

STM: NYK57/LDN, JULY 20TH 1978 MSG# ADQ

TO: LONDON

FROM: TIME MEDICINE BY: MAPS

SLUG: TEST TUBE BABY CLOSE: 7/21 DUE: 7/20 EOM:

ONE ADDITIONAL QUESTION AT THIS TIME. A FILE WE RECEIVED FROM BOSTON STATED THAT THE LAPAROSCOPE WAS INSERTED INTO THE ABDOMEN THROUGH THE NAVEL. FOR THE ARTIST'S RENDERING, WE WOULD LIKE TO CONFIRM FROM YOU THAT THIS IS INDEED THE SPOT OR IS AN INCISION MADE LOWER DOWN ON THE BODY AND OFF TO ONE SIDE DEPENDING ON THE OVARY.

REALIZE THE LACK OF INFO <sup>BEING GIVEN TO THE</sup> ~~523-423-0-08-3-55-523~~  
PRESS ON THE BROWN CASE, AND DR. TRIMMER'S FILE OF YESTERDAY WAS OF GREAT HELP, BUT WE WERE TRYING TO ASCERTAIN EARLIER TODAY IF THE BASIC PROCEDURE THAT STEPTOE AND EDWARDS USED FOR THEIR CASE. OUR DIAGRAM AS OF NOW IS BASICALLY THAT CASE, BUT WE REALIZE THAT THE SPECIFICS ARE NOT BEING GIVEN SO THAT THE ANSWER TO THAT QUESTION MAY BE IMPOSSIBLE AT THIS TIME.

TO CONFIRM, DIAGRAMS HAVE BEEN RECEIVED.
