Dear Sir:

Your letter 6<sup>th</sup> inst. rec'd. Seed has been drawn and proper signatures being attached. The warranty of the several heirs to 1400 acres, causes some delay, the parties being somewhat scattered. Your last letter I notice is signed W. K. & N. My conversation with you being on a personal basis and your letter to me, in your return, being signed individually, I naturally supposed you desired seed to you, it has been so drawn, but if you intended it to be W. K. & N. it will make no difference as you can easily transfer same to them. I will give you a week's notice of date for finally arranging the matter and would ask that you meet me on the day stated, as my business here demands my constant attention.

L. J. McKinnis, Secy. W. S. Tison
