AMERICAN COUNCIL ON EDUCATION
744 JACKSON PLACE
WASHINGTON 6, D. C.

April 28, 1947

President Frank R. Reade
Georgia State Woman's College
Valdosta, Georgia

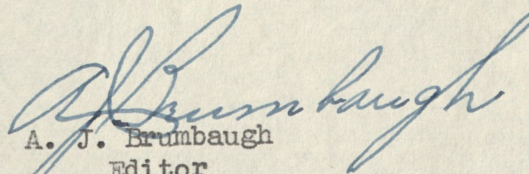

My dear Colleague:

As you know, the American Council on Education has published periodically since 1928 a directory of accredited higher institutions entitled American Universities and Colleges. Because of the abnormal conditions that prevailed during the period of the war, no revision was attempted of the last edition, which was published in 1940. The need for up-to-date information is reported to us as being exceptionally acute, and the Council has therefore decided to bring out a new edition of this volume in 1948.

Although in the standard items, the information asked is almost identical with that supplied by institutions for the 1940 edition, some new items have been added, particularly related to veterans and foreign students. The Council sought the advice of a group of educators representing various types of institutions and educational interests, and the inclosed questionnaire represents their judgment as to the information needed by those who use American Universities and Colleges.

We are deeply grateful to you for your cooperation in the past in furnishing data on your institution and hope that you will assist us again by revising your 1940 exhibit (clipping inclosed) as far as practicable and filling out the inclosed supplementary questionnaire on the new items.

Sincerely yours,

A. J. Brumbaugh

My dear Mrs. Thomas:

We wish to thank you for the beautiful form in which you sent the material for your entry in the 1948 Edition of AMERICAN UNIVERSITIES AND COLLEGES. It really facilitated preparation of the copy.

Could we have a little more of your kind attention? It is noted from items 10 and 20 of the questionnaire that you have a 6-week summer session; what are the inclusive dates? The year is not necessary; just June 16 to July 25, or whatever are the usual starting and closing dates.

Also, if you still have a Dean of Instruction and a Dean of Women, would you not like to have their names appear? Because of the addition of several new items and many new institutions, we cannot list deans of schools within a college, librarians, treasurers, etc.

Very truly yours,

Eleanor R. Offutt

Dear Mrs. Hoyt:

The inclosed letter and papers were forwarded (unopened) from this institution to President Reade, and have only today reached my desk.

Our report was sent to you several weeks ago,--- perhaps about the time of Mr. Siebert's letter. While I have a copy of the report, I do not have a record of the date on which it was sent. This letter is merely to check, to be sure that the report reached you. If you did not receive it, please let me know.

Sincerely yours

Mrs. William M. Thomas

INSTRUCTIONS

PLEASE SUPPLY THE INFORMATION REQUESTED IN LINES 1-4 ON ATTACHED FORM

Some of the definitions given below are worded in rather general terms in order not to require the respondent to supply information which he does not have readily available. Since the value of this report is measured mainly in its timeliness, we feel in this instance that some sacrifice of precision is permissible in order to insure quick response.

DEFINITION OF ITEMS

Line 1 - "Total Number of Students in Institution Excluding Correspondence and Extension Students" - This includes only those students who are attending classes or lectures conducted by the regular colleges and schools on the campus or campuses including temporary facilities. Such students may live in dormitories, at home or elsewhere. Not included are those students enrolled only in extension or correspondence courses.

351

Line 2 - "Number of Students First Time in Any College" - This includes all students reported in Line 1 who are attending college for the first time. In addition to the freshmen who are initially entering college, include those students who have entered with advanced standing if the credits were not obtained while in residence at a recognized institution of higher learning; i.e., those who have obtained advanced standing through extra high school credits or by examination, correspondence courses, or extension classes.

148

Line 3 - "Number of Veteran Students Drawing Public Laws 16 and 346 Benefits" - This includes all students reported in Line 1 who are drawing G.I. benefits under Public Laws 346 and 16.

3

Line 4 - "Will you accept additional applications from qualified students for entrance next semester or term" - Please indicate by checking the appropriate item the group from which you will accept students next semester or term, i.e., Veterans or Non-veterans. If you do not anticipate accepting any students, check "None".

Dear Miss Schmidt:

Thank you for your letter of October 23, calling attention to omissions in our report. Giving this information in order:-

1. Requirements, for admission: For freshmen, a one week orientation course of general nature at the beginning of term; also, one hour a week for six weeks in the use of the library.
2. Requirements, for degree: The final year must be spent in residence. A major of from 40-50 quarter hours and a minor of 30 or 35 quarter hours. Eleven constants required in the junior college, exclusive of physical education. Three additional courses in each of the three divisions of study (see catalogue, page 23), partly met by major and minor. One modern foreign language.
3. Enrollment: No single number would be representative because of the three phases of the institution during its history; first, a normal school, second, a teachers college, and third, a liberal arts college with no teacher training features.
4. Library: We have many government documents in our library, but because of lack of space, these have never been catalogued. A library building is under construction at the present time, and by this time next year we will doubtless have room for everything!
5. Student Aid: \$2500 is the total amount available for student loans, and is lent over and over, the amount varying each year according to how well repayments come in. (This amount, though small, goes a long way. Total expenses for a year -- including board, etc. -- amount to only \$300. The average loan is about \$75, though some students borrow as much as \$150. Repayments are prompt.)

If there is other information which you need, please
feel free to call on us.

Sincerely yours,

Mrs. Caroline P. Thomas,
Registrar.

Dear Mrs. Thomas:

Thank you for sending us your exhibit for AMERICAN UNIVERSITIES AND COLLEGES so promptly and so well prepared.

In checking over the material we find a few minor points which we should like to have clarified further in order that your exhibit may be fully comparable with those of other institutions. We shall appreciate it if you will send us the supplementary material on or before November 8.

1. Requirements, for admission: Is there an orientation program for freshmen?
2. Requirements, for degree: Is there any other residence requirement in addition to the four years required as indicated in the exhibit?
Are there any major and minor concentration requirements?
3. Enrollment: If the information is available, we should like to know the total number of matriculants since foundation.
4. Library: Are we correct in assuming that the omission of any reference to government documents means that you have none in your library? If not, would you please indicate the number which you have?
5. Student Aid: Does the amount of \$2500 available for student loans refer to the capital fund, or to the income derived from it? If possible, we should like to have information on both points.

Thank you for your cooperation.

AMERICAN COUNCIL ON EDUCATION
744 JACKSON PLACE
WASHINGTON, D. C.

October 2, 1939

To the President:

Please pass this memorandum on to that member of your staff who is now preparing information concerning your institution for your exhibit in the 1940 edition of AMERICAN UNIVERSITIES AND COLLEGES.

1. Some modifications in our schedule make it possible now to extend the due date for your material from October 15 to October 31, 1939. Please plan to have your exhibit in our hands on or before the latter date.
2. In preparing the information concerning your institution, please follow carefully the outline printed on yellow paper, which was sent to you under date of September 20. This outline calls for new information concerning your institution -- information which was not requested for the previous edition.
3. Do not merely revise and return your former exhibit which was sent to you. Do not return it at all. Its function is merely to show you what you had in the previous edition.
4. Following the outline printed on yellow paper, please let us have two typewritten copies of your new exhibit for the 1940 edition, on or before October 31, 1939.

Your cooperation will help to sustain the reputation of AMERICAN UNIVERSITIES AND COLLEGES as the authoritative handbook on higher education in the United States.

Sincerely yours,

C. S. Marsh
Editor

AMERICAN COUNCIL ON EDUCATION
744 JACKSON PLACE
WASHINGTON, D. C.

September 20, 1939

To the President:

The American Council on Education is preparing the fourth edition (1940) of AMERICAN UNIVERSITIES AND COLLEGES, a handbook of higher education in the United States, last published in 1936. The handbook is much used by administrative officers, both in this country and abroad. It is given to universities in foreign lands, to officers of the Foreign Service of the United States, and to Washington embassies and legations of other nations. The book is sold widely to public libraries, college and university libraries, secondary schools, and junior colleges. As a prerequisite of membership it goes to all institutions and associations belonging to the Council. Only accredited institutions are described in the book.

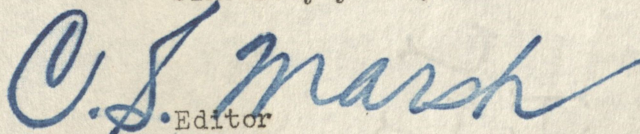

The new edition of this book, if it is to be of maximum value, must contain accurate and up-to-date information concerning your institution. A copy of your exhibit as it appeared in the 1936 edition is enclosed. Together with that is an outline of the material necessary for your new exhibit. Following this outline, please prepare your statement, using data for the year 1938-39, except as otherwise indicated.

Your new exhibit should be prepared in typewritten form, double spaced and in duplicate, following the exact order of the enclosed outline. This will greatly facilitate preparing copy for the printer. The exhibit should be signed by the person preparing it so that we may refer any necessary further correspondence to that particular person.

Please send the two copies of your exhibit to this office on or before October 15, 1939.

Thank you for your cooperation.

Sincerely yours,

C. J. Marsh
