Harrington as hosts.

How To Win Your Man

Due to the demands of spring, which decrees that everyone must be in love, we the undersigned, hereby offer a list of absolutely infallible rules designed, but not guaranteed, to bring him back alive.

If you are the athletic type, then go in for frilly clothes and the dewey-eyed expression, also the clinging vine mannerisms. Although this is a complete reversal of your personality, opposites attract—you'll love yourself tremendously.

Cry when you feel bad. The results are unnoticeable to mascara, if you have purchased the right kind—we never have.

Always talk about your previous boy-friends. If you are fortunate to have had several, drag them all in, one by one. Compare them verbally to your present date, and it leaves him in an undesirable light.

When he is wrapped up with your beauty and loveliness, let him see you outrageously flirting with others. Even when your eyes are wide open, you still remain with him, as he foots the

Clothes Recognized By The Best Horses

Buy a bowler hat and cram it down over your ears and halter it to the back of your neck with a bootlace. Now do you feel better? Not much?

We feared so; and there is worse to come. In fact the reason why so many people give up riding right at the first is this: quite the most difficult, disheartening, dislocating and generally painful part of riding is, undoubtedly, The Clothes.

And the most dangerous: the Boots. Learn to ride your boots and the rest is as nothing. A famous German horseman (Corporal-General Baron Flxt von und zu Horst, of the 18-70th Umlauts) is said to have exclaimed on observing some British Calvary officers at Mons, "Aller Bompfen. Men who can defeat such boots are ungekkriegsbomstrafendlich."

But the Calvary are not so invincible as von Horst believed. Everyone knows most calvary officers never dance; but not many people know why. It is quite simple; they have never been able to get their boots off in time. Indeed most of the Senior officers in our Mounted Regiments are still wearing to this day the polo boots in which they paraded as Sub-Alterns—not for reasons of economy, or from conservatism either; the truth is, they have not succeeded in getting out of these boots—they are quite literally hidebound.

But you must never give in, even if your insteps do. All the greatest authorities are agreed that it is a rider's duty to dress as uncomfortably as possible. For which reason they have laid down that the garments should be only less dangerous than the boots, and should consist of powerful tourniquets, applied at the knees and neck, designed to drive the blood away from the wearer's feet and head (where he'll never miss it) and concentrate it at the parts he thinks with, the hands and seat.

Nobody is more particular of all this than horse itself. One of the first things a horse does is to look at your boots and breeches; and if the former are

News From Other Colleges

REDS

Always a sure-fire publicity measure for attention-seeking politicians, calling U. S. colleges and universities "red" and "communist" is again fast assuming an important role in state legislative councils. Investigations have already been sponsored in Oklahoma and Colorado and one is brewing in Ohio under the sponsorship of the American Legion.

Though most institutions admit that their students learn about isms in the classroom so that they can know what is going on in the world, most of them vociferously deny that these isms are advocated as a form of government better than U. S. democracy. The polls of student opinion and the views of student writers and speakers certainly prove that the great majority have no faith in isms of any kind. On the other hand they actively defend one ism—Americanism—and they do it with strong words and clear cut actions.

Here's what representative students have to say about "red" inquiries:

"Democracy has nothing to fear by comparison. Only when we have no contrasting government do we become unmindful of the advantages of our own system. Free speech is the safety valve which allows for the dissipation of anarchistic energy and gives us that chance to compare our own country with more restricted ideologies. It is the safety valve that would be destroyed if the Legion succeeds in its attempt to destroy the harmless pink shadow.—Miami University "Student."

"Every year or so some of what William Allen White calls 'hard-boiled young guys who like to swashbuckle around in Sam Brown belts at the state meetings' take it upon themselves to save America for democracy. Last year, the stigma of communistic sentiment was on Kansas University. Now the smoke has blown away and we hardly remember the fire. Predictions are that the same thing will happen in the case of the Oklahoma purge."—Southern Illinois Teachers College "Egyptian."

"There is little which can do more to harm the teaching profession than such recurrent campaigns. Not only do they destroy the faith which the general public must have in its teachers, but they also provoke the over zealous watchdogs of

legislative chambers to blows at academic freedom. There is but one word for the whole episode: regrettable." — Harvard University "Crimson."

GROUPS

Always important in indicating the trend of college thought is a survey of the latest developments in student organizations. During the past month four new groups have been formed that forcefully demonstrate the results of the various campaigns that have been carried on in this collegiate and the professional press.

At the University of Minnesota, students have formed two clubs for the promotion of Americanism. The Constitution Club and the American Club both will conduct campaigns for democracy and the freedoms and rights guaranteed in the U. S. constitution.

At Centre College, in Kentucky, students have organized on Anti-War Club. An announcement from that group says that chapters have been organized already at Louisiana State, Western Reserve, Lehigh, University of Maine, Wesleyan, and Upsala. Members take an oath that they will not go to war except to defend our shores. Stated purposes of the organization are to awaken the youth of the nation to the proximity of war under present policies and to oppose those policies.

At Villanova College, students have organized laymen and clergy into a Legion of Justice to promote the ideal "living wage." Members will not purchase goods they know to be sweat-shop and non-union made articles.

The University of South Carolina's new \$108,000 swimming pool was dedicated by Secretary of Commerce Harry Hopkins.

Southern Illinois Normal University students spend \$50,000 a year to see moving pictures.

The guardians of the Dionne quintuplets have refused the request of Rollins College for a stone from the tots' nursery for inclusion in the southern college famed walk of fame.

A new course in historiography providing a basic knowledge of the historical method has been established at St. Lawrence University.

Peeples, Coppage Students Nominated

Nominated to the office of president of the Fine Arts Club for the ensuing year were Louie Peeples and Yolande Coppage. Those nominated for the office of secretary-treasurer were Willmot Green, Viva McGeachy and Janie Ray White.

The nominating committee was composed of three seniors, Rosalind Lane, Opal Brown, and Carolyn Folsom. Miss Folsom, retiring president served as chairman of the committee.

Miss Peeples is a member of of the Freshman Honor Society and the Valdosta Club. Miss Coppage held the position of secretary-treasurer of the club for the year 1938-39. She is a member of the Sports Club Council and a member of the Lambda team.

Hopper Asks Support Of Clubs

At a meeting held after lunch in the rotunda on Thursday, Miss Annie P. Hopper, Dean of Women, suggested to the students a plan for completing the furnishing of the newly erected log cabin activities house. She explained that the money appropriated for furnishings would be needed for lighting fixtures and for furnishings for the main room.

Since the cabin is to be used by every organization on campus it was proposed that all the clubs contribute toward furnishing the rest of the building. Miss Hopper stated that the aim was to complete the house by May Day, and in view of this fact urged the assembled students to consider the problem, and start work on it immediately.
