Minutes of September 21, 2006

[{Members and visitors present}](#)

The Valdosta State University Faculty Senate meeting convened at 3:30 p.m. in the University Center Magnolia Room.

R. Zaccari called the meeting to order and informed the Faculty Senate of the following:

- ◆ R. Zaccari informed the Senate that MGT continues to work on the staff study. The data should be analyzed by the first week of December. At that time, Phase I of the staff data will be merged with Phase I of the faculty data and VSU will study the possibility of making salary adjustments in January, 2007. Additionally, R. Zaccari has requested \$300,000 via a 2008 budget initiative for salary adjustments that will be made during FY 2008. R. Zaccari presented the salary models to two University System of Georgia officials and received positive reviews.
- ◆ R. Zaccari announced that state auditors were recently on campus reviewing VSU's financial operations. The auditors reported a positive review with no negative findings.
- ◆ R. Zaccari updated the Senate on VSU's enrollment. **Summer 2006** enrollment showed an average enrollment gain of 1.89% among the 35 USG institutions. VSU had an increase of 2.03%. VSU's freshmen classification was down slightly over 10%, while the sophomore classification was down 8.84%. The junior classification had an increase of almost 12% and the senior classification increased 2.17%. VSU increased 7.76% in graduate enrollment. VSU's **Fall 2006** enrollment is 10,877 which is the highest enrollment in VSU's history. This is an increase of 3.6% at this same time last year. Also during Fall 2006 VSU's undergraduate classification increased 4.1%. Additionally, there was a 4.8% increase in total credit hours.
- ◆ R. Zaccari announced that Mr. Ray Sable will begin as the Director of Plant Operations on October 17. Mr. Sable has an architectural degree and a master's degree in environmental engineering. Mr. Sable has been charged to review the environmental policy and work in conjunction with the Environmental Issues Committee to review the recycling policy, tree policy, and to investigate ways to use alternative fuel energy on campus.
- ◆ One year ago R. Zaccari asked the Faculty Senate for support of the University Council. The Senate agreed to a one-year trial period for the University Council. The one-year trial is coming to an end in October and there are a number of

statute changes that must go through a General Faculty meeting. R. Zaccari announced that a General Faculty meeting will be held on Friday, October 13 at 3:30 p.m. in the Bailey Science Center Auditorium. A quorum is necessary. If there is not a quorum on October 13 a second General Faculty meeting will be held on Friday, October 20 at 3:30 p.m. in the Bailey Science Center. At the second meeting on October 20th a vote will be taken based on a quorum of the general faculty that are present at the meeting. This alternative process has been approved by the Legal Affairs office at the University System of Georgia. R. Carter stated that he thought the faculty were woefully under-represented on the University Council.

- ◆ R. Zaccari updated the Senate on plans to build a new student union on main campus. VSU hired the architectural firm of Lord, Aeck and Sargent to look at the current student union and gymnasium to determine whether VSU should replace and retain any section of the two buildings or demolish both buildings. Demolition of both facilities was determined to be the best option. R. Zaccari showed slides of the new structure which would include a banquet facility, auditorium, atrium, bookstore, food court options, meeting rooms, Spectator office, and multi-purpose rooms. A portion of Hopper Hall will be used for temporary student union offices during construction. Once the new student union has been completed, Hopper Hall will be demolished and replaced with a new 600 bed residence hall. The new dorm will be part of a new living/learning environment for the College of Education.

R. Zaccari turned the meeting over to C. James. C. James read the list of proxies.

2. Approval of the [minutes of the May 18, 2006](#) meeting of the Faculty Senate.

The minutes were approved.

3. New business

a. Report from the Academic Committee – Louis Levy

L. Levy suspended voting on the academic committee minutes until the next Faculty Senate meeting. He announced that Chere Peguesse is the director of the new Student Success Center which is located at 222 Georgia Avenue. The renovations to Langdale Hall are on schedule and students should be able to move into the newly renovated facility spring semester, 2007. The General Education assessment is currently on-going. Sheri Gravett is working on an on-line advisor manual. Workshops on advising will be held at a future date for new faculty, department heads, and anyone else who may be interested in attending the sessions. The Faculty Evaluation Task Force has finished a draft document that is currently under review by the deans and department heads. The document will then be forwarded to the Faculty Senate Executive Committee for review. The Academic Committee has received a report on the latest program reviews.

b. Report from the Committee on Committees (Appendix “A”) – Jay Rickman

J. Rickman thanked the members of the Committee on Committees for their assistance with the rosters. He announced that a university-wide election for the grievance

committee should be completed by the end of September. J. Rickman presented the 2006-2007 faculty senate roster for approval.

A motion was called to approve the 2006-2007 faculty senate roster. The motion passed.

c. Report from the Institutional Planning Committee – James LaPlant

J. LaPlant informed the Senate that the IPC recently met. The committee is currently reviewing the issue of advising on campus and discussed forming a sub-committee which would take an in-depth look at the issue. The sub-committee would include individuals from various areas across campus including advising centers. R. Carter inquired about the relationship of the IPC with the University Council and recommended that, at the very least, the Chair of the IPC ought to serve on the University Council. Visitor Christy Coons-Yates, who organizes the University Council, stated that she would be glad to work with the IPC. J. LaPlant will contact Christy Coons-Yates to discuss next steps.

d. Report from the Faculty Affairs Committee – Marty Williams

The Faculty Affairs Committee will meet later in September to review their charge.

e. Report from the Faculty Grievance Committee – Stephen Lahr

No report.

f. Report from the Senate Executive Secretary – Christine James

- (1) Core Commonality Spreadsheet** (see Appendix “B”, a separate Excel Spreadsheet) was remanded to the Educational Policies Committee; the item has been approved by a committee vote last week and was presented by Peggy Moch, Chair of the Educational Policies Committee, for a full Faculty Senate vote at this meeting. {Please note this document is to be referred to for students transferring to VSU from the particular schools that are listed on the spreadsheet.}

A motion was called to approve the Core Commonality Spreadsheet. The motion passed. This item was approved by the Faculty Senate and signed into policy by Faculty Senate Executive Secretary Christine James and President Ronald M. Zaccari on September 21, 2006.

- (2) New signs have been installed in the Nevins parking lot which designate specific parking spaces for Faculty/Staff/Employee parking including weekends and evenings.

- (3) “Portal” Email Policy** (see Appendix “C”) review and vote, submitted by Joe Newton to the campus constituent groups. We will have a full Faculty Senate vote on this policy at this meeting. John Samaras on behalf of the Technology Committee that the committee supports this recommendation. There was a brief discussion regarding faculty responding to non-university email messages from students. J. Newton reiterated that VSU does not support the practice of

responding to non-university email accounts. J. Newton presented two friendly amendments to section 4.1 of the document. The proposed amendments are reflected in the version below:

4.1 Communication with students by faculty

Faculty may expect that students will read messages sent to their official email addresses, and faculty should use the official email addresses accordingly. Faculty will determine how email, web, and portal resources will be used in their classes and should specify requirements and expectations of the use of these resources. Uses of non-university email for communication with students regarding university business or matters related to confidentiality cannot be provided by the university. Faculty may unintentionally be in violation of federal, state and local regulations by using such non-institutional accounts.

A motion was called to approve the "Portal" Email Policy including the two friendly amendments. There was a second to the motion. The motion passed. This item was approved by the Faculty Senate and signed into policy by Faculty Senate Executive Secretary Christine James and President Ronald M. Zaccari on September 21, 2006.

- (4) George Gaumont has requested time at the October 19 Faculty Senate meeting for Arlene Gaumont to discuss the LibQual study (see Appendix "D")
- (5) Dennis Bogyo made a request regarding a Sick Leave Hours Bank. A state level policy is in the works and Denise Bogart of Human Resources is the contact person. (see Appendix "E")
- (6) Andreas Lazari and Mylan Redfern referred an email message from another state system school's Faculty Senate regarding ORP institutional contribution changes; other universities' Faculty Senates have sent letters to the State System office asking for clarification and an explanation letter has been mailed out in response, including the letter which you all probably received last week from our Human Resources director Denise Bogart. (Information attached in Appendix "F")

C. James contacted senators at other institutions who were listed on the email from Andreas Lazari. The senators informed C. James that they were satisfied with the answers to their questions and would not pursue the issue any further. However, they did feel they should have received the information sooner.

- (7) Michael Noll requested an update on the issue he raised last year, about allowing faculty to request a Faculty Development Grant amount higher than \$500 when attending conferences in high cost areas or a great distance from Georgia, but within the United States (ie., high cost travel that is not international and therefore not eligible for the \$1000 amount from Faculty Development or the Internationalization Funds from CIP.) C. James recommended to Michael Noll that he write up his request as a Word .doc fully explaining his reasoning, because brief and verbal comments at Faculty Senate meetings are not the most effective way to present an issue to the Executive Committee. Requests that are not in Word

.doc format will not be considered in the future. The issue has been discussed by the Executive Committee and Louis Levy has entered Strategic Planning Database Initiatives requesting additional development and travel funding for faculty, and Christine James has drafted a statement of support for Louis Levy. Christy Coons Yates has made note of this statement of support and it will be used to bolster Louis Levy's initiative at the state level and in conversations with the Budget Advisory Council on our campus. This statement of support is "Appendix G."

There was discussion about raising the cap on faculty development awards. C. James suggested that a proposal be submitted in writing to the Executive Committee for consideration.

(8) A variety of faculty members have asked that we consider anti-plagiarism measures on campus. One such measure, a subscription to the TurnItIn.com service that checks papers for plagiarism, has been suggested as a budget initiative for Louis Levy at the Vice Presidential level, and has been voted on and endorsed by the Educational Policies Committee chaired by Peggy Moch. Christy Coons Yates has made note of this statement of support and it will be used to bolster Louis Levy's initiative at the state level and in conversations with the Budget Advisory Council on our campus. This statement of support is "Appendix H."

(9) **The Faculty Senate Orientation Powerpoint** includes a variety of information relevant to your required attendance at Faculty Senate meetings, and the duties of your committees. You can view it using Internet Explorer (the blue "e" on your computer's desktop) at <http://teach.valdosta.edu/chjames/FacultySenateOrientationCJ.htm> In addition, a special orientation session is being planned. This special orientation meeting will be **required for new Faculty Senators**, and will probably take place in October.

4. Old Business

a. Voting on changes to the Statutes, which were originally voted on and approved at the Faculty Senate meeting of October 20, 2005. These changes give explicit instructions for what procedures should be followed in the event that the President does not sign an item that the Faculty Senate has voted on and approved. The minutes of the Faculty Senate meeting including the specific language of the change are available at <http://www.valdosta.edu/vsu/facsen/Minutes/051020min.pdf> The vote to approve changes to the statutes must be a General Faculty vote. Per R. Zaccari's earlier statement, a meeting of the General Faculty will be scheduled for October 13, 2006. A quorum at this meeting would include approximately 250+ faculty members. If there is no quorum at this meeting, a second meeting will be scheduled on October 20th, and the quorum at this meeting will be defined as a quorum of the faculty members present.

C. James encouraged all faculty senators to inform their constituents about the upcoming General Faculty meetings.

R. Zaccari reiterated the fact that if the vote of the University Council fails to pass he will have to reappoint the Administrative Council as well as Strategic Planning and a Master Planning Committees.

5. New Business

Visitor Diane Holliman spoke on behalf of the Campus Wellness Committee and encouraged everyone to take the Health Wellness Appraisal which may be found at the following link:
<http://services.valdosta.edu/wellness/>

This appraisal is self-reporting and has limitations; however, confidentiality is secured. Diane thanked the Faculty Senate for its support of the Wellness Committee.

6. General Discussion

No discussion.

7. Adjournment

The meeting adjourned at 4:35 p.m.

Policy on Email, Web, and Portal for Official Communications

Date: August 23, 2006

5.	Use of client software and services.....	23
6.	Redirecting of email.....	23
7.	Filtering and storage	23
8.	References.....	24

1. Purpose of this policy

There is an ever-increasing reliance on electronic forms of communication among faculty, staff and students at Valdosta State University. In particular, email has become an efficient, fast, and cost-effective method of communication that has many advantages over printed communication. Additionally, announcements directed at general constituencies as well as specific individuals are posted on the public web site and inside the various web-based services comprising our portal, including the BlazeNet Luminis portal, the WebCT Vista courseware, and for students and faculty, the Banner Student Information System.

Because of the importance of this type of communication, email and announcements posted in the portal are considered official forms of communication at the university. This policy ensures that students and employees will have access to a university email and portal account, outlines each student's and employee's responsibilities in having such an account, and establishes

expectations for communication between faculty and students for educational purposes and between the university and students for university business purposes. To abide with federal, state and local regulations, this policy must be strictly adhered to.

2. Assignment of email and portal accounts

The Information Technology Division will automatically assign each student and employee an official university email and portal account upon acceptance or employment into the university. All email and portal accounts are protected with a password. As indicated in the university's "Information Resources Acceptable Use Policy" and "Information Security Policy," ensuring the security of accounts and email correspondence depends on the appropriate use and protection of usernames and passwords. Users should read and be familiar with these policies. This account will remain active for the duration of attendance or employment, with exceptions for extension and transition and for constituent groups such as retirees.

3. Use of university email distributions and announcements via the portal

Messages sent via the campus mailing list server will be governed by the policies of the mailing list server and each mailing list. Messages may also be posted via the web portal "BlazeNet" (blazenet.valdosta.edu). Contact the Portal Steward (portalsteward@valdosta.edu) in the Division of Information Technology for additional information.

4. Compliance

All uses of email and web and portal resources for official communication should be consistent with federal, state and local regulations (i.e. official communication should be consistent with the Family Educational Rights and Privacy Act as well as the Policy Manual of the Board of Regents).

4.1 Communication with students by faculty

Faculty may expect that students will read messages sent to their official email addresses, and faculty should use the official email addresses accordingly. Faculty will determine how email, web, and portal resources will be used in their classes and should specify requirements and expectations of the use of these resources. Uses of non-university email for communication with students regarding university business or matters related to confidentiality cannot be provided by the university. Faculty may unintentionally be in violation of federal, state and local regulations by using such non-institutional accounts.

4.1 Communication with students by university offices

Offices such as Academic Affairs, Student Affairs, Office of Financial Services, Office of Student Financial Services, Office of the Registrar, Office of Financial Aid, or Human Resources will send selected official communications to students and employees via email messages and portal announcements. Such email might include individually-addressed messages as well as mailing list messages such as registration announcements or payroll advice and notices of financial aid. These communications are for the purposes of conducting official university business. The university has the right to expect that those communications will be read in a timely fashion.

4.2 Responsibilities associated with use of university email

Students and employees are expected to check their assigned email accounts, web site, and portal on a regular and consistent basis in order to receive university communications in a timely manner and users are expected to abide by the VSU Information Resources Acceptable Use Policy. The university recommends checking email, the web site, and the portal several times per week, preferably at least once per day. It is the responsibility of the student, faculty, and/or staff member to report any problems with email or portal resources to the Information Technology Helpdesk.

5. Use of client software and services

Students and employees are encouraged to check email, calendars, Banner, and other services provided via the web portal “BlazeNet” (blazenet.valdosta.edu) accessible from the institutional home page located at www.valdosta.edu using contemporary, supported web browser. These services may also be accessible via other software such as Microsoft Outlook or Netscape Communicator, support for which will be determined by resources available via the Information Technology Helpdesk.

6. Redirecting of email

Requests to substitute non-university email addresses for the purposes of official communication will not be honored. In general, redirecting university email to another non-university email address is not encouraged. The university will not be responsible for the handling of email by outside service providers or servers. Having university email redirected to another account does not absolve a student or employee from the responsibilities associated with timely reading of communications sent to an official email address.

7. Filtering and storage

The university reserves the right to use automated mechanisms to filter and reject mail using information security policies and/or procedures in order to enforce policies, protect privacy and security, improve performance, and provide forensics for authorized investigation. The Information Technology Division will be expected to maintain appropriate backups of data stored on email servers as resources permit and according to records retention policies and governing laws.

Hello Executive Committee members!

Thank you again very much for the special working session last week.

Please note below, a special request from George Gaumond, for your consideration, as a potential item for the full Faculty Senate meeting.

We'll discuss it at our Executive Committee meeting on September 14.

Subject: Question?

To: Christine James <chjames@valdosta.edu>

Would it be appropriate for the Library to make an announcement and explanation to the Faculty Senate about a national survey we will be conducting on campus this fall? I would like Dr. Betty Paulk to talk about LibQual, a library service quality survey, that several USG libraries will be conducting during fall semester. She would need about 15 minutes and could use a few PowerPoint slides, or not, as appropriate.

This is a significant survey that should be of interest to the Senate. We would like to do this at the October 19 meeting. The survey web site follows:

Hi George!

I think that sounds like a wonderful idea. Let me be sure, though, by forwarding your request on to the Executive Committee. The Exec will have a meeting on September 14, at which we will finalize the first meeting agenda for the full Faculty Senate meeting on September 21.

I am also working on the first set of email messages asking chairs of committees to plan their first meeting and submit their schedule of meetings to Donna in Reserves, and I would be happy to mention this in the first message to the Library Affairs Committee.

Thank you very much!

Hello Christine,

Welcome back! I hope you will find the Senate year to be a productive one. I would like to ask you as Executive Secretary what the status of a request that I initiated last year with Mike Meachem is? I sent him an e mail indicating that four schools in our System had developed a sick leave bank. During Linda Chamberlin's last six months of ovarian cancer her quality of life would have been greatly enhanced if VSU had such a sick leave bank. All members of Optional retirement Plan now discard these hours when they retire, and many would like to donate them to a sick leave bank. Has this proposal been sent to a committee? Thanks, Dennis

Hi Dennis!

I started attending Executive Committee meetings in the Spring, and I actually never did hear it mentioned. So what I will do now is send on your email message to the Executive Committee, and I will try to note comments at the next Executive Committee meeting on September 14 so we can give you some specific response.

I also remember when Linda Bennett Elder was ill in our department, and what happened was, I took her class, and Mike Stoltzfus took a class, and then we were both promised course releases later on - so in some sense, we were banking time to help out the person who needed help. Not sure if all department heads are open to that, though.

I'll send it on and see what I can do,
Thank you!

Christine,

I have two thoughts. While I agree with Dennis that this is a great idea, sick leave is not discarded when you retire, you are reimbursed for hours you have accumulated. Many people who retired use these funds to buy time toward years of service, which boosts retirement pay.

My second thought is actually a question. Does the University System have a policy concerning the use of sick leave for this type of act or gift? I cannot find anything that prohibits this, but I may not be looking in the right places.

Hi Stephen! Hi Dennis!

Just wanted to keep Dennis in the loop on the comments you gave Steve, thank you for them. I do know of faculty who have retired who have used their own sick leave hours in the way Steve describes, absolutely.

I do not know if there are any University System policies pertaining. As the Faculty Senate takes on a more active stance, I am hoping that that would be a part of a faculty member's request. We do have new language in the powerpoint noting that faculty members who make requests must now submit them as fully researched Word .doc attachments, in which they have done the leg work on items like that (the faculty senate executive committee must not be expected to do research to help bolster anyone's initiatives, it has to come from the faculty member or committee making the request.)

I have just confirmed with Dr. Denise Bogart that the issue of a "Sick Leave Bank" has been addressed to the University System of Georgia (USG) staff. Shortly after Dr. Bogart arrived at VSU she approached the USG regarding VSU establishing a sick bank (similar to the ones at other USG institutions). Mr. Bill Wallace, Associate Vice Chancellor for Human Resources, sent an email to all USG institutions instructing them not to move forward on establishing sick leave banks, due to the fact that USG was looking at implementing a system-wide policy on this issue.

Dr. Bogart has this item on her action list and will follow-up with USG and keep both Faculty Senate and COSA updated on the status.

Please let me know if you have any questions.

Sincerely,

Thressea H. Boyd

APPENDIX F:

September 5, 2006

Memo To: Valdosta State University Participants in the Optional Retirement Plan (ORP)
From: Human Resources & Employee Development
Subject: Changes in ORP Employer Contributions.

We recently were advised that effective January 2007, the employer contribution to your ORP account will change from the current 9.66 % to 8.13 % .The employee contribution will remain at 5 %.

This rate will not change again before January 1, 2009.

How is the employer contribution to ORP determined?

According to Georgia law the employer (Valdosta State University) contribution to the ORP is related to the employer contribution to the Teachers' Retirement System (TRS). The employer contribution to TRS is composed of three parts – administrative cost, unfunded liability, and normal cost contribution. Normal cost contribution is the amount necessary to fund the benefits that TRS members will accrue during the upcoming year for an additional year of service credit. This value is actuarially determined and is a function of several variables including number of participants, age of participants, service of participants, income of participants and the assumed rate of return on the TRS investments. **The law legislates that the employer contribution to ORP be equal to the normal cost contribution to TRS.**

In determining the TRS employer contribution, the normal cost is added to the administrative cost and then the unfunded liability is added or subtracted depending on whether an increase or decrease in employer contribution is needed to fund the plan's obligations. For example, on June 30, 2004 the calculation for the 2005 employer contribution was calculated as follows:

- Normal Cost – 9.66 %
 - Administrative cost – 0.15 %
 - Unfunded Liability – **Minus** 0.57 %
 - Total TRS employer contribution – 9.24 %
- The employer contribution to ORP was 9.66 %, the normal cost number.

On June 30, 2005, another actuarial study was completed on TRS. The normal cost was calculated to be 8.13 % . **The administrative cost was included in the normal cost for the first time.** The unfunded liability cost went to **positive** 1.15 % and the employer contribution to TRS calculated at 9.28 % . The employer contribution for ORP was set at the normal cost of 8.13 % .

While a reduction in the employer contributions is not pleasant, it is being done according to the law and follows recent trends. ORP employer contributions were 10.02 % in 2002, 9.65 % in 2004 and now go to 8.13 % . As the actuarially determined number varies, the employer contribution to ORP will vary. The only guarantee at this point in time is that it will not be below 4 % . Note that the change to include administrative cost in the normal cost is advantageous to ORP members.

Re: Strategic Planning Initiative Request for Additional Financial Support for Faculty Development and Travel STATEMENT OF SUPPORT

A faculty member has requested that the university raise the amounts of Faculty Development funds for specific types of conference travel. Michael Noll asked that faculty be allowed to request a Faculty Development Grant amount higher than \$500 when attending conferences in high cost areas or a great distance from Georgia, but within the United States (ie., high cost travel that is not international and therefore not eligible for the \$1000 amount from Faculty Development or the Internationalization Funds from CIP.)

This issue has now been discussed by the Faculty Senate Executive Committee. During our most recent Executive Committee meeting, Louis Levy shared that he has entered Strategic Planning Database Initiatives requesting additional development and travel funding for faculty. The Faculty Senate Executive Committee now formally submits this statement of support for Louis Levy's strategic planning budget initiative on this issue. The Executive Committee is in agreement that the budget initiative for extra Faculty Development funding is an initiative that we support, and is in accord with the goals and purposes of the Faculty Senate. The need for additional Faculty Development funding is clearly evident, and there are a variety of conferences in high cost areas that require supplemental funds above and beyond the traditional \$500 amount. We request that Christy Coons Yates make note of this statement of support, including it in the Strategic Planning Database, and we request that this statement be used to bolster Louis Levy's initiative at the state level, as well as in conversations with the Budget Advisory Council on our campus. This initiative is in accordance with the University Strategic Plan, especially Goal 4: Faculty and Staff Development, Goal 5: Financial Support, and Goal 3: Academic Programs.

FACULTY SENATE

Est. 1991

Chairperson Ronald M. Zaccari	Vice Chairperson Louis Levy	Executive Secretary Christine A. James	Parliamentarian Jim Muncy

From: The Faculty Senate Executive Committee

**To: Vice President For Academic Affairs Louis Levy
University Planning Officer Christy Coons Yates**

**Re: Strategic Planning Initiative Request for Funding of Subscription to Turnitin.com
STATEMENT OF SUPPORT**

A variety of faculty members have asked that we consider anti-plagiarism measures on campus. One such measure, a subscription to the Turnitin.com service that checks papers for plagiarism, has been suggested as a budget initiative for Louis Levy at the Vice Presidential level, and has been voted on and endorsed by the Educational Policies Committee of the Faculty Senate, which is chaired by Peggy Moch.

This issue has now also been discussed by the Faculty Senate Executive Committee. During our most recent Executive Committee meeting, Louis Levy shared that he has entered Strategic Planning Database Initiatives requesting the additional funds needed for a university subscription to Turnitin.com, an amount in the range of \$8,000 to \$20,000 depending on the specific subscription category.

The Faculty Senate Executive Committee now formally submits this statement of support for Louis Levy's strategic planning budget initiative on this issue.

We hereby request that Christy Coons Yates make note of this statement of support and use it to bolster Louis Levy's initiative at the state level, and in conversations with the Budget Advisory Council on our campus.

The Executive Committee agrees that the budget initiative for Turnitin.com is an initiative that we support, and is in accord with the goals and purposes of the Faculty Senate. The need for additional checks against plagiarism is clearly evident, and faculty members on our campus who have already used Turnitin.com through their work at other institutions, or in the eCore program of the University of Georgia, are already convinced of its effectiveness. This initiative is in accordance with the University Strategic Plan, especially Goal 1: Enrollment and Retention, as well as all the goals that reference the need to cultivate a "culture of learning," traditions of excellence, and "pride of place" on the Valdosta State University campus.
