City police have no authority to arrest persons on state property. Also, "disorderly conduct" is a city ordinance rather than a state law and is not applicable to state property. The judge upheld this with his decision in Recorder's Courth this morning.

Many students on campus are upset concerning the involvement of the security force in this incident. Security officers must realize that students are also citizens of this country. They should make it their duty to become completely knowledgeable of the right of all citizens including the right to assemble peaceably.

and Valdosta State College in a completely different light. Valdosta is no longer the southern haven of racial equity: no longer is it the rare southern town where dissent and non-conformity are Rather, it is seen as a typical South Georgia town where Black people and nonconformists have tolerated racism and civil injustices. It is now seen as a typical South Georgia town where one may demonstrate against peace and freedom, but where demonstrations in supp-

ort of same are squelched. Everyone should, by the time this article is published, be aware of the arrests made on the Valdosta State College campus Saturday. Everyone should be justifiably outraged at this farce.

The eclipse also cast its shadow on another occurence on our campus. The knowledge of it is not so wide-spread as the former incident, but Black students are not going to allow it to be subordinated and, like so many other racists, prejudiced acts, disappear into the recesses of our memories and, there, become sustenance for unvoiced hostilities. We refuse to ignore it, and by our refusal, make it impossible for you to remain in your calm, motionless sea of apathy and con-

tinue to say "Give them time, they'll forget it." This time we won't forget. We've forgotten the lynchings, we've forgotten the assasinations, the beatings, the uncompensated labor. We can no longer forget. You have destroyed our faculty for for-

getting, and forgiving. The incident referred to was this: Two students were arrested for displaying signs in protest of the Viet Nam war. Several Black students felt that, by the same token, the K of A's should be denied the right to display the skyful of symbolic racism they displayed. We felt (and still feel) that the Confederate flag is the epitome of un-Americanism and is, by far, more offensive than a poster advocating peace. We (the Black students) asked the K of A's to take their flag down. They refused. We went then to a member of the campus security patrol and explained our position. He told us that the two students had not been arrested, that they had left campus voluntarily, and that he was powerless to take any measures to take the banner down. He then took the matter to Dean Pafford. To who, he related, (we supposed), in a whisper, the views we had expressed to him. The Dean said that he would do nothing toward the removal of the flag; that they (the signs and the flag) were two totally different things. We differed, interjecting that both were forms of protest, differing only in the object, the cause, the Dean's burden of implication was alleviated when someone voiced the observation that his

attitude represented prejudice. In the darkness of the eclipse, I stood, virtually paralyzed by disbelief as Dean Pafford was restrained from "discussing" the matter with one of the four Black students who had come to him only to point out a discrepany in the legality of campus policy in the hope

that he would take measures to rectify the inconsistencies. I cannot respect such a man. Such a man is not meritorious of the respect of any but the Lester Maddox's and the George Wallaces and the Clement Haynesworth's that abound in South Georgia. I cannot respect an administration that harbors such a man in its employ. Respect is an expensive commodity: inflation has made its impression, there too. Respect costs more today than yesterday. White skin no longer earns respect; college degrees and titles stenciled on office doors no longer earn respect, only big salaries.

As I write this, the possibility of reprisals occurs to me, only occurs to me. It does not phase me. Black people have, for too long, waited passively for racism to pass. We've said that our children will not see prejudice. I say, too, that my children will not be taunted by racism, but I say to you now, "I will not tolerate racism; I am not going to be subservient to a prejudiced society; I am not going to wait to attain privileges that were rightfully mine at birth, and I am not going to sit and rationalize that the Confederate flag waves for any reason other than as a symbol of the oppression of Black people.

Life is an immediacy. Freedom is life. Freedom is an immediacy Black people want freedom now. If the college cannot tolerate my saying this, then we are all living irrational fairy-tale live: thinking

foolishly that we are gaining knowledge, and I welcome any reprisal. Black people have grown impatient for citizenship. We can no longer content ourselves with promises that legislation will free us someday. Since 1619 we've been slaves. It was not the Constitution that enslaved us, and it will not be the Constitution that frees us. We were, and are, enslaved by those people who conceitedly call themselves Americans and who, with the same pious zeal, deny their Americanism by suppressing all that opposes their frequent irrational ity. We can no longer tolerate patiently these people whether they be college deans, police officers, judges, or governors. We will be free,

Students Protest Security Action

In any institutional system be it military, political, social, or educational, clear lines of authority are established in order that the system might function in a effective manner and so that the system might perpetuate itelf. The presumption of authority by one to whom such authority is not delegated in an educational system, such as the University System of Georgia, may cause much confusion within the system and cannot be tolerated.

This was the case on Saturday, March 7. The law states that local police may not take police action on state property without proper authorization. The Valdosta City police, therefore, may not effect an arrest on the VSC campus unless they receive authorization from President Martin, delegated. Yet on Saturday, two students were arrested on the VSC campus, in front of West Hall, by the Valdosta City Police without the authorization of any member of the VSC Administration. Upon further investigation of this incident, it has become apparent that Mr. Halden E. Elzey of the VSC Security Force took it upon himself to give such authorization, although it was not in his power to do so. As a result of this presumption of authority, two were thrown into jail and had to face court proceedings. Additionally, the VSC Administration has been placed into a rather aw-

The consequences of Mr. Etzey's action must be faced, and steps have been taken in that direction. But this situation must not be allowed to occur again! The Security Police have been granted only rather limited power and authority, and they must stay within these limits! Mr. Elzey's conduct has been inexcusable! Mr. Elzey must not be allowed to remain in a position where he can cause another situation like this one!

Letters To The Editor

Solar eclipses have long been thought of as mystical or super natural to that midnight phantom of ob- ionate friend of VSC students of the state of the st happenings, and now this rare phenoxious anonymity, Amicus Ca. plotted no sabotage for the ing the people of Valdosta in a dazed esar. This occurrence on the VSC campus raises some serious questions about what kind of institution this is that would allow the city police to make an arrest on its campus. What kind of educational institution would allow the arrest of two students peaceably exercising their constitutional rights to speak out on a pressing national and international issue? Let us not permit this most serious issue to be smothered by apathy! Let us raise our voices in protest of this most injudicious action!

Eclipse Draws Crowd To Campus

The rooster scratched but refused to crow.

I was carrying this sign, see, when this campus cop asked me what I was doing. I told him I was carrying this sign. It concerned the Vietnam War. A woman came up and told me I was a communist and the campus cop told me to go away. He said go behind the buildings, where there weren't any people, if I wanted to carry the sign. I asked him why those guys with the rebel flag were allowed to stay. Their flag concerned a war, too. Apparently, he liked that war or something. He probably would agree, however, that the Nam thing isn't a very popular war. Maybe we should go and fight it behind the buildings, too. Now all we have to do is get the Viet Cong to come back there with us.

(Which brings out this little point: Wars have to be taken to the battlefield, both peace wars and the kind that kill people.)
