## How To Win Your Man

Due to the demands of spring, which decrees that everyone must be in love, we the undersigned, hereby of fer a list of absolutely infallible rules designed but not guaranteed, to bring him back alive.
If you are the athletic type, then go in for frilly clothes and the dewey-eyed expression, also the clinging vine mannerisms, Although this is a complete reversal of your personality, opposites attract-you'll love yourself tremendously
Cry when you feel bad. The results are unnoticeable to mascara, if you have purchased the right kind-we never have.
Always talk about your previous boy-friends. If you are fortunate to have had several, drag them all in, one by one. com pare them verbally to your pres ent date, and it leaves him in an undesirable ught.
When he is wrapped up with your beauty and loveliness, let him see you outrageously firting with others. Even when your eyes are wide open, you still re main with him, as he foots the
bill.
If he is just about your height, be sure to wear high heels, so that you will tower over him; it gives him that gratifying feeling of being browbeaten.
Let him always know that your intentionals are matrimonial. Therefore, when dining out, don't hestitate to order steak and comment on how much better you can cook steak.
If he is a college man, don't slip up and not order, when still! dining out a huge meal. His pockets might be lean, and then he could get in some good dishwashing, practice for later years. Be sure to laugh at your own jokes, and miss the point to his. Talk loud and fast, maybe he won't interrupt you.

Of course all these things are contradictory, but he needs varriety. You'll knock him off his feet with these variations - so get him while he's weak.

Respectfully submitted,
Powerhouse Patricla and Getchaman Gladys.

## Lambdas Win Initial Game Of Season, 11-6

Causing the greatest upset of the sports season, the Lambdas defeated the Kappas in the first baseball game of the season with a score of 16-11. Florence Hedrick was on the mound for the Lambdas, with Dora Ida Perkins behind the plate.

An exclting game from start to finish, hopes sprang high as the Kappas advanced in the game.

With the second of seven innings of the game, however, there was a definite turn of the tide that put the Lambdas in the unbeatable lead.

Leah Yarborough. Kappa. gathered the greatest number of points for the afternoon with 3 triple-baggers and a double. Bue Prichett earned a home run and a double for the Lambdas. MarIon Smith, Marie Parrish, Frances Hug, and Florence Hedrick each made three runs.
Lineups for the game were 28 follows:

## New Officers Are

## BEING ELECTED to every club on campus

 this quarter. Election time brings up the question or points.According to the Student Government handbook, no student should carry more than sixteen points a year, unless special exemption from the rule is made in her particular case. It is well known that this ruling has not been strictly observed.

Are Rules to be Kept?
We must strive for more consistency where rules are concerned. Are we to have some that must be kept, while others can be pushed into the background at will?

This rule concerning office holding was made in the best interests of the students. Why then, do the students not protect their interests, and see that this rule is enforced?

And About Responsibilities
At this time of the year, we are also reminded of the responsibilities which the new officers will be assuming. We urge a greater cooperation between incoming and outgoing officers.

The retreat Idea of the Student Government Association and the YWCA is a worthwhile one to consider. Perhaps each club on campus could work this idea out to suit their needs. Of
course the retiring president does not ignore ber successor. Nevertheless, hasty consultations can never be as fruitful as well planned discusslons.

Carrying the Torch
Why don't old and new officers of the campus organizations get together and evaluate the work of the past year? Quite possibly the outgo-
ing officers have plans which they will not be ing officers have plans which they will not be able to carry out. Why not communicate these Ideas to the new leaders? The programs which
were started this year should be completed, and were started this year should be completed, and
if they must run over into the following year, provision should be made for them.

Club work must have continuity to be worthwhile. This will never be achieved if leaders and their successors do not recognize the fact
with that consideration in mind.

No hasty arrangement of programs and projects next fall can be as effective as one planned
this spring, based on the views and experiences of members who are leaving. Perhaps club presidents will not leave their groups wealthy, or with a successful year to remember them by, yut planning, through experid be the most profitable contribution they could make.

## Letters To The Editor

Dear Editor:
The editorial in last week's Canopy, concerning a Freshman journalism course, seems to me to be one of the best and most progressive ideas that has been put forward by that publication this year. If such a course were offered, the usual class rookies would be less green and their apprenticeship term would be of shorter duration. Early in their careers, on the paper, they could be of some real use, and be, from the start, assets

## Here And There

And all the world shall live to hear it-the notes will rise like liquid fire far into the dusky rose-blue sky and hang there suspended in translucent beauty, quivering in ecstacy and pure untainted emotion-then slip slowly downward in a shimmering necklace of opulescent gems 'till they merge, on this too trite planet of ours, in a glorious pool of glowing mercury. Perhaps someday American popular music will reach these helghts of pure pulsating loveliness, and live forever afterward in the memory of mankind in the goal has an mankind. Such a goal has an almost Interminable stairway as its pedestal. Th initial steps have already been
filled. If each of you who received an emblem on Monday evening wears it no one will feel conspicuous.
Let us start on Wednesday, at latest. Why can't every girl wear her emblem on that day? They will look quite nice scattered about the auditorium at chapel.

There is an old saying, you know: "If the shoe fits, put it on." Well then, if you are a leader, wear your emblem. It fits.
rather than liabilities.
Why not follow up such a noble beginning with a real thor-ough-going campaign for the installation of a course of this type? If the present staff does have enough issues left to complete the proposal, they could leave its progress in the hands of the incoming girls. It would be a meaty topic for an initial plunge into the untried fields of persuasion.

## Many Thanks

GO THIS WEEK to MIss Rosemary Baker assistant editor of the CANUPY for her fine columns written during the absence of the columnist.

Peace is uppermost in the minds of all concerned people these days. How can the U. 8 . possibly stay out of war and yet how can she finance a war with her present huge national debt?

In 1017 when the United state entered the war she had a national debt of only one million dollars. The World War rased that debt to 25 millions. At present we have a national debt of 40 millions which is rapidly growing. Economists say that the national debt cannot go over the 50million mark without the nation going into bankruptcy. The next war will be infinitely more expensive. So, how can the U. S. possibly afford a war? The truth is, she can't.

And more serious still-how can she stay out of war? That is a problem which is confronting all serlous minded, thinking Americans today. Due to the enormous profits made during war, it is inevitable that certain important factions, notably the munitions makers, will be pushing national and international affairs along toward a war. As they are immensely wealthy, and can and do maintain lobbyists in the nation's capital, it behooves every clear thinking American to take a stand on the matter.

The Pitman Bill recently urged probably is the nearest piece of Ieglslation that approximates a peace proposal without seriously endangering our already tottering economic interests. By the tenets of the bill, any nation who has the money and the ships can trade from our shores with the greatest of ease. This will, of course, give Great Britain an advantage, in the Atlantic, and Japan, in the Pacific. It necessarily gives the advantage to the country with the strongest navy already.

However, the last war proved most effectively that the U. S. cannot maintain a merchant marine in warring waters without becoming involved herself. Therefore it behooves America to keep her skirts clear of wartime trade regardless of the possible war profits.

Besides all of the cost of the war there is a doubtful note in whether the Allies (meaning in this case possibly Great Britain, France and America) will be able to withstand the combined forces of Hitler and Il Duce. No longer is it a question of when the U.S. will step in and help polish them off, but if the combined forces of the democratic nations will be able to withstand the dictatorships. Democracies pay for their liberty by the resulting inefficiency-dictatorships, because of their more highly centralized governments, are able to move much quicker and much easier.

Russia, as usual, remains the unknown quantity. No one can accurately prophesy what stand she will take. In 1915 the world agreed that her monarchial regime could not join with the democracies and fight to save the world for the dem-ocracy-but she did. Now with opinion centered in the fact that Communism can't possibly join Fascist Italy and Nazi Germany, all that remains is for her to do it.

All that Americans can do is to spread peace propaganda-don't worry but that there'll be plenty of war-time publicity, too. This must be offset, and it remains for average Americans to unite and work for peace.

## Clothes <br> Recognized By The Best Horses

Buy a bowler hat and cram it down over your ears and halter it to the back of your neck with a bootlace. Now do you feel better? Not much? We feared so; and there is worse to come. In fact the reason why so many people give up riding right at the first is this: quite the most difficult, disheartening, dislocating and generally painful part of riding is, undoubtedly, The Clothes.
And the most dangerous: the Boots. Learn to ride your boots and the rest is as nothing. A famous German horseman (Cor-poral-General Baron Fixt von und zu Horst, of the $18-70$ th Umlauts) is said to have exclaimed on observing some British Calvary officers at Mons, "Aller Bompien. Men who can defeat such boots are ungekkrlegsbom strafendlich."
But the Calvary are not so invincible as von Horst believed. Everyone knows most calvary officers never dance; but not many people know why. It is quite simple; they have never been able to get their boots off in time. Indeed most of the Senior officers in our Mounted Regiments are stll wearing to this day the polo boots in which they paraded as Sub-Alterns-not for reasons of economy, or from conservatism eitner; the truth is, they have not succeeded in getting out of these boots-they are quite literally hidebound.
But you must never give in, even if your insteps do. All the greatest authorities are agreed that it is a rider's duty to dress as uncomfortably as possible. For which reason they have laid down that the garments should be only less dangerous than the boots, and should consist of powerful tourniquets, applied at the knees and neck, designed to drive the blood away from the wearer's feet and head (where he'll never miss it) and concentrate it at the parts he thinks with, the hands and seat.

Nobody is more particular of all this than horse itself. One of the first things a horse does is to look at your boots and breeches; and if the former are

## REDS

Always a sure-fire publicity measure for attention-seeking politicians, calling U. S. colleges and universitles "red" and "communistic" is again fast assuming an important role in state legislative councils. Investiga tions have already been sponsored in Oklahoma and Colorado and one is brewing in Ohlo under the sponsorship of the American Legion.
Though most Institutions admit that their students learn about isms in the classroom so that they can know what is going on in the world, most of them vociferously deny that these isms are advocated as form of government better than U. S. democracy. The polls of student opinion and the views of student writers and speakers certainly prove that the great majority have no faith in isms of any kind. On the other hand they actively defend one ism-Americanism-and they do it with strong words and clear cut actions.
Here's what representative students have to say about "red" inquiries:
"Democracy has nothing to fear by comparison. Only when we have no contrasting government do we become unmindful of the advantages of our own system. Free speech is the safety valve which allows for the dissipation of anarchistic energy and gives us that chance to compare our own country with more restricted ideologies. It is the safety valve that would be destroyed if the Legion succeeds in its attempt to destroy the harmless pink shadow.-Miami University "Student."
"Every year or so some of what William Allen White calls 'hard boiled young guys who like to swashbuckle around in Sam Brown belts at the state meetings' take it upon themselves to save America for democracy Last year, the stigma of com munistic sentiment was on Kansas University. Now the smoke has blown away and we hardly remember the fire. Predictions are that the same thing will happen in the case of the Okla homs purge."-Southern Ilinois Teachers College "Egyptian.
"There is littlle which can do more to harm the teaching profession than such recurren destroy the faith which the gen destroy the faith which the gen
eral public must have in its teachers, but they also provok the over zealous watchdogs o

## Hopper Asks Support Of Clubs

## At a meeting held after lunch

 in the rotunda on Thursday, Miss Annie P. Hopper, Dean of Women, suggested to the students a plan for completing the furnishing of the newly erected log cabin activities house. She explained that the money appropriated for furnishings would be needed for lighting fixtures and for furnishings for the main room.Since the cabin is to be used by every organization on campus it was proposed that all the clubs contribute toward furnishing the rest of the building. Miss Hopper stated that the aim was to complete the house by May Day, and in view of this fact urged the assembled students to consider the problem, and start work on it immediately.
