

TRAFFIC

ter Morgan invented and patented automatic stop light. The fact that toplight had not yet been recognized as valuable, and lack of capital it relatively impossible for him to handise his invention. Faced with conditions, Morgan sold patent on the stop light to General Electric for \$40,000.

BLACK INVENTORS:

ven in the days of slavery, there Negro inventors. Henry Blair received patents for his inventions in 1832 and 1836. Soon afterward, a law was made that a slave could not apply for a patent. Later another law allowed a slave's owner to apply for a patent for his slave.

Robert Rilleux invented a vacuum that revolutionized the sugar refining business.

Matzinger invented a shoe last machine—a machine to shape the top of the shoe over the mold (called a 'last') and attach it to the bottom part of the shoe.

John Parker invented a "screw for shoe presser." Elijah McCoy patented inventions.

Many Americans have benefited from inventions by Black Men.

ital Sex

describes the various methods. Dr. Shedd also stated that there is nothing abnormal about masturbation, intercourse, or anal as long as a person does not get a fixation on these acts of sex. The half-pleasure received these ways is not worth jeopardizing of sexual fulfillment. Although he lists about twenty guides for a successful marriage in his book. Dr. Shedd said the three most important factors were the ability to communicate verbally, a pleasant disposition, and being physically attractive to your partner—in that order.

To improve efficiency . . . ?

Luke Seeks Basic Reorganization

"We need basic reorganization in the Student Government because both the major and minor issues the SGA is faced with cannot be handled effectively," according to Karen Luke, a junior from Ocilla.

Miss Luke is seeking the office of president of the SGA. A history major, she is presently serving as secretary to the SGA. She is a member of Cardinal Key, the women's honor society, and is a member of Alpha Chi, Alpha Delta Pi, Sigma Alpha Chi, and the debate team. She was named this year to "Who's Who In American Colleges and Universities."

"We need to make the Student Senate more of a legislative body. A Standing Committee structure would make the SGA better able to handle the various problems which come up," Miss Luke said. "Students could then work through committee members as well as officers. These committees would include residence hall, activities and organizations, and judicial committees.

"We need to revitalize the judicial structure by establishing district courts rather than the residence hall courts which we now have," she said. "Courts of limited jurisdiction should also be established. This would include a traffic court where students could appeal traffic decisions."

"In the past, the SGA president has had to be either a static figure or work as part of the legislative branch. To make the president's position more effective, we need to establish an executive branch," stated Miss Luke.

"There should also be an executive council to assist the president and an advisory council to help the president understand and know the needs of the students," she said.

"Students have representation and can vote on all of the decision-making boards, but we are not using the power we

Karen Luke
Basic Reorganization Needed

Forum Tonight

Charles Howell, president of the SGA, urges all students to attend the forum tonight in the Snack Bar of the Student Union in which the SGA candidates will present their platforms.

have. These students need to meet regularly as a group with the SGA president to discuss the needs and desires of students so that they can better represent the students," she continued.

"Even though SGA meetings are now open to all students, very few come. We need to have meetings regularly where all general business is eliminated and students can present problems and opinions. Members of the Senate, College Union, Student Court, and other councils would be present to answer questions," added Miss Luke.

"VSC has many problems which need to be solved, such as a curfew, the lack of activities, the dining hall, and curriculum. Once the needed reorganization of the SGA is accomplished, we will be able to deal with these problems effectively and to the satisfaction of the students," concluded Miss Luke.

"We are going to have to work toward the gradual elimination of curfews. If the "no-curfew" policy, new on a trial basis in Ashley and Converse Halls, works out, then we will be able to work with the Administration to extend the "no-curfew" privileges to women in the Junior and Sophomore classes," she stated.

"Before we can increase the activities on campus, we have to increase the participation in those activities already available," she added.

"I believe that the students should have a larger role in determining policies relating to curriculum. Perhaps the best way to effect this is for the students, through the SGA, to propose constructive changes and additions to curriculum," she stated.

Representing the students . . . ?

Sebra Advocates More Active SGA

"I think that the SGA should take an active role rather than a passive roll as it has in the past," says Nelson Sebra.

Sebra is a Junior from Jacksonville running for the office of President of the Student Government Association. He is a business major and a member of the Knights of Arlington.

"I don't think fraternities rule the SGA. They hold the offices, but I think they are acting as individuals rather than representatives of their fraternities," according to Sebra.

"Curfew should either be extended or abolished. If girls are old enough to vote, they ought to be old enough to set their time to come in," he said.

"Students are paying a lot of good money but there aren't enough dances or other social functions," Sebra stated.

"I don't think residences on campus of people under 21 should be mandatory. I feel there would be almost as many people living on campus as when it is mandatory," he continued, "because of the lack of availability of apartments in Valdosta and because of transportation problems."

"We need an ombudsman for many kids have problems, and don't know where to go. We need a full-time psychologist too," he added.

"I don't think class attendance should be mandatory. We are adults, and pay our fees and should be allowed to go to

Nelson Sebra
Active Rather Than Passive

class as we see will best fit our needs," continued Sebra. "I think the president himself should play a more active role but do so objectively," he said.

"The pluses ought to be reinstated. A B student shouldn't be given a C," he explained.

"If I am elected president, I will not be influenced by the Knights of Arlington. I will be representing the students," stated Sebra.

"I believe the parking situation is here to stay, but I feel students have the right to appeal parking tickets. The Campus Police are not always right," Sebra asserts.

"I would like for all the students to know what their money is being used for," he continues.

"I think the students should decide what groups or individuals we should have for concerts and dances. If elected, I will appoint to the Student Court, representatives of all groups," he added.

"I would like to see the students take an active role in functions outside of those sponsored by their own groups, too many students have no concern over major issues," he said.

"I would like to see a record breaking attendance at the polls on election day," he concluded.

SPECIAL SGA ELECTION ISSUE

Joyce Wins Graduate Scholarship In English

Joyce Ann Joyce, a graduating senior at Valdosta State College majoring in English, has received a scholarship for graduate study at the University of Georgia.

This scholarship, awarded on the basis of academic excellence, is granted by the Three-Year Master's Degree Program which is designed for students who plan to become college teachers. It is supported by a grant from the Ford Foundation. Dr. Raymond Cook, head of the Department of English, is the program coordinator at Valdosta State.

Miss Joyce is a member of Sigma

Alpha Chi Honor Society, secretary of Alpha Chi Honor Society, and vice-president of Cardinal Key, women's honorary society. She is also a student court justice, "Campus Canopy" reporter, and is listed in "Who's Who in American Colleges and Universities, 1969-70."

In addition to her activities and studies, Miss Joyce works as a student assistant in the English Department and is currently studying under a Remerton Mills scholarship. She will graduate in August and begin her graduate work at Georgia in the fall.

Joyce Joyce

Spell Receives GSA Award

Mr. G. Robert Spell of the Speech and Drama Department was awarded the "President's Award" from the Georgia Speech Association for his outstanding work in Speech in the state of Georgia.

The GSA was founded in 1930 to promote speech and drama activities and education in the state. Mr. Spell joined the organization in 1962 and has held every office on the executive board.

Dr. Herrin To Attend Accounting Conference

Dr. Glen Herrin, Head of the Valdosta State College Department of Accounting, will attend a two-day program concerning concepts and philosophies in accounting on April 16-17 at ...

as applied by the General Accounting Office. The two-day session also will include how accounting and business administration graduates use these concepts and philosophies in their development ...

Black History

MORGAN LIGHTENS TRAFFIC

by Ray MacColl

This is the sixth article in a series on Black History. Garrett A. Morgan 1875-1963

Attend any city council meeting-if the topic of traffic control is being discussed, inevitably the question of the stop light will arise. Ask a city councilman who was the inventor of

the stop light, and he is not likely to know. It is not generally known that the automatic stop light, so absolutely

necessary for traffic control in our metropolitan areas as well as in villages and towns throughout the United States, was invented by a Negro named Garrett A. Morgan.

Morgan was born in 1875 and died in 1963. He was born in the small town of Paris, Tennessee, during the Reconstruction Era. In 1895, he moved to Cleveland, Ohio. In Cleveland, he worked at many odd jobs, but spent his spare time as an inventor. His first invention in 1901 was the safety belt fastener for sewing machines.

In 1914, at the International Exposition of Sanitation and Safety Garrett Morgan won the First Grand Prize Gold Medal for the invention of a smoke inhalator. The value of the smoke inhalator was not to be proven until two years later. In 1916, Morgan and his brother proved the usefulness of

Later Morgan invented and patented the automatic stop light. The fact that the stoplight had not yet been recognized as valuable, and lack of capital made it relatively impossible for him to merchandise his invention. Faced with these conditions, Morgan sold patent rights on the stop light to General Electric for \$40,000.

OTHER BLACK INVENTORS:

Even in the days of slavery, there were Negro inventors. Henry Blair received patents for his inventions in 1835 and 1836. Soon afterward, a ruling was made that a slave could not apply for a patent. Later another law allowed a slave's owner to apply for a patent for his slave.

Norbert Rilleux invented a vacuum cup that revolutionized the sugar refining business.

Jan Matzeliger invented a shoe lasting machine—a machine to shape the top part of the shoe over the mold (called a

Luke, Stackhouse Impress Editor; Others Should Decide Themselves

The outcome of tomorrow's SGA elections will literally determine the fate of VSC, at least from the standpoint of the voice students will have in the policy-making decisions on campus.

The SGA came alive this year, and many things were accomplished, such as a change in library hours, a trial elimination of curfew for upperclass women, and an optional meal-ticket plan (which the Board of Regents approved last week). In order to assure that such progress continues, and that even more is accomplished next year, the election of qualified and dedicated officers is essential.

All students should attend the meeting tonight at 7:30 in the Snack Bar to hear the candidates speak so that they will be better able to make decisions as to who would be the best choice for office.

After interviewing the candidates for the offices of president and vice-president, it becomes evident that though all four are sincere in their intentions, only two are qualified for these positions—Karen Luke as president and Tommy Stackhouse as vice-president.

Both have worked closely with the Student Government Association this year, and both are experienced administrators. Miss Luke is now secretary to the SGA and Stackhouse has been president of Albany Junior College's SGA.

Through their involvement in campus issues, both are associated with the administrators of the college which is important in order to effectively deal with campus problems.

After interviewing Miss Luke and Nelson Sebra it was apparent that both were aware of the problems which face VSC. Miss Luke had suggestions to offer for solving the problems. Sebra could not give a concrete plan for approaching any of the problems he said needed attention.

Miss Luke is quite familiar with the functions of the SGA because of her work as secretary this year. Sebra appeared unfamiliar with the SGA Constitution and structure.

These opinions are solely those of the writer. Students should not accept them without question as fact. The only way to be sure of voting for the right people is to hear the candidates speak tonight at 7:30 in the Snack Bar.

Do not accept without question what they say, either; however, ask questions, evaluate answers, and then make a decision as to the best choice for office.

Vote April 15 for the best possible student leaders.

URER

Stackhouse Advocates "Right Approach" In SGA

Tommy Stackhouse

"We can get anything we want if we approach the Administration in the right manner. We can't just sit back and complain, however, and expect to get things done," according to Tommy Stackhouse.

Stackhouse, a junior from Albany, is a candidate for vice-president of the SGA. A transfer student from Albany Junior College, Stackhouse served as president of its SGA last year and was a member of the Student Advisory Council to the Board

of Regents. As a freshman, he was a representative to the SGA. Stackhouse is a member of Delta Chi fraternity, serves on the College Union Board, and works on the SGA Communications Committee.

"A good student-teacher evaluation program is needed here," said Stackhouse.

"Something has got to be done about the parking fines on campus. \$5 and \$10 fines are too steep," he said. "I don't know how the security force can get away with them. Also, the

\$5 parking fee which must be paid each quarter is outrageous."

"An increase in student activities fees is needed, but only if all of the money is used for activities. The College Union Board ran out of money a long time ago, and it's hard to provide good entertainment when there is no money," stated Stackhouse.

"If students would let the SGA know what is bothering them, the Student Government would be able to accomplish

much more than it does now," said Stackhouse.

"Students and the SGA must meet each other half-way. That's the only way things can work," he added.

"I also want to see more students involved in the SGA than just Greeks," he said.

"Someone over-projected when the dorms were built, but even so it is not really fair to force people to live in the dorms," according to Stackhouse.

Lovett Wants More Involved In SGA Work

"I would like to see the people become more interested in the workings of the Student

Government. It is their organization and I think they should realize that," said Britt Lovett,

a sophomore from Adel, majoring in history.

Lovett is seeking the office of vice-president of the SGA. He is a member of the Knights of Arlington and serves on its executive council.

"I would certainly like to see more social events at VSC. People would feel more a part of the college if they were given more social events," according to Lovett.

"I know being the vice-president of the SGA would be a hard job but I wouldn't be running if I didn't think I could do it," he said.

"The vice-president should be

a mediator between the students and the SGA while the president should be the mediator between the Administration and the SGA," stated Lovett.

"I guess it looks like the fraternities and sororities run the SGA, but I guess they just have the initiative to run. I don't understand why more independents don't run," said Lovett.

"Running for SGA office was my decision. The K of A's didn't influence me one way or the other," he said.

"I have come to realize that SGA does have the power to get things done; people talk about problems, but they don't do a-

nything about them," added Lovett.

Patrick or Wheeler? Veal or Evans?

Candidates for treasurer include Bob Wheeler and Mark Patrick.

Wheeler, from Ashburn, is a member of Sigma Phi Epsilon fraternity and was a former pledge class officer, is a member of Sigma Alpha Chi honor society, where he serves on the Marga and Mac selection committee, and was a participant in the Mr. VSC Contest last quarter. A third quarter sophomore, Wheeler is majoring in history.

Patrick, a senior accounting major, has been at VSC since starting college, and has worked in the accounting office of Colonial Stores. He is presently employed as night auditor at the Sheraton Motor Inn. He has been treasurer of the Wesley Foundation two years, and is president of the Foundation now.

He was Delta Sigma Phi vice-president last year and is now the fraternity's treasurer. He served on the intramural council one year and has been with the band one year.

Competing for secretary are Caroline Veal and Betsy Evans. Miss Veal is a sophomore speech major from Ocilla, and was a freshman scholar. She has had experience with the business machines in the speech department, and is a member of Sigma Alpha Chi. She is also a member of Alpha Xi sorority.

Betsy Evans, a Phi Mu from Waynesboro, is a junior sociology major campaigning for secretary. She has been a member of the Pine Cone Court, WRA, K of A Sweetheart, secretary and pledge director of her sorority, and was secretary of two high school clubs.
