Dear Lambdin:

No definite plans have yet been made for this year's meeting of the Association of Georgia Colleges. Just as soon as a decision is reached, I shall let you hear from me.

On account of transportation difficulties, it is possible that we shall not have a meeting this year, but, if we do, I suspect that most of us will again vote for Atlanta.

With all good wishes, I am

Sincerely yours,

Dear Lambdin:

I think it would be a fine idea to have the Southern Association meet in Atlanta in 1943, --- provided we have been "redeemed" by that time, or promised redemption then!

Dear Mr. Reade:

I am sending you today a copy of the first published report of the W. K. Kellogg Foundation. In this report we have attempted in the narrative to tell the basic philosophy of the Foundation, and through the pictorial section some of the program detail. I hope that it may prove to be of some interest to you.

Dear Miss Kelly

Thank you for your letter of yesterday. Dr. Thaxton, our president, and I have discussed your question; and we feel that we need some additional information before we are in a position to answer.

Where, in the school set-up, was the new grade added? Was it between the former seventh and eighth grades, causing a delay of one year in beginning high school work? Or was it after the former eleventh grade, making a twelfth grade?

You might, also, tell us whether, if the students have the same number of units, the High School would graduate those students. If so, we could take them, provided the distribution of the units was in accordance with our requirements. It seems to me that I have heard that, in cases where a twelfth grade was added after the eleventh grade, high schools have graduated those students who wished to be graduated and did not graduate those who were planning to stay on another year. However, that situation would obtain only one year — the first year the new grade was added.

We shall be glad to write to you again when we have the needed information from you.

With all good wishes, I remain

Sincerely yours

Miss E. Cam Campbell,
Valdosta, Ga.

My dear Miss Campbell,

By any chance do you have
or can you direct me to where I can get
a record of the I. Q. rating of my daughter
Elizabeth made during the years 1931-3
and 1932-33 while she attended the training
school at the Georgia State Woman's
College?

Elizabeth is preparing to
enter George Washington University here
and I am not satisfied with the mental
rating given her at Eastern Senior High.
Altho her academic record shows 22 A's
out of 27 subjects during her six semesters
in the District schools, the authorities
do not readily consent to a mental retest.
However I am told that if I can show
she has previously had a higher

I. Q. rating the retest will be given. There are about 20 points difference between the results of the one test given here and the tests given at G. S. W. C. Mr. Cleveland submitted only the academic record of Elizabeth's first year in the Valdosta High School to the authorities here, altho both were requested. No mental rating was available.

We surely would be glad to locate the above mentioned records.

Best wishes to you.

Sincerely,
Mrs. B. M. Kelly.

Mrs. E. M. Kelly

Washington, D. C.

Dear Mrs. Kelly:

Your letter of May 21 to Miss E. Camm Campbell has been handed to me by our registrar, Mrs. Thomas, who tells me that she is unable to find any record of an intelligence test's having been given to your daughter, Elizabeth, when she attended the training school here in 1931-33.

As you doubtless know, the training school was abolished here in 1933-34, and, what with three changes of administration within three years, it is entirely probable that some of our earlier records, particularly those having to do with the training school, were lost or destroyed.

I do not doubt for a moment that Elizabeth took such a test as you mentioned, but am simply stating that we have no record of it. I shall appreciate it if you will ask the Dean of Admissions at George Washington University to do me a personal favor by allowing Elizabeth a re-test, as this is the only way I know of to atone for our probably having lost or destroyed Elizabeth's record.

Years ago, I graduated from the Episcopal High School near Alexandria, and my father has been teaching English there for the past forty-five years. All of us there always had a very kind feeling toward the George Washington University, especially as a number of our younger teachers took night school work there; so I feel reasonably

sure that the examiner will be happy to comply
with this request.

With best wishes, I am,

Sincerely yours,

July 15, 1938

President Frank R. Reade
Georgia State Womans College
Valdosta
Georgia

Dear President Reade:

I am writing to inquire if you wish to have the medical students of the University of Georgia School of Medicine assist in making physical examinations or doing laboratory work at the opening of your school in September. Whether you do or not, please notify me as it is important for me to have this information in making plans for this work.

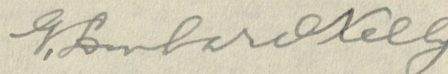

If you do wish to have our students participate in these examinations, please give me the following information as early as possible.

1. The number of our students that you will require.
2. The beginning date for their participation and the probable date when the work will be finished.

Each student is to be paid \$2.00 per day, 3¢ per mile from his home to the school and return, and given board and room while doing this work.

Trusting that we shall be able to assist you in this work and that I shall have a reply from you at an early date, for which a self addressed envelope is enclosed, I beg to remain, with best wishes

Yours very sincerely,

Miss Dorothy J. Klester,
Field Director, American Red Cross,
Finney General Hospital,
Thomasville, Georgia.

Dear Miss Klester:

Miss Marie Motter, of our Music Department, tells me that she will be glad to have her group of Serenaders entertain the patients at Finney General Hospital at any time after our spring vacation. Winter quarter examinations begin at the end of this week and are followed by a brief holiday, with the spring quarter opening on March 20. The afternoon of March 25 will probably be entirely convenient, if this is agreeable.

Transportation, even from Valdosta to Thomasville, is a difficult matter, and I do not like to suggest that you send transportation from Thomasville as this would mean two round trips. We are on very pleasant terms with nearby Moody Field, and I am inclined to think that Major Horace Caldwell, Executive Officer of the post, would be able to arrange for the transportation of our girls, --- about ten in number, if you would make this request of him. We have called on Major Caldwell so much that I should prefer your asking him without mentioning my name, if you don't mind!

Dear Dr. King:

I shall appreciate it a great deal if you can drop by the College and see me some time to-morrow, or else on Wednesday or Thursday morning. Perhaps you'd better give me a ring on the telephone before coming out just to be sure that I am in the office.

There are one or two rather important matters that I want to talk with you about, and I hope that it will be convenient for you to see me.

Mr. Andrew Kingery
Coca Cola Company
Atlanta
Georgia

Dear Andrew:

It was good to see you in Atlanta the other day, if only for a fleeting moment.

Heard a pretty good story the other day which you may wish to pass along to your associates at the Coca Cola Company:

It seems that the auditors had just checked up on a bank teller and had found him \$30,000 short. Despite this, being nice auditors, they asked the bank teller to go over to the drug store with them and have a coca cola.

"Lord, no!", cried the \$30,000 light bank teller, -- "If I drank a coca cola this late in the afternoon I wouldn't sleep a wink to-night!"

Hope to see something of you the next time I am in Atlanta.

Sincerely yours,

Rev. Arthur Lee Kinsolving
Princeton, New Jersey

Dear "little Tui":

Believe you me or not, I have been planning to write to you ever since I heard that really fine sermon you gave us at the Centennial Celebration, --- and, even at this late date, please accept my congratulations, and also be good enough to tell me what your text was and where it came from. Do you, by any chance, have a copy of the sermon itself, --- or could it have been ad libbed?

None of this has much connection with your letter, but I don't suppose that makes a great deal of difference. I think I still owe Mac Luck for this year's alumni dues, and I'll at least try to get them paid right away!

During the past several years, we have had nothing but Seminary preachers down for our Baccalaureate services. Last year, it was Bev Boyd, the year before Churchill Gibson, and the year before that it was Bishop Darst. This June Bishop Barnwell, presently in Savannah, will preach for us. (This is a strongly Methodist-Baptist community, and last June one of our girls wanted to know "Why does Dr. Reade always have Roman Catholics preach our Baccalaureate sermon?").

If I am here again next year, and nobody is calling very loudly for me elsewhere, we would like nothing better than to have you come down and continue the great tradition. This, of course, provided you bring your wife with you! We will manage to pay your expenses, and might even dig up a small honorarium. Of course, it is a far cry from New Jersey to South Georgia, but you could fly down if your time is limited or take a boat to Savannah if you need a long rest. I am not sure yet whether our Baccalaureate

sermon for next year will come on May 31 or June 7,
but can let you know pretty soon if there is any
chance of your coming down.

By next June, we probably will have a bomber base in
Valdosta. We also have the Suwanee River and the
Okefenokee Swamp within reaching distance.

With best wishes, I am

Sincerely yours,

Dr. Frank R. Reade,
Abingdon, Virginia

Dear Dr. Reade:

Your letter of the 12th was somewhat a surprise as Christine's mother talked with you concerning her at the end of school.

Christine and we both are very anxious that she continue in school most especially to finish at least two years of work and want to know the courses of study and where she may take them to be readmitted to G.S.W.C. in January.

We appreciate your interest and any advice that you may give.

Sincerely yours,

Mrs. Matthew Kirby
Nashville
Georgia

Dear Mrs. Kirby:

I am sorry that I missed you when you visited our campus recently. Miss Pink has told me of her conversation with you, and I believe she was able to give you the information you desired.

We should be very glad to work out a program for you, leading to the bachelor's degree, if you will have your credits transferred to us. It would not be wise, however, for you to plan to complete your work in summer schools. Even if all required courses were offered in summers (which they are not), the fact that we have only six weeks summer sessions would mean that six summers would be necessary in order to meet residence requirements. Because the demand for summer courses is small, our running a summer session is always problematical. If you will have your credits submitted, and will tell us the subject in which you plan to major and when you can be in residence here, we shall be glad to submit a program for your approval.

Under present conditions, there is no possibility of our offering practice teaching during summers.

The possibility of classwork on Saturdays is still under consideration. I have handed your name to Dr. Thaxton, our President, and he will notify you if an organizational meeting is to be held.

Sincerely yours,

Mrs. William M. Thomas

Oberlin, Ohio

Dear Elizabeth:

I am glad to have your letter of January 6, and I have intended writing to you for some time to find out what you are doing with yourself. Naturally, I shall be happy to say nice things about you to the Bureau of Appointments at Oberlin!

Please be sure to keep in touch with us here from time to time. You may have your mind set on more important things, but it would be nice if we could have you back with us one of these days.

Whenever a position that you really want appears on the horizon, be sure to write to me at once, as I shall want to put in lots of good words for you.

We still talk about you here, and miss you.

Miss Elizabeth Koblenzer,
10803 Magnolia Drive,
Cleveland, Ohio.

Dear Elizabeth:

Your nice letter has just reached me right in the middle of my birthday, so to speak. So glad to know that you have a swanky job in Cleveland and that you are learning about the facts of life from the all sorts of girls who live at 10803, which is a mighty big number.

I am also glad to know that you may soon be a full fledged American citizen, --- and that you are still receiving letters from your parents.

Several G.S.W.C. faculty members are up here this summer, including Dr. Farbar, Miss Carter, Ruth Reid, and Anna Richter. Anna says to tell you she got the job you did not take!

If you can find time for it, I believe that you will enjoy going around to the Cleveland Museum of Art and having a talk with the Curator, Dr. Thomas Munro. He spent a month in Valdosta a little over a year ago; so you and he at least have a number of mutual friends. He is a fine fellow, and not at all what you might expect to find in a museum!

With best wishes,

Sincerely,

Miss Clarice Krieg,
University of Oregon Library,
Eugene, Oregon.

Dear Miss Krieg:

About three years after my dissertation on Juquin Miller was accepted by the University of Virginia, I managed to take a trip to the west coast, spending some time in Eugene, and some time at Oakland. Even this short journey persuaded me that, although I had collected a great many facts, I had not quite told the truth about my hero! Accordingly, I tore the dissertation all to pieces, --- and have never yet put it back together again.

I am still hoping, of course, to do a brief biography on Miller, as I am quite sure that I have considerable information which has not been published elsewhere. If I do not ever write the book, I think I ought to send all of my accumulated junk to your library, --- where your English Department could make aspiring young graduates sort through the stuff and arrange it in neat piles for ready reference.

I am sorry that the material is in no shape to be sent to you at this time.

Wish I could be out on the McKenzie River for a little trout fishing. The salmon ought to be running by now, too.

With all good wishes, I am

Sincerely yours,
