1) TURNS OUT THAT THE PROCEDURE AT ST. THOMAS' HOSPITAL, LONDON, ON WEDNESDAY WAS SIMPLY THE REMOVAL OF THE EGG (FOR HOPED-FOR FERTILIZATION) FROM THE WOMAN -- NOT THE REIMPLANT. HARDLY WORTH MENTIONING. APPARENTLY IT WAS PLAYED LARGE IN THE LONDON PAPERS BECAUSE IT GAVE THEM A LONDON ANGLE STORY ON THE DAY BABY BROWN WAS BORN IN OLDHAM.

2) SUGGEST CHECK WITH MEDICAL ADVISER REGARDING HOW COMMON IS TOXEMIA PREGNANCY. IT WAS SAID IN OLDHAM TO BE A FAIRLY COMMON CONDITION (NOTE: NOT BY STEPTOE-EDWARDS: THEY DIDN'T CHARACTERIZE IT ONE WAY OR ANOTHER), BUT WE WONDER IF THAT'S CORRECT DESCRIPTION.
