Mr. Frank R. Reade, Pres. Ga. State Womans College Valdosta, Georgia.

Dear Mr. Reade:

I am very sorry that I was unable to be with you last Wednesday, June 1, as I have wanted to visit your school for some time, expecially since there are so many Savannah girls there.

However, as our school does not close until June 17 and I have to prepare for two graduation exercises, totaling six hundred graduates, you can readily see that I have my hands full.

I trust that I can be with you at some future time.

Yours truly, JaVandon

Doar Mr. Sarazon:

I want to thank you, both personally and also for the college, for your willingness to come out at the time of our May Day Celebration, and let our girls and our visitors see how the various golf clubs really should be handled! (By the way, you "hardest shot in golf" is my easiest). We have already forwarded to you, with the compliments of the Blackburn Studies, several photographs which Mr. Vera Blackburn took of you and the lovely young ladies surrounding you.

Whenever you and Mrs. Sarasen are passing through Valdosta, please be sure to stop off and see us, and let us see you again.

Dear Mrs. Sanford:

Cur Loan Committee met a day or two age and I am advised that we are able to take care of such requests as have been made without calling on you at this time. It may be, of course, that we shall have further applications during the Christmas holidays, but, much as we should like to help you place some memoy, we can't with a clear conscience do so just now!

We are all hoping that you and Dr. Sanford will be with us for the Christmas Festival on next Tuesday evening.

Dear Mr. Rioux:

I am quite sure that a number of our trees need attention, and I am wondering if you have a man located somewhere near Valdosta who might spend the day here and give us an estimate of the amount of work to be done and how much it would cost?

We have a great many trees on our sixty acre campus, and it may be that we can afford only such work as is imperative at this time. Indeed, until our budget for next year has been approved by the Board of Regents, we cannot spend anything on anything! However, it will do no harm to have your man make an inspection and give us an estimate.

Dr. Frank R. Reade, President Georgia State Woman's College Valdosta, Georgia

Dear Dr. Reade:

You are cordially invited to be present at a conference with Governor Elect Ellis Arnall, which is now being arranged, to discuss the future program for expanded public library service during the next four years.

Knowing of your keen personal interest in the development of public library service in your own community in recent years, we are counting on your active support in making permanent the rapid gains which the WPA State-Wide Library Project has brought about during the seven years of its operation. The present liquidation of WPA, makes it imperative to look to other means of supplementing the amount of local funds available for library service in nearly every county in the state, so consideration of this and other matters of importance in the future progress of libraries, will be discussed at this conference.

The proposed program, as set up by the Georgia Library Association, has the hearty endorsement of the State Library Commission and State Department of Education, both of which will have representatives present at this conference, in addition to the members of the Executive Board and the State Library Planning Committee of the Georgia Library Association.

The conference will take place in the State Capitol in Atlanta; you will be notified by telegram of the exact date as soon as arrangements are completed. In the meantime, a reply to this invitation will be appreciated.

Yours sincerely, Mily

Dear Mrs. Thomas:

Not only have I persuaded Mrs. Whitmore to visit Georgia in April, but I have now received letters from Agnes Scott College, the University at Athens, and Wesleyan College, asking for her.

The dates I should like to assign to you are April 24 - 27. She would come to you from Macon and go on to Savannah. Would this be satisfactory?

If so, upon receiving your reply, I will send you further data concerning her talk and the prints that she will show. You will find her delightful.

Dear Mrs. Thomas:

Thank you very much for your letter of January 10th. I find that the spring vacation interferes pretty seriously with our plan for circuiting Mrs. Whitmore and her prints in March. She ought to be three or four days at each place, and there are not enough of these between the first and the time the holidays begin. Therefore, I am writing her and asking if it will be possible for her to give us time in April. If not, I think we shall have to postpone the plan for another year and try it in the late autumn or mid-winter.

While I am waiting for Mrs. Whitmore's reply, may I hear from you as to what you think would be most advisable and also acceptable? I shall greatly appreciate your assistance in coming to a decision.

With kindest regards to Miss Carpenter and yourself, I remain,

Dear Miss Mechlin:

Thank you for your letter of March 3, inclosing information about Mrs. Whitmore. We are looking forward with pleasure to having her with us.

Miss Carpenter is wondering if, with our less-thanthree-hundred enrollment, it might not be wise for Mrs. Whitmore to shorten her visit with us by one day, and give the day to some larger institution, -such as the University of Georgia, -- whose students whill have a proportionately smaller share of her time. If she has a variety of subjects, which I am sure she has, our students would enjoy hearing her several times. However, we thought it only fair to call your attention to the fact that our school is small, and offer to let you revise the schedule if you find it advisable.

With kind regards, I remain,

Sincerely yours,

Mrs. W. M. Thomas, Registrar.

Dear Mrs. Thomas:

I enclose with this a statement concerning Mrs. Whitmore, her exhibition, and a little description of the character of the talk that she proposes to give for us. She says in her letter to me that she would rather give several talks to small groups rather than one talk to a large group, because she thinks the more intimate the contact the better, and I quite agree with her.

According to her present schedule, she would arrive in Valdosta, 5:40 P.M. (E.S.T.), April 23rd, and leave April 27th, at 8:38 P.M.

I am sure you will find her visit fruitful of result and of real educational value.

Mrs. W. M. Thomas, Registrar Georgia State Womans College Valdosta, Georgia

Dear Mrs. Thomas:

It was very good of you to write me as you did on March 10th and good of Miss Carpenter to suggest your doing so. The University of Georgia, Athens, is to have Mrs. Whitmore for four days instead of three and unless there is some new reason or new development, I think the schedule for Mrs. Whitmore better stand as it is. It is my conviction that the greatest amount of benefit to the girls will come from her meeting them informally and talking with them in a free way after her first introduction.

You will remember that I have visited your school and know its size and location and what you are doing, all of which impressed me very favorably. I shall always retain a very special interest in the Georgia State Womans College because of my visit.

Having said so much, let me add that there is just one possibility that we might want to snatch a day away from you. Mr. Shorter, of Columbus, Georgia, has written me that he wishes very much that they could have Mrs. Whitmore give a talk in Columbus, and I have suggested to him that if he could persuade Macon to shorten their period to that extent and Mrs. Whitmore consents, we would have no objection. Under these circumstances Macon might ask for a loan from you, but I rather hope that we shall not have to enter into readjustments.

With kindest regards to Miss Carpenter and yourself,

Mrs. W. M. Thomas, Registrar, Georgia State Womans College, Valdosta, Georgia.

My dear Mrs. Thomas:

Mrs. Charles Whitmore, who is an enthusiast on Prints and a connoisseur will, if desired, visit, during the first three weeks in March, three or four of the Women's Colleges in Georgia, under the auspices of the Telfair Academy of Savannah and Southern Art Projects, show a collection of seventy or eighty fine etchings and other prints by contemporary print makers, tell something about the processes, and explain their artistic merit. She would expect to stay for about three days in each place, in order to meet the teachers and students and give them time to become acquainted with her collection, which, by the way, will include very fine impressions.

23.27.

There would be no charge for this; no fee for exhibition or lecture; the actual cost being paid from a special fund entrusted to the Telfair Academy for Art Extension in Georgia. But we would expect each college to extend hospitality to Mrs. Whitmore and to give her the fullest cooperation in her effort to make the graphic arts better understood and appreciated. Would you like to have her come to the Georgia State Womans College? And if so, would any particular time between March 2 and 21 be especially convenient? We shall try to route her so that she will not have to retrace her steps or do more traveling than is necessary.

Mrs. Whitmore was at one time on the educational staff of the Worcester Art Museum. Since her marriage, to a college professor, she has made her home in Hingham Center, near Boston, where she has established "The Print Corner", a place where one is always sure of finding fine, current publications, the works of the foremost print makers. She has a son and a daughter of college age and has especial sympathy with youth and its ambitions. She is an informal speaker but excellent, knowing full well how to interest and hold her audience. Having had her as a guest in my own house I know how welcome a visitor she will be found.

Naturally I must have your reply as soon as possible in order to make arrangements that will be, as far as can be, satisfactory to all.

Dear Mrs. Whitmore:

Miss Carpenter, of our Art Department, has only today given me the sketch of the room in which your collection will be displayed. I am sorry I could not send this sconer, -- but maybe this, by air mail, will reach you before you leave. The sketch is inclosed.

It is Miss Carpenter's plan to have you speak to small groups rather than to large ones, in accordance with your suggestion.

You will be met at the train, but, as I can not tell you how I will look, I'll just have to search until I find you. As passengers are the exception rather than the rule (those alighting at Valdosta, that is) I probably will have no difficulty in identifying you.

Looking forward with pleasure to having you with us, I am,

Dear Miss Mechlin:

Miss Carponter asks me to pass on to you the following comments about Mrs. Whitmore's exhibit:

"Mrs. Whitmore's prints and lectures were most enjoyable and instructive. Much of the pleasure and profit came from the thoughtful grouping, which enabled the students to continue the study independently. Her deep appreciation of the prints was subtly expressed and added much to the value of the exhibit to the students."

As for myself, I thought the exhibit wonderful and Mrs. Whitmore charming. Thank you again.

Will you please thank Miss Carpenter for her very finished plan. All I needed was a rough sketch, but I am sure I shall be able to work out a more satisfactory arrangement, for how so excelled a plan-

I am also so glad that I am to talk to the smaller groups. I know that your Art Department will appreciate my feeling that any effective work with Art cannot be done en masse.

I look forward with genuine pleasure to meeting you all and hope that I may be able to give some in return.

Mrs. W. M. Thomas, Registrar The Georgia State Woman's College Valdosta, Georgia

My dear Mrs. Thomas:

I am looking forward with great pleasure to the visit with the Georgia State Woman's College, arranged by Miss Mechlin of the Southern Arts Project, for April 23 thro April 27.

I understand Miss Mechlin has already sent you information about the artists included in the exhibition, and the character of the talk, also the little sheet of "practical considerations". I know you will understand how much it would help me, in thinking out the plan of the exhibition beforehand, if you can give me a rough plan of the available exhibition space - the sketched plan of the room with placing of doors and windows, exact length of wall spaces available for prints, and the character of the wall surface. Each room has its own hanging problems, and I shall be able to work faster if I can mull over them beforehand. I want to have the prints available for your enjoyment with as little loss of time as possible:

It would also be pleasant to know if you approve of my suggestion that the talk be given to several small groups rather than to one large one. I find that where I use the prints themselves as illustrations, the smaller audience can see better, and has more courage to interrupt with questions, (which is the best way of really taking in what one hears). I shouldolike, however, fit into your schedule with as little inconvenience to the College as possible.

My train should arrive in Valdosta at 5.40 P.M. E.S.T. on Saturday, the 23d; if anything should happen to delay me **T** will telegraph you. Will you let me know whther to look for someone to meet me at the train, and if not, where you plan to have me go? If I am to be met, I can be recognized by the inevitable flat, oblong brown leather print case, and a suit case in gray fabric. I shall probably **wear** a red-brown tweed suit - am medium height, and not stout. I am schechild & go ou & Savannah at 8.43 PM on the 27th Hoping that the exhibition and talk will bring pleasure to the college, and looking forward to meeting you, I am

Dear Dr. Sockman:

We are all looking forward to having you with us on April 10, and I am writing to ask if there is anything you would particularly like to do while you are in Valdosta.

I was sorry to miss you when I was in New York last fall, as I might have learned something about your hobbies at that time. You will get to Valdosta an hour or so before lunch, and you are scheduled to speak at the Methodist Church at 8:30 P. M. and, I believe, to take a very early morning train on the eleventh.

I doubt if you will have time to see much of the Okefenokee Swamp, -- and it may be that you would prefer to play golf. We have swimming, tennis, and horseback riding here at the college, -- so just take your pick!

I think it likely that the members of our Y. W. C. A. cabinet would be delighted to have a little tea for you in the afternoon, but I shall not say anything to the girls until I hear from you.

There was a football game on at Georgia Tech; so I called your office with the hope that you might join me and go out to Grant Field for the afternoon. We were then confronted with a large middle group of students, perhaps sixty per cent of our total enrollment. These girls are just ordinary young women who can make between "C" and "B" in their college work, but who will never go beyond the A.B. degree. For these, and this has been our biggest job, we have set up divisional majors in three fields, --- the Humanities, the Natural Sciences, and the Social Sciences.

At the suggestion of the Carnegie Corporation people, we invited Dr. Thomas Munro, Professor of Art at Western Reserve University and Curator of the Cleveland Museum of Art, to spend a month with us here this winter. Most of his time was spent in helping us set up a divisional major in the Humanities. I am enclosing a copy of his recommendations. Before these recommendations were made, every course offered here in the Humanities divisional was "written up" by the individual teachers. These write-ups resulted in eighty-two pages of mimeographed material, and they were studied by our entire faculty.

The Natural Science people and the Social Science people find that they can use practically the same course offerings in the junior division, and still be able to build their own divisional majors in the senior college without any apparent difficulty.

Our recommendations have met with the favor of Chancellor Sanford, Mr. Beers, and Dr. Works, --- and we are presently scheduling our students with the idea of introducing this revised curriculum next September for sophomores, some juniors, and of course for all entering freshmen.

I believe that our faculty, with the valuable assistance of Dr. Munro, has worked out a sensible, simple, and entirely worth-while curriculum. It is our hope that our students who are just now beginning their college work will, on graduation, go out into a world at peace rather than at war. And we feel sure that our new plan will stand them in good stead no matter what walk of life they may enter after the war.

I do not mean to suggest that there is anything particularly new in what we are doing; but simply that we have faced our actual situation and have attempted to set up course offerings adapted to the various needs of those who come to us for college work. I know that you are a very busy man, but hope that you will have an opportunity some time soon to look through the enclosed mimeographed sheets.

Page 3

I am also sending you a recent issue of the <u>Campus</u> <u>Canopy</u> which will give you an idea of the many things that are being undertaken here at G.S.W.C. Faculty members and students alike are contributing to the war effort but under such limitations as to prevent their falling down in their regular classroom work. The War Bond Scholarship Campaign is particularly appealing, and we shall soon have a special bulletin from the printers, a copy of which I shall send you a little later on.

With all good wishes, I am

Sincerely yours,

Dear Dr. Reade:

Your letter of April 3rd came this morning and I appreciate very much your interest in our District Meet problem.

I regret very much that I did not make clear in my letter to you that the Second District Association would expect to pay any expenses which may be incurred by judges for the District Meet. This expense account will include traveling expense, meals and hotel bills.

Any help you may be able to give us will be sincerely appreciated.

Dr. Frank R. Reade, President, Georgia State Woman's College, Valdosta, Ga.

Dear Dr. Reade:

In making plans for the annual district meet for Group B schools in the Second District High School Association we are running into the perennial problem of securing judges. While we hesitate to call on you and your staff year after year, we are wondering if it will be possible for you to furnish all or part of the judges we will need.

The schedule of district meet events and the number of judges needed are as follows:

Friday, April 18th

2 P.M.	Home Economics	1	judge
	Essay	1	Judge

6 P.M. Piano (Bach- private) 3 judges 8 P.M. Piano (public recital) 9 P.M. Declamation 3 judges

Saturday, April 19th

9:30 A.M. Reading 3 judges 10:30 A.M. Debate Finals 6 judges

The meet will be held at Pelham this year, and the time schedule is based on Eastern Standard Time.

Any help you may be able to give us will be sincerely appreciated.

Very truly,

Superintendent Allen C. Smith Quiuman, Georgia

Dear Mr. Smith:

I have put off writing you until this late date in the hope that I might be able to provide you with some judges on April 18 and 19. Unhappily, it looks as if no one will be available at that time.

We have only one Home Economics teacher, and she probably will have to go to Athens about that time. All three of our music teachers are "on the road" this week, giving recitals at Statesboro, Milledgeville, and Athens. They will have lost so much time that I am sure they will be unwilling to be away from the college again this spring. Our professor of Speech, who is this year president of the Southern Association of Teachers of Speech, has just returned from a trip of four or five days to Birmingham, together with her assistant, and neither of them can get away again.

I tell you all of this so that you will understand that we cannot furnish judges for real reasons and not because we are not anxious to cooperate with you if it were possible to do so. The very people from our faculty that you need, indeed, the only ones who would make competent judges are those who have so recently been away from the college. In addition to all this, we are now teaching six days a week, and our spring quarter here as everywhere is terribly crowded.

With best wishes, I am

Sincerely yours,

P.S. I shall appreciate it if you can tell me how I may reach Mr. Mc ---- , who was superintendent at Quitman for a time. He has some notes of mine that I should like to have returned if possible, and I am not sure whether he is back in Thomasville or not.

Dear Smiley:

I am glad to learn from your letter of December 9 that you are hopeful of getting something done about an expanded public library service.

I am also glad to note that you are at Mercer. By the way, is Curtis Dixon there? If so, what is his official capacity?

I shall be very glad to attend the proposed meeting in Atlanta, if it is possible for me to get away on whatever date may be set for the meeting. It seems to me that I have traveled more this fall than in any other entire year put together, but your proposed meeting sounds interesting, and I should very much like to be present.

I don't see how our University System Library Committee is every going to begin to function until you and I can sit down duietly somewhere for a few hours and lay some plans.

Our librarian, Miss Lillian Patterson, has suggested that I invite you to come over here on Wednesday, November 5, and, as that is right in the middle of Book Week, to say a few words on "recreational literature" --- at 4 P. M., at one of these "teas" in which librarians so delight!

If you can come over for this occasion, probably we can kill two birds with the same rock. We can take care of your travel expenses, but, in these perilous times, I am afraid to offer you an honorarium! Please let me hear from you at your very earliest convenience.

Hon. George E. Simpson, 111g South Patterson Street, Valdosta, Georgia.

Dear Mr. Simpson:

Last year the Georgia State Womans College was registered with the Office of Price Administration as a Group 1 Institutional User, but this year we petitioned to be registered as a Group 3 Institutional User, and this request was granted.

For the month of October, we were given an allotment of points which, together with some already on hand, took care of our needs from the opening of school in September to November 1. We were then given an allotment of points for November and December, in accordance with the number of people eating regularly in the dining hall, and so on.

Our distitian, Mrs. Eva Shrivalle, has collected all of the ration books from those who are taking their meals at the College. If a student withdraws from the College, Mrs. Shrivalle will remove the proper number of stamps from her ration books before returning the book to her.

In order to facilitate the handling of such a large number of books, I am asking that we be permitted to remove the proper number of stamps from these books at the end of each school quarter. Our fall quarter ends about December 15, our winter quarter about March 15, and our spring quarter on June 4. We will guarantee to the War Price and Ration Board that all ration books will be kept in our possession, and that the proper number of stamps will be turned in to the Board at the end of each school quarter. Further, we will indicate to our students just what stamps they will be permitted to use at home during the two weeks' Christmas vacation, advising them that, if they use more stamps than they should, we will report them to the Board on their return to College. I think we shall have no trouble on this score. Page 2.

If, on account of the Christmas vacation, we are enabled to ask for a smaller allotment of points for the ensuing ration period, we will be glad to do so. As you know, we will not use more ration coupons than is absolutely necessary, --- for we charge only \$21.00 a month for board, and our dining hall has to be self-sustaining, --- paying for kitchen help, dining hall waitresses, heat, lights, water, distitians' salaries, and insurance, --not to mention paying for the food itself out of this small monthly charge for board!

With all good wishes, and thanking you for your continued interest and cooperation, I am

Sincerely yours,

- (1) Does the college employ accompanists for voice teachers?
- (2) If so, is an accompanist furnished for every voice lesson?
- (3) If not, about what percent of the lessons have an accompanist?
- (4) Is this person a member of the faculty with no other duties than accompanying, or is she an advanced music student doing perhaps part-time work?

Dear Mr. Cousins:

Thank you for your kind letter of September 19 to Dr. Reade. As you may have heard, Dr. Reade has been ill since early August. He was released from the Crawford Long Mospital' last week, but he plans to spend a short convalescent period in Virginia before returning to the college. He writes that he is much improved, but that his doctor says that he must guard against returning to work before he is completely recovered.

We were fortunate in securing the use of the Woman's (Club) Building, just across the street from the college, in which meals will be served to the students until the completion of a temporary kitchen here on campus. We have had to write the students to report six days later than the original date scheduled. The three days of classes which are thus missed by the delayed opening of school will be made up on Saturdays later in the quarter; so the fire has caused relatively little inconvenience.

I am sending your letter on to Dr. Reade in Virginia, who will appreciate your interest and concern.

Ers C.D. Ebaugh Shorter College Rome Georgia

Dear Dr. Ebaught

Although I have not written you concerning the quality of college work desirable for a teacher's. costificate, I have done a little thinking along this line.

I am glad you sont me the tentative recommendations. I shall use these as a starting point. I believe these are desirable points to be considered even if some prove not feasible.

1. Since so many applicants for certificates prosent credits carned at odd intervals, as summer school, second six weeks of a quarter, and so forth, the administration of such a test might be difficult. A test commonly given in many colleges in this and other states is the American Council Psychological Test. If the national percentile standing of the applicant (if test has been taken) be entered on the application form, this might be of value in general. A score on a single test is too dangerous an instrument for any use other than for purposes of comparison.

This leads me to suggest that the complete student record should be submitted to the State Department of Education by the college attended immediately proceding the completion of thirty semester hours. All work from other institutions should be transferred to this one and the record as a thole presented to the State Department.

I interpret 2 to be for students presenting only two years of college work for a certificate. I think an average of C is the quality of work to be desired. I believe, however, that 2 and 3 are not mutually exclusive. Also the definition of a quality point varies in so many institutions, whereas the average grade of C is more constant in all institutions. Colleges using semestor hours or term hours or even major and minor courses use different numbers of quality points to represent a grace of C. This institution illustrates the point exactly. Last year then we used the course as a unit of work, one course with two quality points represented a grade of C. (Three and a half semester house; two quality points.) This year our term hour is a unit and one term hour with one quality point represents a grade of C. (Two-thirds semester hour; one quality point.) Of course the one use of the quality point is to function as an efficient method of obtaining averages of grades.

It might be that we could arrive at the idea perhaps indicated in 3 by saying that half as many quality points as would be required to maintain an average of 6 on academic work. However, I think this would only break down completely the effort to improve work as indicated in 2.

I believe a matter discussed at the Atlanta meeting might be handeled here, - the matter of credit for physical education or military training. Work of this type might be counted only as professional training for teachers of thes subjects. Such certificates mould be given probably to college graduates only. And two year certificates might be awarded for thirty hours of college work exclusive of physical education and military training, and a three year one for ninety such hours.

Now I think 4, 5, and 6 are undoubtedly very desirable but difficult for a State Department to administor. I believe the place for that is in the guidance of the student who enters a school of education for training. This might be indirectly a function of the State Department in that all teacher training departments should in turn be involved in policy by the State Department. I think this certainly applies to 4. How for 5, we have no single standard at the present, and 6 is largely a matter of training and should be a concern not only of Departments of Education but of any college worthy of the name.

Mr. Joe Shelton Valdosta, Georgia

Dear Joe:

For your information, it appears that Emanuel Swedenborg, or Svedberg, was born at Stockholm on January 29, 1688. He died in 1772 at the ripe old age of 84. His father was a professor of theology, and thought himself in constant intercourse with angels; so Emanuel, who shared his father's piety and his parents' belief that "angels spoke through him", may have inherited some of his father's proclivities.

Swedenborg was something of a mathematician. As early as 1721, he was seeking a scientific explanation of the universe, --- but not until 1744 was "heaven opened to him".

Generally, Swedenborg claimed to have been admitted to the "spiritual world" --- but he claimed also to have learned "the scenery and occupations of heaven and hell".

The above information, gleaned from reliable reference books, may be all you wish to know on this particular subject. However, if you wish additional information, please call on me.

Mr. Richard E. Shands Shoreham Duilding Washington, D. C.

Dear Dick:

I don't know whether you are a patent lawyer or not, ---but, if not, perhaps you can give me the name of someone you know who is.

Several of us here are planning to make at least a million dollars each; fired of hearing programs rattle at artist series programs, and unable to read the programs except between numbers, we have hit on having programs hectographed on a transparent background. So far, we have tried out a piece of celluloid film, which works admirably, --- but a cheaper material probably is available.

What we want to know is whether enything of this sort already has been patented, and we also went some advice as to whether the idea seems a good one to pursue. All you have to do, you see, is to hold the program up, against the white shirt waist of the lady in front of you, --- or between you and the light from the stage!

Of course, it may be simpler to have a dimly illuminated program, extra large size, hsinging on each side of the stage, --- but then we wouldn't make any money.

Doubtless you think I'm crazy. My God, perhaps I am,

Mr. Raimonde Aubrey Ansley Hotel Atlanta, Georgia

Dear Raimonde:

For some reason, Venette Morgan does not want to come back on the train; so it will not do for Jean Martin to come back alone. It is my understanding that Martin and Morgan and Rentz want to return as soon as possible, and that Glynn Hill may want to spend a part of the weekend at home in Moultrie.

If the Goodwin car is out of the shor and available for you to use, I suggest that Glynn Hill drive Martin, Morgan, and Rentz back to Valdosta in the college car which, as you know, is always in demand here.

If it is not much further by way of Moultrie, Glynn could be dropped off there, or else at Adel, and Betty Rentz could drive to Valdosta from there.

Once the girls have made the recording at SWB, I see no need for them to stay on in Atlanta unless they are really anxious to do so, and hope that you will not over-persuade them. Martin and Rentz, for example, probably want to take part in whatever senior class activities they could get back for on Saturday.

If they could leave Atlanta around four o'clock, they could stop at Moss Oaks, near Perry, for the night, and easily drive on to Valdosta before noon Saturday. If this plan appeals to the girls, please wire Moss Oaks, Perry, Georgia, in my name, asking that reservations be held for group from Valdosta, stating what time they expect to arrive. They should allow between three and four hours from Atlanta to Perry.

I am anxious to have those who are anxious to get back early to do so if possible, and we will arrange to take care of their expenses. Wire to Moss Oaks should be sent as early as possible and, if Western Union can not guarantee delivery, you had better make emergency telephone call. If group does not wish to do this, they can drive through on Saturday. Please wire me what is decided upon.

President McC. Davis Atlantic Coast Line Railway Wilmington, North Capelina

Dear Mr. Davis:

For many years before the war, our Senior Class was accustomed to take an annual trip to New Orleans, but this trip has been called off for the past five.

On account of accelerated program, our June graduating class will be quite small, -- probably about twenty-five, and these young ladies are most anxious to take a trip during their spring vacation. Having come up through the war years, they are perhaps a little better disciplined than their predecessors and, instead of going on a sort of lark to New Orleans, they want to make a worthwhile trip to Washington and New York.

Most of our students come from families whose incomes are relatively small, and I am writing to ask if the Atlantic Coast Line ever offers a flat, round-trip rate in occasions of this sort? Valdosta is only ten or fifteen miles from the Florida line, and standard round-trip coach tickets would cost the group around \$1200 which, at the moment, sounds prohibitive.

I know that travel conditions are still bad, but these particular seniors constitute such a fine group of girls that I am most anxious for them to make the trip if it can possibly be arranged. They would want to leave here about March 20 and get back about March 30.

Whether or not you can help us with this problem, the college is still most appreciative of the many courtesies that have been extended to us, during the past thirty years or more, by your officials, both passenger and freight.

September 27, 1948

Dear Registrar:

In order to expedite your handling of the 1948 SCHOOL AND SOCIETY enrollment study, I have omitted the usual request for summer session attendance. Accordingly I shall report your fall figures only. In summarizing, I shall make comparisons with 1939 and 1947 attendances on this adjusted basis.

In view of the Selective Service Act of 1948 there will be keen interest in its effect on collegiate enrollment. All institutions reporting promptly will be listed by name in the annual SCHOOL AND SOCIETY article. As usual, the Associated Press, United Press and others will give summaries.

I trust that you will consider this mimeographed form as a personal letter conveying my hearty appreciation of your past courtesies and my confident expectation that you will cooperate again in this joint educational enterprise - a labor of love for all of us in the field of higher education.

Will you kindly return your report as soon as possible after October 15?

Sincerely yours,

Mr. Samuel Schiller Collegeboro Georgia

Dear Mr. Schiller:

Thank you for your letter of August 13. I remember you quite well, and we still are sorry that you were not able to teach in our summer school.

I am interested to learn that you expect to continue your graduate work, and I hope that everything will run smoothly for you at Virginia. I haven't been there myself for so long that I am right much out of touch both with the people and also with what goes on. However, I do want you to know the following people, - no letter of introduction is necessary, just tell them I asked you to drop by and see them:

Dean Ivey Lewis and his secretary, Miss Mary Proffitt (and if you ever want or need anything - just ask Miss Proffitt to help you!).

Dr. J. C. Metcalf, my father confessor for many years.

Mr. Malcolm Luck and Mr. William Wranek, Alumni Hall.

Dr. James Southall Wilson, Dean of the Graduate School.

Dr. John Lloyd Newcomb, President of the University.

Please give my kindest regards to all of these, and tell them that I hope to see them in October when I go up to the Episcopal High School at Alexandria for the celebration of their Centennial. Don't hesitate to call on these people, for they will all be happy to see you.

As for an appointment here, our regular teachers just keep on coming back, salaries or no salaries! Of course, there may be changes later on, or the College may grow enough for us to need additional teachers. I shall certainly keep you in mind, and shall let you hear from me should a vacancy occur. Suppose you drop me a line some time in early April. I shall be interested in knowing something of your progress.

With best wishes, I am,

Sincerely yours,

Dr. Frank Reade, Valdosta, Georgia.

Dear Dr. Reade:

For a number of reasons I am writing to you for advice, though I realize that you may have forgotten me by now. I am the Cuthbert and Andrew instructor whom you offered a position last year to teach in your summer school.

As you may recall in my letter to you I came to the South Georgia Teachers College and worked in the Laboratory School and the history department.

I have decided to pursue work on my Ph.D. and am Entering the University of Virginia in September. Of course, entering Virginia made me think of you, realizing that you were one of their distinguished graduates in this state. I have a nice fellowship that they have awarded me and shall work for twelve months, or if I can raise the money I may stay for two years. Since the department here is well staffed I have resigned from this institution. I did not care to continue demonstration work with my Ph.D. well advanced.

I am writing you for two real reasons. One is to enlist your aid and a dvice in my work in Charlottesville, as well as general comments that you could make that would help me as I begin work.

The other is an inquiry concerning a possible appointment at your institution. It would be fine, if I did have an appointment to adjust my graduate work to its needs. I happen to be one Georgia C cracker that wants to come back, in spite of the fact that most of my friends tell me to teach elsewhere. I don't anticipate a crisis forever, and I have specialized in these courses we teach in the University System. Of course, the second reason I'd like an appointment now is that I could borrow better (or with flore freedom of mind) with an appointment than without one.

I should appreciate a letter from you. I shall leave the State within two weeks, and if necessary I can come down to see you before I leave.

Very cordially, Samuel Schiller amuel Schiller

The William B Scaife and Sons Co. Oakmont, Pennsylvania

Gentlemen:

For a number of years, our swimming pool at Camp Glenrochie, Abingdon, Virginia, has been fed by a spring which has run from fifteen hundred to twenty-five hundred gallons an hour. A very simple chlorinating device at the head of the spring has insured safety for our camp girls.

This year the flowing water is considerably diminished on account of several dry seasons. It may be that we shall wish to install a purification plant so that the same water, with occasional additions, may be used over and over.

Our pool is sixty feet long, twenty feet wide, four feet deep for about twenty feet, then sloping to a depth of eight feet under the diving board. Electric current is available within fifty yards of the pool. As we run our camp for only eight weeks out of the entire year, we naturally would wish to have the cheapest possible equipment compatible with safety.

Please write and send descriptive literature to: Mr. Willoughby Reade Camp Glenrochie Abingdon, Virginia

Dear IIr. Varnodoo:

I an sorry not to have had an opportunity to see you when I was in Savannah last Honday, but had to return to Valdosta almost innediately after talking at Armstrong Junior College.

First, I wanted to tell you how sorry we all are that you could not get over to the College this spring, though we look forward to that pleasure next year. Second, I wanted to talk with you about your testing program. And third, I especially wanted to recommend one of our graduates to you in the event that you might have a vacancy for next year for which she would be suited.

The young lady's name is Miss Buth Burn, 601 Clifton Grove, Dayeress, Georgia. She is twenty years old, though perhaps more mature than her years indicate, and graduated here on last Friday, with honors. She has done a great deal of extra-curricular work, -- was president of the sophemore class, vice-president of the Student Government Association, business manager of the annual, etc., etc. Of most interest to you, perhaps, Miss Burn has for three years assisted our Dean of Instruction, has helped in registration of students, tutored india, math, kept individual personnel records, compiled statistical data for reports on outsones of testing, and has verked out the necessary correlations, graphs, and tables. She has done all of this work remarkably woll, and, which is quite to the credit of anyone who has a liking for this sort of work, she has been unusually popular with the students.

It occurs to me that you might have some vacancy next year, perhaps part time teaching in math, in which she majored, and part time in statistical work, with which she has had a great deal of experience.

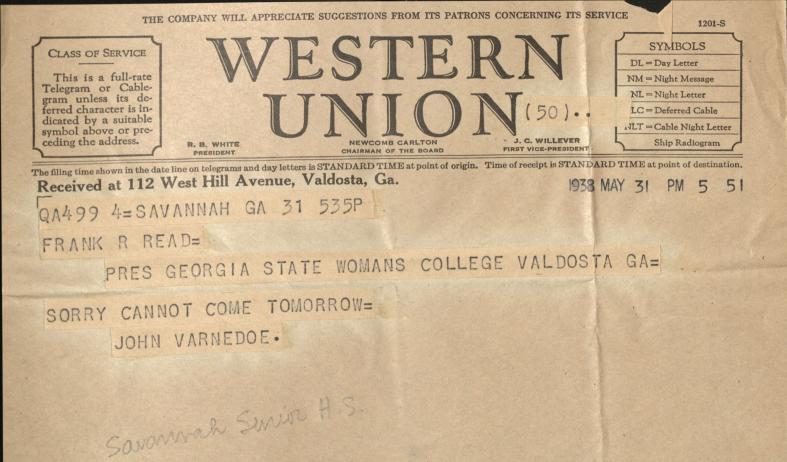

I shall appreciate it if you will give Hiss Bunn your consideration, and will drop her a line if you have anything in which she might be interested, or if you hear of any position for which you think she is suited.

With all good wishes, I am,

Sincerely yours,

Dear Mr. Varnedoe:

Ever since I heard you talk in Atlanta, --in connection with the testing program business, ---I have wanted to invite you to pay us a visit and speak to our students. First, because I know they will enjoy hearing you; second, because I want you to know us better; and third, because we have always had a number of outstanding students from Savannah, and we want this happy situation to continue. As you know, each of the several units of the University System has, or at least is supposed to have, a particular function; so, if you can arrange to pay us a visit, you should be in a better position to advise certain of your graduates as to whother they should come here or go somewhere else.

Can you arrange to be with us on Wednesday, May 25, and speak to our students for twenty or twenty-five minutes during our assembly period, which begins at 10:45? As it is about a three and a half hour drive from Savannah to Valdosta, I suggest that you come over on Tuesday afternoon and spend the night with us. The College will be glad to pay your travel expenses.

Miss Perry tells me that she saw you the other day in Savannah, and that she appreciated your many courtesies.

As our final examinations and spring holidays occupy the latter part of this period, we should like to have Mrs. Whitmore sometime between Wednesday, March 2, and Thursday, March 10.

I have talked with Miss Hopper, Dean of Women, and she tells me that the guest room in Ashley Hall will be at Mrs. Whitmore's disposal, -- and of course she will have her meals in the college dining room. As the time draws near, I suppose you will let us know exactly when she will arrive, that we may meet her and help her with arrangements as to the collection she will bring. Miss Carpenter will be happy to have her meet with her art classes during the time she is here, and we should like to arrange group meetings for the afternoons and evenings. I am drawing your attention to tennis at this time to urge that it can be made a powerful factor on your campus in building citizens.

Tennis as a sport has a number of advantages over other types of sport. In the first place, it can be developed economically. In the second place, it is a sport in which a much larger percentage of your students can participate. In the third place, it is a sport which they can take home with them after they have finished college. In the fourth place, it is a sport which emphasizes sportsmanship, gentlemanly conduct, and has much to do with building an unselfish character.

As president of a college and as president of the Southern Lawn Tennis Association, it has been my privilege to emphasize tennis at Presbyterian College, and to urge the establishment of tennis clinics throughout America, sponsored by colleges and preparatory schools.

I have found that the action pays constant dividends in the building of a splondid typo of citizenship. I have found that the young tennis players respond beautifully to the theme, and I have found it has been profitable to Presbyterian College, for the public has gotton the idea that we are specifically and actually encouraging the right type of sportsmanlike living through emphasis on the game of tonnis.

The purpose of this letter is to urge you to also emphasize tennis. If your tennis equipment is inadequate you should have it checked over and a survey made as to the possibilities of increased participation as a result of more adequate equipment. It is possible that interest in tennis in your institution may and possibly does justify a full time instructor.

However, the first step, it seems to me, is keeping in touch with the game and studying its possibilities as an adjunct to education, and affiliating with the game officially. You can become an allied member of the United States Lawn Tennis Association, and through it an allied member of the Southern Lawn Tennis Association, without the payment of dues. Later you may be permitted to become a regular member through the payment of dues if the proposed new regulations are finally put into effect next year, as is anticipated. But as an allied member the proper official in your organization so designated will receive communications and bullctins from the U.S. Lawn Tonnis Association and will be in close touch with the Southern Lawn Tennis Association, and you will find it of tremendous value to you in carrying through your collegiate program portaining to the game of tonnis.

There is much that the U.S.L.T.A. and the Southern Lawn Tennis Association can do for you.

I will wolcome an expression of your thoughts on this matter.

Yours sincercly, Jacobs Wh. P. Jacobs

Mr. Branch Spaulding Editor Alumni News University, Virginia

Dear Mr. Spaulding:

Thank you for your letter of January 25. I shall, of course be very glad to have the Jefferson article appear in the April issue of the Alumni News. The cut that you have is about eight years old, but it makes me look quite ancient enough, --and I see no need of having a new cut made in these days and times unless it is absolutely necessary.

As for the biographical sketch, you may wish to mention that I was editor of the Alumni News in 1922. The previous year, 1920-21, I was editor of <u>College Topics</u> and of <u>Corks</u> and <u>Curls</u>. (No need to mention that <u>I was also editor of the Yellow Journal</u>.) I entered the University in 1916, was overseas with the University hospital unit No. 41, received my B.A. in 1920, M.A. in 1921, taught at Episcopal High School in 1922-23, went to Georgia Tech as professor of English in 1923, got my Ph.D. from Virginia in 1926. Left Tech in 1934 for Valdosta, and have been head of the Womans College here since that time.

At the University, I was president of the academic class in 1920. Member of Phi Beta Kappa, Raven Society, Phi Kappa Sigma, T.I.L.K.A., "Z".... Phi Kappa Phi and O.D.K. at Georgia Tech. This year, I am president of the Association of Georgia Colleges which comprises some thirty private, denominational, and University System institutions. I doubt if you will want or need even as much data as I have given above. Perhaps I should say that I spent most of my early years at the Episcoppi High School, graduating there in 1914 and teaching there for the next two years. My father, Mr. Willoughby Reade, has been teaching English at E.H.S. since 1894, and apparently is still going strong. ... "Hold, enough!"

Dear Mr. Spaulding:

The article which you suggest printing in the Alumni News for April was very hastily written, and I have no copy of it. If it is not to be published until April, don't you think it might be a good idea for you to return it to me and let me brush it up a little? It has occurred to me that I might give it just a little more personal note, --- by that I mean a little better suited for a University publication than for a magazine of national circulation.

I don't suggest increasing the length of the article but simply to give it a little different point of view. I will return both to you, in case you like the first draft better!

By the way, please cut down my obituary notice to a minimum. Indeed, it might be better to put my picture, and biographical notice, somewhere away from the article. The article, is short, and ought not to be overshadowed by the writer;

May 28, 1943

Dear Mr. Stephens:

Charles Simmons' mother, Dolly Gardener, told our dictitian this morning that she had paid a lawyer here the sum of forty dollars for defending Charles at the time of his trial. She has paid this lawyer, according to her statement, more than fifty dollars since Charles was convicted, on the lawyer's promise to get a parole for him. This lawyer, she says, says it will take some more money, but he hopes to get Charles released soon.

Can you tell me whether any Valdosta lawyer has actually done anything in an effort to get a parole for Charles? You and I discussed this sort of thing, and I do wish that something could be done about it. Would not any local lawyer have had to take this matter up with your office? And if your office had no record of any effort having been made by the lawyer, do you know of anything Dolly can do to get her money back? She states that she has receipts for all of it.

I don't want to get mixed up in anything that is none of my business, but it occurs to me that your investigator in this district might carry with him some authority to handle matters of this kind.

It was a real pleasure to talk with you in Atlanta, and I am delighted at the turn of affairs which makes the state capitol a pleasant place to visit;

Sincerely yours,

Dear Mr. Stephens:

I am only now getting around to sending you Charles Simmons' application for parole. You will remember that I talked with you about this boy when I was in Atlanta about two weeks ago.

From all I can learn, the boy got into an altercation with two other colored boys of none too savory reputation. It is alleged that their mother sells whiskey, and it may be that all three of the boys had been drinking. Charles' mother (Charles carries his grandfather's last name!) is said to be a very good woman, and I know that she has been making considerable effort to get the boy off the chain gang. Our distitian has talked with her at her home, and our treasurer has talked with Warden Hood and others. It is my frank opinion that it would be entirely safe to release Charles on parole, and I hope that the Commission will see fit to do so.

With best wishes, I am

Sincerely yours,

Dr. Frank R. Reade President, Georgia State Womans College Valdosta, Georgia

Re: Charles Simmons, A-14249

Dear Dr. Reade:

It has been reported to the Board that you telephoned this morning and stated that the above-named parolee had in your opinion been sick and for that reason did not report to work regularly. The Board also has your message that you are greatly in need of help at the Georgia State Womans College and request that the warrant in this case be withdrawn in order to allow the parolee to continue working at the College.

The members of the Board have carefully gone over the contents of the file and we feel that Simmons has violated the terms of his parole by not working regularly and disobeying the instructions of our supervising officer. We would like so much to allow Simmons to remain at liberty and continue his work at the College, but, under the circumstances, it will be necessary for this man to be taken in custody as a parole violator.

At a later date we hope that we can again consider this man for parole and if you will be interested in recomploying him, we shall be very glad to hear from you.

With kindest regards, I am

Yours very truly, sur BEnerell

Hon. Edward B. Everett, State Board of Pardonsand Paroles, State Capitol, Atlanta, Georgia.

Dear Mr. Everett:

Thank you for your letter of November 9, and for your kindness in going over the contents of the file on Charles Simmons,

I am sorry that it is not possible for you to permit Charles to stay on with us, but know that your rules and regulations must be observed if you are to do a good job in the pardon and parole business.

We shall be glad to have Charles at whatever time he may again become eligible for parole, and I suspect that he will do better next time.

With all good wishes, I am

Sincerely yours,

With reference to your letter of the 13th; inst., stating that the above person is reinstated and continued on parole to us, and that you are instructhim ing/to report to us for work immediately upon his release, the Sheriff's office advised us to take this matter of release up with Warden Hood of the Lowndes. Mr. Hood advised us that he will release the subject upon receipt of order from "headquarters" in Atlanta, which, we assume, means you and that the matter will be attended to at once.

Dear Sir:

Re: Charles Simmons A-14249 Black, Male, Age 23

The Board has carefully considered the case of the above named and it is their order that his parole which was granted on July 5, 1943 and later revoked on November 8, 1943 be reinstated and the subject continued on parole.

We note in your letter to Mr. Edward B. Everett dated November 12 that you would be glad to give the subject work at whatever time he might become eligible for release. Therefore, we are instructing the subject to report to you for work immediately upon his release.

We appreciate your cooperation in this case.

President M. Theresa Wiedefeld >> State Teachers College Towson, Maryland

Dear President Wiedefeld:

Our outdoor swimming pool is thirty-five feet wide by seventy-five feet long and is, I think, twelve feet deep under the board and four feet deep at the shallow end.

The pool is built of concrete and is painted with ramac enamel furnished by the Inertol Company of Newark, New Jersey. Inertol also furnishes an algaecide. Painting is much cheaper than tile, and both attractive and effective.

The pool is equipped with overhead and underwater lighting, and a re-circulating system keeps the water pure and clear practically indefinitely.

There is a bath house in connection with the pool, equipped with showers, lockers, and so on.

It is difficult for me to give you any sort of upkeep, as the city of Valdosta furnishes the necessary water without charge. The colored man who runs our boilers also looks after the re-circulating system at the pool.

I am sending your letter and a copy of this letter to Mr. Robert Logan, of the architectural firm of Sayward, Logan, and Williams, Palmer Building, Atlanta. I am sure that Mr. Logan will be glad to help you in any way he can, and suggest that you drop him a line.

It may be that, for a nominal sum, Mr. Logan would be glad to have you use his plans, which would be a considerable saving for you. We would not object at all to your having "our pool" at Towson! The bath house has a red tile roof, and is built of brick, painted white. Some other sort of materials might fit in better at your college; so I suggest that you send Mr. Logan a photograph of some of your buildings, or else describe them to him.

Automobiles that enter our campus after 11:00 P. M. are required to stop on signal from our night police. This car, however, slowed down on signal but then sped off. We simply wish to suggest to the owner that he stop next time!

Dear Mr. Stephens:

Thank you for your letter of January 13 telling me that Charles Simmons, a-14249, --- has been reinstated and may be continued on parole to us.

On yesterday, Charles received greetings from the local draft board which instruct him to report on next Friday. I have talked with Mr. Clement Green, Selective Service official, who tells me that he has a letter from you dated January 14 in which you state that Simmon's parole has been revoked and that he may be inducted into the armed forces. At least, we have had the boy's services in the kitchen for a couple of days!

Naturally, I shall make no effort to keep Charles from the fighting front, but, I hope that his prison sentence, together with his innate stupidity, may bring him back to us from Atlanta by next Sunday!

Since we have not heard from you since our last letter of June 13th, 1945, in which we enclosed a regular Purchase Agreement covering the purchase by you of a Steinway rebuilt grand piano, Model "B" (6'll" in length) mahogany, priced at \$1750.00, we are wondering what your intentions are.

The instrument is still being held in your name, on the strength of your "wire" to Miss Gladys E. Warren, and we would appreciate an expression from you on the subject.

We have had many inquiries for this type of piano, and inasmuch as it is the only one of its kind available at this time, we would appreciate your early reply.

My dear Cousin Harry:

I am afraid you and Mr. Bondurant are taking either yourselves or me entirely too seriously!

The small ham which you sent us last January was eaten, in great part, by Jean and me and others. It was pretty well over-cooked, and it would fall to pieces, and all of that, --- but my original complaint was not intended to rouse the ire of the entire Elk Garden Parm Products Corporation. I just thought that, one of these days, you might ask me and Jean over to see you and that you might give me an extra mint julep--or something!

If you weren't so big and strong, I would tell you not to be an ass, --- but to go on and each this check while I still have five dollars left in the bank.

We expect to get to Abingdon within the next week or ten days, and despite our business differences, we look forward to seeing all of you soon.

Mr. J. D. Strickland Thomasville, Georgia

Dear Mr. Strickland:

I have talked with our treasurer, Mr. J. R. Dusenbury, about the proposed purchase of your two pianos, and find that the whole matter will have to be taken up with the State Supervisor of Purchases in Atlante.

Until recently, we might have purchased the pianos from you as you suggested, but it is now necessary for a contract to be drawn up by the Supervisor of Purchases and approved by him. This sort of thing takes rather long by mail, on account of the heavy volume of business that goes through the Atlanta office, and, as I expect to be in Atlanta on Monday or Tuesday next, I think it will facilitate matters for me to go directly to the Supervisor of Purchases, explain our proposed transaction, and get the necessary forms filled out and mailed to you at the earliest possible moment.

We need the planos, and want to buy them from you: so I hope that you will be willing to give us this extra time.

We were very much embarrassed last week when Mr. Petri came here for a concert and found himself quite handicapped on account of the condition of the piano which you built for us last summer.

The sounding board is split, a number of keys stick badly, the action appears to be "stubborn". Mr. Petri remarked that he never knew what to expect,- and added "Nothing great will ever come from this piano".

Please do not take what I am saying to mean that we are holding you responsible for all of these troubles, but I do hope that you will be able to come over in the near future and see what you can do for us.

Several days ago I wrote you regarding a young lady who graduated there last year and who is taking graduate work this year. I have never had a reply. The young lady specialized in Oral English is my understainding.

I am in this predicament: the teacher of speech that we elected resigned at the last minute on account of a major operation. We secured some one on short notice that has not been able to make a go of it. It looks as if we will be forced to make a change.

I talked to Miss Carolyn Vance of the State University who is director of Speech there, during the G.E.A. convention at Moultrie. She told me of the young lady at your institution and siad that she might be induced to come. She thought the name of the toung lady was " Freck", although she was not sure.

Dr. Reade has handed me your letter of November 18 for reply. Your first letter came while Dr. Reade was away from the college, and in some way the letter was misplaced before he had an opportunity to see it; so that accounts for the delay in answering it.

It so happens that I am the young lady to whom you referred in your letter. I appreciate very much your offering me the position in your English department, mentioned in your letter. However, I am well pleased with my position with the college, and at the present time would not consider giving it up. Perhaps at some future date when I am in a position to apply, you may have a place vacant in your school.

Miss Evelyn Deariso called me last night and told me that you had talked to her about the position. Again let me thank you for offering it to me.

Sincerely yours,
