion of a year of frustrations, financial pressures, faculty unhappiness, and quiet but general unrest on the campus. We are grateful that the optimistic view proved correct. This has been a better year, one to which we can point with pride. The responsibilities of a state college, teaching, research, and public services, have all been performed by our faculty and staff in a very admirable way. Some of the faculty complain about large classes or heavy teaching loads, but very few let their objections affect the quality of their teaching effort. I am convinced that most of our faculty are diligent in their efforts, and that the quality of our instruction is excellent.

Various public services are performed above and beyond the call of duty. Seminars and workshops are frequently held with broad faculty participation. Dr. Dale H. Peeples of the History Department has been particularly successful in obtaining grants for timely seminars which involved the community as well as our faculty. Numerous concerts and plays are produced, adding much to the quality of life in this college community.

I am always a bit surprised at the amount of research and writing that takes place within our faculty each year. Notwithstanding our almost total lack of funds with which to support research on this

campus, a number of our faculty publish papers in scholarly journals and write books and monographs of note; and many perform other types of significant creative activities. Dr. Gordon L. Teffeteller, Head of the History Department, stated the following in his annual report, and it is fairly typical of several other departments: "Several members have completed or are revising book-length manuscripts. Self-financed research activities, in the absence of funded research, was the normal approach by almost all members. Journal articles appeared in print during the past year, and several VSC historians read papers at meetings of professional societies."

From 221 in 1975-76, the total number of full-time faculty rose during the year to 223. This number takes account of 36 additions and 34 deletions. Although several valuable faculty members left us by resignation or retirement in 1976, we had such a good year of recruiting that our faculty for 1976-77 was stronger than it had ever been. Because of the excellent qualifications of several persons we are adding to the staff this summer, I believe our faculty in 1977-78 will be even stronger. Nearly 60% of our faculty now hold the terminal degree in their fields.

At the close of the year of this report, Valdosta State College had five persons of faculty rank to retire. Miss Thera O. Hambrick, Director of the Library and Professor of Library Science, retired after 31 years of outstanding service to our College. The VSC Library showed tremendous growth and expansion under her leadership. We have recommended to the Regents' Office that Miss Hambrick be given Emerita

status because of her faithful and dedicated service to this institution. Mr. James E. Martin, Professor of Physics, retired after serving our college in a most superior manner for 19 years. Mr. Martin has been in ill health for the past several years, and will be greatly missed by us all. Mrs. Martha McKey, Assistant Professor of English, retired because of ill health after 15 years' service to Valdosta State College. She was a valued member of our Department of English. Two additional retirements were Mrs. Willa Shovar, Assistant Professor of Psychology, Counseling and Guidance, and Mr. James L. Thornton, Associate Professor of Modern Foreign Languages.

The 1976-77 academic year showed marked indications of improved morale and more effective performance on the part of the faculty over that of the past two years. The improvement in morale is attributable in large measure to the 9 1/2% (average) raise in salary, voted by the Legislature and the Board of Regents to become effective, July 1, 1977. There was some dissension manifested among faculty during the year, but it caused little difficulty.

One of the most outstanding accomplishments of the year may very well have been the development of a systematic, easily-understood approach to faculty evaluation and salary determination. This process involves internally-developed instruments of evaluation in each department, which are in turn transposed into a standard evaluation form. This form, completed for each faculty member, includes a formal recommendation for the following year's salary. In addition, an administrative evaluation instrument was developed, allowing each faculty member

to evaluate the entire administration, including the President. The results were then summarized and confidentially reviewed by the administrators involved. The entire process won wide acceptance by the faculty and by representatives of other institutions seeking appropriate means of faculty and administrative evaluation.

A number of minor areas of administrative conflict were reconciled during the year. They included difficulties related to the management of the Physical Education Department, the Political Science Department, and the development of a Master of Public Administration degree.

Student enrollment at Valdosta State College dropped from 5219 in 1975 to 5011 in the Fall of 1976. This necessitated some adjustments in our budget and caused some problems throughout the year. The 5011 students included 4305 whites, 659 blacks, and 47 other minorities; there were 2301 men, and 2710 women.

Enrollments in the foreseeable future are probably not going to resume their upward trend of prior years. In fact, we may well be lucky to hold our own with a stabilized enrollment. At present we are trying to build up our enrollment through intensive recruiting, notwithstanding our reservations about the wisdom of this policy. Our doubts stem from the fact that we are definitely getting more weak students than before. Culturally deprived students, thanks to the availability of financial aid, are coming to us in larger numbers. Not only is their preparation weak, but our faculty report that it is harder to motivate them. Scores on the SAT for incoming students and results on the Regents' Testing Program support this observation, which evidently applies to the University System as a whole.

Given below are the results of our students on the Regents' Testing Program, from Spring Quarter, 1975, to Spring Quarter, 1977:

	% PASSING		RANK ORDER	
	<u>VSC</u>	<u>System</u>	<u>Within Category</u>	<u>Within System</u>
Spring, 1975	75.38	70.42	3rd	8th
Summer, 1975	71.62	70.18	5th	16th
Fall, 1975	77.38	66.48	3rd	7th
Winter, 1976	69.73	61.36	2nd	11th
Spring, 1976	67.58	61.59	5th	13th
Summer, 1976	66.29	63.11	3rd	17th
Fall, 1976	71.14	66.79	3rd	16th
Winter, 1977	67.31	58.76	2nd	8th
Spring, 1977	71.84	62.67	3rd	8th

At the same time our overall performance on the Regents' Test is dropping, we are clearly serving a larger number of strong students than ever before. This conclusion is based upon analysis of entering SAT scores and the number of our students accepted in professional and graduate schools.

Much concern has been expressed over failure of large numbers of students to show satisfactory improvement in basic grammar, reading, and mathematics after two years of study in our colleges. Although students from Valdosta State College have done relatively well on these tests, we are not satisfied, and our faculty are working hard to make improvements.

The problem is upon us and it is likely to persist. In addition

to our Special Studies activities, we must concentrate more effort on basic reading, writing, and arithmetic skills in all introductory classes. We have a secondary responsibility to make the public schools aware of the inadequacies of these students attending college in order that they may work with us in meeting the problem.

Valdosta State College remains committed to high academic standards. Dr. Willa Valencia, Head of the English Department, made this statement in her report to the President this year: "While meeting the needs of students less literate than in past years, the department [English] is still committed to excellence and is determined to resist the mushrooming national trend of grade inflation and lowered academic standards." What Dr. Valencia says about the Department of English could also be said about the majority of the departments in the college.

Faced with a rapidly diminishing pool of high school graduates, this college -- like so many others -- is seeking new populations which can be served with existing resources. Some colleges have made the mistake of trying to offer too many different programs, thereby watering down the overall program of general education. Valdosta State College is placing its emphasis not on a proliferation of new academic programs, but, instead, a rearrangement of existing programs and resources in order to take full advantage of available populations to be served. It is quite clear that we need to improve our offerings for older, part-time students.

After more than a year of careful consideration involving the faculty and administration, Valdosta State College has developed a

well organized evening community college program. This program is composed of lower division courses and is aimed at serving part-time students in the immediate community. In addition, efforts will be made to recruit an increased number of part-time students for the normal day-time offerings of the institution. A community college office, coordinated by a staff member transferred from another responsibility, will assist part-time students in arranging their schedules to suit their personal situations.

Among the things in which we take pride this year are the activities of Dr. William M. Gabard, Director of International Studies. Through several programs and visits by distinguished persons, he has brought an air of international culture to the campus. We have memberships in both the Georgia Consortium and the Southern Consortium for International Education, and through these agencies our reputation in International Education has been greatly expanded. Interest and participation in various conferences and meetings concerned with International Studies has been very good.

Many of our students and faculty have been involved in the International Studies Program both on and off campus. Ten students represented the college at the National Model United Nations in New York, and more than a dozen faculty members have contributed in a positive way to the program during the year. Of considerable importance this year was the staging at Valdosta State College of a Third World Culture Series which focused on India. Among the several notables who visited our campus was the Acting Ambassador from India, A.P.Venka-

teswaran. The College received widespread publicity because of the Ambassador's visit, which was considered a great success.

The School of Education also had some notable achievements this year. We are pleased that during the year Valdosta State College became a regional center for the preparation of vocational education teachers, with authorization to grant bachelor's and master's degrees. This development will contribute to better prepared vocational teachers and administrators and, indirectly, to an improvement in the economy of South Georgia. Also in the School of Education we are receiving wide recognition for creative work in the development of innovative training programs for both administrators and teachers. Two projects, ROME-FOCUS and CLASS are being disseminated state-wide. Our Center for Community Education has been in operation for only one year, but has assumed a position of state-wide leadership. The community education movement encourages utilization of all community resources to achieve cooperatively developed community goals.

Our intercollegiate athletic teams have all excelled this year, and have brought credit and recognition to Valdosta State College. The men's basketball team tied for first place in the South Atlantic Conference and finished third in the NCAA Division II regional playoffs. The women's basketball team won the state championship, finished third in the regional championship, and fifth in the NIAT tournament held in Amarillo, Texas. The cross-country team won the South Atlantic Conference Championship, thereby qualifying for the nationals, where they finished eighth. The baseball team won both the South Atlantic

Conference and the regional championships, advancing to the NCAA World Series where they finished fourth. These accomplishments reflect very favorably upon the coaches and athletes who represent this institution. We are proud of all of them, and believe we have the best over-all intercollegiate athletic program in the South Atlantic Conference. As a matter of fact, we won the all-sports trophy given by the Conference at the end of the year for the institution having the most successful year in all sports. A well-managed athletic program is an asset to any college, and we are pleased with this evidence that we have such a program.

We were also pleased this year with our Student Government Association. Officers for the year, Dick McLeod, Gary Wisenbaker, Kathleen O'Neal, and Marion Odom did a good job. They had the cooperation of students and faculty in carrying out their programs. Mr. Wisenbaker also served as president of the University System Student Advisory Council and brought recognition to this institution. With the beginning of spring quarter, 1977, Marc Treadwell, Joe Bishop, Chip Stewart, and Robert Kopyy became the new SGA officers. They are an excellent group, and we expect great things from them and the other students next year. Students have been very helpful to the Development and College Relations staff this year in conducting telephone campaigns for up-dating of addresses and fund raising.

As the 1977 VSC Annual Fund campaign neared completion in early July, it appeared that total receipt would approach \$38,000 to \$40,000. The total last year, when we had our best previous drive, was \$35,535.

The number of donors has risen from 721 in 1976 to more than 1,000 in 1977. The Annual Fund organization was elaborated this year with the addition of a Faculty Division to the three existing divisions for Businesses, Alumni, and Parents. The Parents and Faculty Divisions are still not productive of substantial amounts, but a Parents Phonathon in Valdosta on May 31 elicited \$700 in pledges, a hopeful sign for the future. Increased use of telephone solicitation was perhaps the most noteworthy change in operation of the annual fund drive. Alumni phonathons in ten cities with large concentrations of alumni proved especially effective in generating first-time donations. Though small, these first-time gifts are essential to a young, growing annual fund. By discovering a large number of address changes, the phonathons are also helping us save money on postage while keeping in touch with more alumni.

During the year it became increasingly clear how poorly the college fares in times of rapid inflation. Revenues realized from state and non-state sources invariably lag behind the unparalleled inflation the college experiences in the price of all goods and services it must purchase. This condition is especially true with regard to increasing utility costs since the Arab Oil Embargo of 1973. Over this four-year period, through strong conservation measures, annual electrical consumption for the college has been reduced from 20,500,000 kilowatts to 13,000,000 kilowatts, a reduction of approximately 36 per cent. Yet, total utility costs for the college have increased 40 per cent during the same period of time. The prospect is certainly good for

continued inflation in utility costs next year, and we feel a growing concern for our educational programs as we see more of our institution's resources diverted into this area.

The needs at Valdosta State College are perhaps comparable to the needs at most units in the System. Though our needs are few in number, they are crucial. Our lack of laboratory and teaching equipment, books, and supplies, severely handicaps us. Dr. Julian J. Schreur, Head of the Department of Physics and Astronomy, stated it this way in his annual report: "The most pressing need continues to be for modern laboratory equipment .. We need a five-fold increase in regular and continuing allocations for equipment purchases." The needed equipment ranges from a modern greenhouse for use by the Biology Department to replacement lamps for the lighting in Sawyer Theatre where the Department of Speech and Drama produces its plays. We have suffered through several years of inadequate equipment budgets and we are rapidly reaching the point where our instruction will be seriously affected adversely, unless something is done. Moreover, salaries must continue to improve if we are to remain competitive with other institutions and maintain a strong faculty. Inflation is our worst enemy. We must keep up.

Our greatest physical need remains that of a physical education complex for use by classes, individual students, intercollegiate athletic teams, and the general public. This need becomes more pressing with the passing of each year. We are pleased with the prospect for having money to renovate Powell Hall next year, but West Hall

continues to need major renovation. There are also some land needs which must be met in the near future.

Reade Hall, thoroughly renovated in 1975, was opened to students in September of 1976. With the addition of this "new dormitory" we now have space for 1812 students on campus. We had a 96% occupancy rate during the fall quarter. Supervision of these facilities requires a staff of between 40 and 45 people each year. Our food service remains good. Though all students cannot be made happy over having to eat in the cafeteria, we believe that our food service staff does an excellent job. We are fortunate in this regard.

For some time now, we have been looking over the horizon to our next Southern Association self-study, which will begin with the appointment of committees in the 1977-1978 spring quarter. This past year we revised and updated our college statutes; in September our Administrative Workshop will concentrate on improved management through goal-oriented planning; and we are undertaking this summer a college-wide mission study. We believe we have affairs well in hand as we prepare for major events that are rapidly approaching.

In summary, Valdosta State College has had a good year, and we look forward to another year of progress and achievement in 1977-78.

We again want to thank the Chancellor and his staff, the Board of Regents, the General Assembly, and the Governor for their continued support of, and interest in, public higher education in Georgia.

SECTION II

FACULTY

## II. F A C U L T Y

### 1. General Evaluation of the Faculty

Faculty morale this year improved over that of last year. We had a successful year in recruiting new faculty, and we believe we have an excellent teaching staff.

Although a number of issues concerning college governance, staff evaluation, and budgeting surfaced during the year 1976-77, the general dedication to instruction on the part of faculty remained high. Some of the problems stemming from these issues could be attributed to increased membership and activism in the local chapter of the A.A.U.P. This organization was exercising the added strength its leadership gained from a successful court suit over salary increases the previous year. An added surge of leadership came also from department heads as more responsibility for academic management was assigned to them by the deans and directors. This was especially evident in the area of formal faculty evaluation. Again this year, all deans and directors holding faculty rank were actively involved in teaching.

During this past year, more than 40 faculty members and department heads participated in a series of faculty development workshops co-sponsored with the Southern Regional Education Board. A representative of S.R.E.B. also conducted a mid-year in-service session on faculty evaluation which led to an expanded approach to faculty improvement.

Although we had fewer problems related to advising this year, we still have work to do in this area. As we continue to focus

attention on student advising, we are hopeful that the remaining problems will be minimized in the coming year.

In the School of Arts and Sciences, definite plans were developed for implementation of an expanded day and evening program, effective with the coming fall quarter, for part-time students in the area. The program will emphasize lower division Arts and Sciences courses. It is hoped that, with active recruitment, enrollment of part-time students can be increased substantially and the educational needs of the Valdosta area can be more adequately served. Mr. John Albright will coordinate this activity. Dean James D. Daniels is giving strong leadership in the School of Arts and Sciences.

Dr. A. L. Addington of the School of Business Administration, through the process of seeking formal accreditation for his program, made a positive effort to upgrade faculty and quality of instruction. It is hoped that, within another year, this recognition by the American Assembly of Collegiate Schools of Business will be realized. A final version of the Master of Public Education degree has been sent to the Regents' Office for review. The program in the School of Business Administration grows stronger each year. Much credit is due the Dean and the faculty.

The School of Education is extremely well-staffed and is performing its function as a regional education center quite admirably. Dr. John W. Letson continues to bring wide recognition to the school. Unfortunately, there have been problems involving some of the faculty this year, notably in the Department of Health,

Physical Education, and Athletics. Steps have been taken to resolve this disharmony, and hopefully it is a thing of the past. Dr. Letson has now gathered around him a strong group of department heads who are capable of giving good leadership in the school.

The non-teaching services of the School of Education are becoming more and more significant as an aspect of its overall mission. In addition to staff development activities and the Psychology Clinic, the Speech and Hearing Clinic is providing an invaluable service to public schools and other agencies over the entire region. Joint appointments in teacher education, initiated two years ago, continue to improve communication among all of the departments involved in this important function.

Program development in the Division of Fine Arts advanced again this year under the leadership of Dr. William F. Bunch. The Music Department clearly made the most progress in 1976-77 with its emphasis on recruitment, especially under Mr. Ed Barr's leadership. The summer music camps, too, are proving a great success.

The Speech and Drama Department was also successful in its numerous activities this year. The Art Department, however, has not made the progress which we had expected it would make several years ago. Dr. Bunch has definite plans during the coming year to strengthen its efforts in recruitment and to broaden the services offered by the faculty.

The increasing academic strength of the Division of Nursing is

clearly evident in the achievement of recent graduates who are being placed in positions of leadership throughout South Georgia. The National League of Nursing accreditation of the Nursing Division in the spring of 1976 has also provided the impetus to seek additional funding for special training activities such as geriatric nursing. Mrs. Virginia Harmeyer is providing excellent leadership for the program and is rapidly becoming a state-wide leader in nursing education.

Like most R.O.T.C. programs, the Valdosta State College unit has experienced some difficulty in recruiting the necessary number of well-qualified cadets. Thanks to the diligent efforts of Major Raymond Wetzel, however, the provisional status resulting from low enrollment was removed during the past year. This program remains an asset to the institution and the community.

Our Graduate Studies Division still prospers, though our enrollment in this area has leveled off. Dr. Robert D. Fisher continues to give good leadership here.

The Special Studies Program is serving a larger number of students each year. With a modest staff of five, Mr. George W. Brannon is offering remedial instruction to incoming freshmen who show special weaknesses in the basic academic areas. His efforts are strongly supported throughout the College, and we believe we have one of the better programs of this kind in the University System.

## PART II - Statistics

## Faculty

1. Identification of faculty changes, 1976-77. (The data below should be consistent with the data contained in the MIS.)

FACULTY:

3. List of those on leave during the whole or part of the year; period of leave; purpose of leave:

BAXTER, JAMES T., M.S., Instructor in Chemistry. Academic year. Doing graduate work at the Georgia Institute of Technology.

BERLIJN, J.J.H., Ph.D., Professor of Physics. Academic year. Illness.

CHILDS, RON, Ed.S., Special Education, Instructor in Special Education. Academic Year 1976-77 and 1977-78. Working on doctorate at the University of Northern Colorado, Greeley, CO.

CRIBBS, WILLIAM H., M.Ed., Instructor in Biology. Academic year. Doing graduate work at the University of Georgia.

HIERS, MARGARET, Ed.D., Special Education, Professor of Special Education. Jan. 1, 1977-Dec. 31, 1977. Serving with Project HOPE in developing programs for Trainable Mentally Retarded in Peru.

McDOUGAL, OUIDA, M.Ed., Instructor in Education. Academic year. Doing work on Ph.D. at Ohio State University.

MARTIN, WILLIAM H., Ed.D., Associate Professor of Art. Academic year 1976-77. Temporary teaching and research professorship at Sir George Williams University in Montreal, Canada.

SHEELEY, E. EDWARD, M.S., Instructor in Biology. Academic year. Doing graduate work at Auburn University.

4. List of those doing graduate work--indicate summer quarter of 1976 and/or academic year 1976-77 and the institution attended:

BENNETT, LEE, M.S., Professor of Art. Summer of 1976. Study at Arrowmont School of Design.

BRADLEY, C. LEE, M.A., Assistant Professor of Modern Foreign Language. Enrolled for one hour of research at the University of Missouri, under the University's "continuous enrollment" requirement.

BRIDGES, WILLIAM H., M.S., Assistant Professor of Biology. Enrolled Summer Quarter, 1976, at Florida Institute of Technology.

CHILDS, RON, Ed.S., Special Education, Instructor in Special Education. Enrolled the academic year 1976-77 and Summer 1977 in the doctoral program at University of Northern Colorado, Greeley, Colorado.

DEAVOURS, GEORGE M., M.A., Assistant Professor of Special Education, Audiologist with Valdosta Speech and Hearing Center. Enrolled at the University of Southern Mississippi for Doctoral Dissertation and Comprehensive exams during the academic year 1976-77.

DOUTHIT, MARY LEE, M.A., Temporary Instructor in Anthropology. Enrolled Summer Quarter, 1976 at the University of Texas, Austin, Texas.

DUDASIK, ANNE, M.Ed., Instructor in Mathematics. Enrolled Summer Quarter, 1976 at the University of Florida.

ELAM, VERA, M.S., Assistant Professor of Nursing. Enrolled academic year 1976-77 for education courses at Valdosta State College.

GRIFFIN, MARY F., M.Ed., Assistant Professor of Secretarial Administration and Business Education. Completed the Ed.S. degree in Business Education, Summer Quarter, 1976 at the University of Georgia.

GRIFFITH, DOROTHY, M.S., Assistant Professor of Music. Completing doctoral study (D.M.A.) during Summer Quarter, 1976 at Peabody Conservatory of Music, Baltimore, Maryland.

HALE, DENNIS L, M.A., Assistant Professor of Modern Foreign Language. Enrolled Summer Quarter, 1976 and Fall, Winter, and Spring Quarters, 1976-77 for dissertation credit at Florida State University.

HARMEYER, VIRGINIA, M.N., Professor of Nursing. Enrolled Summer Quarter, 1976 and academic year 1976-77 for dissertation credit at the University of Texas, Austin, Texas.

KAHLER, RUTH, M.S., Assistant Professor of Art. Summer of 1976. Studied at Arrowmont School of Design.

LILEY, FLOYD W., M.S., Instructor in Criminal Justice. Enrolled Summer Quarter, 1976 at Central Missouri State University.

McINTYRE, HUGH K., M.S., Assistant Professor of Biology. Enrolled Summer Quarter, 1976 at Auburn University.

OUTLAW, CHARLOTTE, M.S., Assistant Professor of Mathematics. Enrolled Summer Quarter, 1976 at University of Cincinnati.

ROBINSON, LAVAN, M.Mus., Associate Professor of Music. Undertaking doctoral study (D.M.A.) during Summer Quarter, 1976 at Louisiana State University, Baton Rouge, Louisiana.

WEST, BILLY H., M.C.S., Assistant Professor of Accounting. Enrolled at Georgia State University for the Academic Year 1976-77 for graduate study.

WILKERSON, EVELYN, M.S.N., Assistant Professor of Nursing. Enrolled academic year 1976-77 for education courses at Valdosta State College.

5. Those Receiving Advanced Degrees in 1976-77:

BASS, GENELDA, Assistant Professor of Special Education. Received Ph.D. degree in January, 1977 from the Florida State University, Tallahassee, Florida.

BROWN, S. FRANCES, Instructor in Nursing. Received M.S.N. degree in September, 1976 from Medical College of Georgia, Augusta, Georgia.

DUDASIK, ANNE, Instructor in Mathematics. Received Ph.D. degree in June, 1977 from the University of Florida.

GRIFFIN, MARY F., Assistant Professor of Secretarial Administration and Business Education. Received the Ed.S. degree in Business Education, Summer Quarter, 1976 at the University of Georgia.

GRIGSBY, DONALD P., Assistant Professor of Psychology, Counseling, and Guidance. Received the Ph.D. degree in August, 1976 from Auburn University.

IVY, FRED, Assistant Professor of Special Education. Received Ph.D. degree in January, 1977 from the University of Houston, Houston, Texas.

SPELL, G. ROBERT, Assistant Professor of Speech and Drama. Received Ph.D. degree from Florida State University in June, 1976 in Speech Communication.

TUCKER, BEVERLY A., Assistant Professor of Education. Received Ed.D. in March, 1977 from Florida State University, Tallahassee, Florida.

6. Highest Degrees Held by Faculty Members.

(b) Promotions of Faculty Members (April 1976 Meeting, Board of Regents).

To the rank of Professor:

GORE, JOSEPH A., Department of Mathematics

TEFFETELLER, GORDON L., Department of History

To the rank of Associate Professor:

BROWN, C. HUGH, Department of Biology

BUCKHIESTER, PHILIP G., Department of Mathematics

CURTIS, JOHN H., Department of Sociology and Anthropology

FRECH, WILLIAM P., Department of History

GOODSELL, DAVID R., Department of Administration,  
Supervision, and Secondary Education

HANES, SARA LOUISE, Department of English

KOPPY, INGEBORG M., Department of Modern Foreign Languages

SAEGER, RICHARD T., Provisional Department of Political  
Science

WILSON, GARY L., Department of Health and Physical  
Education

To the rank of Assistant Professor:

DeCOURSEY, VINCENT W., JR., Provisional Department of  
Political Science

TUCKER, BEVERLY ANN, Department of Field Services  
and Instructional Procedures

FACULTY:

7. Engagement in Teaching

- (a) Average number full-time (EFT .75 and 1.0) teachers during regular session -

Head count - 252                      EFT - 161.65

- (b) Average number full-time teachers during Summer Quarter, 1976 -

Head count - 129                      EFT - 93.30

7. (c) Teaching by Others.

Summer Quarter, 1976:

ADDINGTON, ARNOLD L., Ph.D., Dean of the School of Business Administration and Professor of Economics-Business Administration (5 hours).

BUNCH, WILLIAM F., Ph.D., Director of the Division of Fine Arts, Head of the Department of Music, and Associate Professor of Music (5 hours).

FISHER, ROBERT D., Ph.D., Director of the Division of Graduate Studies and Associate Professor of Education (5 hours).

GREER, MACK V., M.D., College Physician and Assistant Professor of Biology (5 hours).

Fall Quarter, 1976:

BLACK, JAMES L., M.A., Assistant to the Vice President and Instructor in Modern Foreign Languages (5 hours).

BUNCH, WILLIAM F., Ph.D., Director of the Division of Fine Arts, Head of the Department of Music, and Associate Professor of Music (5 hours).

DANIELS, JAMES D., Ph.D., Dean of the School of Arts and Sciences and Associate Professor of History (5 hours).

GREER, MACK V., M.D., College Physician and Assistant Professor of Biology (5 hours).

LANCASTER, JOHN E., Ph.D., Director of Development and Assistant Professor of History (5 hours).

O'NEAL, SALLY, M.Ed., Assistant Librarian and Instructor in Library Science (5 hours).

Winter Quarter, 1977:

ADDINGTON, ARNOLD L., Ph.D., Dean of the School of Business Administration and Professor of Economics-Business Administration (5 hours).

BLACK, JAMES L., M.A., Assistant to the Vice President and Instructor in Modern Foreign Languages (5 hours).

BOND, ANDREW J., M.Ed., Dean of Students and Assistant Professor of Education (5 hours).

BUNCH, WILLIAM F., Ph.D., Director of the Division of Fine Arts, Head of the Department of Music, and Associate Professor of Music (5 hours).

DANIELS, JAMES D., Ph.D., Dean of the School of Arts and Sciences and Associate Professor of History (5 hours).

FISHER, ROBERT D., Ph.D., Director of the Division of Graduate Studies and Associate Professor of Education (5 hours).

GREER, MACK V., M.D., College Physician and Assistant Professor of Biology (5 hours).

LANCASTER, JOHN E., Ph.D., Director of Development and Assistant Professor of History (5 hours).

WRIGHT, DIANNE H., M.S., Serials Librarian and Assistant Professor of Library Science (5 hours).

Spring Quarter, 1977:

BUNCH, WILLIAM F., Ph.D., Director of the Division of Fine Arts, Head of the Department of Music, and Associate Professor of Music (5 hours).

DOUGLAS, BETTY L., M.S., Assistant Reference Librarian and Assistant Professor of Library Science (5 hours).

GREER, MACK V., M.D., College Physician and Assistant Professor of Biology (5 hours).

HAMBRICK, THERA OLLIS, B.S., Director of the Library and Professor of Library Science (5 hours).

LANCASTER, JOHN E., Ph.D., Director of Development and Assistant Professor of History (5 hours).

NETTLES, WILLIAM ROBERT, III, M.Ed., Associate Dean of Students for Student Development and Instructor in Education (5 hours).

9. Publications, Research in Progress and Creative Projects

(a) Publications

Adams, Margrett L.

"Identification and Formulation of Research Problems," in Guide to Research in Business Education, Calfrey C. Calhoun, Editor, National Business Education Association.

Agar, John

Twelve poems in Quoin.

Balof, Eugene H.

Reviewed three works in "Persuasion" in the Southern Speech Communication Journal, and the "High School Debate Institutes," Debate Issues.

Barnette, Ronald L.

"Anselm and the Fool," in the International Journal for the Philosophy of Religion. "Kripke's Pains," in the Southern Journal of Philosophy. "Grounding the Mental," forthcoming in Philosophy and Phenomenological Research. Completed and submitted a paper "Conditions for Consciousness and Phenomenological Elimination" to the 16th Annual World Congress in Philosophy. Completed and submitted a paper entitled "Brainwashing and Responsible Action" to The Personalist. Completed and submitted a paper "Plantinga's Triple" to Analysis.

Bass, Genelda

"Needs Perceived by Elementary Teachers Before the Placement of Exceptional Children in Their Class." Doctoral Dissertation.

Bechtel, Elizabeth

Bechtel, H. Bernard and Elizabeth Bechtel. The Caged Snake. Curtis Publishing Company (in press).

Bradley, C. Lee

Editor, Who's Who in Foreign Languages in Georgia and North Florida High Schools, 1977.

Busch, C. Trent

Poems published in The California Quarterly, The Lake Superior

Review, Sahara, and The Clay Tablet. "Robinson's Luke Havergal: Deliberate Degeneration," submitted to The Arlington Quarterly.

Curtis, John H.

Reviews of The Marriage and Family Counselor's Quarterly: "Sex through Affection," by Leo Kelly; The Marriage and Family Counselor's Quarterly: "Against Our Will: Men, Women, and Rape," by Susan Brownmiller; The Marriage and Family Counselor's Quarterly: "Re-Examining Sex Roles: Evolution or Revolution?" by Harper-Row; Journal of Marriage and the Family: "Transgenerational Analysis in Marriage," by N. Paul and B. Paul; The Family Coordinator: "Re-Examining Sex Roles: Evolution or Revolution?" by Harper-Row, eds.; The Journal of Sex Education and Therapy: "Sexual Experiences Between Men and Boys: Exploring the Pederast Underground," by Parker Rossman. Published "Children's Books About the Body: A Review," The Marriage and Family Counselor's Quarterly, 1976, 10, 42-43; "1975 Reviewers Choice: Books of Interest to Family Specialists," Journal of Humanics, 1976, 3, 61-65; "A Review of Grossett and Dunlap's Children's Books in Black History," The Marriage and Family Counselor's Quarterly, 1976, 10, 43-44; "Marital and Parenting Expectations of Non-Metropolitan Southern Youth," Marriage and Family Counselor's Quarterly, 1976, 10, 19-34 (with W.G.Minor); "Choice Books - 1975: Books of Interest to Family Specialists," The Marriage and Family Counselor's Quarterly, 1976, 11, 39-44; "Counseling Aids From the Research Press," The Marriage and Family Counselor's Quarterly, 1976, 11, 49-50; "An Argument for the Use of Paraprofessional Counselors in Premarital and Marital Counseling," In Dahl and Olsen, Inventory of Marriage and Family Literature, St. Paul, Minnesota, University of Minnesota, 1978; "A Response to L.W. Harvey's Comment on an Argument for the Use of Paraprofessional Counselors in Premarital and Marital Counseling," The Family Coordinator, 1977, 26, 71; "Remarriage to the Original Mate," Journal of Humanics, 1976, 3, 12, (with B. J. Cosneck); "Books of Interest to Family Specialists: A Classified and Annotated Bibliography," The 1977 Supplement, Southeastern Council on Family Relations.

Chiang, P.S.

"A Note on Newton-Raphson's Method," by Sakashita and Sasaya, reviewed for Zentralblatt fur Mathematik; "On a Class of Starlike Functions," by M. P. Chen, reviewed for Zentralblatt fur Mathematik; "On the Univalence of Some Analytic Functions," by S.K. Bajpai, reviewed for Zentralblatt fur Mathematik.

Christie, Wesley R.

Playbook, "Historical Moments in Georgia Methodism," containing six religious vignettes.

Connell, James G. Jr.

"Some observations on Gladkov's Cement with the Formal'nyj Metod in mind," in The Architecture of Reading: Essays on Russian Literary Theory and Practice, Ohio State University Slavic Papers, 1976.

Cosneck, Bernard J.

"Remarriage to the Original Mate," in Journal of Humanics, Vol. 3, No. 12, 1976 (with John Curtis).

Daniel, Charles

"You Come, Too: The Role of the Companion in Robert Frost," to South Carolina Review.

DeZoort, Frank A.

Publications in progress, "A Multiple Criteria Model for the Systematic Evaluation of Academic Department Heads," co-authored with Dr. Rudolph White; "Cognitive Dimensions of a Dean's Influence on the Organizational Value System of Department Heads," co-authored with Dr. William C. Flewelling, Jr.; "Evaluation of Academic Department Heads - What Objectives, What Criteria, By Whom and How - As Perceived by Deans and Department Heads," co-authored with Dr. William C. Flewelling, Jr.; "Objectives: Relative Importance and the Interaction of Values and Environments," co-authored with Dr. Robert Finn.

Daniels, James D.

Accepted for publication, "Amos Kendall: Kentucky Journalist, 1815-1829." by Filson Club Quarterly.

Douthit, Mary L.

"Sites and Soils in Watuga, North Carolina," in Proceedings of the Mid-Atlantic Archeological Society Meeting, 1976 (with Burton L. Purrington).

Elkins, Chauncey

"Peter Principle Long Range Plans Eulogizes Marketing Executives." Submitted to Management Review and Sales and Marketing Management.

Ellis, Elmer C.

"Initiating Structure for Educational Change," NASSP Bulletin, April, 1977. (with Joseph Licata and Charles Wilson).

Ellis, Margaret W.

Handbook of Guidelines for the Instructional Sequence in a Competency-Based, Field Oriented, Inservice Teacher Education Program.

Fuller, William

"Ultima Thule," Western Poetry Quarterly, October, 1976.

Gaddy, Clyde H.

"An Analysis of the Relative Effect of Prompt Feedback on the Comprehension of Compressed Speech." University of Louisville, Kentucky: Center for Rate-controlled Recordings, February, 1977.

Godbold, E. Stanly, Jr.

"Christopher Gadsden: Radical Idealist," in Proceedings of the South Carolina Historical Association, 1976, pp. 14-23; submitted Don't Tread on Me: A Biography of Christopher Gadsden, to the University of South Carolina Press.

Goodsell, David R.

"Ben and Me, An Interdisciplinary Unit in Static Electricity," Science and Children, (in press).

Gore, Joseph A.

"Mathematical Units for the Non-College Bound," 1977; submitted for publication, "A Dice Game to Motivate Computational Skills."

Hicks, Randall C.

"Teaching Four Fundamental Operations with Whole Numbers."

Hiers, John T.

Accepted for publication, Practical English Workbook; Three entries in Biographical Guide to Southern Literature.

Hines, Linda O.

Accepted for publication, "A Black Intellectual in the New South: Monroe Nathan Work, 1866-1945, " in Phylon.

Hollingsworth, Caroline

"Report of Survey on Problems and Issues in Teaching Mathematics in Four-Year Colleges in Georgia," Reflections, May, 1977; "A Key Duplicator: A Congruence Machine," The Mathematics Teacher, February, 1977; "The Case of the Ambiguous Diagnosis," FCTM Newsletter, Winter, 1977; "New Math is World Problem," Valdosta Daily Times, September, 1976. submitted for publication, "A Comparison of Verbal and Non-Verbal Instruction in Elementary School Mathematics," Journal of Educational Research; "Polyomino Recreations for the Classroom," School Science and Mathematics.

Ivy, Fred

EASY-Evaluate Administration and Supervision Yourself, University of Houston Press, Summer, 1977.

Kelly, Leo J.

Sex Through Affection, Dorrance and Co., 1976; Reviews of Sex Education and Counseling of Special Groups and Sex Education for Disabled Persons, published in April, 1977, Personnel and Guidance Journal. Co-author of The Dictionary of Special Education and Rehabilitation, to be published 1978 by Love Publishing Company, Denver, Colorado.

Levison, William

Submitted "Comic Characters in Hard Times," to English Language Notes.

Licata, Joseph L.

"Initiating Structure for Educational Change," NASSP Bulletin, April 1977, (with Elmer Ellis and Charles Wilson); "Utilizing the GPAS In Developing an Instructional Component for School Administrators," CCBC Notebook, Fall, 1976; "The Relationship Between Student Brinkmanship and School Structure," Educational Forum, (accepted for Publication).

Little, Robert L.

Abstract: "The Dunham Ridge and Spurgeon Faults of Greene and Washington Counties, Tennessee;" Abstracts of South-eastern Section, Geological Society of America, 1977.

Marks, Dennis W.

"The Sphericity of Static Stars" (abstract), Bulletin of the American Astronomical Society, Vol. 8, No. 2, p. 308, 1976; "On the Spherical Symmetry of Static Stars in General Relativity," The Astrophysical Journal, Vol. 211, No. 1, Part 1, p. 266-269, 1977.

Marks, S. Patricia

"'Red Letters' and 'Showers of Blood' in The Scarlet Letter: Hawthorne's Debt to Increase Mather," by American Notes and Queries; "Time in Nicholas Nickleby," Victorian Newsletter; "O. Henry's 'Guilty Party': A Modern Oliver Twist" to The Comparatist.

Martin, William H.

Two reviews, "The Artist in His Studio" and "Children's Art Judgment," Winter, 1977, Revue Canadienne De Recherche En Education.

McKinney, Gordon B.

Accepted for publication, "Politics and the Appalachian Community: Southern Mountain Republicans, 1865-1900," by University of North Carolina Press; reviewed "John George Jackson, by Dorothy Davis," Appalachian Journal, IV (Winter, 1977), p. 184-185.

McMurry, Richard M.

"Rise to Glory: A Speculative Essay on the Early Military Career of John Bell Hood," James I. Robertson, Jr., and Richard M. McMurry, eds., Rank and File: Civil War Essays in Honor of Bell Irvin Wiley, Presidio Press, 1976. Accepted for publication, "Atlanta Campaign" and "Confederate Judicial System," Encyclopedia of Southern History; "Fight at Olustee," Civil War Times Illustrated.

Mensing, Raymond C., Jr.

Accepted for publication, "The Pseudo Poor Clare Nuns of Skidaway Island," by Georgia Historical Quarterly; "John O'Mahony," by Biographical Dictionary of Modern British Radicals.

Morrow, W.M.

Reviewed Why Nations Go To War by John G. Stoessinger, GPSA Journal, Spring, 1977.

O'Neal, Neal

Music Theory Workbook, Program Techniques in Concept Manipulations.

Pearson, F. Lamar, Jr.

Accepted for publication, "Anglo-Spanish Rivalry in the Chattahoochee Basin," by South Carolina Historical Magazine; "The Structure of Indian Society to 1565," Journal of Alabama Archaeology.

Presson, Sharon P.

Chapter "Identification and Arrangement of Research Report Parts" in Guidelines for Research in Business Communication, to be published by American Business Communication Association; "These Students Are Very Special," to be published in Spring, 1977 Issue of GBEA Armchair Bulletin, by Georgia Business Education Association.

Scott, David L.

Financing the Growth of Electric Utilities, Preager Publishers, 1976; Atlanta Economic Review, "Trading Options: New Polish on an Old Apple," January, 1976.

Spell, G. Robert

Presented a paper on "Inequity Theory" at the International Communication Association's Convention, 1977, in Berlin, Germany.

Teffeteller, Gordon L.

Accepted for publication, "Sir Rowland Hill: Soldier Par Excellence in Coachman's Image," by Proceedings of Consortium on Revolutionary Europe, 1977; submitted "Daddy Hill: Humanitarian Soldier of the Napoleonic Era," to Presidio Press.

Terrio, Lee

"Electronic Data Processing and Communication Disorders" to appear in Folia Phoniatria.

Tucker, Beverly A.

The Development of Directionality of Self Concept of Young Children, dissertation, 1977.

Valencia, Willa F.

"Enemies of Excellence in Academe," Valdosta State College Bulletin, LXIV, No. 4 (Fall, 1976), 14-15; "The Outlook for the Humanities in the College Curriculum," The Southern Spy, 3 (April, 1977), 1-3.

Ware, Fred A., Jr.

"Can the Training Community Stop Motivation Theory Isolationism?" in Training-The Magazine of Human Resources Development, (accepted for publication).

Whitesell, James J.

Walker, T.J. and J.J. Whitesell, "A New Species of Cone-Head from the Florida Everglades, (Orthoptera: Tettigoniidae: Neoconocephalus)," Entomological News, (in press); Walker, T.J. and J.J. Whitesell, "Neoconocephalus maxillosus: a Caribbean Conehead in south Florida (Orthoptera: Tettigoniidae)," Florida Entomology, (in press).

Wilkerson, James

Submitted "An Unfreshman English Course," to CEA Critic; "Milton's Rhythm of Being: Retraction and Expansion," SAMLA Bulletin.

Wilson, Charles M.

"Initiating Structure for Educational Change," NASSP Bulletin, April, 1977, (with Elmer Ellis and Joseph Licata).

(b) Research in Progress

Adams, Margrett L.

A survey of schools in south Georgia and north Florida to determine the need for the Education Specialist degree (sixth year) with a major in Business Education.

Barnette, Ronald L.

Under a VSC Research Grant, researching a project entitled "A Biological Theory of Essential Properties"; Writing an article, "Time is of the Essence"; completed and submitted a paper on quantum mechanics and the principal of identity to The Philosophy of Science; completed and submitted a paper "Toward a Natural Theory of Essential

(Barnette, cont'd)

Properties" to Philosophical Studies.

Bass, Genelda

"A Survey of Programs for Gifted in Georgia."

Baxter, James T.

Engaged in an effort to synthesize camptothecin, a pentacyclic alkaloid, isolated from the tree Camptotheca acuminata Nyssaceae.

Bechtel, Elizabeth

Genetic studies of recessive mutations in corn snakes. This work is continuing and expanding.

Boatright, Joel

Ph.D. dissertation in Drama, in progress at Florida State University.

Brown, Louie A.

Migration in Appalachia, and Religious Attitudes in Appalachia.

Burns, James D.

Research involved with doctoral dissertation, "Relativity in the Reinforcement Relationship."

Christian, Rose Ann

Doctoral dissertation on treating thinkers who attempt to appropriate the philosophical writings of Ludwig Wittgenstein, and to develop their implications for philosophy of religion.

Christie, Wesley R.

Conducted a survey of Georgia college and university Oral Interpretation teachers for the Speech Association of America's Directory.

Cook, Raymond A.

Revising biography of Byron Herbert Reece and editing his poems.

Copeland, Annetta N.

Ten County Aging Survey, assistance in data gathering.

Criscuolo, Antonio

"The Effect of Changes in Prices Due to Changes of Florida Statute on Advertising of Optical Goods."

Daniel, Charles

Imagery Patterns as They Relate to the Chronological Development of Frost's Poetry.

Deavours, Russ

"Difference Limen for Intensity: A Comparison of Two Stimulus Conditions"; "Verbalization Rate of Beginning Teachers in Self-contained Classroom for the Hearing Impaired"; "Normal Hearing Individuals Response to the Minimal Auditory Intensity Differential Test: A Normative Data Analysis"; "The Reliability of Tympanometry as a Hearing Screening Device."

DeHart, Stanley

Ph.D. dissertation in Drama in progress at Florida State University.

Douthit, Mary L.

Analysis of Artifacts and Environmental Resources in the North Concho River Valley, Sterling County, Texas.

Dudasik, Anne

Research in Markov analysis of observed data. The Types of Anxieties Encountered in Lower Division Math Courses.

Elkins, Chauncey

"What is a Good Restaurant?"; "Should the Liquor Industry be Allowed to Advertise in South Georgia?"; "A Study of the Personal Decisions Involved in the Purchase of a New Automobile for Private Use"; "An Overview of Valdosta Area Shopper's Attitudes Toward Sunday Closings of Valdosta Retail Stores"; and "A Retail Store Study of Five Points, Brookwood Plaza, Castlepark, and Downtown Shopping Centers in Valdosta, Georgia."

Elza, Jane

Research on Court Administration for a text book.

Epes, Peter H.

A revision of the German workbook, "Deutsche Ubungen."

Faircloth, Wayne R.

Flora of the Atlantic and Gulf Coastal Plain.  
Biosystematics of Ophioglossum in the U.S.

Foshee, Donald P.

Study of Sleep Parameters in an Institutionalized  
Population.

Giffin, Phillip E.

"Competition in the Eyeglass Industry"; "The Supply Side  
in the Meat Packing Industry: An Econometric Analysis."

Godbold, E. Stanley, Jr.

Preparing an article on Edward Rutledge.

Griffin, Mary F.

A comparison of mailability standards, as practiced in the  
classroom and tested at the State FBLA Shorthand Contests.

Griffith, Dorothy

Dissertation on The Major Piano Works of Robert Starer,  
A Style Analysis.

Grigsby, Donald P.

Comparisons between full MMPI scores and Mini-mult scores  
for alcohol and drug populations.

Hale, Dennis L.

Doctoral dissertation on the Mexican short story writer,  
Angel de Campo.

Herrin, Glen W.

"Multiple Correlation of Accounting Prerequisites for  
Accounting 210-211 and Profiling the Successful Account-  
ing Student."

Hiers, John T.

Symbolic Names in Flannery O'Connor's Wise Blood; Community as Aesthetic Ideal in Sarah Orne Jewett's Country of the Pointed Firs; and The Writer as Historian: A Study of Shelby Foote, Donald Davidson, Robert Penn Warren, Allen Tate, etc.

#### 10. The Division of Graduate Studies

Since its inception in 1967, opportunities for graduate study have grown at Valdosta State College in the number of students participating and in the development of programs available. In the early years, growth was clearly indicated by steadily increasing numbers of graduate students. Enrollment figures reached a plateau in 1974-75 however, and recent continued growth in graduate studies is reflected not in numbers of students but rather in newly developed graduate programs and degrees.

Valdosta State College currently offers five different graduate degrees, the Master of Arts, Master of Science, Master of Business Administration, Master of Education, and the Education Specialist. Within those five types of graduate degrees are included 25 major programs of study. A variety of areas of concentration are offered in some of the major program structures.

During the past year one new major and two new areas of concentration have been approved. Graduate students now have an opportunity to major in Vocational Education. The newly approved areas of concentration are Gerontology, and Marriage and Family Counseling. The concentration in Marriage and Family Counseling for the M.S. degree is offered in either of the departments of Psychology or Sociology. The concentration in Gerontology is offered in the Department of Sociology.

Three additional graduate programs have been developed and are awaiting approval: the Master of Public Administration degree, the Master of Music Education degree, and a major in Modern Foreign Language for the Master of Education degree. The development of the M.Ed. in Modern Foreign Language has been a cooperative effort between the departments of Modern Foreign Languages and Secondary Education.

In addition to the above, further growth in graduate studies is indicated by the fact that four new programs for the Education Specialist degree are currently in the process of being developed. These programs are in history(Social Studies), mathematics, English, and science.

An Executive Committee, drawn from the Graduate Faculty, supervises the graduate programs at Valdosta State College. By 1976 the Committee had grown too large to be an efficient decision-making body. Reorganization was studied and a plan for implementation was formulated. The plan for reorganization of this major policy-making arm of the Graduate Division required a change in the Statutes. This was accomplished this year.

Graduate student enrollment figures increased dramatically from year to year until 1974-75. There is now evidence of a different kind of trend. The rapid rate of program completion, the general economic situation, and other factors, seem to have been negative influences on graduate enrollment. This is indicated in the figures below:

Average Quarterly Enrollment in the Graduate Program by Academic Year

AY 1969-70	78	AY 1973-74	1001

AY 1972-73	864	AY 1976-77	1146

The Graduate Division is undertaking efforts to thwart the trend to reduced enrollment figures. A publicity and public relations plan has been developed and is being implemented.

In an attempt to recruit graduate students and to build better relationships, the Director, with others, either contacted or personally visited most of the school superintendents, principals, and key junior college administrators in south Georgia.

The printing of several departmental brochures was encouraged

and coordinated by the Graduate Division earlier this year. News articles and display advertisements regarding the graduate program have been printed in area newspapers. Mass mailouts of VSC class schedules have been made quarterly. Radio announcements of off-campus registrations and course offerings were made by area radio stations.

Many of the above mentioned recruitment efforts were made in conjunction with the recent focus on developing off-campus courses. A large proportion of the students in graduate programs at Valdosta State College attend classes at night or during the summer. Most of them are adults with families and jobs, and many live outside the immediate Valdosta area. In view of these factors, the Graduate Division, in cooperation with the Registrar's Office, has been making an attempt to serve the needs of working adult graduate students by organizing graduate classes on off-campus sites. Such sites have already been located in Bainbridge, Moultrie, Tifton, Thomasville, and Waycross.

The Graduate Faculty and general faculty continue to be increasingly involved in research activities. The Division of Graduate Studies is assisting all faculty members by supporting research efforts through the Faculty Research Fund and funds provided by the VSC Foundation.

The Faculty Research Forum was instigated this year to provide opportunities for faculty research to be shared with other faculty members. In addition, a bibliography of faculty research completed during the previous year was produced and distributed under the auspices of the Research Forum Committee.

SECTION III

STUDENTS AND STUDENT AFFAIRS

### III. STUDENTS AND STUDENT AFFAIRS

Only one change occurred in the professional staff of the Student Affairs Division during the past academic year. This change resulted from the resignation of Ms. Ann Macklin, Director of Career Development and Placement, in February and was influenced by pressure from the Department of Health, Education, and Welfare for us to increase staffing for our financial aid operation. The placement position has been reduced to half-time and filled temporarily by Mrs. Margaret Roberts. Mr. Bill Harrell, Coordinator of Veterans Affairs, has been assigned on a half-time basis to the Financial Aid Office. This is not considered a desirable way to handle the problem, but, with budgetary limitations, it was the only feasible solution.

Departmental personnel qualifications have been upgraded substantially during the past year through completion of additional degrees. In June Dean William R. Nettles, III, received the Ph.D. degree from Florida State University, Dean Andrew J. Bond completed all requirements for the Ph.D. degree from The University of Alabama, and Mr. William Harrell, Coordinator of Veterans Affairs, received his Master of Education degree in counseling from Valdosta State College. Other professional development of staff members included year long in-service training by all members of the division, in addition to attendance at workshops, regional and national conventions, etc. The professional staff of Student Affairs continues to involve itself heavily in academic responsibilities, though only three members of the division (Bond, Nettles, and Borden) hold faculty status. Deans

Bond and Nettles each taught a section of Psychology 250 during the academic year, and Dean Borden taught two sections of Health 100 during that same period. All members of the Student Development staff served as guest lecturers in the classroom and made presentations concerning their area of expertise in Health 100 classes.

Research projects for the division included informal surveys of on and off-campus students concerning developmental needs. These surveys were conducted by both Student Development and Residence Life. Deans Bond and Nettles completed a formal research project involving the special studies students at eight institutions in The University System. This study resulted in two projects: "An Investigation of Institutional Environmental Press and Personality Needs of Special Studies Students," Andrew J. Bond; "An Investigation of Environmental Press and Its Effect on Special Studies Student Achievement," William R. Nettles.

The Student Affairs Division continued and expanded its program of informal gatherings where students were given the opportunity to "rap" with members of the Student Affairs Division as well as all administrative officers involved in the decision-making process on campus. These sessions enjoyed good attendance by students and participation by the President, Vice President, Dean of Students, academic deans, and various members of the business office.

The completion of the renovation of the College Union resulted in the Student Activities staff being able to return to their regular quarters in that building. The result of this move was a much greater

participation on the part of students in those activities sponsored by that department. The graduate student assistant position in Student Activities was changed to the position of night manager with the return to the facility and resulted in greater use of the facility and a wider range of programs. Directed activities are now sponsored in the building as long as the snack bar remains open (11:00 p.m. on most days). In addition, if recognized student groups desire to use the facility after normal closing hours, they are allowed to do so as long as they have a faculty member present during those hours. This procedure has worked well and again expands the hours of the use of the facility considerably. Some activities last as late as 2:00 to 3:00 a.m. on certain mornings of the week. The installation of a special telephone number has resulted in greater participation in activities campus wide. A recorded message concerning activities of the day is made each morning, and anyone (student, faculty, administrator, citizens of the community) can receive all pertinent data by dialing 247-3499. Student Activities continues to have a major role in the coordination of homecoming, as well as other special days.

Fraternity-sorority activities have enjoyed the largest expansion this past year since they were first allowed on campus. This was due to the establishment of six groups which cater primarily to minority students. Alpha Phi Alpha a predominantly black fraternity for males received its charter during winter quarter of 1977, Kappa Alpha Psi and Omega Psi Phi (both predominantly black male groups) were established during the same quarter. In addition, three predominantly

black female groups were established during the academic year. These groups were: Alpha Kappa Alpha, Delta Sigma Theta, and Zeta Phi Beta.

The Student Activity Fee Budget Committee continues to work well. The budget committee which met in April, 1977, seemed to make the most effective use of the Student Activity Fee Budget that has been made during the past six years. One problem that seemed to gather some momentum during the current year was a dissatisfaction with the fact that the salaries of the Director of Student Activities, the Program Director, and the Night Manager are taken from the activity fee budget. The tone of this discontent is such that we may need to try to relieve the Student Activity Fee Budget of some of this responsibility. The following statement of policy was adopted by the budget committee in the fall of 1976:

"The function of the Valdosta State College Activity Fee Budget Committee is to allocate funds derived from student activity fees paid by every student in the college. This committee, therefore, feels obligated and takes as its policy to allocate these funds for the support of those college organizations and activities whose services are most readily available to the greatest number of students.

It is not the policy of the committee to fund college activities or organizations whose purposes are to support academic courses, to promote departmental activities, or to recruit students or faculty, but rather to fund those activities and organizations outside the classroom, those directly available either to the whole student body or the greatest number of students."

We enjoyed one of our best years ever as far as the use of the residence hall beds are concerned. We had a 96% occupancy rate during fall quarter of 1976. Our total capacity is now 1,812 beds. Super-

vision of these facilities requires a staff of between 40 and 45 people on a year-round basis. This staff is composed primarily of graduate and upperclass students directed by the Associate Dean of Students for Residence Life. The head residents and resident assistants are required to participate in a workshop prior to the beginning of fall quarter and continue in-service training through the remainder of the academic year. Residence hall programming picked up considerably during the past year, due to efforts of the Associate Dean for Residence Life and the residence hall staff. Students continue to press for extended open house hours, and it is the consensus of the student personnel staff that these hours will have to be extended in the near future.

The Farber Health Center continues to operate with a minimum of problems under the direction of Dr. Mack Greer. The total number of visits to the health center declined this year, thanks primarily to a decision to eliminate all non-emergency visits to the center by faculty and staff. There were 15,315 recorded visits to the infirmary. The infirmary staff set up at registration for flu shots, and a total of 994 inoculations were given during the year. There were 61 overnight admissions to the infirmary during the course of the year. Thursday Women's Clinic continues to be well attended by female students.

The Office of Minority Affairs expanded its activities this year to include the Hispanic and Jewish minorities on campus. Black Awareness Week, February 13 - 17, 1977, was considered a success. That activity was more closely related and integrated with curricular

offerings on campus than has ever been the case. Mr. Joseph Brown has done an excellent job increasing the visibility of the Office of Minority Affairs on campus with students, faculty, and administration, and has also increased the participation of his office and minority students in community activities.

Student discipline presented no insoluble problems. Only one group disturbance was reported during the year. That disturbance was dispelled effectively and without much repercussion. The disturbance, apparently, was the result of the administration of "group" discipline by a head resident, and some dissatisfaction with campus wide policies concerning mandatory dormitory occupancy by freshmen and sophomores and mandatory meal tickets for those students living in the halls. A total of six students were suspended from the college for disciplinary reasons during the 1976-77 school year. All of these cases revolved around illegal drugs. There are currently eighteen similar cases pending, and these will be disposed of during July, 1977. In addition to the suspensions, two students withdrew from school in lieu of appearing before a judicial committee.

The responsibility for advising international students was switched from the Associate Dean for Residence Life to Ms. Ruwaydah Kirdahi, counselor. Ms. Kirdahi has done an excellent job with this new responsibility. For the first time in our history we have a "Society for International Students" that has made itself quite visible on campus.

Student Financial Aid has experienced a year of some difficulty. Most of this difficulty revolved around a "clean-up operation"

necessitated by irregularities in the operation left by Mr. Stephen Young. Mr. Tommy Moore, though inexperienced in the field, has done an outstanding job working through these difficulties. We are still involved in this activity and this work may continue for some time to come.

The Veterans Affairs Office continues to operate smoothly under the direction of Mr. William Harrell. With Mr. Harrell spending more of his time on financial aid matters, it will be necessary for us to eliminate his commitment to serve the military personnel at Moody Air Force Base one-half day per week.

The new Student Government Association officers took office at the beginning of spring quarter 1977. Mr. Dick McLeod, president; Mr. Gary Wisenbaker, vice president; Ms. Kathleen O'Neal, secretary; and Mr. Marion Odom, comptroller did an excellent job during the first two quarters of the year. Mr. Wisenbaker also served as president of the Student Advisory Council during the year, and our Student Government Association received an official commendation from the Office of the Chancellor concerning our contribution to the Student Advisory Council. With the beginning of spring quarter 1977, the following Student Government Association officials took office: Mr. Marc Treadwell, president; Mr. Joe Bishop, vice president; Mr. Chip Stewart, secretary; Mr. Robert Kopyy, comptroller. If we can judge from their activity during spring quarter, this may well be the best slate of officers Valdosta State College has ever had. The Student Government Association budget committee did not allocate any funds for the operation of the Pine Cone (yearbook) for the 1977-78 school year. A warning was

issued concerning the yearbook by the committee the year before, and the current budget committee decided that student participation did not justify the expenditure.

Institutional testing responsibility has grown considerably during the past year and is taking more and more time as new tests are added. Senior exit exams, Special Studies students' testing, and College Level Examination Program (CLEP) tests are cases in point.

4. Appraisal of academic work of students during year:

It is our opinion that there has been little change in the academic achievements of students at Valdosta State College during the year. As was stated in the abstract, we are getting many more weaker students than we have ever had, but we are also serving more students who are academically able than ever before. We have many students who are dedicated to high quality work and many are doing well.

The performance of our students on the Regents' Exam is above the University System average for the past three years, but we realize that we are not making the progress that we would like in this particular area.

The figures below show that a few more students were placed on the dean's list than last year, but more were suspended for academic reasons than in 1975-76.

Number of Students on Dean's List:

<u>Quarter</u>	<u>Students</u>
Summer 1976	152
Fall 1976	590
Winter 1977	589
Spring 1977	529

Number of Students Graduating with Honors:

<u>Quarter</u>	<u>Students</u>

Magna Cum Laude	3
Cum Laude	6
June 1977	
Summa Cum Laude	4
Magna Cum Laude	41
Cum Laude	43

Number of Students Placed on Academic Probation:

<u>Quarter</u>	<u>Students</u>
Summer 1976	155
Fall 1976	369
Winter 1977	297
Spring 1977	412

Number of Students Suspended for Academic Deficiencies:

<u>Quarter</u>	<u>Students</u>
Summer 1976	86
Fall 1976	153
Winter 1977	131
Spring 1977	162

## 5. Student Activities

The Student Activities staff and the College Union Board worked effectively together to provide an excellent program of entertainment and recreation for VSC students. The newly renovated Union building and the new night manager position greatly facilitated their work.

Summer, 1976, was busier than most summer quarters. Certainly, moving the office back to the Union did much to make things busier. In addition, there were many programs as well as participation in the freshman orientation sessions. The students on the Union Board spent many hours during the Summer making plans for the coming fall quarter.

Fall quarter, 1976, was the first full quarter of operation of the College Union in the expanded and renovated facility. Usage of Union facilities gradually increased over the quarter as persons in the college community became reaccustomed to turning to the Union for meeting facilities.

A marked increase also occurred in use of recreational offerings in the Blazer Room. With the recreation facilities now housed in the former bookstore area, it is much more convenient to students. The result was a tremendous increase in the revenue realization from that area. We have also found a vendor who offers the efficient service we need in such a high traffic area.

The program for fall quarter presented a wide variety of offerings to the students. Many traditional programs continued, with

most experiencing increased participation over that of previous quarters. The movies continue to be the most popular and the most consistently well received. The Union offered a special week-long science fiction film festival in addition to the regular Sunday night series. It was possible to offer this film festival because we could again use the projection room.

Along with the movies, there were several concerts, dances, and special events. Notable among the special events, Las Vegas Night had the largest attendance ever. A dusk till dawn program held at the first of the quarter served also as an open house for the new Union facilities. And, the traditional Madrigal Dinner was again offered in conjunction with the Foreign Language department and the Valdosta International Club.

Several reasons may be offered for the increased student participation over past quarters in Union-offered programs. Most important, the students on the Union Board this year are among the most enthusiastic and cooperative in years. They are a cohesive group who join together and get the job done. One of the direct results of this is increased publicity of events. A second major factor is the phone installed to play a recorded message. This message, which is changed daily, lists events for the day, plus important information students need to know. All indications are that the recorder phone has been a good investment.

Winter quarter was a busy one for the College Union and Student Activities. In addition to all the regular events, it was also

the quarter for Homecoming, which is the biggest event of every year. From all indications, this year's Homecoming celebration, on the weekend of February 11-12, was the most successful ever.

Spring quarter, 1977, continued the full line of activities for students. The quarter began and ended with a dance. In between was everything from a cartoonist to a lecture on rape. Steve Gipson, the cartoonist, made a return visit to V.S.C. after two years. Steve presents an entertaining program of music and caricatures following an afternoon of free caricatures for students. The response was so overwhelming that he was invited back a few weeks later to spend a whole day doing drawings. The lecture on rape came as part of the Week of Seminars, for which the Union Board brought Carol Kope to campus. Carol, a Lieutenant on the New York police force, presented a very knowledgeable program on rape and rape prevention. The lecture proved to be a high point of a very successful Week of Seminars program.

The Blazer Room continues to have record usage. The convenient location and quality of the game tables combines to provide a popular service to students. There are many opportunities for expansion of student activities, if the space and staff were available. The effective use of leisure time by students is an important part of the total college experience.

#### Student Conduct

There was one minor group disturbance on campus late in Spring Quarter, 1977. The residents of Brown Hall were placed on a

blanket sanction by the hall staff, removing all privileges until the end of the quarter. In response, the students gathered behind Brown Hall late on the night of May 23, to express their displeasure with the "Brown Hall situation," plans for the requirement for housing men students under twenty or under the rank of junior, and the security methods on campus.

#### Administrative Sanction

A total of 70 students were given administrative sanction by the Associate Dean of Students for Student Development. A change in mode of operation this year allowed the head residents to advise students of their due process rights and apply sanctions to first time violators. The sanctions used by the head residents primarily involved revocation of the privileges that students were abusing such as, alcohol and visitation privileges. This operational change has worked extremely well. Of the 70 students given administrative sanction, 8 were asked to leave the residence halls, 37 were placed on one quarter or more of probation, and 25 were given written sanctions. One student, given the option of facing judicial charges or withdrawing from school, withdrew from college. In most of the above cases, the students' parents were notified of the incident and action taken against the violator.

#### Student Judicial Committee

Early in Winter Quarter, two Area Judicial Councils were added to the Valdosta State College Student Judicial System. The two area councils have primary jurisdiction over residence hall violations. The members of these councils have been trained, and each

council heard three cases this year. We believe the new councils are a valuable addition to the judicial process that will allow for greater student involvement and growth from the disciplinary process.

The institution-wide Student Judicial Committee heard six cases this year. All six of the cases involved drug related violations. As a result of these hearings, four students were suspended from school, and two students were suspended but given suspended sanctions and appropriate educational qualifiers.

It is the opinion of the Associate Dean of Students for Student Development that the Student Judicial System is working extremely well. There appears to be more value clarification learning, and less rebellion involved when sanctions are applied administratively. The results of the appeal hearing on the disturbances and blanket sanction in Brown Hall spring quarter illustrate this point. The committee denied the appeal of the Brown Hall residents. There were no further disturbances or ill feelings expressed as a result of the student committee's denial of the appeal. An acceptable academic atmosphere returned to Brown Hall with many of the people involved actually changing their opinion of the situation and accepting the blanket sanction as fair.

Valdosta State College Judicial Committee

The Valdosta State College Judicial Committee (composed of faculty members and two student members) heard one case this year concerning a student's financial irregularities. At the time of this hearing, the ability of the Comptroller's Office to provide

a student due process in withdrawal or registration cancellation procedures was questioned. To date no action has been taken in this matter.

### Drugs

Late in Spring Quarter 1977, the Valdosta-Lowndes County Drug Squad arrested eighteen VSC students on charges of violating the Georgia Controlled Substance Act. Institutional charges on these students were not issued immediately due to the nature of the undercover work, evidence available, and the possible consequences to the academic atmosphere here on campus during final examinations. Each student involved, however, was notified that the institution would be preferring charges during the summer quarter. It appears that the presence and traffic of drugs on campus has increased over previous years. All of the students arrested in spring quarter have been charged with the sale of controlled substances. Some of the students were involved with large amounts of various illegal drugs.

Some students do not fully understand why Valdosta State College takes a harsher view of illegal drug usage than the criminal courts. Many of the local judges are using the First Offender Act quite liberally. The student judicial system will continue, however, to view drugs as a serious threat to the academic atmosphere of Valdosta State College.

Only four students were dropped from school because of disciplinary reasons.

6. Financial Aid

(a) Since July 1, 1976, approximately 30 students withdrew from school for supposed financial reasons. Many of these, when questioned on the subject, admitted that financial aid was not a consideration; they simply preferred to begin work and make money immediately rather than wait until they received a college degree. We were able to help some students stay in school by giving them more financial assistance, but many of them had problems of such a nature that we were unable to help them.

(b) Fiscal Year 1977 Federal Allocations are listed below:

Basic Educational Opportunity Grant	\$766,161
Supplemental Educational Opportunity Grant	34,841
College Work Study Program	248,266
National Direct Student Loan	131,021
Law Enforcement Education Program	33,650
Nursing Student Aid	39,692

These figures represent only the federal share in some programs; actual disbursements were greater in most instances.

Federal allocations increased more than \$351,000 over Fiscal Year 1976. The Basic Grant program, for instance, continues to grow each year. We also had more money available in the National Direct Student Loan program because of increased collections.

Overall, the year was quite successful. At least forty percent of the student body at Valdosta State College receives some type of financial assistance. Although we were able to meet the need of the majority of students who applied for aid, more funds would be helpful, especially for National Direct Student Loans. We have a number of independent and married students who, although they

have been able to remain in school, are existing at the poverty level.

With the addition of a part-time Assistant Director our Financial Aid office should be able to do a better job, especially in the area of financial counseling.

The table below lists aid received by Valdosta State College students in Fiscal Year 1977.

Annual Report 1976-1977

Aid Received by VSC Students

July 1, 1976-June 30, 1977

<u>Scholarships and Grants</u>	<u>No. of Students</u>	<u>Amount</u>	
Basic Educational Opportunity Grants	848	\$766,000	
Supplemental Educational Opportunity Grants	138	\$ 34,841	
Federal Nursing Scholarships	20	\$ 9,850

		<u>\$495,130</u>	Total

Grand Total--\$3,779,041

SECTION IV

THE LIBRARY

#### IV. THE LIBRARY

The library staff, both faculty and classified personnel, has performed well and has remained stable. One professional librarian resigned to enter a different field of work, and two clerical employees resigned. This is minimal turnover for a staff of thirty persons. Problems, too, were minimal. Five members of the library faculty held office or committee assignments in the Georgia Library Association; 7 sat on institutional committees; four taught courses in Library Science. Four enrolled in courses either in pursuit of added degrees or to upgrade staff capability; 7 attended a total of fourteen workshops and/or institutes pertaining to library operation.

The staff is reasonably adequate for services now being offered and is well-distributed among categories of training and responsibility. An additional professional position in reference is highly desirable to extend coverage of the reference desk, implement several projects now moving very slowly, and make possible additional orientation experiences.

##### Services

Service is the library's raison d'être and continuous improvement is the all-encompassing goal of the library staff. Most statistics show increased activity--some striking, as the 141 percent increase in books loaned through interlibrary loan, some modest, as the 2 percent increase in attendance (which is not too bad when one considers the decrease in enrollment). The library served the community better,

as shown by the 22 percent increase in non-college user applications approved. For the first time hours of service were extended to 2 a.m. during final examinations, a service greatly appreciated by students. A 12 percent increase in number of formal library orientation sessions reflects growing cooperation between the reference department and the instructional program. Although the serials computerization project was not completed as expected, much progress was made and acceptance of the new format was generally good. Physical reorganization of the juvenile collection was completed and the materials are now more appropriately housed in the IMC Library. Catalog cards for the collection should be revised and a duplicate set completed during the next year. Satisfaction with cataloging service through OCLC is even greater than a year ago, a 94 percent hit rate having been maintained throughout the year. The only negative report is on circulation of materials outside the building, which declined. Various housekeeping procedures were revised to upgrade the quality of service. Projects such as special indexes, revised cataloging systems, etc., are not highly visible but add much to both quantity and quality of service available.

### Resources

The cessation of all-too-familiar budget cuts was welcome, indeed, and resources were increased by 11,129 print volumes, 773 reels of microfilm, 31,728 microfiche, and 1,012 items in other formats. Books held per student increased to 47.5. The spectre of inflation, particularly in journal prices, (38% overall, some as high as 90%) darkened the picture as nearly 40 percent of the total budget for materials

did little more than maintain the serials status quo. The problem, far from unique at Valdosta State, was given attention by the Academic Committee on Libraries of the University System, but the solution has not been identified. Vandalism, especially of bound periodicals and reference books, continues to be a frustrating problem and encourages the acquisition of more materials in microform. The biennial inventory showed 566 volumes missing. While the loss of even one volume is unacceptable, the rate at Valdosta State was found by a survey to be the lowest known rate among comparable libraries of the University System.

Continuous attention to efficiency of total library operation produced some savings. For example, binding was changed from custom to standard at a saving of approximately \$2.00 per volume. Cataloging via OCLC yielded some saving in supplies. Teaming up with our counterparts at other institutions has produced some saving in travel expenditure. All money "saved" went into either materials or much-needed equipment.

The IMC Librarian was able to procure free of charge several sets of school textbooks, enriching the resources available to students of teacher education. The library received as gifts 1,233 print volumes, eleven cassette tapes, 12 teaching aids and charts and twelve records.

## Library Holdings

1. Number of Volumes added, 1976-77	11,129
2. Number of Volumes held at end of 1976-77	179,860
3. Number of Reels of Microfilm held at end of 1976-1977	17,343
4. Number of Physical Units of other forms of Microtext held at end of 1976-77	260,754
5. Number of Periodical Titles being received at end of 1976-77	1,696
6. Number of other Serial Titles being received at end of 1976-77	392
7. Does your institution meet the Standards of the Southern Association relative to libraries?	YES

PART III LIBRARY OPERATING EXPENDITURES, 1976-77

Category	Amount (whole dollars only)
SALARIES AND WAGES	
Salaries and wages of Library staff (exclude plant and maintenance staff and students serving on an hourly basis, exclude fringe benefits)	\$246,535
Wages of students serving on an hourly basis, charged to the Library	\$ 3,254
SUPPLIES AND MATERIALS	
Books (exclude microforms, include preprocessing costs where applicable)	\$ 97,368
Periodicals (exclude microforms)	\$ 73,412
Microforms	\$ 24,723
Audiovisual materials	\$ 16,820
All other library materials (exclude microforms)	\$ N/A
Binding and rebinding	\$ 6,813
All other library operating expenditures not shown above (include travel, rental, leased, insurance, postage, freight, printing, replacement of equipment and furnishings, membership costs, exclude expenditures for utilities, plant operation and maintenance and capital outlay)	\$ 39,710
TOTAL LIBRARY OPERATING EXPENDITURES	\$508,635

PART IV - DEVELOPMENTAL AREAS

SECTION A - LIBRARY LOAN TRANSACTIONS, 1976-77

Category	Number
CIRCULATION OF MATERIALS, EQUIPMENT, TO LIBRARY USERS	
Circulation of materials outside library (exclude reserves and transactions by dial access)	93,865
Circulation of media (films, filmstrips, kits, videotapes, audio recordings, etc)	11,958
Circulation of audiovisual equipment (includes pickup by faculty and students)	1,154
Circulation of reserve material	12,755
INTERLIBRARY LOANS - NUMBER OF ITEMS IN ORIGINAL AND REPRODUCED FORMAT	
Provided to other libraries	250
Received from other libraries	362

## SECTION B NUMBER OF REFERENCE TRANSACTIONS PER TYPICAL WEEK SPRING 1977

Transaction	Number of transactions
Total reference transactions per typical week (do not include directional transactions)	154

## SECTION C LIBRARY HOURS AND DAYS OPEN PER WEEK, 1976/77

Category	Number
Total hours open per typical week (whole hours only, omit fractions)	88
Total days open two hours or more, per typical week (count each day open for two hours or more as one whole day, omit fractions)	7

## SECTION D PARTICIPATION IN COOPERATIVES, CONSORTIUM, AND/OR NETWORK

Does your library participate in a cooperative consortium, and/or network Yes  No

If answer to above question is "Yes" give name of the cooperatives, consortia, and/or networks

South Georgia Associated Libraries  
Southeastern Library Network (SOLINET)

SECTION V

OFFICE OF COMPUTER SERVICES

## V. OFFICE OF COMPUTER SERVICES

The computing capability of Valdosta State College changed drastically with the installation of a Burroughs 1717 computing system. This medium sized computer with 96K memory replaced the SCIDATA mini computer in December of 1976.

The Burroughs System will allow the implementation of an on-line CRT terminal network for all comptroller and auxiliary service operations. The initial implementation will include budgeting, personnel, bookstore operations, physical inventories, and payroll. Completion of this on-line system will result in substantial savings resulting from discontinuing the two Burroughs E6000 accounting machines presently used to process all financial operations. This old equipment, while owned by the college, has become increasingly more costly to maintain due to age and condition. Considerable savings will also result in more efficient procedures and operations because of on-line updating, inquiry, and processing.

The Burroughs 1717 computer has other on-line processing capabilities. Plans are currently being made to place undergraduate and graduate admission operations on-line as well as student record functions such as drop/add, graduation check out, grade recording, and maintenance of student transcripts. The completion of this conversion will make Valdosta State College one of the few, if not the only college, in the state with on-line student record processing capability.

Other college functions such as alumni, housing, and campus security have plans to convert to on-line systems. Complete conversion of

financial, academic, auxiliary and administrative functions will take approximately three to five years. The Burroughs 1700 system, however, will require additional memory as more on-line applications are implemented. The Burroughs computer was built with the potential for expansion and growth.

Valdosta State College computer and data processing configuration:

A. Administrative

- 1 each Burroughs 1717 computer system
- 2 each burroughs E6000 accounting systems
- 2 each IBM 029 printing card punches
- 1 each IBM 026 printing card punch
- 1 each Univac 1710 keypunch, interpreter, verifier unit
- 1 each Univac 1720 sorter with counter
- 1 each IBM 085 collator
- 1 each IBM 548 interpreter
- 1 each OpScan 17 optical mark scanner
- 1 each Burroughs detacher

B. Academic

- 1 each communication unit on Burroughs 1717 computer system
- 5 each IBM 029 printing card punches
- 1 each IBM 026 printing card punch
- 1 each IBM 082 sorter - no counter
- 1 each IBM 402 accounting machine
- 1 each IBM 056 verifier
- 2 each ASR 33 teletypes
- 1 each Texas Instruments T1700 dual cassette

C. New equipment added during the year

1 each Burroughs 1717 computer system (administrative and academic)

1 each Burroughs detacher (administrative)

3 each IBM 029 printing card punches

SECTION VI

GIFTS, GRANTS, AND CONTRACTS

## VI. GIFTS, GRANTS, AND CONTRACTS

The total number of gifts, grants, and contracts rose over last year from 38 to 44. None were exceptionally large, but those received gave the special assistance needed to promote vital programs. For instance, the vocational-technical education program received two grants. This new venture for Valdosta State College is in its third year and needed financial support of an unusual nature to continue growing to the point that it can stand alone.

Another relatively new educational unit at VSC is the "community education" program, headed by Dr. Paul DeLargy. Two grants were received by this program, one from the Mott Foundation and the other from Exxon Corporation. The program is becoming known far and wide through the exceptionally fine administrative (and persuasive) work of the director of the program. The State Departments of Education in Georgia and Alabama have shown great interest in promoting the community education concept. Dr. DeLargy has appeared for testimony before a congressional committee interested in funding the program nationally.

Dr. James F. Hill, Department of Philosophy, received a grant from the Georgia Committee for the Humanities in which he presented programs designed to show how business and management have a role in being socially responsible. The series of programs were of such quality and interest that the Georgia Committee on the Humanities asked Dr. Hill's permission to use parts of the program in projecting the state's theme for next year. Dr. Hill spent six weeks visiting

in the corporate offices of a major industry, both on the local level and at its national headquarters. Then three industry executives came to the VSC campus for a week each.

Still another type of grant came from Title I, HEA 1965. There were two phases to this grant, one called "A Conference on Therapeutic Recreation" and the other "Social Service Delivery." Therapeutic recreation is the specialized recreation for handicapped persons, the blind, deaf, crippled, aged, or mentally retarded. This was the second consecutive year that a therapeutic recreation grant had been received. It provided for a three-day workshop, after which a leader from the Georgia Department of Natural Resources called a meeting to set up a statewide series of such programs. A similar thing happened in connection with the "Service Delivery" grant. This series of programs was designed to educate social service delivery personnel in the ten-county area served by the Coastal Plain Area Planning and Development Commission in techniques which facilitate delivery of services. The Albany area DHR picked up the plan and is putting it into practice in that region. Even the Handbook of Service Delivery prepared for use in the Albany area will be based upon the one developed for this area.

The summary of gifts, grants, and contracts has been listed in Table VII.

VALDOSTA STATE COLLEGE

TABLE VII

SUMMARY OF GIFTS, GRANTS, AND CONTRACTS FOR PROGRAMS OF  
INSTRUCTION, RESEARCH, OR PUBLIC SERVICE  
For Fiscal Year Ending June 30, 1977

	Number of Proposals			Amount of Proposals		
	*S	**A	***R	S	A	R
School of Arts and Sciences						
History	3	3		\$ 6,700	\$ 6,700	
Philosophy	1	1		5,600	5,600

Totals	47	44	3	\$888,553	491,202	395,314

Note: The above figures do not include the several grants received annually from H.E.W. for student financial aid, such as BEOG, SEOG, CWSP, NDSL, which appear in the student affairs report.

\*S-Submitted    \*\*A-Awarded    \*\*\*R-Rejected

SECTION VII

GENERAL

## VII. G E N E R A L

1. Significant changes or improvements in existing curricula; new curricula introduced during year; curricula discontinued.

During the academic year greater emphasis has been placed on responding to needs which have been identified in the community served by Valdosta State College.

Two new programs in vocational education were introduced late in the year: the major in Trade and Industrial Education under the existing B.S.Ed. degree and the major in Vocational Education under the existing M.Ed. degree. These programs will meet a strong demand for vocational educators in South Georgia.

A Geriatric Nurse Practitioner Certificate program was approved by the Academic Council; however, the federal funding for this program is being held in abeyance at this time.

A new interdivisional concentration in Marriage and Family Counseling under the existing M.S. degrees of the Departments of Sociology and Anthropology, and Psychology, Counseling and Guidance was approved.

A new concentration in Social Gerontology was approved under the existing M.S. degree with a major in Sociology.

The curriculum of the Department of Sociology and Anthropology was improved by the restructuring of a number of courses, the elimination of several courses, and strengthening of offerings in Criminology.

The pedagogical skills of students taking a B.A. degree with certification in English, foreign language, social science and science have been strengthened by introducing required courses in teaching methods specifically associated with the subject areas noted above.

The major in Speech, under the existing B.F.A. degree has been slightly restructured to respond to the needs of the student population served by the major. Students taking the major in Speech, now termed Speech Communication, will concentrate their work in either General Speech Communication or Career Communication, which includes some work in marketing and management.

The major in Theatre Arts under the existing B.F.A. degree has been broadened by strengthening offerings in radio, television, and film because the majority of students taking the theatre arts major plan to work in radio, television or film industries. Permission is being sought to change the name of the major to Theatre Arts, Radio-Television-Film.

A number of music courses have been restructured to conform to recommendations of the National Association of Schools of Music.

Dr. Paul DeLargy wrote a grant proposal funded by the Exxon Foundation for the development of a Community Education Curriculum based on "guided design," a problem solving model. Dr. DeLargy is now in the process of completing this project providing for simulation and problem solving laboratories in the Community Education Curriculum.

Dr. Joseph Smith is in the process of obtaining funding for converting the School Business Management class to the guided design model for problem solving and simulation. A proposal has been submitted to the Exxon Foundation.

The model developed for Project ROME-FOCUS, Consequence Analysis, has been adopted as a practicum block for the Education Specialist degree in Administration and Supervision. This phase of the program

is competency based and field oriented and has been validated as effective through the research and evaluation efforts of the Project ROME-FOCUS.

Field based programs in Early Childhood Education have had competency based modules added to them.

A course in pharmacology has been added to strengthen elective offerings in Nursing.

Students majoring in marketing have been granted the option of structuring their coursework as to provide a concentration in marketing communication.

Elimination of the college-wide physical education requirement has had no adverse effects but rather has permitted the Department of Health, Physical Education and Athletics more effectively to teach the service courses and to place more emphasis on its growing professional program.

The responsibility for computer science courses was placed in the Department of Mathematics with the intention of moving toward a more comprehensive program in computer science. In connection with this, a request has been initiated to expand the name of the department to Mathematics and Computer Science.

The restructured major in Chemistry mentioned last year was successfully introduced in summer quarter, 1976. It combines the strongest features of the deleted B.S. in Chemistry degree program and the old B.S. degree with a major in Chemistry.

The Department of Philosophy has moved to strengthen its offerings in religion, an area of increasing interest to our students.

The College continues to await Regents approval of the associate degree Emergency Medical Technician (EMT) program. This program, planned in conjunction with South Georgia Medical Center, will have a tremendous impact in South Georgia. A number of other programs are pending approval by the Board of Regents: the Master of Public Administration degree, the Master of Education with a major teaching subject concentration in foreign language, the Master of Music Education degree and the Bachelor of Arts degree with a major in interdisciplinary studies.

## 2. Accreditation

### (a) Programs That Were Accredited or Reaccredited During the Year.

- (1) The Division of Nursing received continued approval from the Georgia Board of Nursing in March, 1977.
- (2) Teacher preparation programs continue to meet State certification requirements and to merit accreditation by the Southern Association of Colleges and Schools and the National Council for Accreditation of Teacher Education.

### (b) New Academic Programs Which are Accreditable by Specific Agencies but are Not Yet Accredited.

- (1) The interdivisional concentration in Marriage and Family Counseling recently approved under the existing M.S. degrees in Psychology and Sociology cannot be accredited for another 5-7 years.
- (2) Accreditation guidelines for criminal justice programs are still in the process of being formulated.

- (3) The Department of Music is presently undergoing Self-Study with the goal of accreditation by the National Association of Schools of Music by mid-1978.
- (4) The School of Business Administration was denied undergraduate accreditation by the American Association of Collegiate Schools of Business during 1976-77. Such accreditation is extremely difficult to attain; however, application will be made once again during 1977-78.

3. Other significant instructional program modifications: None

4. Division of Public Services

In the last few years many faculty members have become involved in providing public services for the public and have been highly successful in doing so. Success breeds success; it is contagious. Therefore, the number of faculty members becoming involved is increasing rapidly. Almost two-thirds of the faculty and staff were involved in one way or another during the past year.

The surrounding communities are well aware of the public services offerings and activities of Valdosta State College. The whole endeavor is a two-way street; a good faculty presentation creates good will and involvement on the part of the patron in the community; likewise, the patron who is involved is the best salesman for additional programs and new directions. Awareness is one of the major keys to a good program. The local news media have been most cooperative in publicizing the great number of activities and programs provided by the college. The local newspaper has been most generous in writing special editor-

ials praising the public services offerings. The cable television company has regularly posted our announcements on its Channel 4 scanners. Radio coverage has been excellent, even to the point of the radio personnel calling up to tape interviews concerning programming and people.

Our key objective in Public Services is to provide continuing education of high quality to all adults in the VSC area. We support the concept of life-long learning and believe that it is the responsibility of the college to provide as much opportunity for continuing learning as possible. Through effective public services the reputation of the college is enhanced.

(a) Non-Credit Course Program

The number of courses offered in this program remained nearly the same as last year, with a decrease of two. While the number of participants decreased compared with last year, there were more attending than in any other of the six years for which records are available.

Public Services programs are the kinds of programs for which participation is entirely voluntary and the kinds of variations experienced can be expected. The informal feedback received from the community has been very favorable this year, as in past years, and the following editorial appeared in The Valdosta Daily Times on May 26, 1977, soon after the summer quarter brochure was distributed:

VSC's Upbeat Program

Valdosta State College has a large number of programs which is working proof that more and more

we want to know more and more about things which may or may not be career related.

VSC offers a wide variety of continuing studies and it is becoming big business on that campus and others.

"Poetry: Who Needs It?" taught by Dr. Ward Pafford is not going to get you a raise; yet we suspect the course will be well attended. The question might be answered that a lot of people feel they need poetry.

It is good that we live in a society which offers more than the basic tools of survival. There is a good argument that the basic tools of a civilized society go far beyond the means of survival. We would tend to agree with that argument.

VSC is offering courses in cultural refinement, handicrafts and recreation. This is not a new program but one which seems to be growing.

More and more folks are finding their local college campus a storehouse for those treasures of the mind and body which have nothing to do with earning a living.

No college or university sets up such a program in hopes of generating business. Instead, it is in answer to a known demand for such information.

We have come a long way in our educational process when we accept that learning is a thing of beauty when standing alone, that knowledge is important even if it is never used for earning money.

Such programs lift a school such as VSC out of the mismatched role of career training into the true field of academic scholarship and just plain fun education.

Take a look at the VSC continuing studies program. Chances are there is a course there you would be interested in taking, just for the sake of learning more about a favorite hobby or academic area.

This kind of unsolicited endorsement of the non-credit course program is gratifying, and reinforces the Division in its resolve to continue its efforts to improve the program.

Many of the regular VSC faculty also participate as instructors in the non-credit program on a regular basis, and the participation of others is solicited on a regular basis. The regular VSC faculty continues to be the primary source of instructors for the program, and they are supplemented by a large number of people from the community who are willing to share their knowledge and experience on a variety of subjects with others by teaching non-credit courses.

Table I below lists the number of non-credit courses and total registrations since 1969, the first year for which such records are available.

TABLE I. Non-Credit Courses Offered 1969 to 1977.

<u>Quarter and Year</u>	<u>Number of Courses</u>	<u>Total Registrations</u>
1969-70	21	611
1970-71	76	1,076
1971-72	99	1,116
1972-73	115	1,476
1973-74	147	1,462
1974-75	149	1,072
1975-76	159	2,655
Summer, 1976	41	734
Fall, 1976	31	308
Winter, 1977	32	296
Spring, 1977	53	258
Total for 1976-77	<u>157</u>	<u>1,596</u>

A list of the non-credit courses offered during the past year is included herein as APPENDIX I. The listing gives the instructor, course number and title, and the number of persons enrolled. VSC faculty and staff members are identified. Again this year there was good participation in the VSC Twirling and Music Camps, as 530 enrolled. These special summer programs are offered by the Fine Arts Division and co-sponsored by the Division of Public Services.

The procedures followed in past years with regard to selecting non-credit courses to be offered, staffing, registration, and evaluation, as described in past annual reports, have been followed during this year and they continue to work well. While there is no standard, formal procedure for evaluation of the over-all program, informal feedback from program participants is received almost daily. It is generally favorable, with a rare critical comment; even these are normally constructive.

The Division is constantly seeking ways in which the program can be improved, and is alert to find ways in which this program can better serve the community.

(b) The Continuing Education Unit (CEU)

Quarterly reports of non-credit programs and activities which had educational objectives (as opposed to athletics and entertainment) were reported to the Vice Chancellor for Services. These reports followed published guidelines from the University System of Georgia, which established three major categories under which CEU's can be reported:

"Category I - Programs, generally oriented toward occupational skills and knowledge or toward the solution of community or societal problems, and planned for a specific target population. Participants must be registered, and individual records of their involvement are maintained in the registrar's office.

"Category II - The criteria are generally the same as for Category I, except that programs may be planned for more diversified populations, and records of participation are maintained by the Division of Public Services rather than by the registrar.

"Category III - Includes all other non-credit programs and activities which are instructional in nature, and are sponsored or approved by appropriate institutional units. No registration or record of individual participation is required, but there must be certification of total attendance.

"Category IV - Used to report non-credit or public service activities or programs which do not meet the criteria for Category I, II, or III, but which require staff effort or expense."

Table II, below, gives a summary of the CEU's reported by Valdosta State College during the five years that CEU procedures have been in effect.

TABLE II. Summary of Continuing Education Units (CEU's) at VSC Reported to the Vice Chancellor for Services.

Year and Category	No. of Programs	No. of Participants	No. of Participant Hours	VSC CEU's Earned
<u>1972-73</u>				
I	3	110	952.50	95.25
II	64	643	7,014.80	701.48
III	47	6,802	17,107.75	1,710.77
Totals	114	7,555	25,075.05	2,507.50
IV	15	11,280	33,010.00	none allowed

Note: 2,507.50 CEU's divided by 60 = 41.79 FTE. (60 quarter hours would be a four quarter, or one year, load for a student.)

<u>1973-74</u>				
I	11	844	6,250.50	597.05
II	108	1,386	14,442.00	1,393.40
III	111	11,234	28,627.31	2,862.73
Totals	230	13,464	49,319.81	4,853.18
IV	34	34,499	62,747.75	none allowed

Note: 4,853.18 CEU's divided by 60 = 80.89 FTE.

<u>1974-75</u>				
I	13	379	10,608.50	991.30 <sup>1</sup>
II	104	870	11,337.20	1,133.72
III	171	12,455	35,236.20	3,503.62 <sup>1</sup>
Totals	288	13,704	57,181.90	5,628.64

IV Dropped from record keeping  
 Note: 5,628.64 CEU's divided by 60 = 93.81 FTE students.  
 Note 1: An additional 69.55 Category I CEU's and 20 Category III CEU's were earned through cooperative programs with other University System institutions and were reported by the other institutions under current reporting procedures.

<u>1975-76</u>				
I	18	881	16,284.00	1,486.00
II	63	721	9,118.00	879.40
III	126	15,066	68,936.75	6,893.70
Totals	227	16,668	94,338.75	9,259.10

Note: 9,259.10 CEU's divided by 60 = 154.39 FTE.

<u>1976-77</u>				
I	29	946	11,501.50	1,150.15
II	66	556	7,300.00	730.00
III	135	15,880	70,967.78	7,096.77
Totals	230	17,382	89,769.28	8,976.92

Note: 8,976.92 CEU's divided by 60 = 149.6 FTE students.

(c) Moody Air Force Base Education Program

1. Moody Air Force Base Active Duty Personnel  
Enrolled at VSC

a. Operation Bootstrap

Operation Bootstrap is an Air Force Continuing Education Program which provides educational services to active duty airmen by paying 75% of their tuition and fees when they enroll in college credit courses. The program is designed to encourage airmen to continue their education and to upgrade their knowledge and skills.

After a period of several years during which enrollment at VSC through this program was relatively steady, it decreased significantly spring quarter, 1975, when the Moody AFB Education Office funds were drastically cut and they could not locate additional funds. However, the VSC Veterans Affairs officer assisted in securing benefits for the airmen through the G.I.Bill. As a result the enrollment in VSC classes held at 48 instead of dropping to the 18 on Bootstrap assistance.

When tuition assistance funds for Operation Bootstrap became available during 1975-76, many of the airmen who had learned of the availability of V.A. assistance under the G.I.Bill elected to continue the use of the G.I.Bill benefits, and this practice has continued since because the G.I.Bill pays 100% of tuition as opposed to the 75% paid under Operation Bootstrap. As a result, the enrollment at VSC under Operation Bootstrap, as reported in Table III, below, is only a fraction of what it has been in past years. The total number of airmen taking classes under both programs, however, is almost equal

to the number under Bootstrap in recent years.

TABLE III. Enrollment by Quarter in Operation Bootstrap.

<u>Year</u>	<u>Summer</u>	<u>Fall</u>	<u>Winter</u>	<u>Spring</u>	<u>Total</u>
1969-70	26	37	39	39	141
1970-71	21	49	47	56	173
1971-72	24	46	51	44	165
1972-73	22	47	41	44	154
1973-74	27	56	60	46	189
1974-75	28	72	42	18	160
1975-76	6	9	12	13	40
1976-77	11	32	14	7	64

b. Enrollment Under Veteran Administration G.I. Bill

Since spring quarter, 1975, the VSC Veterans Affairs Office has provided a list each quarter of students enrolled at VSC under the G.I. Bill. Table IV, below, shows the enrollment by quarter.

TABLE IV. Moody Air Force Base Active Duty Personnel Enrolled at VSC under the G.I. Bill.

<u>Year</u>	<u>Summer</u>	<u>Fall</u>	<u>Winter</u>	<u>Spring</u>	<u>Total</u>
1975-76	31	23	20	30	104
1976-77	3	18	26	26	73

The G. I. Bill, while not terminated entirely on December 31, 1976, as proposed by former President Gerald Ford, was substantially changed for those who enlist after that date. They may

voluntarily contribute up to \$4,000 into a fund for their future education, and when they leave military service the V.A. will match each dollar of the fund with two dollars for approved educational programs. The final date for use of these new G. I. Bill benefits is 1989. Participation in this new, voluntary program has not been large to date. Those who enlisted prior to December 31, 1976, are entitled to the benefits of the G.I. Bill in effect at that time, but must use their entitlement within ten years after they are discharged, or by 1989, whichever is first.

2. VSC Predischarge Education Program (PREP) at Moody AFB (formerly Career Advancement Program (CAP) at Moody AFB).

The Predischarge Education Program (PREP) at Moody AFB was operated on base by VSC from March, 1973, through September, 1976. Initially it was identified as the Career Advancement Program (CAP), based upon the original request for the program from Air Training Command. The new name was assigned at the time Moody AFB came under the jurisdiction of the Tactical Air Command. PREP provided individualized non-credit programs of instruction for Moody AFB personnel needing help in overcoming basic educational deficiencies in English or math, as identified by the Air Force or by the VSC instructor for the program. Classes met for eight week terms, and most students were enrolled for a single term; however, airmen who needed longer periods of instruction were permitted to enroll for two or more terms. Table V shows the enrollments in the 21 terms of the completed program.

TABLE V. Enrollment in the Eight-Week Terms in the Moody PREP

<u>Term Number</u>	<u>No. of Students</u>	<u>Term Number</u>	<u>No. of Students</u>
1 .....	20	12 .....	12
2 .....	13	13 .....	9
3 .....	17	14 .....	9
4 .....	15	15 .....	10
5 .....	13	16 .....	10
6 .....	15	17 .....	10
7 .....	15	18 .....	12
8 .....	15	19 .....	14
9 .....	13	20 .....	12
10 .....	15	21 .....	15
11 .....	12	<u>Total .....</u>	<u>276</u>

VSC's non-credit PREP program was terminated by Moody AFB in September, 1976 in favor of a program offered by Georgia Military College which gave high school credit to the students. At about the same time, the G.I. Bill, through which the PREP program was funded, was amended to eliminate such funding, and that ended the program. However, the Air Force had found the program of such value that it developed its own similar program, called Individual Development and Educational Advancement (IDEA), funded from the Air Force budget, and Moody AFB currently has 18 students enrolled in it.

(d) Conference, Workshops, and Seminars Held at VSC During 1976-77.

The Staff and faculty of Valdosta State College are continually designing new approaches to the delivery of continuing education. Their program ideas and completed plans have been appealing to the public and to the grant-making bodies which fund the programs. Therefore, the year 1976-77 has been one of the best in terms of total

number of programs presented (the highest number in one year to date), the quality of the programs, and the state-wide and even national appeal of the programs. Gradually, the programs being prepared and presented in this area are being duplicated by other colleges and agencies.

A list of the conferences, workshops, and seminars has been placed in APPENDIX II. The list was too long to be kept as a part of the main body of this report, since over 200 such programs were held. The list contains three types of entries: (1) conferences, etc., jointly sponsored with other colleges in the University System of Georgia, (2) displays, exhibits, and other kinds of programs for the general public, particularly those of a continuous nature, and (3) the usual conference, workshop, and seminar list.

During the past year far more programs were held in nearby cities and towns than ever before. Thomasville, Moultrie, Lakeland, and Quitman were the recipients of more than one program each, and several other towns received at least one program. This outreach has come slowly, but it seems to be gaining in popularity. Requests are now coming from those locations, rather than as a result of extensive VSC promoting off campus.

The School of Education, under the leadership of Dean John W. Letson, has several major programs that should be mentioned in connection with public services. Described below, these include activities in community education, staff development for area school administrators, training for vocational education personnel, field-based

pre-enrollment experiences for prospective education majors, the Speech and Hearing Clinic, the Psychology Clinic, and the Reading Clinic.

(1) The Center for Community Education has been in operation at Valdosta State College for only one year, but has assumed a position of state-wide leadership. Dr. Paul DeLargy has brought to the program a background of training and experience that is being utilized increasingly by local school systems, the State Department of Education, the State Board of Education, and other related groups. The Community Education movement encourages the utilization of all community resources to achieve cooperatively developed community goals. Its potential for community improvement, particularly in the area of expanded educational opportunities, is unlimited.

(2) Beginning steps have been taken to involve school leadership personnel in South Georgia in a regular staff development effort centered at Valdosta State College. Superintendents, principals, and curriculum directors have indicated an interest in regular meetings to consider mutual problems. Further developments along this line will expand Valdosta State College's role as a Regional Education Center.

(3) During the year Valdosta State College has become a regional center for the preparation of vocational education personnel. This development will contribute to better prepared vocational teachers and administrators and indirectly to an improvement in the economy of South Georgia. It is believed that the total cost of the program, paid in large part from vocational funds, will be more than offset by the savings in gasoline by South Georgia vocational teachers who no

longer will be required to travel to Athens for graduate courses.

(4) Progress has been made in increasing education students' field experiences previous to their enrollment in student teaching. These efforts have contributed to improved relationships with public schools and have improved readiness of students to assume full-time teaching responsibilities. Thus far, the field based program has involved only students preparing for early childhood and elementary positions.

(5) Program responsibilities which should be assumed by the School of Education in adequately living up to its role as a Regional Education Center continue to be assigned a high priority. The following developments reflect this concern.

a. The Speech and Hearing Clinic provides services to public school pupils in a nine-county area and to non-school adults from a larger area. This cooperative effort with the Valdosta Junior Service League is not only providing a needed professional service to public schools in the area, but also is providing excellent training opportunities for Valdosta State College students.

b. A Psychology Clinic under the supervision of the Department of Psychology, Counseling and Guidance provides counseling services for a limited number of college students and non-school adults. As with the Speech and Hearing Clinic a related purpose is to provide high quality training opportunities for students--especially graduate students.

c. A community service of great value has been the professional guidance provided by personnel from the Department of Psychology,

Counseling and Guidance for the mental health unit at the South Georgia Medical Center. This particular cooperative effort is an illustration of effective utilization of community and college resources for the benefit of the total community. It is also an illustration of maximum community benefit at the lowest possible cost.

d. A Reading Clinic is operated during the summer for the benefit of elementary pupils in the area. Again, a major purpose is to provide training opportunities for Valdosta State College students.

5. Faculty Participation in Non-Budgeted, Non-Curricular Public Service With Civic, Charitable, and Professional Organizations and Other Organizations Not Directly Related to the College.

A trend and possibly a tradition has been established at VSC with the faculty and staff. They have begun to seek ways of relating to the community and of serving with programs, speeches, holding office in governmental, civic, and professional organizations in greater numbers than ever before. Almost three-fourths of the faculty and administrative staff members are actively involved in public services of one type or another.

Making a list of such involvement is almost impossible since many of the faculty are reticent to send in such items as speeches made to civic groups. Even so, the list which has been prepared from the reports sent in to the Office of Public Services is so long that it has taken many pages. It appears in the APPENDIX III.

## 6. Needs

### a. Any special difficulties with which your institution is faced.

#### (1) Salaries

The greatest difficulty made manifest in last year's Annual Report has been partially eliminated. The "hue and cry" for faculty raises received a 9-1/2% response to become effective with the new academic year. The University System of Georgia, and Valdosta State College in particular, will continue to have real needs in this area, however, and we all must continue to work for higher faculty salaries.

#### (2) Equipment

In the equipment area, we continue to have special laboratory difficulties. The Departments of Physics and Astronomy and Geology need additional laboratory equipment urgently. The laboratory commitments of the Physics and Astronomy Department has grown considerably in the past decade with the addition of Astronomy 105-106 as a laboratory sequence, with the establishment of the Astronomy major, and with the addition of a third Physics course, Physics 107, in the Physics sequence. Despite this growth, the departmental equipment budget has been cut by 63% in actual dollars and by 80% in purchasing power, if the present budget is compared with the average of a decade earlier. The Geology Department (provisional) has no laboratory facilities in which to teach three laboratory courses. The addition of laboratory tables represents the very minimum purchase necessary

to meet the difficulties posed by this shortage. Other departments in the College have needs just as critical as those in the departments mentioned.

### (3) Library Allocations

A critical difficulty has arisen in the lack of sufficient library funds. The tremendous increase in periodical costs, especially in the sciences, and inflationary book costs have created a problem which our present allocations cannot solve. This difficulty can be overcome only with a special allocation for library purchases.

### (4) Outreach Programs

If Valdosta State College is to keep pace with changes in available college populations, a suitable program for part-time day and evening students must be fully implemented. First steps were taken during this past year with the development of a year-long evening program for the 1977-78 academic year and the designation of a staff member to coordinate the activities of a community college office. Special funding is needed to support the public service endeavors with the School of Business Administration. They are working very closely with many small businesses in the community, but their efforts up to this point have detracted from much-needed instruction in the School.

#### b. Estimated needs in personnel.

Even though the institution is generally well-staffed at this time, the addition of a few new positions would greatly improve the service offered in selected academic departments. These positions include: Biology, Mathematics, Nursing, Accounting and Finance, and Special Education. A replacement position for the one transferred from College Relations is also needed.

c. Special facility needs, including alterations and repairs to the physical plant.

The obvious need for a Physical Education complex remains the highest priority. However, a complete renovation of West Hall should be accomplished within the next five years if that facility is to serve the institution adequately. West Hall is in disrepair, is poorly lighted, and lacks adequate air conditioning. A more detailed list of our physical needs follows.

Special facility needs including alterations and repairs to physical plant.

REHABILITATION NEEDS:

The need for rehabilitation funds has become most acute since these funds have been non-existent for Valdosta State College for the past three years. During the year a careful review has been made of the physical facilities at the College and funds are urgently needed for several high priority projects. In the area of physical plant facilities, these projects include the rehabilitation of existing facilities, utility development, and land acquisition. These projects are listed in a priority order:

- Rehabilitation: Campus Greenhouse . . . . . \$ 30,000

For a number of years our Biology Department has requested a greenhouse, but we have been unable to fund the construction of such a facility. Over the years members of our Biology Department have worked with Lord and Burnham Incorporated in the design of this facility to serve the teaching needs of this department. Our school is probably one of the largest in the University System without adequate greenhouse facilities, and we feel that this request must be fulfilled in the very near future if we are to maintain a quality program in this area.

- Rehabilitation: Electrical Distribution System . . . . . \$267,000  
Fifth Phase and Completion

The College employed Blakely-Johnson and Associates of Macon, Georgia to study our electrical distribution system and to develop a master campus electrical plan. Our electrical system, which is owned by the College, is quite old and needs extensive repairs. This overload system with 12 KV lines is loaded to its design capacity and the main overhead 12 KV feeder is loaded 10% beyond its design capacity. Currently the main overhead 12 KV feeder is loaded to its thermal capacity. Portions of our overhead system will have to be rebuilt in order to adequately serve the increased loads. It will never be possible to make our present overhead electrical distribution system aesthetically acceptable! Blakely-Johnson and Associates have recommended an underground looped network system with looped laterals, automatic sectionalizing, and over-current protection. Though more costly to build than an overhead system, an underground high voltage distribution system is feasible and offers the best solution to the electrical distribution problem for the College. A high voltage electrical underground system properly designed, constructed and maintained is feasible and can be economically justified when all the aspects of reliability, safety, capability, flexibility, aesthetics and maintenance are considered. The estimated cost of the entire underground work indicated by Blakely-Johnson and Associates' study is approximately \$575,000.

The system proposed by our consulting engineers can be implemented in five phases, and it is desired that the fifth phase be implemented in Fiscal Year 1978 at a cost of approximately \$267,000. The first four phases of this project were implemented during Fiscal Years 1974, 1975, 1976, and 1977 at a total cost of \$308,000.

- Rehabilitation: Central Steam Distribution System . . . . . \$175,000  
Third Phase and Completion

The College has approximately 2,290 linear feet of steam lines and condensate return lines from the central boiler plant throughout the main campus. Our main steam lines, hot water, and cold water lines were in a most deteriorated condition until several years ago. However, over the past three years great strides have been made with the installation of a new steam distribution system. A system utilizing Perma-Pipe has been installed to serve all our buildings on main campus except for the men's residence hall complex. The first phase of this system was completed at a cost of \$50,000, and the second phase of the project was completed during Fiscal Year 1974 in the amount of \$140,000. The steam distribution lines serving Brown and Lowndes Halls need to be replaced next year. This third and final phase of this project would cost us approximately \$175,000 due to the rapid inflation in the cost of steel pipe experienced over the last several years. This work must be accomplished before we are faced with a complete shutdown of these facilities during the winter months in the near future.

- Rehabilitation: Georgia Hall Pipe Replacement . . . . . \$ 55,000

The galvanized domestic water pipes serving Georgia Hall are heavily corroded and must be replaced with copper pipes next year. The College is now completing the repiping of Langdale Hall and the same project must take place in Georgia Hall. We constantly have pipes rupturing and flooding student rooms and corridors in Georgia Hall. The only time this repiping can be accomplished by our Plant Operations Department is late this Summer Quarter, and it will require two summers to complete the installation of copper pipe. This building must be repiped with copper if we are to continue using it in the future.

- Land Acquisition: Corner of Sustella Avenue and Baytree Road . . \$325,000

This property located along Baytree Road and Sustella Avenue adjacent to our campus contains approximately 10 acres of land which the College desperately needs for future expansion. This land would be ideal for our Physical Education Complex and the many allied requirements of such a facility. This corner tract of land consists of six separate parcels, each of which contains a dwelling house in good to excellent condition. The College urgently needs funds to purchase this land adjacent to our main campus. We need to move ahead with this acquisition in the very near future in order to complete this corner of our campus to provide more adequate space for our Physical Education Complex.

- Land Acquisition: University System Related Need  
Lake Louise . . . . . \$200,000

Since 1965, the Biology Department of the College has been granted exclusive use of a 178 acre tract of privately owned land located seven miles south of Valdosta. The tract includes a thirteen acre lime sink type pond with several unique features, plus a variety of soil and woodland community types. Use of the land by the College was granted by the former owner, Dr. George Leiby, with the stipulation that it be used exclusively by the College for teaching and research purposes and also that the tract be maintained as a wildlife refuge. In 1969, Dr. Leiby and his family formally deeded the Lake Louise property to Mars Hill College. Since that time Valdosta State College has continued to use this property under a 25 year easement from Dr. Leiby and Mars Hill College.

As a consequence of studies conducted by various members of the Valdosta State College biology faculty, the unique natural features of Lake Louise have been brought to the attention of a number of prominent biologists both in and out of the University System of Georgia.

Since the late 1960's, biologists of the various units of the University System of Georgia have recognized the urgent need of a biological field station for the study of fresh water biology (limnology) that would be accessible to students and faculty from all the units. Furthermore, this group has been insistent that the location of such a facility should be in the Coastal Plain. A formal endorsement from the membership of the Regents Advisory Committee for Biological Sciences for state acquisition of the Lake Louise property and the establishment of a Limnological Field Station there for System-wide use was made March 4, 1975.

Recently, Mars Hill College has found it desirable to consider selling the Lake Louise property which now has considerable value on the real estate market for development purposes, since it is located near a growing city, an interstate highway, and an airport. The officials of Mars Hill College would much prefer that Valdosta State College have first priority for purchase at the current market but justification for obtaining state funds for purchase at the current market value is difficult to establish for a single University System Unit. It is a rare opportunity, however, for the Board of Regents to acquire an ideal site that can be developed into a multi-use facility by all the System Units. Dr. Leiby is so interested in seeing that this natural area be preserved for scientific research that he has pledged \$25,000 of his personal funds to be applied toward the purchase of the property.

Any Other Needs Requiring Attention

- URGENT - Physical Education Complex . . . . . \$5,500,000

The single greatest capital need in the way of new buildings is a physical education complex for our 5,000 student body. As a senior college of the University System of Georgia providing instructional programs, undergraduate and graduate, in the Arts and Sciences and selected pre-professional areas, Valdosta State College is also committed to providing adequate opportunities for the overall development of the individual. Included in these opportunities is a superior program in physical education and ample facilities for health and recreational activities. The College has an undergraduate major program and a master's program in physical education, and present facilities are very inadequate for such degree programs. The College's present physical education facility was built in 1952 and is highly inadequate to meet current enrollment requirements for approximately 5,000 students. This project can be constructed in two phases with Phase I containing approximately 58,000 square feet of floor space. The College needs to move ahead with the planning and construction of Phase I (\$2,700,000) during Fiscal Year 1978. This facility need is urgent, and it is hoped it can be met during Fiscal Year 1978.

- College Union Addition . . . . . \$1,750,000

The College Union, opened in 1966, places great limitations on all campus activity programs due to the limited space available in this facility. It is impossible to accommodate all those student groups desiring to use rooms in this building. The College Union Addition, which was recently completed, has alleviated the crowded conditions that existed in our bookstore. However, other important needs in the College Union Building need to be satisfied, such as additional large meeting rooms, commuter lounges, interview rooms, bowling lanes, and projection rooms. A multi-story addition to our present facility is urgently needed to relieve present overcrowded conditions. With the addition of this space, the College Union could adequately serve an enrollment of approximately 6,000 to 7,000 students. This addition is urgently needed now that the bookstore addition has been completed and occupied.

- Business Administration Complex . . . . . \$3,000,000

The School of Business Administration has recently experienced a great expansion in student enrollment since the initiation of the Master's Degree Program in Business Administration. The Departments of Accounting and Business Administration-Economics are now located in the newly remodeled Pound Hall, but within a period of two or three years this facility simply will not be adequate for these departments. If we are going to provide a quality program of instruction at the undergraduate and graduate level in this discipline, we must have a modern facility in the near future to house the entire School of Business Administration.

- Remodel West Hall . . . . . \$1,000,000

Since the remodeling of Pound Hall is complete and the remodeling of Powell Hall underway, it will soon be possible to vacate West Hall so that a long overdue remodeling can take place. West Hall was first occupied in 1918, and since that time, this building has been used by practically every department on campus. Consequently, this facility needs extensive renovation in the form of new support structure, new flooring, lighting, and space arrangement. Additional work in the form of specialized classrooms and laboratories need to be provided in this building. The area once occupied by the School of Education will require space changes and renovation for general classroom use for the School of Arts and Sciences. The electrical system needs to be completely reworked, as it has become overloaded on a number of occasions when the air conditioning is running during the summer months. The steam radiators need to be replaced with a central forced-air heat system, and a new air conditioning system is urgently needed to replace the old zone units serving this building.

Buildings In Planning Stage At The Present Time

- Remodel Old Library (Project Number C-42) . . . . . \$750,000

A new library was completed and occupied at Valdosta State College in 1972, and since that time the old library facility has been virtually vacant. The old library was constructed in three phases, beginning with the main structure (11,000 sq. ft.) in 1940, Annex I (4,000 sq. ft.) in 1957, and Annex II (10,000 sq. ft.) in 1964. For the past five years the College has requested funds to remodel this structurally sound building in order to effectively

utilize the large amount of floor space it contained. The Board of Regents at its meeting held on May 10-11, 1977, authorized a project for the remodeling of this building on main campus.

Presently, we plan to locate the College Advancement Office, the Public Services Office, the Student Affairs Office, the Central Duplicating Center, and the Learning Skills Center in this remodeled facility. All of these departments now occupy limited space in other buildings throughout our campus and each has a critical need for more functional physical space to improve operating efficiency, working conditions, and communciations. It is hoped that the College will be able to occupy this facility during the early months of 1979.

## 7. Other Information

### Division of Business and Finance

Fiscal Year 1977 did not contain the magnitude of financial problems that were faced by the College during the prior year. During Fiscal Year 1976 the College moved from one financial crisis to another, whereas during fiscal 1977 the economy of the State of Georgia showed marked improvement. This resulted in a more stable financial climate on our campus.

The biggest problem faced by the office of Business and Finance during the year was the continuing effect of the energy crisis on the operation of the College. During January and February of 1977, we experienced our first real curtailment of natural gas for a period of approximately two months. We were fortunate to have adequate reserves of fuel oil for our alternate energy system and were not forced to close the College due to the natural gas curtailment being experienced nationwide. Unfortunately, our fuel oil bill increased from \$5,000 last year to \$30,000 during fiscal 1977, making it impossible to operate within budget limitations. Our efforts during the year to reduce our demand for all forms of energy resulted in very little savings. There appears to be no solution to this problem in the near future, and it will certainly become more acute during Fiscal Year 1978.

### Auxiliary Services

In contrast to the past decade at the College, there are no major remodeling or construction projects underway in facilities classified as Auxiliary Services. This condition emphasizes that we

have a more stable student enrollment on campus and that it is a time to consolidate our gains of the last few years. The past year has been a time when we shifted emphasis from providing physical facilities to utilizing our facilities to provide students, faculty, and staff better auxiliary services in all areas.

The Food Services Division initiated several very successful programs in the College Cafeteria during the year. One of those begun during fiscal 1976 and refined this year is our unlimited servings program. This policy, which allows the student to eat all he desires while in the Cafeteria, has now been expanded to include the salad bars for the weight-conscious student. Moreover, when a student receives a serving that he considers inferior, he has a choice of selecting the same item of perhaps better quality from another serving line or visiting one of the two self-service salad bars located on the main floor of the Cafeteria. This refined program has practically eliminated the complaint that students do not get enough to eat in the Cafeteria, or that they do not get quality food and selection.

In an effort to build better communications with the students being served by the Cafeteria, a hostess program was begun this year. During each meal a young lady is on duty visiting students at their tables and asking them for constructive criticism regarding the foods being served and the operation of the Cafeteria. This program has been so successful over the past year that it has almost eliminated work for the Food Services Committee which usually meets once or twice a quarter to hear student complaints related to the

Cafeteria. Students are now encouraged to go directly to the Cafeteria supervisory staff, rather than wait for committee action several weeks later.

The Satellite Snack Bar in operation in the Education Center has been successful beyond all expectations. In fact, it would be extremely difficult to discontinue this service because of its high level of use during the past two years. This service has created much good will for College Food Services and has met a real need of students who attend classes in this building.

In fiscal 1977, the position of Housing Coordinator was created to meet the housing requirements of our sixteen hundred students living on campus. The Housing Office, located in Langdale Hall, handles the receipting of money, housing contracts, room assignments, and student complaints concerning residence hall life. The response to this new service has been extremely favorable because the residence halls staff view this change as tangible evidence that Auxiliary Services is truly interested in their welfare. The new Housing Coordinator has been very successful in building a good working relationship with both the Dean of Students' Office and the Residence Halls Council and staff during the first year of operation. Also, a brochure has been prepared by this office to send to new students, depicting residence halls and food services at Valdosta State College.

For the new College Bookstore, occupied in June of 1976, this year has been one of transition and reorganization. Although there have been many problems associated with initiating an

on-line inventory control system in the bookstore, it will in the near future provide a great service to the students, faculty and staff of the College. Also, our new store offers a wider selection of merchandise than previously available with such services as the imprinting of T-shirts, expanded non-textbook reading areas, and a children's book section. The new tagging system, in conjunction with new cash registers, has allowed our personnel to process merchandise much faster than in the past. Long lines at the cash register are a thing of the past, even during registration.

Due to the additional time gained by employing a new textbook ordering system, the bookstore is now able to buy back used textbooks from students and wholesalers. It is anticipated that this practice will make the bookstore a more financially solvent operation, while at the same time furnishing our students an alternative to the high priced new textbooks.

#### Business Services

The employment of a Budget Officer in March of 1977 has added much needed depth to the College's accounting operation. The processing of budget amendments to the Regents' Central Office, providing departments with accurate budget information, and expenditure reporting will be the responsibility of this individual during the coming year.

The top priority for this fiscal year and next is the continued development of an on-line computer system designed to accommodate the accounting and budgetary functions of the College. This financial accounting program will provide more detailed expendi-

ture information at the departmental and divisional levels. The information contained in this system should prove most helpful to department heads, deans and directors as they analyze the operating budgets included in their area of responsibility.

At the present time, there are two TD 700 Input and Display System terminals operating in the office of Business and Finance. These devices are designed for on-line communications with the computer, and any data stored on discs is available for immediate access through these terminals. Currently, our physical properties inventory file is available on-line and consists of approximately 25,000 records. In addition, the personal services budget and payroll information programs should be on-line in September of 1977.

All accounting records should be processed and accessible through on-line terminals with the new computer system by the end of Fiscal Year 1978.

#### Personal Services

Initiation of the Hay Study was one of the major undertakings of this division during fiscal 1977. Implementation of the study involved orientation and explanation of the Hay system and the position data forms to be used in the survey. Currently, we are awaiting further instruction in the Hay measurement process in order to complete the initial phase. Approximately 350 classified employees were covered, with the remaining staff, excluding faculty, to be reviewed during fiscal 1978.

An employee newsletter initiated this year has received a very positive response from all areas of the College. It is pub-

lished on a quarterly basis, and will supplement existing publications giving more in-depth personnel information. This publication will deal primarily with policy and procedure, benefits and other items of timely interest to employees of the College.

The classified handbook was completed and distributed this year. This quality brochure briefly details personnel policies and is meant to be a ready reference to policy for college employees. Also, an orientation program for new employees is planned in conjunction with the classified handbook.

Narration and slides for the classified orientation program have been completed and should be ready during the Fall Quarter of 1977. The orientation program will parallel the handbook and will eventually be expanded to cover all employees of the College.

The Rehabilitation Act of 1973 became law late in the fiscal year, and the Affirmative Action program required to be in compliance with this legislation has been developed and awaits distribution. In January, 1976, the College participated in an accessibility survey and began making certain changes on campus to facilitate the ambulatory handicapped. Efforts will be continued in this area in the coming year to make our facilities more accessible to handicapped individuals.

The primary objective next year will be the expansion of the probationary period questionnaire and development of a meaningful performance evaluation program. When the Hay data forms are complete, the Personnel Office plans to follow closely the key job elements listed in evaluating employee performance.

The Personnel Office continues to offer claim service and assistance to the employees of the College on a personal basis. During fiscal 1977 approximately 3,300 claims were filed under the group health program. Of this, 364 claims totaling \$31,629 were paid specifically for dental expense. Premiums attributed to the dental program were \$46,450 yielding an experience of 68%. The dental program continues to be a sound benefit and has helped offset the bad health claim experience at the local level. It is hoped that any further premium increases in the health program will not be extended to the dental program. Based on experience for the past year, such an increase would not be justified.

The preliminary budget was computerized this year, saving a number of man-hours in its production. Programming is currently underway which will allow updating the personnel files by following budget format. This system will greatly reduce the work load in changing payroll, insurance, etc., at the close of the fiscal year.

Another major project during fiscal 1978 will be the re-drafting of the Affirmative Action program. Efforts in Affirmative Action have produced positive results over the past three years, and we will continue to emphasize this commitment of the institution to those having authority to hire or otherwise affect an employee's status.

#### Public Safety

During Fiscal Year 1977 a new Director of Public Safety assumed the duties and responsibilities of this department.

All new safety officers are now required to meet the standards of the Police Officers Standards and Training Act prior to employment and must become certified police officers within one year of employment. Continued turnover among safety officers was experienced during the fiscal year. It is anticipated this situation will continue because, as officers are trained, they will gravitate to local law enforcement agencies as our pay scale is not competitive.

The Public Safety Office is presently functioning as an independent law enforcement agency, filing all accident reports and incident reports with the state. An indexed reporting system has been initiated.

Public Safety officers have continued their interest in furthering their education. Nine officers and two interns, approximately two thirds of the staff, are enrolled in college courses. The two intern positions were established with interns selected from outstanding students in the Criminal Justice Program.

Pilferage and illegal entry into restricted areas continued to be a problem on the campus. The present master key system has been in use for a number of years and key control has been placed in jeopardy. Serious consideration must be given to recombining or replacing the master key system employed in all campus buildings.

Parking continues as one of the prime problems on campus. Reserved parking has been assigned for 355 vehicles, 354 staff vehicles have been registered, and 4,499 students have registered vehicles during the past fiscal year for a total of 5,200 vehicles registered on campus. This automobile registration total does not take into account

second and third vehicles which are registered but should not be parked on the campus at the same time. The limited amount of parking available on campus is a problem that must be dealt with in the near future through the construction of an additional parking lot adjacent to the main campus.

### Physical Plant

The operation and maintenance of buildings, grounds, central warehouse, and custodial services of the College are the responsibility of the Director of Business and Finance. These college functions are concerned fundamentally with timely service operations, maintenance, and alterations to college facilities.

The campus of the College now encompasses 140 acres containing some 44 buildings whose beauty has been greatly enhanced over the last decade through improved building maintenance and attractively landscaped grounds. The fine facilities present on our campus today have certainly enhanced the respect shown the College by students, staff, and the general public.

During the past year several construction projects on our campus were completed, allowing our Plant Operations Department to install paved walkways, lighting, and landscaping. The landscaping of the area surrounding the Education Center on the main campus is to be finished this summer. Several projects that were initiated and funded last year have been completed during the current year at the College.

The following projects were budgeted from local college funds and funds allocated by the Board of Regents during Fiscal 1977.

1. Buildings - Renovations - Brown Hall \$2,255

Since the College occupied this facility in 1964, it has been used to house our class of freshmen male students who live on campus. Each year we perform extensive renovation on this facility in order to attract residents the next year. This year new carpet was installed in the apartment of the head resident and the adjacent lobby area. This project was funded from the Replacement Reserve Account in Auxiliary Enterprises.

2. Buildings - Renovations - College Cafeteria \$3,285

The lobby of the College Cafeteria was carpeted in 1970 and over the years the heavy traffic had completely worn it out beyond repair. A new heavy duty carpet was installed during December of 1976 to correct this condition. Auxiliary Replacement Reserve funds were employed to finance this project.

3. Buildings - Renovations - Gymnasium Re-Roof \$57,000

In December of 1976 a contract was awarded to an Albany firm to completely rebuild and replace the College Gymnasium roof. Over the past several years numerous leaks had been experienced in this facility and our Plant Operations personnel were able to repair them in a very minor fashion. The contractor removed the Spanish Mission roof tile from the entire roof, new felt was applied in a correct manner, and the tile was replaced. This new roof should give the College many years of trouble-free service. This project was funded by an allocation of Major Replacement Funds by the Board of Regents.

4. Buildings - Renovations - Cafeteria Re-Roof \$6,500

Since the College occupied the addition to the College cafeteria in 1969 we have experienced roof leaks that we could not get corrected by the contractor. Hopefully, these leaks have now been stopped by work performed on this building during the current year. This re-roofing of certain roof areas was funded entirely from the Replacement Reserve Account in Auxiliary Enterprises.

5. Buildings - Renovations - Hopper and Lowndes Halls \$1,075

The carpet in the apartments of the head residents in these two buildings required replacement after some ten years of heavy use. The new carpet for this installation was purchased from Auxiliary Enterprises Replacement Reserve Funds.

6. Buildings - Renovations - Langdale Hall \$34,000

During the year our Plant Operations Division was involved in several major projects in Langdale Hall. First, the Office of College Housing was relocated in Langdale Hall, which required the installation of new carpeting in this office complex. Second, the washeteria in this building was expanded to serve as a central facility for the entire campus. Third, our Plant Operations Division replaced all the galvanized water pipe in this building with new copper pipe. Due to water damage and construction work, it was also necessary to replace the corridor carpet throughout the first floor of this building. This project was funded from Auxiliary Enterprises Replacement Reserve Funds.

7. Buildings - Renovations - Reade Hall \$4,187

The College opened this residence hall Fall Quarter of 1976 to accommodate an additional 100 students in campus housing. This building had been closed since 1970 so extensive renovation was necessary prior to its being occupied this year. The funds expended this year represent the final costs related to the completion of Reade Hall. This project (\$79,187) was funded from the Replacement Reserve Account in Auxiliary Enterprises during Fiscal Year 1976 and 1977.

8. Buildings - Renovations - Education Center Snack Bar \$14,500

During the Summer Quarter of 1975, our Food Services Division opened a satellite snack bar in the Education Center. This operation proved to be very successful and this area was completely renovated during the year to make it an efficient food service facility. Auxiliary Replacement Reserve Funds were utilized to finance this project.

9. Improvements Other Than Buildings - Chill Water Distribution System \$26,465

Last year the College employed the engineering firm of Nottingham and Brook to design a chill water distribution system to serve Converse, Ashley, Reade and Hopper Halls. This project was completed during the year and its cost exceeded earlier estimates by \$26,465. This new system will allow the College to cool these buildings more efficiently in the future and its cost was funded from Auxiliary Enterprises Replacement Reserve Funds.

10. Improvements Other Than Buildings - Paving and Storm Drainage \$104,600

Over the past five years the College has completed an extensive renovation of the Converse, Ashley, and Reade Hall residence complex. Also, chill water lines and underground electrical lines have been installed to serve these newly remodeled facilities. During the Summer of 1977, a new road and sidewalk system was constructed on the west side of this complex to provide better access to these buildings. This project was funded by a transfer of funds from the unappropriated Surplus Account in Auxiliary Enterprises.

11. Equipment - College Cafeteria \$26,600

A number of equipment items were purchased and installed in the Cafeteria during the year to increase the efficiency of our Food Service operation. A new van was also acquired to transport food to various locations on campus. These equipment purchases were funded from the Replacement Reserve Account in Auxiliary Enterprises.

### Division of Development and College Relations

The professional staff in the area of institutional advancement consisted of the same four persons as last year: the Head of Informational Services, the Director of Public Relations, the Director of College Relations, and the Director of Development. Their responsibilities were described in last year's annual report.

In early May, the Director of Public Relations was transferred from Development and College Relations to the Admissions Office and assigned new responsibilities as coordinator of our Community College program. To compensate partially for the resulting staff deficiency in the area of institutional advancement, the Director of Development, who has been teaching one course every quarter, is to forego teaching during the coming year to devote more of his attention to fundraising and coordination of advancement activities. The former responsibilities of the Director of Public Relations have been distributed among the remaining staff members.

### Alumni Affairs

We continued to see signs this year that alumni interest and support of the college is definitely increasing. One evidence of this is the increasing involvement of younger alumni in the activities of the Alumni Association. Continuing the series of "Fun Nights" begun last year, we had notable successes in Donalsonville, Bainbridge, and Washington, D.C. The Washington occasion differed from the others in that it was sponsored by Mrs. Marguerite Langdale Pizer, immediate past president of the Alumni Association, and was given in her home. A reception hosted by Valdosta alumni for June graduates, was quite

successful, as was the annual alumni breakfast at the meeting of the South Georgia Methodist Conference.

The Alumni Association Board of Directors met five times during the year. Mr. John R. Sessions, a local banker, usually presided, first as vice president in the absence of Mrs. Pizer, who was prevented by distance from attending, and then as president, to which office he was elected at Homecoming in February. Mr. Sessions also attended several of the "Fun Nights" and has proved to be an able and conscientious leader.

Those who participated in Homecoming this year are generally agreed that this was the best Homecoming ever at VSC from the standpoint of attendance, organization, and quality of entertainment. A carnival midway set up in the quadrangle proved extremely popular, and everyone, young and old, seemed to have a good time. The special class reunions were also better attended than usually is the case.

Presumably, the reason we are experiencing improved alumni support is that we are contacting alumni more, putting them in closer touch with the college. For example, during the fall and winter, a campaign to update addresses and other directory type information in Valdosta resulted in several hundred telephone calls from VSC students and advancement staff members to Valdosta alumni. These alumni had an opportunity to comment on the college, to complain if they wished to, or to ask questions. This campaign, called "Operation Update," was in essence a small phonathon modeled on those of our annual fund campaign, as described in the section on fundraising.

## Publications

Whereas the Director of College Relations assumed primary responsibility for alumni affairs, the Director of Public Relations took the lead in production of printed materials for the college. He was involved in the design, production, and typesetting of 26 projects, the typesetting of 15, the complete editing and design of 10, and the design of nine additional projects. These ranged from the 16 page, two-color booklet, Decade of Full Maturity, on which he worked with Dr. Ward Pafford to depict the growth of VSC over the past ten years in prose, poetry, pictures and graphs, to setting the type for the Lady Blazers basketball team schedule cards. He assisted with the production of 17 brochures for academic and administrative departments.

The scope of publications work increased significantly over that of the previous year, for several reasons. First, the Director of Public Relations had improved his publications expertise by attending a short course in printing design and paste-up. Second, the Media Center has improved its printing capability. Third, the Development and College Relations Office acquired at no cost a used IBM typesetting equipment from the college newspaper, which had bought new equipment. Finally, decreasing enrollment spurred the Admissions office and academic departments to seek new brochures and other printed materials for recruitment purposes.

## Newspaper and Electronics Media

Press, radio, and television coverage of VSC activities has continued to be good this year. The Head of Informational Services mailed more than 600 press releases to newspapers throughout Georgia

and North Florida, about the same number as last year. The major papers in Atlanta, Macon, Savannah, Valdosta, and Jacksonville, Florida, have been quite generous in printing our stories.

VSC professors and students appeared regularly as guests on Albany and Tallahassee television programs. Our Town Valdosta, the VSC community talk show co-hosted by VSC Vice President W. Ray Cleere and Mrs. Jean Holland is well into its second year and building an audience. An effort to improve our radio news coverage through employment of a local radio news director as a consultant and his distribution of taped news items to regional radio stations showed promise but had to be abandoned this year for lack of sufficient funding.

Area press, radio, and television personnel have responded well to VSC press conferences. The most recent were those for comedian Jack Sheldon of the Merv Griffin TV show and Mrs. Judy Carter, daughter-in-law of President Jimmy Carter, both of whom made appearances on campus spring quarter.

In addition to her duties in handling press, radio, and TV coverage, the Head of Informational Services edits our campus newsletter, the VSC Capsule. This year, in cooperation with the Director of Personnel, she added an additional section called the "Capsule Caboose," which carries official information from the office of the personnel director.

#### Public Service

By the nature of their work Development and College Relations staff members are engaged in services to the college and to the general public. As private individuals, the people of this office have

excellent records of involvement in church and civic affairs. They have unflinchingly demonstrated willingness to assist all components of the college with any public relations problems that might arise. Last fall, in an effort to serve the college and the public, the College Relations office sponsored a seminar for bulk mail users in the Valdosta area, with instructors from the U.S. Post Office. The Director of Public Relations, the college's best informed expert on mailing procedures, has willingly served as a consultant to all who needed advice on this subject, as well as on the subject of publications. The Director of College Relations has had a busy year with speeches and lectures. Last summer he was well received as a lecturer in the Governor's Honors Program at Wesleyan College in Macon and was invited back this year. He gave a series of lectures on Public Relations in Law Enforcement at the invitation of the Valdosta police chief, who has indicated that he would like this series repeated. Appointed as the only college representative on the Georgia Chamber of Commerce Attractions Committee, he has represented the college and the University System well.

#### Special Events and Activities

As usual the College Relations office has been involved in the arrangements for a number of special events and activities throughout the year. Among the most important were summer and spring commencement exercises, fall convocation, and Honors Day. The featured speakers on these four occasions were as follows:

Summer Commencement - Dr. Melvene Hardee of  
Florida State University

Spring Commencement - Public Service Commissioner Mac Barber

Fall Convocation - Publisher Eugene Patterson of the St. Petersburg, Florida, Times

Honors Day - VSC Callaway Professor of Special Education Dr. Leo Kelly

The College Relations office also assisted the president with a number of special luncheons, dinners and receptions. For example, there were special occasions in honor of local legislators Henry Reeves, James Beck, Robert Patton, and Loyce Turner; Moody Air Force Base Commander Jack Gregory; students with 4.0 academic averages; and faculty retirees. The Director of College Relations, often in demand as a judge or master of ceremonies for beauty pageants, participated in several this year.

The College Relations office continued to work with the physics and astronomy department in scheduling some 4,500 visitors for programs at the VSC Planetarium and assisted the Concerts and Lectures Committee, the VSC Music Department, and the Valdosta Community Concerts Association with arrangements for on-campus performances by outstanding individuals and groups. Performing groups included: the Atlanta Symphony Orchestra, the Pfeiffer College Choir, the Texas Boys Choir, the Harry James Orchestra, and the Richard Thomas Ballet. Some of the guest lecturers and clinicians, most of whom were brought in by the Music Department, were: Vaclav Nelhybel, internationally celebrated composer and conductor; Beveridge Webster, internationally acclaimed pianist and senior faculty member at the Juilliard School of Music; Edward Tarr, Baroque trumpet specialist from the Basel, Switzerland, Conservatory; George Kent organist and choral conductor from the University of Rhode Island; Shirley Matthews, harpsichordist from the Peabody Conservatory; Barbara Norland,

organist from Heidelberg, Germany; Jack Sheldon, professional trumpet player and musical director for the Merv Griffin TV show; and Sofia Steffan, mezzo soprano and member of the Manhattanville College music faculty.

VSC Foundation and Forward VSC Committee

The Forward VSC Committee continued this year to meet regularly to discuss issues of interest to the college and the community. Valdosta contractor Bill Amos served for a second year as chairman of this group. Most of the meetings this year were essentially information sessions, as the chief administrators of various college departments were given an opportunity to explain to the Forward VSC Committee members the functioning of their administrative units, the scope of their responsibilities, and their problems. A notable accomplishment was the completion of the billboard project which the committee began last year. Fifty billboard-sized posters promoting the college were prepared and distributed through the cooperation of Valdosta advertiser Keller Wilcox into various locations throughout the state of Georgia and North Florida. Some of these are still being placed. They are believed to be very effective in assisting our student recruitment efforts.

Valdosta businessman A. J. Strickland, III, is serving as chairman this year of the VSC Foundation. His term began with the annual meeting of September 16, 1976, at which time Mr. Strickland appointed three special committees to study the possibility of expanding the Foundation's fundraising activities in three areas. Mr. Tyson McLane became chairman of the Leadership Giving Program Study Committee; Mr. Norman Bennett became chairman of the Deferred

Giving Program Study Committee; and Mr. Howard Dasher became chairman of the College Endowment Funding Plan Study Committee. The Leadership Giving Program Study Committee reported in favor of initiating such a program and its recommendations have been implemented in the form of an unofficial organization called the Valdosta State College Founders Association. The other two committees are expected to report at the next annual meeting in September.

The Annual Fund campaign, consolidated last year, is the chief fund raising activity of the VSC Foundation. Mr. Patrick G. Umscheid, manager of the local branch of the J. C. Penney Company, served as general chairman of the fund drive for 1977. The chairman of the four annual fund divisions were as follows: ITT-Thompson executive Lewis Kafoure (Business Division); Valdosta accountant Gerald H. Henderson (Alumni Division); Levi Strauss executive Fred Buescher and Mrs. Buescher (Parents Division); and VSC Philosophy Department Head Dr. Ron Barnette (Faculty Division).

Each division adopted goals which totaled \$50,000. As of June 30, the Annual Fund had produced \$34,387 in gifts and pledges, about two-thirds of the goal. Since, however, an alumni mailing had just been sent and other appeals were in progress, it appeared that the final total would be at least \$38,000 and might reach \$40,000.

Of the four divisions, the alumni division has shown the most improvement this year. This is attributable to the greater number of mail appeals and the phonathon campaign conducted in ten cities with large concentrations of VSC alumni. In these phonathons staff and alumni volunteers, plus a few students, attempted to call 3,302 alumni. Of the 1,055 who were actually contacted, 291 gave specific

pledges, 192 pledged unspecified amounts, 371 promised to consider giving later, and 201 refused point-blank. The dollar value of the 291 specific pledges was \$3,600.00, so the average gift was approximately \$12.00. The average is low because a very large number of these donations were first-time gifts. The phonathons are considered a good investment because they produce revenue, stimulate alumni involvement with the college, increase our number of donors, provide feedback to the college from alumni, and help us to update our addresses, thus preventing wasted mail and saving the expense of address correction notices from the post office.

Like the Leadership Giving program mentioned above, a Tribute Fund has been designed as an aspect of the Annual Fund program and is in the process of being implemented to increase giving to the college by individuals. Tribute Fund gifts are like memorial fund gifts, except that they are given in honor of birthdays, anniversaries, promotions, and similar events. Tribute Fund gifts are to be treated as Annual Fund contributions.

During the past two years, primarily because of increased fund raising activity, the volume of mail handled by the Development and College Relations office has increased substantially. This year well over 100,000 pieces of second and third-class mail has been sent from this office. Partly as a result of increased activity, the Advancement offices have developed a space problem. This problem is to be corrected, however, when the renovation of Powell Hall is completed and the Development and College Relations office is shifted to that facility.

Measures have been taken also to solve other problems that have materialized in the advancement area. Because of the large

number of address changes required and the constant up-dating of giving records, the Development and College Relations office needs to improve the speed, accuracy, and flexibility of its record keeping, reducing the labor intensity of the process. To do this, a video display computer terminal has been ordered and is to be installed this year. The Development office has also had difficulty scheduling use of the automatic typewriter leased by the college and located in the Admissions office. Use of this machine by the Admissions office and other offices has increased greatly in the past year. Consequently, a second IBM Mag Card Typewriter is being leased for the Development and College Relations office. These new equipments, financed through the sacrifice of two student assistant positions, and the eventual transfer of the Advancement offices to Powell Hall will strengthen our fundraising effort in a major way, and we are confident that we will be able to place increasing reliance upon voluntary financial support for scholarship and other special needs in years to come.

#### Admissions and Recruiting

Our Admissions office continues to do a good job in the area of recruitment. Most institutions are now experiencing slight declines or adjustments in their enrollments, and our institution is no exception. Our enrollment in the fall of 1976 was 5,011 as compared to 5,219 in 1975. Our primary approach to prospective students is through the college night programs in high schools and through personal contacts and attention outside of school. We work through the high school counselors in making our contacts and we believe that they, as well as their parents, have a great deal to do in the selection of a college by high school graduates.

We are beginning to give considerable amount of attention to junior college transfers and part-time students. Many of our part-time students are adults who dropped out of college some years ago. To take full advantage of what we believe is a largely untapped source of students among adults, we are beginning a new community college program for part-time students. We believe that this effort will help to bolster our sagging enrollment.

### Special Studies

Despite the slight decrease in enrollment for the college, Special Studies enrollment continues to grow. During fall quarter 1975 our enrollment was 176, and during fall quarter 1976 our enrollment was 249, an increase of 71 percent. If we are to continue to help our students to make satisfactory progress, we must add to our staff in order to keep class sizes at a manageable number. The anticipated changes in screening procedures will increase our population and compound this problem.

The following tables will give a more detailed idea of Special Studies activities during the year:

Table I

		Fall 1976	Winter 1977	Spring 1977
A. English	1. Number of sections	7	5	5
	2. Enrollment	153 (22*)	82 (16*)	56 (11*)
	3. Number of exits <sup>1</sup>	64 (42**)	25 (30**)	19 (34**)
B. Reading	1. Number of sections	7	6	5
	2. Enrollment	170 (24*)	122 (20*)	78 (16*)
	3. Number of exits <sup>1</sup>	50 (29**)	45 (35**)	8 (10**)
C. Math	1. Number of sections	6	4	3
	2. Enrollment	162 (27*)	81 (20*)	53 (18*)
	3. Number of exits <sup>1</sup>	84 (52**)	30 (37**)	6 (11**)

<sup>1</sup>An "exit" is a student who successfully completed his course work and scored at least 46 on the CGP test.

Regents Testing Program

The Learning Skills Center is charged with identifying candidates for the Regents' Examination as well as administering the test and handling all remedial work for those who do not pass. During the past year the examination was given to 947 students.

The Department of International Studies

The Department of International Studies has achieved during the past year increased vitality and visibility in a number of areas. Attendance at and participation in various conferences and meetings concerned with international studies have helped to attain the achieve-

ments mentioned earlier. The Director, Dr. William M. Gabard, has been able to obtain for Valdosta State College much recognition through: his membership as Executive Director of the Georgia Consortium for International Education; membership on the Executive Committee, South Atlantic States Association for South Asian and African Studies; membership on the Board of Directors, Southern Consortium for International Education; membership on the Georgia Partners of the Americas Committee of Higher Education; as a participant last summer in the Japan-sponsored "Seminar on Japan"; and in countless formal and informal contacts with such U.S. government agencies as the State Department and Office of Education and such private foundations as the Rockefeller Foundation, the Japan Foundation, and the Southern Council on International and Public Affairs, Inc. Association with officials in such organizations and agencies has proved to be immensely beneficial.

The Georgia Consortium and the Southern Consortium for International Education (Valdosta State College is a member of both consortia) will jointly sponsor with the U.S. State Department a Regional Foreign Policy Conference on East Asia in Atlanta on September 29, 1977, to which Georgians from all sectors of life will be invited.

The Georgia Consortium has received a \$50,000 grant for a summer "Faculty Development Seminar in Brazil" in which Professor Gabard and Professor Lamar Pearson of the History Department will be participants. Professors Louise Hanes of the English Department and Joe Pember of the Art Department will be two of sixteen participants in the SASASAAS-sponsored "Art and Religion Seminar in India" this summer. Professor Dale Peeples of History is a participant in the "Summer Seminar for American University Teachers" sponsored by Duke

University's Canadian Studies Center to be held in Kingston, Ontario. Professor Peeples also participated in the Scholar-Diplomat Program sponsored by the U.S. State Department and was assigned to the Latin American desk.

Dr. Jose Fernandez, Head of the Department of Modern Foreign Languages, is directing this summer the University System's "Study Abroad" Program in Valencia, Spain. Mr. C. Lee Bradley of the same department is the recipient of a summer scholarship offered by the French government at the Faculté des Lettres of Avignon. Dr. Margaret Hiers received a grant to establish a master's degree program in mental retardation under the auspices of Project HOPE.

The college sponsored in April a successful seminar on "Population Growth and World Hunger" through a grant awarded by South Atlantic States Association for South Asian and African Studies. Dr. Will Spencer, Regional Director of the Global Development Studies Institute, was the major speaker in the conference held for area social science public school teachers. Other participants were Dr. William E. Daughdrill, associate professor of geology and geography; Dr. F. Lamar Pearson, professor of Latin American history; Dr. William P. Frech, associate professor of history and social science education; and Dr. Gabard.

While area social studies teachers attended the seminar mentioned above, approximately 100 of their students participated in a Model United Nations Assembly staged by Valdosta State College's ten National Model United Nations delegates. The mock United Nations Assembly attracted students from Macon southward and served as an excellent orientation session to Valdosta State College for future students.

This year an outstanding group of ten students represented Valdosta State College at the National Model United Nations in New York. They prepared for the experiences through taking courses during the Winter Quarter on Malaysia and the United Nations. The delegation received the coveted "Honorable Mention" award at the session in competition with students from institutions throughout the United States.

During the past year Dr. Dale H. Peeples of the History faculty coordinated a program on "The United States and the World Today," which was funded by the Georgia Committee for the Humanities. Visiting lecturers included Dr. Norman W. Graebner, Stettinius Professor of American Diplomatic History, University of Virginia, who spoke on "America's Search for World Order." Dr. Richard Preston, Director of Canadian Studies and W. K. Boyd Professor of History at Duke University, spoke on "The Implications of the New Nationalism in Canada for U.S.-Canadian Relations." Other participants in this lecture series were Dr. A. L. Addington, Dean of the School of Business Administration; Dr. James G. Connell, Jr., of the Modern Foreign Languages Department; Dr. James F. Hill of the Philosophy Department; Dr. William M. Morrow of the Political Science Department; Dr. F. Lamar Pearson of the History Department, Dr. Peeples, and Dr. Gordon L. Teffelteller, Head of the Department of History; Dr. Albert H. Zlabinger of the Economics Department; and Dr. Gabard.

In January the Department of Modern Foreign Languages held a Foreign Language Festival which attracted several hundred language students to the campus. In addition, the Department sponsored a workshop for almost 100 public school foreign language teachers. The

department has sponsored weekly "Magic Carpet" programs on various foreign countries, thus stimulating interest in international studies on campus.

The Department of Art sponsored a European Museum Tour-Seminar directed by Professors Ruth Kahler and Don Penny. The seminar was held spring quarter, 1977, and the tour was June 12-July 2, 1977. Students spent time in London, Paris, Rome, Florence and Amsterdam studying art.

During the past year Miss Ruwaydah Kirdahi was appointed advisor to international students on campus. She has been able to organize a Society for International Students composed of representatives from some twenty countries. The existence and activities of this group enhances international visibility on campus. During the year the Society served an Indian dinner at the Yamini Krishnamurti dance performance, a Chinese New Year dinner, and an international dinner and festival during the Week of Seminars. The college had as its guest in May Mr. Mohamed Bouri, Second Secretary of the Algerian Ministry, who came to visit the several Algerian students enrolled here.

Of considerable importance this year was the staging at Valdosta State College for the first time of a Third World Culture Series which focused on India. This series was opened by India's foremost classical dancer, Yamini Krishnamurti. Financed by the college, with the support of a \$500 donation by Mr. J. P. Morrow of Birmingham, Alabama, the series brought to our campus ten outstanding authorities on India. Each gave a formal lecture in the evening to History 305(505) registrants and visitors from the college community. Professor and Mrs. Gabard entertained for each of the guests prior

to his appearance. On the following day the lecturer spoke at an assembly of students and faculty members and met with other members of the college community. Of special significance was the two-day visit in Valdosta by the Acting Ambassador from India, Mr. A. P. Venkateswaran. His appearance on campus and his meeting with Valdostans at various business and social functions was most productive. Valdosta State College achieved widespread publicity because of the Ambassador's visit.

This Third World Series on India dramatized the importance which Valdosta State College has achieved as a center for Indian studies and attracted widespread admiration and commendation. Certainly, no other institution in Georgia has attempted anything of this magnitude.

The Department of International Studies also sponsored a two-day conference on "Cross Cultural Education: Focus on India," in cooperation with the Department of Social Science Education of the University of Georgia, which gave us great visibility.

Among other campus activities which reflect international emphasis was the attendance of Roby Price, a junior AFROTC student, at the 17th Annual Foreign Affairs Conference at the U.S. Naval Academy, April 18-21, 1977. The conference, which is held for students who have displayed a particular interest and ability in the study of foreign affairs, attracted representatives from 130 colleges and universities to consider the topic "U.S. Foreign Policy Directions in a Changing World." Speakers included foreign ambassadors, U.S. Senators, and representatives from the U.S. State Department.

Also noteworthy is the award to Barry Griffin, a senior voice major, of a Fulbright scholarship to study in Austria in 1977-78.

The 1976-77 year has been an extremely productive one for international studies at Valdosta State College. Contacts made with leading authorities in the field at conventions, an impressive appearance of international scholars on campus, participation in overseas programs by our faculty, and increased recognition of Valdosta State College by various consortia and government agencies reflect the growing importance of international studies here.

To sum up, Valdosta State College enjoys a unique role and position in international studies. We have been able to utilize existing resources on campus which, coupled with the many contacts made in the field, have helped us achieve an enviable reputation among colleges and universities.

#### Religious Life

The religious activities on the Valdosta State College campus are planned, organized, and carried out by the individuals that comprise the Campus Ministers Association. At present, there are four full-time campus ministers serving the students at Valdosta State College as well as eight other religious life leaders responsible for their churches' or religious orders' programming and activities on campus. The four full-time campus ministers are:

Baptist Student Union	Rev. John Wortham
Wesley Foundation	Rev. Eugene Pollett
Youth with a Mission	Mr. Keith Hague
Christ Episcopal Church	Rev. Powell Gahagan

The other eight members of the Campus Ministers Association are:

Campus Crusade for Christ	Mr. Mark Duncan
First Christ Church	Rev. Glenn Mann
Messiah Lutheran Church	Rev. Russell Johnson
St. John Evangelist Church	Rev. O'Brien
Valdosta Hebrew Congregation	Rabbi Samuel Zakuto

Church of the Latter Day Saints	Elders
First Presbyterian Church	Rev. David Beville
	Rev. Roe Callaway
Valdosta Christian Center	Mr. Neil Benford

The Campus Ministers Association has been organized to facilitate communication and interaction among the religious groups on campus. This group meets each month throughout the year.

Involvement in campus life is the main goal of the campus ministers and the other religious life leaders on campus. A considerable amount of time and energy is spent informally mixing with students in order to develop effective personal relationships. These religious life leaders have been quite active in the new student orientation, campus entertainment and educational activities, seminar projects, and intramurals, virtually taking advantage of every opportunity to meet with the students.

During Spring Quarter 1977, the Religious Life Committee has not met. During Winter Quarter, attendance at the monthly meetings was sparse. Discussion in the meeting centered on the role and scope of the committee and possible improvements. It has always been the considered opinion of the members of the Religious Life Committee that the best mode of operation for them is individualistic, rather than as a unified group effort. The main support for continuing the committee is the facilitation of communication and interaction among the religious groups on campus.

#### Intercollegiate Athletics

The most successful athletic year in the history of Valdosta State College was completed as the Valdosta State College baseball team was eliminated in the semi-finals of the national tournament.

Valdosta State College won two state championships and two conference championships on their way to the All Sports Award given annually to the school in the South Atlantic Conference which has compiled the most points in its athletic program. These accomplishments reflect very favorably upon Valdosta State College, its coaches and student athletes.

#### Basketball (Men)

Winning 23 of their 29 games, the Blazers completed their best season since 1966 and were South Atlantic Conference Co-Champions. Having earned an at-large berth in the NCAA South Regional Tournament held in Chattanooga, Tennessee, VSC lost to eventual National Champions U.T. Chattanooga. In the final NCAA Basketball poll Valdosta State College ranked 14th in the nation among Division II schools.

#### Baseball

The Valdosta State College Blazers finished their season with a 47-16 record. They were South Atlantic Conference Champions, South Atlantic Tournament Champions, and South Atlantic Regional Champions, and participated in the NCAA National Championship Tournament held in Springfield, Illinois. The Blazers lost in the semi finals to eventual champions University of California, Riverside. In the final NCAA poll the Blazers finished 4th in the Nation in Division II baseball.

Players receiving recognition other than conference and state honors included Craig Viers, the second player in the history of Valdosta State College to be named 1st Team All-American. Cecil Whitehead, Steve McDiffitt and Skip Fite were 2nd Team All-Americans.

### Cross-Country

The Valdosta State College cross-country team braved 22 degree temperatures and a brisk Springfield, Missouri, wind to place 8th in the NCAA National Championship. The Blazers, who were 17th in last year's Nationals, thus completed their finest season, ending 26-2 on the regular season and 45-9 overall. The Blazers were State Champions and South Atlantic Conference Champions. Joe Germano ended a super season by being named 1st Team NCAA All-American.

### Tennis and Golf (Men)

The men's golf and tennis teams represented Valdosta State College well as both teams finished third in overall conference play.

### Basketball (Women)

The women Blazers received state, regional and national recognition as they won the State Championship, finished third in the Regionals and placed 5th in the National Women's Invitational Tournament in Amarillo, Texas. The girls finished regular season play with an outstanding 20-4 record. Sue Ann Christy was named Valdosta State's first All-American woman athlete.

### Volleyball, Tennis, Golf (Women)

Valdosta State College is also fielding teams in women's intercollegiate volleyball, tennis and golf competition. These teams have made good progress, as we are all working to upgrade these programs.

The Volleyball team finished with a season record of 19-22. The tennis team was 8-7, and the golf team participated in three tournaments finishing last against major college competition.

## APPENDIXES

## APPENDIX I

On the following five pages are listed the non-credit courses offered during the four quarters of 1976-1977.

ENROLLMENT IN NON-CREDIT COURSES, SUMMER QUARTER, 1976

Course No and Title	Instructor	Enrollment
M7601 RISK '76 (1st session)	Mrs. Cuba McKay	23
M7602 RISK '76 (2nd session)	Mrs. Cuba McKay	36
M7603 Summer High School Theatre Workshop	Mr. John Rudy**	13
M7604 Management by Objectives: Pros & Cons	Dr. Fred Ware, Jr.**	*
M7605 Investment Planning	Mr. Mark Young	5
M7606 Primary Painting (Ages 6-8)	Mr. Tommy Cato	12
M7607 Elementary Painting (Ages 9-12)	Mr. Tommy Cato	7
M7608 Parent-Child Art Class (Ages 4-5)	Mr. Tommy Cato	9
M7609 Batiking & Copper Enameling	Mr. Tommy Cato	*
M7610 Conversational Spanish	Dr. ** & Mrs. Jose Fernandez	*
M7611 Spanish for Travelers (Level I)	Dr. ** & Mrs. Jose Fernandez	*
M7612 Spanish for Travelers (Level II)	Dr. ** & Mrs. Jose Fernandez	*
M7614 Guitar I (Beginning)	Mrs. Cheryn Lawnsby	5
M7615 Guitar II (Advanced)	Mrs. Cheryn Lawnsby	2
M7616 Improving Intimate Relations with the Opposite Sex	Dr. ** & Mrs. Leo J. Kelly	*
M7618 Handguns for Women	Officer Bill Butler	8
M7619 Karate & Self-Defense	Mr. Steve Fiduk	5
M7623 Georgia & the American Revolution	Dr. Dale Peeples**	*
M7624 World War II Diplomacy	Dr. Dale Peeples**	*
M7625 Judo & Self-Defense (Beginning)	Mr. Wing Li	*
M7626 Judo & Self-Defense (Advanced)	Mr. Wing Li	*
M7627 VSC Summer Twirling Camp	Dr. William Bunch**	400
M7628 VSC Summer Music Camp	Dr. William Bunch**	130
M7629 Summer Experiences in Art for Children	Mr. Claud Singer**	*
M7630 Simple Home Repairs for the Non-Handyman	Dr. Glenn Tucker	8
M7631 Astronomy, The Space Program and Their Effects on Mankind	Dr. Glenn Tucker	*
M7632 Beginning Magic	Dr. David Goodsell**	*
M7633 Sand Sculpture for Children	Miss Ann Walker	*
M7634 Sand Sculpture for Adults	Miss Ann Walker	*
M7635 Parent-Child Swimming Class(6mo-6yr)(a)	Mrs. Jan Arnold	3
M7635 Parent-Child Swimming Class(6mo-6yr)(b)	Mrs. Jan Arnold	10
M7635 Parent-Child Swimming Class(6mo-6yr)(c)	Mrs. Jan Arnold	*
M7636 Parent-Child Swimming Class(6mo-6yr)(a)	Mrs. Jan Arnold	17
M7636 Parent-Child Swimming Class(6mo-6yr)(b)	Mrs. Jan Arnold	9
M7637 Beg. & Adv. Beg. Swimming Class (6-15)(a)	Mrs. Jan Arnold	6
M7637 Beg. & Adv. Beg. Swimming Class (6-15)(b)	Mrs. Jan Arnold	5
M7638 Beg. & Adv. Beg. Swimming Class (6-15)	Mrs. Jan Arnold	9
M7639 Adult Survival Swimming (16-up)	Mrs. Jan Arnold	*
M7640 Adult Survival Swimming (16-up)	Mrs. Jan Arnold	*
M7641 Beg. & Adv. Beg. Swimming Class (6-15)	Mrs. Jan Arnold	12
M7613 Math Enrichment for Children	Dr. Joe Gore**	*

APPENDIX II

CONFERENCES, WORKSHOPS AND SEMINARS, 1976-1977

CONFERENCES, WORKSHOPS, AND SEMINARS, 1976-77

1. Jointly Sponsored Conferences and Workshops

- a. "Land Use Planning Conferences." Valdosta State College sponsored three separate series of conferences on land use planning and community development in cooperation with the University of Georgia. These conferences were held in Moultrie, Lakeland and Valdosta. Dr. John Nuss was the University of Georgia liaison person with Tom Gandy being the coordinator for VSC.
- b. "Four College Consortium." This project is one which has continued for several years with the assistance coming to the four colleges through Albany State College. The other three colleges are Valdosta State, Fort Valley State, and Georgia Southwestern. The funds are used primarily for the Special Learning Laboratory on the VSC campus. Dr. Ray Cleere has served as the coordinating director on this campus, with Dr. Ben Groomes, Albany State College, as the general coordinator.

2. Special Continuing Displays, Exhibits, Conferences and Programs by Departments and Units of the College.

- a. Art Department. A continuous series of art exhibits and displays is open to the public almost each week of the entire year. At one time or another, almost every art form will be on exhibit. Once each year an exhibit of the better pieces done by students of that year are placed on display in the Art Gallery. Themes are carefully selected and the materials exhibited are invariably worthy of the patron's time to visit.
- b. Music Department. A great variety of musical programs are presented each year for public consumption. A new venture this year was the program featuring music composed by our own staff and faculty and students. The "Master Classes and Recitals" continue to be among the finest available anywhere.
- c. Speech and Drama Department. The usual list of plays, both serious and comedy, were provided this year. The Readers Theater has been and educative and entertaining group again. Debates, skits, radio programs, television programs over Cable TV, and other items of interest to the community were staged.
- d. Physical Education and Athletics Department. The best year in the history of athletics has just terminated for VSC. The intercollegiate programs were highly successful in several sports, so quite naturally the number of spectators attending these events was greater than ever. The intramural program continues to be strong and attractive.

- e. Modern Foreign Language Department. The "Magic Carpet" series was continued last year with the number of participants increasing. Eight weekly programs were held fall and winter quarters and six were held during the spring quarter.
- f. Physics Department. The major attraction on campus for upper elementary and high school students could easily be the Planetarium. Approximately 4,000 persons, some adult, attend demonstrations of this facility located in Nevins Hall. Dr. Dennis Marks does much of the demonstrating.
- g. History Department. For several years the History Department presented a series of lectures during the winter quarter. Two years ago, Dr. Dale Peeples secured a grant to expand those lectures. This year he secured three grants, fall, winter, and spring, and the number of programs grew to such a large number that they are now being listed under conferences workshops, and seminars in the following section.
- h. Week of Seminars. The Week of Seminars is approximately seven years old. Last year Mr. Jim Black took over the leadership of the special seminars and made several innovations which increased attendance and also made the timing more profitable to the participant and the college. This year brought additional changes, each of which seemed to make the "Week of Seminars" even more outstanding.
- i. Black Awareness Week. Rather than run programs all week long with less than desirable attendance, the leaders of this project decided to concentrate on one special day. Beginning at 10:20 a.m. and running until 8:00 p.m. the program was continuous, and as expected, attendance was more than triple last year's attendance.
- j. Library. The library staff has many display areas and racks, but one area - the lower level lobby - is devoted to extensive exhibiting on a revolving schedule whereby an exhibit may remain in place for two to three weeks. These exhibits are usually made up of books or art or photographic displays. Since the lobby is always open when the library itself is open, the hours for display are the same as the library hours.
- k. Other Continuing Programs. Several other departments in the college are regularly involved in public services, but the directions are slightly different, so they are mentioned only. For instance, the Small Business Administration unit, directed by Mr. Howard Lincoln, provides assistance to the small business owners and operators in the community as needs arise. The VSC Foundation and the Forward VSC Committee provide educational thrusts which benefit the college greatly. The VSC Entertainment Association is a joint group with the community, and this group secures outstanding musical programs, lectures, and drama for the college and community. Monthly meetings of the Lowndes Adult Education Association are held on campus with the personnel from the Public Services Division providing the continuing leadership for that organization to grow. Many others could be cited, but this list gives a general view of the great amount of "continuing" effort on the part of Valdosta State College.

3. General Listing of Conferences, Workshops, and Seminars  
Held at Valdosta State College During 1976-77

The following listing of conferences, workshops, and seminars held on campus or in the immediate area are of two types:

- (1) Many programs were planned by people and agencies in the area and brought to campus for housing and program assistance.
- (2) Many other programs were originated, planned, and conducted by staff and faculty at VSC.

The key persons involved in each project, both program and administration, are listed.

1. 6/6-6/17/76 - Nursing Review Sessions, in Huntsville, Alabama. Harmeyer/Gandy
2. 6/21-6/30/76 - Nursing Review Sessions. Harmeyer/Gandy
3. 7/11-7/16/76 - Summer High School Theater Workshop. Rudy/Rudy
4. 7/11-7/16/76 - Summer Twirling Camp. Bunch/Bunch
5. 7/18-7/24/76 - Summer Music Camp. Bunch/Bunch
6. 7/19-7/24/76 - Basketball Camp for Girls. Worth/Worth
7. 7/19-7/20/76 - District Public Health Department Training Meeting. Griffin/Watkins
8. 7/21/76 - Coastal Plain Area EOA Training Program.  
Boyd/Watkins
9. 8/2-8/7/76 - Basketball Camp for Girls. Worth/Worth
10. 8/12/76 - "The Capital Crisis in the United States" lecture to the Georgia Society of CPA's. Marvin Ray/Ray
11. 9/8-9/10/76 - Workshop, "Recreation for Special Populations." Gandy/Gandy
12. 9/16-9/20/76 - Staff Development Training for Educational Administrators and College Professors. Stern/Stern

13. 9/21/76 - Valdosta Vocational-Technical School Graduation, Whitehead Auditorium. Peacock/Watkins
14. 9/28-9/30/76 - "Grouping and Classroom Management Strategies," in Pearson, Georgia. Stern/Stern
15. 9/29/76 - A Cardiovascular Seminar, at Southwestern State Hospital, Thomasville, Georgia. Harmeyer/Gandy
16. 10/5/76 - "India: Tradition versus Modernity," lecture to Valdosta Lions Club. Gabard/Gabard
17. 10/5/76 - Committee of the Georgia Senate - Hearing on Status Offenses (Crimes by Juveniles). G. Vey/Watkins
18. 10/6/76 - "Consumer Rights and the Food and Drug Administration" - speaker, Mrs. Wilhelmina Lombardi. McCorkle/Gandy
19. 10/8/76 - Piano Master Class, George Mann of West Georgia College. Bunch/Bunch
20. 10/11/76 - Meeting of the American Association of University Women. V. Branan/Gandy
21. 10/12/76 - Meeting of the South Central Georgia Council of the International Reading Association. L. McRae/Watkins
22. 10/15/76 - "Strategies for Handling Behavior Problems in the Classroom," in Waycross. Stern/Stern
23. 10/18-10/22/76 - DHR Merit System Training Program. Griffin/Watkins
24. 10/21/76 - Vocational Education Workshop for Directors of Vocational-Technical Schools. Toth/Toth
- 10/21/76 - Medical Laboratory Symposium. Roberts/Gandy (Seventeen separate programs)
25. "Role of Complement in Immunohematology"
26. "Meaningful Microbiology for Small Laboratories"
27. "Cardiac Isoenzymes"
28. "RIA"
29. "Standardization: Top to Bottom of Urinalysis and Urinary Sediment"
30. "Intestinal Free-loaders"
31. "Rehearsal for a Laboratory Inspection"
32. "Helpful Hints for Better Blood Sample Collection"
33. "Blood Gas Analyzer"
34. "The Difficult Crossmatch"
35. "DIC - Disseminated Intravascular Coagulation"
36. "How to Evaluate a New Method"
37. "Stat - A Word of Abuse, Rather Than Use"

- 10/21/76 - Medical Laboratory Symposium (cont'd)
38. "Blood Smear Morphology"
  39. "A Procedural Manual: How to Write It and How to Use It"
  40. "Flame Photometer Maintenance"
  41. "Heparin Monitoring: A Laboratory Dilemma"
  42. 10/21/76 - "Strategies for Handling Behavior Problems in the Classroom," for Valwood School faculty. Stern/Stern
  43. 10/25/76 - "Strategies for Handling Behavior Problems in the Classroom," for GAE District meeting in Albany. Stern
  44. 10/29/76 - Piano Master Class, Beveridge Webster of the Juilliard School of Music. Bunch/Bunch
  45. 11/5/76 - "Grouping and Classroom Management Strategies," in Adel. Stern/Stern
  46. 11/8/76 - Brass performance Instructional Workshop, Edward Tarr of the Basel Conservatory. Bunch/Bunch
  47. 11/8/76 - Workshop on Problems of Accompanying the Solo Instrument, George Kent of the University of Rhode Island. Bunch/Bunch
  48. 11/10/76 - Insurance Agents Association Training Program for Rate Clerks. R. Anderson/Watkins
  49. 11/10/76 - Workshop on Professional Burnout. Copeland/Watkins
  50. 11/12 and 11/19/76 - Orientation Programs for Volunteers Working with Exceptional Children. Eldridge/DeLargy
  51. 11/15-12/8/76 - Nursing Review Sessions. Harmeyer/Gandy
  52. 11/18/76 - DHR Mental Health Workshop. V. Christie/Watkins
  53. 11/18/76 - "The Quadracentennial: 2176," lecture to the Lowndes County Historical Society. D. Marks/Marks
  54. 11/19-11/20/76 - Public Speaking Workshop, in Savannah Georgia. R. Spell/Spell
  55. 11/29-11/30/76 - News Media Workshop, with General Telephone Company. Addington/Addington
  56. 11/30/76 - "Guided Design: Improving Teaching Effectiveness," Dr. Charles Wales of West Virginia University. P. DeLargy/C. DeLargy
  57. 11/30/76 - Stress and Tension Management Workshop - Part I. Branan/DeLargy

58. 11/30-12/1/76 - DHR Workshop on Communications Skills/ Interviewing. Sheffield/Watkins
59. 12/1/76 - Insurance Agents Association Training Program for Rate Clerks. R. Anderson/Watkins
60. 12/2/76 - DHR Day Care Workshop. Adams/Watkins
61. 1/11/77 - Harpsichord Master Class, Shirley Matthews. Bunch/Bunch
62. 1/12-1/20/77 - Seminar on Public Relations in Law Enforcement. F. Stewart/Stewart
63. 1/12/77 - Insurance Agents Association Training Program for Rate Clerks. R. Anderson/Watkins
64. 1/13/77 - Meeting of the South Central Georgia Council of the International Reading Association. L. McRae/Watkins
65. 1/14/77 - Child Abuse and Neglect Workshop. Richardson/DeLargy
66. 1/15/77 - Modern Foreign Language Workshop for High School Teachers. Bradley/Watkins
67. 1/17/77 - "Reflections on Capitalism and Freedom," lecture to North Valdosta Rotary Club. A. Zlabinger/Zlabinger
68. 1/24/77 - "Tax Breaks for Senior Citizens," in Georgia Power Company Auditorium. G. Herrin/Gandy
69. 1/25/77 - Training Meeting, Coastal Plain Area EOA. Boyd/Watkins
70. 1/25/77 - "Tax Breaks for Senior Citizens," in Quitman, Georgia. Herrin/Gandy
71. 1/26/77 - Illustrated Lecture: Work of Sculptor Thomas Steadman. C. Singer/Singer
72. 1/26/77 - Volunteerism Workshop. G. Eldridge/DeLargy
73. 1/31/77 - "Tax Breaks for Senior Citizens." Herrin/Gandy
74. 2/1/77 - Exercise Physiology, Dr. Charles Shackelford. Bankston/Gandy
75. 2/1/77 - Stress and Tension Management Workshop Part II. Branam/DeLargy
76. 2/7/77 - "Tax Breaks for Senior Citizens," in Lakeland, Georgia. Herrin/Gandy

77. 2/9/77 - Insurance Agents Association Training Program for Rate Clerks. R. Anderson/Watkins
78. 2/14-2/15/77 - South Georgia Vocational Education Conference. Toth/Toth

Dr. Margaret W. Ellis (1)  
Mrs Janet O. Bullock (1)  
Dr. Ingeborg M. Koppy (1)  
Dr. Kelly A. Wells, Chmn. (1)  
Dr. Rosalie N. Allison (2)  
Dr. Joseph A. Gore (2)  
Mr. John Michael Thornton (2)  
Mrs. Dianne H. Wright (2)  
Mr. Marion Odom (Student) (1)  
Miss Ceci Ragan (Student) (1)

2. ATHLETICS

Dr. Caroline Hollingsworth (1)  
Dr. James G. Connell, Jr. (2)  
Dr. Myra K. McMurry (2)  
Mr. Thomas A. Clark (3)  
Dr. William P. Frech (3)  
Dr. Clyde H. Gaddy (3)  
Miss Glenda Battle (Student) (1)  
Miss Pam Langster (Student) (1)  
Mr. Ron Redner (Student) (1)

Ex-Officio:

Dr. Jay B. Arnold  
Mr. James T. Dominey  
Mr. William C. Grant  
Mrs. Matilda D. Mathis  
Miss M. Judith Phillips  
Dr. Nancy C. Scott  
Mr. Tommy J. Thomas  
Dr. David L. Waples

3. CONCERTS AND LECTURES

Mr. George W. Brannon (1)  
Mrs. Dorothy L. Griffith (1)  
Mrs. Lee C. Hansen (1)  
Dr. John C. Huxford (1)  
Miss Betty L. Douglas (2)  
Dr. Phillip E. Giffin (2)  
Dr. Dale H. Peeples (2)  
Mr. Lavan R. Robinson (2)  
Dr. Ellen G. Stern (2)  
Miss Gail Everett (Student) (1)  
Miss Mary J. Fuller (Student) (1)

(This committee also serves on the  
College-Community Fine Arts Committee)

4. DRUG ABUSE AND CONTROL

Dean Andrew J. Bond, Chmn. (1)  
Mr. J. William Hortman (1)  
Mr. J Grady Lacy (1)  
Mr. Hugh K. McIntyre, Jr. (1)  
Mrs. Deborah W. Wilson (1)  
Dr. John M. Branan (2)  
Dr. Terry O. Lowe (2)  
Dr. Nancy C. Scott (2)  
Dr. James C. Wilkerson (2)  
Miss Rene Mansour (Student) (1)  
Miss Louise Pierson (Student) (1)  
Ex-Officio,  
Mr. W. Robert Nettles

5. FACULTY AFFAIRS

Miss M. Irene Dodd (Appt.) (1)  
Dr. Willa F. Valencia (Elec.) (1)  
Dr. Donald E Gerlock (Elec.) (2)  
Dr. W. Kent Moore (Appt.) (2)  
Mr. Dick McLeod (Student) (1)

6. GOALS AND LONG RANGE PLANNING

Dr. Fred A. Ware, Jr., Chmn. (1)  
Mr. James L. Black (1)  
Dr. Donald L. Duncan (1)  
Dr. Jane L. Elza (1)  
Dr. Floyd D. Toth (1)  
Mrs Mary J. Durham (2)  
Mr. W Fred Ivy (2)  
Dr. Ward Pafford (2)  
Dr. Lucille A. Pollard (2)  
Dr Tom G Renfro (2)  
Mr. Dick McLeod (Student) (1)

Ex-Officio:

Mr. Arthur L. Bostock, Jr.

7. LIBRARY AFFAIRS

Dr. John A. Ricks, III, Chmn. (1)  
 Mr. Joseph M. Daniels (1)  
 Mrs. Willa E. Shovar (1)  
 Mr. R. Bruce Wallace (1)  
 Dr. Eugene H. Balof (2)  
 Mr. Peter H. Epes (2)  
 Miss Elmina A. McKneely (2)  
 Dr. Marianne K. Mayo (2)  
 Mrs. Charlotte J. Outlaw (2)  
 Dr. David L. Scott (2)  
 Miss Allison McKenzie (Student)(1)  
 Miss Betty Tanning (Student)(1)

8. MINORITIES AND MINORITY AFFAIRS

Dr. Ola M. Brown, Chmn. (1)  
 Dr. Donald P. Foshee (1)  
 Dr. S. Louise Hanes (1)  
 Dr. William S. Levison (1)  
 Mrs. Charlie A. Cleere (2)  
 Miss Saralyn Sammons (2)  
 Mrs. Mary Alice Griffin (2)  
 Mrs. Evelyn P. Wilkerson (2)  
 Mr. Bruce Jones (Student)(1)

9. SEX EDUCATION

Mrs. Sara J. Borden, Chmn.  
 Dr. Clyde E. Connell (1)  
 Dr. James F. Hill (1)  
 Mr. William H. Bridges, Jr. (2)  
 Dr. Leo J. Kelly (2)  
 Miss Teris McKenzie (Student)(1)

Ex-Officio:

Mr. Ken U. Ferrell  
 Mrs. Phyllis T. Gilson  
 Dr. Mack V. Greer  
 Mrs. Donna Nolan

July 1, 1976

10. STUDENT AFFAIRS

Dean Andrew J. Bond, Chmn.  
 Dr. Margrett L. Adams (1)  
 Mr. C. Ray Bryant, Jr. (1)  
 Dr. Edward B. Wilson (1)  
 Mrs. Maxine E. Gillespie (2)  
 Mr. Donald G. Veal (2)  
 Miss Melinda Pruett (Student)(1)

Ex-Officio:

Associate Dean of Students (Men)  
 Associate Dean of Students (Women)  
 Director, Auxiliary Enterprises  
 Director, Financial Aid  
 Director, Placement  
 Director, Student Activities  
 President, SGA

 Editor, Campus Newspaper  
 Chairman, College Union Board  
 Chief Justice, Student Court

ADMINISTRATIVE COUNCIL COMMITTEES

1976-77

1. CAMPUS DEVELOPMENT

Mr. Sam W. Brooks, Chmn.  
 Dr. A. L. Addington  
 Mrs. Sara J. Borden  
 Mr. Arthur L. Bostock, Jr.  
 Dr. W. Ray Cleere  
 Dr. Wayne R. Faircloth  
 Mr. J. Marion Franklin  
 Mr. Barney Griffis  
 Mr. Alex B. McFadden  
 Dr. William M. Morrow  
 Mr. Dick McLeod (Student)  
 Mr. Steve Schmidt (Student)

2. COLLEGE ADVANCEMENT COMMITTEE

Dr. John E. Lancaster, Chmn.  
 Dr. A. L. Addington  
 Mr. John W. Albright  
 Dr. William F. Bunch  
 Dr. James D. Daniels  
 Dr. Robert D. Fisher  
 Dr. Thomas W. Gandy  
 Mr. Billy Grant  
 Mrs. Virginia Harmeyer  
 Dr. John W. Letson  
 Mr. Fluker G. Stewart  
 Dr. Frederick A. Ware  
 Mr. Dick McLeod (Student)  
 Mr. Gary Wisenbaker (Student)

3. COMMENCEMENT

Mr. Fluker G. Stewart, Chmn.  
 Mr. Arthur L. Bostock, Jr.  
 Mr. Sam W. Brooks  
 Dr. W. Ren Christie  
 Dr. W. Ray Cleere  
 Mr. Tom Melton

4. DISPLAY OF GIFTS

Miss Irene Dodd, Chmn.  
 Mrs. Lee Bennett  
 Mrs. Jean Holland  
 Mr. Claud H. Singer

5. FACILITIES USE

Dean Andrew J. Bond, Chmn.  
 Mr. Sam W. Brooks  
 Dr. W. Ray Cleere  
 Mr. Ken U. Ferrell  
 Dr. Thomas W. Gandy  
 Mr. Dick McLeod (Student)

6. FOOD SERVICES

Dr. Charles L. Daniel, Chmn.  
 Dr. Jay B. Arnold  
 Dean Andrew J. Bond  
 Mrs. Sara J. Borden  
 Mr. Antonio R. Criscuolo  
 Mr. J. Marion Franklin  
 Dr. Joseph A. Gore  
 Dr. William S. Levison  
 Mr. Howard L. Lincoln  
 Mr. Ron Dubberly  
 Mr. Bill Burson (Student)  
 Miss Pat Daley (Student)  
 Mr. Dick McLeod (Student)  
 Mr. Marion Odom (Student)  
 Mr. Johnny Watson (Student)

7. INTERNATIONAL EDUCATION

Dr. William M. Gabard, Chmn.  
 Dr. Jose B. Fernandez  
 Dr. Donald P. Foshee  
 Dr. Thomas W. Gandy  
 Dr. William M. Morrow  
 Dr. Dale H. Peeples  
 Mr. Joseph W. Pember  
 Dr. Frederick A. Ware

8. JUNIOR COLLEGE RELATIONS (VISITATION)

Mr. Fluker G. Stewart, Chmn.  
 Dr. A. L. Addington  
 Mr. John W. Albright  
 Dr. Ronald L. Barnette  
 Mr. James L. Black  
 Mr. Arthur L. Bostock, Jr.  
 Mr. C. Lee Bradley  
 Dr. William F. Bunch  
 Dr. W. Ray Cleere  
 Dr. Charles L. Daniel  
 Dr. James D. Daniels  
 Dr. Robert D. Fisher  
 Dr. Thomas W. Gandy  
 Dr. John W. Letson  
 Mr. W. Robert Nettles  
 Dr. Sharon Presson  
 Dr. Marvin E. Ray  
 Mr. Claud H. Singer  
 Dr. Willa F. Valencia

9. PRINTING NEEDS  
Dr. John W. Letson, Chmn.  
Mr. Sam W. Brooks  
Mr. J. Marion Franklin  
Dr. Clyde H. Gaddy  
Mr. Fluker G. Stewart  
Mr. R. Bruce Wallace
10. PUBLIC SERVICES  
Dr. Thomas W. Gandy, Chmn.  
Dr. A. L. Addington  
Mrs. Elizabeth R. Bechtel  
Dr. William F. Bunch  
Dr. Jose B. Frenandez

Mrs. Jane T. Shelton  
Dr. Gordon L. Teffeteller
13. STUDENT ACTIVITY FEE BUDGET  
Dean Andrew J. Bond, Chmn.  
Dr. Ronald L. Barnette  
Mr. James L. Black  
Mr. Sam W. Brooks  
Mrs. Martha W. McKey  
Mr. Dick McLeod (Student)  
Mr. Marion Odom (Student)  
Miss Kathleen O'Neal (Student)  
Mr. Gary Wisenbaker (Student)
14. STUDENT FINANCIAL AID  
Mr. C. Ray Bryant  
Mr. Eddie Carswell  
Mrs. Mary J. Durham  
Mr. Michael D. Hattaway  
Mr. J. William Hortman  
Dr. Marvin E. Ray  
Miss Opal Jeannie Turner (Student)  
Mr. Tracy Hatfield (Student)  
Ex-Officio:  
Dean Andrew J. Bond  
Miss S. Ann Macklin  
Mr. Tommy Moore
15. STUDENT RECRUITMENT  
Mr. J. William Hortman, Chmn.  
Dr. Robert D. Fisher  
Mr. William T. Harrell  
Mr. Dennis L. Hale  
Mr. James O. Williams  
Miss Susan Cox (Student)  
Mr. Marion Odom (Student)  
Ex-Officio:  
Mr. Gary L. Bass  
Mr. Arthur L. Bostock, Jr.

16. FORWARD VSC

Mr. William G. Amos, Chmn.  
Mr. Randall Adams  
Mr. Roger M. Budd  
Mr. Joe Cordova  
Mr. Mike Dover  
Mr. William G. Eager, III  
Dr. Charles F. Hobby  
Mr. Jeff W. Hunt  
Mr. John W. Langdale  
Mr. William M. Lester, Jr.  
Dr. John M. Miller  
Mr. Floyd Moon  
Col. Clarence Parker  
Mr. Christie Patterson, Jr.  
Mr. George E. Powell, Jr.  
Mr. Paul Sanders  
Mr. John Sessions  
Mr. Carl E. Swearingen  
Mr. Des Toal  
Mr. Patrick Umscheid  
Mr. I. H. (Bubba) Tillman  
Mr. Rudolph Zeigler

Dr. S. Walter Martin  
Dr. W. Ray Cleere  
Dr. A. L. Addington  
Mr. John W. Albright  
Dean Andrew J. Bond  
Mr. Sam W. Brooks  
Dr. James D. Daniels  
Dr. Thomas W. Gandy  
Mr. Billy Grant  
Mr. Fluker G. Stewart  
Dr. Horace M. Watkins  
Mr. Dick McLeod (Student)  
Mr. Gary Wisenbaker (Student)

17. VSC COPYRIGHT

Miss Thera O. Hambrick, Chmn.  
Mr. Sam W. Brooks  
Dr. W. Ray Cleere  
Dr. James D. Daniels  
Dr. Robert D. Fisher  
Dr. John E. Lancaster

July 1, 1976
